

The Daily Review

JAMES T. JAMES, Ed. and Prop.

WILMINGTON, N. C.

MONDAY, JUNE 2, 1920.

Views and Review

A Tennessee Judge deserves the thanks of unmarried ladies. He has decided that a woman is not an old maid until she is thirty-five.

A mulatto is not a negro, according to a decision recently rendered by Judge Woerner, of St. Louis, and the statute of Missouri forbidding intermarriage of whites and negroes does not apply to mulattos.

The Niagara Falls Prospect Park Company have contracted for an electric light machine, and intend to locate the lights in such position as will enable them to illuminate the great cataract on a magnificent scale.

The New York Baby Show, like the 'Prettiest Girl Exhibition' about a year ago, turned out to be miserable swindle, and the mothers of the little darlings are now looking for the manager who ran off with the 'gate money.'

Nails grow more rapidly in children than in adults, and faster in summer than in winter. Those of the right hand grow faster than those of the left, and in proportion to the length of the fingers. Those of the middle finger are the quickest in growth.

Mrs Benner, the widow of the brave Lieut Benner, who died of yellow fever while in command of the steamer *John M Chambers*, complains that her pension (\$540) is too small, and Representative Springer is going to try to have it increased to \$1,800 a year.

The Galveston News says the fact is admitted all around that emigration to Texas, if not coming to an abrupt close, is greatly on the wane. The emigration agents of the railroads are all discouraged. Real estate in Texas has depreciated in value the last two years fully 8 per cent.

The island of Caprera will know Garibaldi no more. He has executed a formal notarial act by which he renounces his recognized domicile as being there, and declares it permanently established in Rome. He has possibly done this in order effectively to contradict the statement given forth, like thousands of others from this spot, with all the assertion of authenticity, that, disgusted with his visit to Rome, he intended returning to Caprera as speedily as possible.

Mr. Paddy Ryan, of Troy, has challenged Mr. John Dwyer, of Brooklyn, to fight in the prize ring. Mr. Ryan makes no secret of the matter, although the law provides explicitly for punishing the sender of such a challenge, as well as the actual fighter. Way should be feared any inconvenience? He was lately matched against Mr. Dwyer, and his constant companion and backer was a Police Justice of Troy, while Mr. Dwyer, whose brother is an Alderman in Brooklyn, lately returned openly and unmoiled from a public prize fight with Mr. Jimmy Elliott. Troy and Brooklyn may be sufferers, but there seems to be no danger of harm to Mr. Ryan or Mr. Dwyer.

Rather a remarkable breach of promise case has been tried in London. Mr. Jackson contracted to marry Miss Paris. Subsequently he became insane, whereupon Miss Paris sued him for not marrying her, and has actually recovered \$250. The Lord Chief Baron ruled that the action could be maintained, and that the defendant's lunacy did not make a bit of difference. It was argued that so far from being incapacitated for marriage by his lunacy, he all the more needed a wife to take care of him! The thing was settled upon purely abstract principles. It was nothing that poor Mr. Jackson couldn't be married; that no clergyman would marry a maniac. It was shown that Mr. Jackson was rapidly recovering, and when restored to his senses might marry Miss Paris; but that didn't change the verdict. Miss Paris got her \$250.

A clue has at last been found to the robberies of late very prevalent from charity boxes in the Paris churches. In one of the churches, the other day, an individual was noticed, at the most solemn moment of the celebration of mass, dipping a piece of whalebone assiduously into a poor box. As soon after coin emerged from the aperture in rapid succession, as though conjured up by the magic wand of the unknown appropriator of the money, the beadle thought fit to call in a policeman. The end of the whalebone was found to be thickly laid over with glue. In this way the mysterious robberies were accounted for, as letters were found on the prisoner proving that he was a member of a society earning a very handsome income by the simple method described above. Its central offices are at Geneva; it has an administrative council, a finance committee, and many branch establishments. Each member usually brings into the common fund \$100 a day at least.

IMPROVING BUSINESS.

