LIVER

This important organ weighs but about three

pounds, and all the blood in a living person

about three gallons pass through it at least

once every half hour, to have the bile and

other impurities strained or filtered from it.

It is the natural purgative of the bowels, and

if the liver becomes torpid it is not separated

from the blood, but carried through the veins

to all parts of the system, and in trying to es-

cape through the pores of the skin, causes it to

turn yellow or a dirty brown color. The system

then becomes diseased, and Dyspepsia, Indi-

gestion, Constipation, Headache, Biliousness,

Faunistic, Chills, Malarial Fevers, Piles, Sick

and Sour Stomach, and general debility follow.

MERRILL'S HEPATINE, the great vegetable dis-

coverer for torpidity, causes the Liver to throw

off from one to two ounces of bile each time

LUNGS

The fatality of Consumption or Throat and

Lung Diseases, which sweep the grave at

least one-third of victims, arises from the

Opium or Morphine treatment, which

simply stupefies as the work of death goes on.

\$10,000 will be paid if Opium or Morphine, or

any preparation of Opium, Morphine or Fru-

sic Acid, can be found in the Globe Flower

Cough Syrup, which has cured people who

are living to-day with but one remaining lung.

No greater wrong can be done than to say that

Consumption is incurable. GLOBE FLOWER

Cough Syrup will cure it when all other

means have failed. Also, Croup, Whooping

Cough, Asthma, Bronchitis, and the diseases of the

throat and lungs. Read the testimonials of the

Hon. Alexander H. Stephens, Gov. Smith

and Ex-Gov. Brown of Ga., Hon. Geo. Pea-

body, as well as those of other remarkable

cases in our book, free to all at the drug stores,

and be convinced that if you wish to be cured

you can be by taking the Globe Flower

Cough Syrup. Take no Troches or Lozenges

BLOOD

Grave mistakes are made in the treatment of

all diseases that arise from poison in the blood.

Not one case of Scrofula, Syphilis, White

Swelling, Ulcerous Sores and Skin Disease, in

a thousand, is treated without the use of Mer-

cury in some form. Mercury rots the bones,

and the diseases it produces are worse than

any other kind of blood or skin disease can be.

Dr. FEMBERTON'S STILLINGIA or QUEEN'S

DELIGHT is the only medicine upon which a

hope of recovery from Scrofula, Syphilis and

Mercurial diseases in all stages, can be reason-

Flat Sunk with a Cargo of Naval Stores.

This morning, as a flat loaded with

naval stores and belonging to Mr. L.

Voliers, at Point Caswell, was drifting

down the river along the wharves outside

of the shipping towards some of the wharf

sheds on South Water street, where part

of the load was to be discharged, the

hands on board by some accident or mis-

management lost control of their scow,

and the tide carried it sideways under

the bow of the schooner Julia Elizabeth,

which caused it to career over on one side

emptying out all of the freight, besides

filling with water. The cargo of the flat con-

sisted of 50 bbls crude turpentine, 47 do tar,

160 do. rosin and 23 casks spirits, all of

which went to the bottom except the

spirits which floated off in the river.

The flat, though filled with water, did not

sink entirely. The extent of the loss

we have not yet been able to ascertain.

But besides the loss of the produce which

sunk to the bottom, the flat itself must

have sustained some damage; and in ad-

dition to this the collision, if so it may

be called, caused the Julia Elizabeth to

part her bow lines. The flat and cargo

were consigned to Mr. H. B. Eilers.

Alarm of Fire.

The alarm of fire last night about 10

o'clock was caused by the burning of some

clothing, together with two bolts of home-

spun and calico in the second story, of a

seaman's boarding house on North Water

street kept by Mrs. Williamson. The

origin of the fire, the proprietress thinks,

was owing to the fact that a bundle of

children's clothing, wrapped in a news-

paper, was placed very near a kerosene lamp

on a bureau, where there was a draft of

air whenever the door to the room was

opened, the draft causing the flame to

flare up in the chimney of the lamp. In

this way, the landlady thinks, the paper

containing the bundle of clothing was

ignited, which at once communicated the

flames to a bolt of homespun and one of

calico, together with some clothing that

was lying near. The fire was first dis-

covered by one of the boarders as he was

about retiring, who instantly gave the

alarm, when every one in the house "bore

a hand" and with the aid of a few

Who is it?

The Rockingham Spirit says: "There

was a young blind man in town on Thurs-

day last. He said he was from Texas, but

a native and former resident of Wilming-

ton. He went to the "Long Star State" to

make his fortune, and while engaged at

work in a rock quarry, was so unfortunate

as to have his eyes put out by a prema-

ture explosion. He was endeavoring to

make his way back to Wilmington, where,

he said, he had relatives and friends, and

our people generously contributed to bear

his expenses there, the poor fellow having

been put off the train at this point for the

want of funds."

Accident on the Water.

As the steam tug Alpha was towing

the Nor. Danque Kristine (which cleared

from the Custom House on Saturday with

a cargo of cotton for Bremen) from the

compress down the river this morning,

the barque came in contact with the

schooner John Douglass, just arrived

from Navassa, and which was anchored in

the middle of the stream opposite Messrs.

Worth & Worth's wharf, carrying away

the schooner's jibboom and martingale

and possibly inflicting some other

damage, the whole extent of which we

cannot exactly learn. We understand,

however, that the matter is in a fair

adjustment without recourse to law, be-

tween the owners of the tug which had

the barque in tow and the parties repre-

senting the interest of the owners of the

schooner.
