Look out boys! the Mayor will arrest any one found throwing shot or stone with slings.

The members of the Wilmington Light Infantry are ordered to meet at the Armory to-morrow evening for drill.

Rev. S. Munnich, Minister of the J. with congregation in the city, returned here after having spent some time in Philadelphia.

R. H. Hagan, Esq., Senator from New Hanover and Onslow, was detained from his seat in the Senate on Monday by sickness.

Chess, Carley & Co., who do business here, have also a tank in Charlotte and are reported to be doing quite an extensive business there.

"The tidal wave from the interior," of which we were told yesterday, has not reached this city as yet. The water from the northwest branch is slightly colored by the up country clay.

We are glad to be able to state that intelligence has been received here of the improved condition of Mr. T. S. Burbank of this city, who is ill with an attack of pneumonia in New York.

Large quantities of Florida oranges, bound North, pass through here now almost daily, via the W. & W. and W. C. & A. Railroads. Three car loads arrived here to-day on this noon's freight train. They come via Charleston and Savannah.

The new ice vat of a hundred ton capacity which is now in course of construction at the shed of the Champion Compress, at the foot of Red Cross street, will be completed to-morrow. The machine will commence to pump out ice in a day or two.

Those who have been slinging their sling shots around too promiscuously may look out for squalls. Mayor Fishblate gives notice in this issue that the law will be enforced and slingshots will probably go out of fashion rather suddenly.

First Shad. The first shad of the season were caught to-day by I. B. Northrop in the river, opposite Kiddler's mill. They were very fine looking, and were held at \$1.50 per pair.

Expected Soon. Gen. R. E. Colston, who arrived in New York some days ago, is expected to leave for the South on Saturday next. He will stop at Baltimore, Washington and Raleigh before reaching Wilmington. It is thought he will lecture on his travels, dwelling at some length upon his expedition to the head waters of the Nile while in the Khedive's service.

The Fruit Sale. The regular packet schooner Julia Elizabeth arrived here last evening from Harbor Island with a splendid assortment of fruit, selected especially for this market. She has an excellent variety, consisting of oranges, plantains, pineapples, bananas, grape fruit, coconuts, limes, cane, shells, &c. The sale was opened this morning by Messrs. Cronly & Morris, the auctioneers, and will be continued to-morrow. It was confined this morning principally to bananas, which sold low.

A farmer told us the other day that he would not be without Dr. Bull's Cough Syrup if it cost five dollars a bottle. It must be a wonderful remedy. The price is only 25 cents a bottle.

Household Economy. The housekeeper or cook who studies economy in the kitchen, can do so in one direction by always using DOOLEY'S YESAT POWDER. It will be found a truly economical and valuable assistant in taking biscuits, rolls, bread, cake of all kinds, waffles, muffins, and most all articles prepared from flour; and why? Because, in using the Dooley Powder you save in eggs, in shortening, in patience, in everything; and when the baking is done, it is turned out light, palatable, and wholesome, so that every morsel is eaten up and no waste.

To Owners of Steam Tugs.

The Secretary of the Treasury has written a letter in regard to the lights carried by steamtugs, which will be of general interest to the owners of that class of vessels. He says: Each tug boat shall carry a light on the stem of the vessel, instead of on the pilot house, as is now the custom; that such light must be screened so as to show from forward to two points abaft the beam on either side. The after light must show all around the horizon. When towing the law will be complied with by hanging an additional light aft, two or three feet below the proper light, also showing all around the horizon, and from a flag staff of sufficient height put anywhere abaft the pilot house.

Important Order from the Commissioner of Internal Revenue.

Commissioner of Internal Revenue Raun has issued an important circular to the collectors, which has been received by the officers in this district within the last few days. After referring to the fact that the government is frequently defrauded by the refilling of stamped boxes and the re-use of stamps, he says:

It is believed that the provisions of the law in regard to the destruction of stamps upon cigar boxes are well understood by dealers and manufacturers throughout the country. In view of the extraordinary means heretofore employed by this office and local officers to inform manufacturers and dealers in cigars of the requirements in this respect, professed ignorance thereof by them can no longer be received and entertained in extenuation of these violations of the law.