The New York *Public* reports from fourteen American cities the gain in business last week over the corresponding week of last year, as shown by the clearing house returns. The highest gain was shown by New York and was 56.8 per cent. Louisville showed 50.7 gain, Chicago 33.1. The average of the whole fourteen was 17.4. The *Record* says:

Only three towns show a decrease—San Francisco, 2.2; New Orleans, 3.7-10; Lowell 8.6-10. These exchanges are decidedly more favorable than for any week this year. The aggregate for all the cities is nearly \$773,000,000, against only \$537,000,000 for the same week last year. As usual considerable part of this gain in New York is due to heavy stock operations, though increase in other transactions, very largely outside of New York exchanges, show an increase of nearly thirteen per cent.—this, notwithstanding the loss at San Francisco, where there has been a marked decline in operations in mining stocks, and likely to be a still greater decrease in consequence of the adoption of the new Constitution. On the whole, the exchanges indicate a continuous increase of the volume of business, and in a most all parts of the country.

FLOOD TIDE IN BUSINESS.

The Boston *Traveller*, of a recent date, says every day's experience and every day's news from other parts of the country show that the flood tide of business has set in. A statement of the New York *Public* of the gain last week over the corresponding week of last year, fixes the improvement in Boston at 13.5 per cent, which is below the general average; but, the *Traveller* says last week more flannels were sold in this one week than the total amount for the six months previous, and manufacturers are declining to fix prices ahead. This is the legitimate result of a settled conviction on the part of business men throughout the country that the flood is coming in strong. Another significant fact is the starting up of the various iron concerns in Pennsylvania and the West. This is, perhaps, the most important industry west of the Allegheny Mountains, and its revival after so long a depression is in the highest degree encouraging.

Within the past three months there have been several thousands of miles of new railroads surveyed, and within a very short time a large portion has been put under contract. All these things are indicative of a vast increase of labor employment and thus emigration to the West from the over crowded localities of the East becomes another and important factor in the restoration of business. Parties who are in a position to be well-informed are of opinion that there will be a large excess of foreign immigration this season, the news of a large prospective demand for labor having already crossed. Still another important feature is the increase of sales of land grants, both by railroad corporations and government. The business tide is evidently rolling inward.

THE PLAN OF OPERATION.

The committee of the Senate and House Democratic caucuses held a joint meeting in Washington on Saturday last, the 31st ult., at which it was decided to recommend that the army appropriation bill be passed in the usual form, making appropriations for the entire year, but with the proviso that no money so appropriated shall be used for employing the army for police purposes at the polls.

It is very probable that the bill will be drawn and presented to the House at an early day, but not, however, until it has been fully discussed in full Democratic caucus, which will convene to-night, June 2nd. There was but very little opposition to the proposed recommendation by members of the caucus committee, and when fairly presented before either House there will probably be but little delay in its passage.

The same committee, at the same meeting, also decided that the legislative bill be passed in like manner, but with the omission of the provision for supervisors of elections and deputy marshals; and also that the clauses relative to the repeal of the test oath and modification of the jury system be passed as a separate bill.

These latter will also in all probability be speedily acted upon by the House and Senate, and will pass without Democratic appropriation, and we may presume that all these bills will have passed and be laid before Mr. Hayes within the next two weeks. What he may see fit to do with them must remain a matter of conjecture, which can only be foreshadowed by the action of Republican members when they are properly before the House and Senate. Of course, Mr. Hayes has but very little voice or choice in the matter, but will be guided and directed in his action by Chandler, Garfield & Co. The present proposed legislation removes every objection which he claims has necessitated a veto, and it remains to be seen whether he will now stand by his previous utterances or not, or, rather, whether his advisors and directors will allow him to do so, or compel him to back down from the position taken in his last veto message.

Madame Adelina Patti is now precisely thirty-four years old, and her voice is at the fullness of its charms.

