THE PARTY POSITION.

Accounts generally agree in their estimate of the position of affairs in the party at Washington City. The Democratic Congressmen seem determined to stand firm. Thus far there has been no back down and no evidence of any.

THE OKOLONA STATES

This delectable sheet, which for some time has engaged the attention of the Republican press and party, is now very definitely ascertained to be working entirely in the interest of that party.

Later, the fact became apparent that the paper, while it ostensibly reflected Southern sentiment, was, in truth, misrepresenting our people for the benefit of Northern Republicans, and that they were giving it a hearty support, that thereby their own ends might be subserved.

The decrease in its Southern circulation has been very marked, and were its only sources of support derived from the country surrounding the place of publication, it would have ceased to have an existence ere this. It is successful today only as it is nourished and supported by the Republicans of the North, who subscribe for it freely that they may have the authority of a journal which pretends to reflect the sentiments of the South, but which, in fact, entirely perverts and misrepresents the sentiment, with which to carry on their unholy war upon our people.

The States is entirely a money-making machine which turns out to order a class of goods that find a ready sale in the Northern market, and it is undoubtedly a profitable undertaking so far as money is concerned. For a considerable time its efforts tended greatly to the disadvantage of the South, but as its true animus is becoming developed, and that it is merely a hired assassin of our characters, our sentiments and our national feelings, paid by Northern enemies and with Northern money, its influence for evil has become checked and avails nothing against us.

fully and fairly known, they will prove of benefit instead of injury to the South, and to the Democratic party throughout the entire country.

WASHINGTON LETTER

WASHINGTON, D. C., May 6, 1879.

It was a somewhat difficult task, in view of the hedge podge veto message of Mr Hayes, to frame a bill which would meet his approval and at the same time secure to the people of the United States the certainty of elections uncontrolled by Federal soldiers.

Be it enacted etc. That it shall not be lawful to bring to, or employ at any place where a general or special election is being held in a State, any part of the Army or Navy of the United States, unless such force be necessary to repel the armed enemies of the United States, or to enforce section 4, article 4, of the Constitution of the United States, and the laws made in pursuance thereof on application of the Legislature or Executive of the State where such force is to be used.

There is nothing now more talked of in Washington aside from Congressional proceedings, than the extraordinary exertions of Secretary Sherman to obtain a position among Republican candidates for the Presidency.

The following letter from the editor of a violent Southern paper to a radical politician of Ohio, gives one rather an unfavorable view of Mr Frye, of Maine, who had publicly quoted that paper as representing Southern sentiment.

OFFICE OF THE SOUTHERN STATES, OKOLONA Miss., April 30th, 1879. GEN. J. S. ROBINSON: The papers have been sent agreeable to instructions. The points are made red-hot this week, and all of them will hit hard. It is advisable to have them as extensively copied as possible.

The seventy-sixth annual convention of the Evangelical Lutheran Synod of North Carolina met at Bethel church, in Stanly county, last Wednesday, April 30th. The object of the convention is that the ministerium of the Synod may meet together to converse on the state of religion in their respective charges, and strengthen one another, as well as legislate for the best interests of the church.

The synod was organized with Rev G D Bernheim, D D, in the chair. The doctor, who is the old president, on retiring from his office gave most encouraging reports of his labors as president for the past year, showing that by an aggressive missionary spirit the church was rapidly spreading in different portions of the State.

Several important mission points were established. Ministers and delegates from the Pennsylvania, Virginia and South Carolina Synods were in attendance. Revs Drs Bickle and Rothrock were elected as fraternal delegates to the South Carolina Synod; Revs Bernheim and Linn to the Pennsylvania Synod; and Revs Prof Rahn and W J Smith to the Tennessee Synod.

characterized by the utmost harmony and Christian feeling.

The synod adjourned on Saturday to meet at Mt Pleasant, Cabarrus county, the Wednesday before the first Sunday in May 1880.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. If the liver becomes torpid it is not separated from the blood, but carried through it to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow.

LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all deaths, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on.

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rids the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be.

BLOOD

Dr. PEMBERTON'S STILLINGIA OF QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer.

BLOOD

\$50,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.