The notorious re-use of cigar stamps and stamped boxes imperatively demands vigorous and prompt action to enforce the prescribed penalties. Attention is called to section 4406 Revised Statutes of the United States. Also to the views of this office as to the proper construction of said section contained in a letter, a copy of which is inclosed. For the purpose of discovering the violations of law above referred to, and of effectually suppressing the same, you are directed to cause your deputies to visit every cigar manufacturer and dealer who sells cigars at retail in their respective divisions, carefully examine the premises and to destroy every emptied cigar box upon which a cigar stamp is found. In cases where it is believed that the person in whose possession an empty stamped box is found has willfully neglected to destroy the stamp, or who has bought or accepted the same from another person, or has sold or used an empty stamped box for packing cigars, cigarettes or cheroots, you will report to the United States Attorney for prosecution.

You are instructed to see that this canvass is commenced in each division of your district promptly on the morning of the 6th of January, 1879, and continued daily, without intermission, until every cigar factory, and the place of business of every retail dealer is visited and examined.

In a letter in answer to an inquiry the commissioner says: "This office has carefully considered the inquiry made in your letter of the 8th inst., whether a revenue officer can lawfully destroy an empty cigar box on which a partially destroyed stamp is found, and is of the opinion that he cannot do so, provided the stamp is mutilated, erased or destroyed to such an extent that it would no longer be accepted as evidence of the payment of a tax on any cigars which might subsequently be found in said box. "But any person who willfully neglects or refuses to utterly destroy the stamp on an emptied box, whenever it is emptied, would be liable to the fine and imprisonment provided by section 4406."

The River.

The freshet in the Northwest Cape Fear, spoken of by us yesterday, as on the way, has assumed huge proportions. When the steamer D. Murchison left Fayetteville yesterday morning, the river had risen fifty-five feet, which was the maximum, as the water had then begun to fall slowly. A great deal of damage to stock caught on the lowlands is feared.

Proposed Removal of the C. C. R. W. Shops to Charlotte.

Our readers will remember that we spoke, last summer, of the fact that there was a movement then on foot looking to the removal of the Carolina Central Railway shops from Laurinburg to Charlotte. The matter seems to have at last assumed definite shape and intention as witness the following, which we extract from the proceedings of a meeting of the Board of Aldermen in Charlotte, held last Monday night, as published in the Charlotte Observer:

The Mayor introduced Capt. Johnson to the Board, and stated that he was present on his (the Mayor's) invitation to make a proposition from the road in reference to the removal of the shops. Capt. Johnson addressed the Board, saying he was satisfied that the shops would be moved to Charlotte if the city would give the company the sum of \$20,000 and the land upon which to erect there. He read a letter from Mr. Edward Matthews, the owner of the majority of the bonds of the company, saying that if the city would contribute the amount already specified, that the receivers had his consent to the removal; otherwise, the question of removal was left to their discretion.

Capt. Johnson went on further to describe the exact character of the buildings which the company propose to erect, stating that they would all be of brick with iron roofing, and would cost between \$84,000 and \$86,000. They only proposed to move one building from Laurinburg, a wooden structure which had recently been built.

In reply to inquiries, he stated further that these were regularly employed at the shops 120 hands, and that the board could see from this to what extent the population of Charlotte would be increased. The company did not propose to erect but one dwelling house on the land granted that was for the master mechanic.

In reply to further inquiries as to what guarantee the city would have in case the road should by any means change hands, Capt. Johnson said he suppose such a guarantee could be obtained by having it included in the decree of the court which authorized the change of location; for the road being in the hands of a receiver, a decree must be issued before anything can be done.

After an informal discussion of some length, in which the details of the subject were fully gone over, Maj. Dowd submitted the following: Whereas, A proposition has been made by Capt. V. Q. Johnson, superintendent of the Carolina Central Railroad, to locate the shops of that Company in or near the city of Charlotte, for the consideration of \$20,000 in money and 20 or 25 acres of land, therefore

Resolved, That a committee consisting of the mayor and two aldermen be appointed to confer with the authorities of the said railroad company as to what are to be the terms, conditions and details of the proposed subscription, with the view of giving this board definite information for their future consideration and action. The author of the resolution stated that his object was to secure a definite proposition to submit to the voters of the city; that as the matter now stood this could not be done.