The largest cultivated wheat farm on the globe is said to be the Grandin farm not far from the town of Fargo, Dakota. It embraces some 40,000 acres, both Government and railway land, and lies close to the Red River. Divided into four parts it has dwellings, granaries, machine shops, elevators, stables for 200 horses, and room for storing 1,000,000 bushels of grain. Besides the wheat farm, there is a stock farm of 20,000 acres. In seeding time 70 to 80 men are employed, and during harvest 250 to 300 men. Seeding begins about April 9, and continues through the month, and is done very systematically, the machines following one another around the field some four rods apart. Cutting begins about August 8, and ends the fore part of September, succeeded by the thrashing, with eight steam thrashers. After thrashing the stubble ground is ploughed with great ploughs drawn by three horses and cutting two furrows, and this goes on until the weather is cold enough to freeze, usually about November 1. There are many other large farms in the Territory. The average yield of the Dakota wheat farm is from 20 to 25 bushels per acre.

CLIPPINGS.

Body-snatching is regarded as rather a serious offense at Utica, N. Y., where several professionals have just been sentenced to terms of imprisonment ranging from five to ten years each.

The miscegenation case recently reported at Beaver, Pennsylvania, has had a singular sequel. Shortly after her marriage to Jones, the colored man, Miss Moore was removed to her home, and after a careful study by her physicians, she was pronounced insane and sent to the asylum. Her husband has disappeared.

At Marshall, Texas, Monday while William Wilkinson was speaking to Mrs Angell concerning marriage with her daughter, to which Mrs Angell objected, her son approached from the rear, firing at Wilkinson without effect, with a shotgun Wilkinson wrested the gun away and shot young Angell fatally in the stomach. The latter drew a pistol and shot Wilkinson in the wrist.

London Truth—"Those who say that the days of chivalrous manners are past and those of bad taste have come in, would have been puzzled to know which was in the ascendant at the last Aldershot ball, when a young cavalry officer tore some of the gold cord from the edge of a lady's dress, first kissed it and carried it in his mouth during the rest of the waltz. Peculiar people, some of those cavalry men!"

The coal companies are feeling the effects of the general awakening of trade. They will advance the price of coal next month ten cents a ton from the amount to which over production and no demand have reduced it. A further advance of twenty-five cents a ton in July, and one of fifty cents in August are expected. One or two companies do not make an advance in prices, and the effect will be to cause them to dispose of their stock on hand rapidly, leaving prices at the higher figure. The fact that coal is to be more costly, will not, however, be especially pleasing to consumers, unless they find consolation in the thought of the general prosperity which the rise indicates.—Washington Star.

MOONSHINE.

Reform is necessary. There must be more lemons and less water in this season's picnic lemonade.—Philadelphia Chronicle-Herald.

A negro preacher described hell as ice cold, where the wicked froze to all eternity. Asked why, he said: 'Cause I don't dare tell dem people nuffin else. Why, if I say hell is warm, some of dem old rheumatic niggers be wantin' start down dar de very fus' fros'!

An elderly gentleman finds himself at a masked ball, set upon by three lively dominos, who finally ask him in chorus: 'Oh, is it true you are 60 years old?' 'Whoever told you so, ladies, told you a no-such-thing,' cries the old gentleman, gallantly. 'I'm 20 years old for each of you—that's what I am.'

The unconcerned manner and careless smile with which a dentist asks, 'Does it hurt?' is only exceeded in friendliness by his renewed vigorous application of the drill that bores eternally and exorcisingly upward into your tooth till you feel its point coming through the point of your skull. 'Ow!'—New Haven Register.

Just as the signs of better times are apparent everywhere; and the rush for the 4 per cent shows no diminution, fend with malice aforethought, throws a deep and impenetrable gloom over the reading world by resurrecting Mr. Methusalem's joke about Miss Quirt having already made her appearance at the watering places. There are more infamous crimes than murder!—Norristown Herald.

Little Johnny—"Pa, you said once that the reason folks are dumb is because they can't hear others talk?" Pa (delighted to see how well his little son remembers)—"Yes, Johnny, Johnny"—"Then I suppose a boy who never gets a chance to see anything would be blind, wouldn't he?" Pa (rather disconcerted at Johnny's logic)—"Well—yes—perhaps so. But why do you ask that, Johnny?" Johnny—"Nothing other there's been one circus and another's coming and I didn't want to be blind, pa."—Boston Transcript

Complexional indications. The complexion of persons whose digestion is out of order, who are bilious, or who lack vigor, always exhibits an un-

healthy tint. It is by regulating the bodily organs and promoting digestion and assimilation, that the parchment hue indicative of ill health, is banished from the cheeks. To rectify the fault of a sallow complexion, use Hostetter's Stomach Bitters, an invigorant and alterative which removes those obstacles to renewed strength, physical comfort and personal attractiveness—an imperfect digestion and secretion, and a disordered condition of the bowels. Persistence in the use of this inestimable corrective and tonic will assuredly result in renewed physical regularity and vigor, will tend to increase bodily substance and cause the glow and color of health to return to the sallow, wasted cheek.

Miscellaneous.

DISLIKING TO ENTER INTO A NEWSPAPER CONTROVERSY,

P. L. BRIDGERS & CO.,

Have heretofore refrained from saying

anything on the subject of the

Duff Gordon Sherries.

AND

W. T. Walters & Co.'s

Baker Whiskey,

Both of which they have kept since opening,

although some of their friends and competitors CLAIM to be Sole Agents.

W. T. WALTERS & CO.

Refuse to make any one their Agent, reserving the right to sell to whom they please.

By Business Men

It is well known that such articles as the

DUFF GORDON SHERRIES, MUM'S

CHAMPAGNE, etc., have no Local Agents

throughout the country, as they can always

be bought much cheaper, in small quantities,

from second hands, than the Agents

can sell at, they being compelled to protect

the trade of those who buy hundreds

of packages at a time.

WE ARE SURPRISED

That our friends, with their long Business

Experience, should have brought forward

such a weak point as this, but can now

understand, paying package rates to the

Agents, why they supposed, on account of

the low price at which we were selling the

goods, that ours was not the genuine article.

Respectfully, and truly,

P. L. BRIDGERS & CO.,

The Diamond 3 for 10 cents,

Cigars, are all the 'go.

The P-R-I-N-C-I-P-E;

Cigar is the best

10 Cent Cigar

Ever brought to Wilmington. A New Lot

of them just received.

BRYAN MORSE, Prop.

Wilcox, Gibbs & Cos.,

CELEBRATED FERTILIZER,

THE MANIPULATED GUANO!

The Best and Cheapest!

COTTON for GUANO!

In offering to you the WILCOX, GIBBS & CO'S MANIPULATED GUANO for another season, we do so with the most perfect confidence that you will find it again the BEST AND CHEAPEST FERTILIZER in use.

It is no new article, requiring experiment to establish its value, but has been used for years with unbounded success, gaining in favor from year to year, until it is now accepted as the STANDARD FERTILIZER.

It has been our study, not to make it EQUAL to others but SUPERIOR, and for our success in these efforts we refer you to the many of your neighbors who have used it, as well as to the thousands in the South Atlantic Cotton States.

This Guano is so well known that it is unnecessary to publish any certificates but we annex a few testimonials in our circulars only from Planters who have made special tests of it alongside the Peruvian Guano, as showing how it compares with Peruvian Guano, which has heretofore been generally esteemed above all other Fertilizers.

He'll will have only a moderate supply for sale and would request Planters to make their orders early.

Our Agents are authorized to sell the MANIPULATED on very favorable terms, payable in cotton next Fall.

JAS. T. PETTEWAY, Agent.

LIFE IN A BOTTLE.

The Most Valuable Medical Discovery Known to the World—No More Use for Quinine, Calomel or Mineral Poisons—Life for the Blood, Strength for the Nerves, and Health for All.

AN OPEN LETTER TO THE PUBLIC.

Believing that by cleansing the blood and building up the constitution was the only true way of banishing disease and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c., and after trying the best physicians and paying out my money for many kinds of medicine advertised without finding a permanent cure, I began doctoring myself, using medicine made from roots and herbs. I fortunately discovered a wonderful Bitters or Blood Cleanser, the first bottle of which gave me new life and vigor, and in time effected a permanent cure. I was freed from catarrh, my lungs became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared a quantity of the Root Bitters and in time effected a permanent cure. I was freed from catarrh, my lungs became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared a quantity of the Root Bitters and in time effected a permanent cure.