The resolution was then put to the board and carried unanimously, after which the board adjourned. CITY COURT. Fred Gause, Sam Campbell and Charles Anderson, all colored, charged with disorderly conduct, were each sentenced to \$5 fine or ten days in the city prison. John Watson, colored, a very frequent offender, was discovered by the watchman at the W. C. & A. R. R., last night in a box car, where the aforesaid Watson had evidently coiled himself up for a nice night's sleep, but unfortunately, just before he retired in this position for the night he dropped a match and stepped upon it, which led his detection. The Mayor said 30 days in the city prison. This concluded the Mayor's levee.

A Bold Thief Arrested. Last night a colored youth by the name of George W. Johnson went into the store of Mr. Dick Cortjohan, on the corner Brunswick and Front streets, and ordered several pounds of sugar, two or three pounds of cheese, and about the same quantity of crackers. The goods were all done up in packages according to order when the pretended purchaser ordered a little blackberry brandy in addition to the other purchases and while Mr. Cortjohan was stooping down in the act of drawing the last named article from a cask, the dusky-hued grabbed the packages already done up and bolted from the store. To-day, however, Mr. Cortjohan secured the services of officer Feitgen, and together they repaired to the Carolina Central depot where the absconding individual was found and arrested and then taken to the guard house. He will have a hearing before Mayor Fishblate to-morrow morning at half past nine o'clock.

Tony Dupier has been playing this week in Petersburg, and to large houses.

Foreign Visitors.

We are informed that a party of gentlemen from the old country, consisting of Messrs. John Zippel, Fritz Lampfagen, Fritz Timmerman and John Coster, of Bremerleher, Germany, and Jacob Ridel and Casper Heitman, of Beter-Kese, are in the city on a prospecting tour. They will visit other places in the State.

Compelled to put Back.

A telegram was received here this morning from Baltimore, to the effect that the steamship Raleigh, of the Baltimore and Wilmington Steamship Line, cleared from Baltimore yesterday morning at 7 o'clock, but owing to the thickness of the ice was unable to get out of the Patapsco river and was compelled to return to the Monumental City, arriving at 11 o'clock.

The Savannah and Charleston steamers met with the same fate, one of the latter however being compelled to obtain the assistance of the ice boat to clear the way for her back to Baltimore.

Mr. Jno. St. George, who is looked upon as a fine huntsman, went out yesterday for a little sport in the fields near Rocky Point. He bagged one hundred and four birds, sixty-four of which were partridges, and the remainder consisted of snipe, doves, etc.

An Income Without Care.

By the combination method of operating in stocks a handsome income can be secured without care. Capital in any amount, from \$10 to \$50,000, may be used with equal proportionate success. By this system Messrs. Lawrence & Co., Bankers, N. Y., pool the orders of thousands of customers, of various sums, into one vast amount, and co-operate them under the most skillful management, dividing profits monthly. Each shareholder thus obtains all the advantages of the largest capital and experienced skill, and the percentage of the profits is very great; \$20 will pay \$100 in 30 days; \$250 will return \$1,825, or 7 1/2 per cent, on the stock, and so on, as the market varies. P. D. Drake, Esq., publisher Rock Island (Ill), Daily Argus, made \$104.15 on an investment of \$20, in October. Hundreds of others are doing even better.

The Consumptives' Only Hope.

Verily, to most people, whose systems are failing or in any way out of order, Oil as a medicine, is the most disgusting and difficult to take. Few stomachs do not revolt at the mere thought of Castor or Cod Liver Oil, yet, when those appalling symptoms of decay appear, which physicians and patients alike know are unerring signs of greater waste of blood and tissue than the nutritive powers are supplying, Cod Liver Oil is the most trustworthy and effective remedy in the world. But repugnance to its taste and odor reduce the nervous patient to despair. It is then that friends and doctor can do him the most inestimable kindness he has ever known, by telling him of Scott's Emulsion of Cod Liver Oil with the Hypophosphites of Lime and Soda; by truthfully assuring him of its entire freedom from unpleasant smell or odor; of its marvelous qualities as a nutrient, and the miracles it works, in giving tone and energy to stomach, nerve and brain.
