The schooner of beer rarely ever gets stuck on the bar.

If you desire to look nobby, have your head and papered.

Florida people are eating figs and wearing palm leaf fans.

Never judge a cigar by the picture on the side of the box cover.

A soap bubble is like a balloonist, because it is "an airy naught."

Full moon in June yesterday and last night was wonderfully lovely.

The excursion from Shelby to this city last week netted about \$70.

There was no news at the City Hall today. Not even a city court to report.

There are few men who cannot tell a long-lost shortcake by the strawberry marks left on it.

There will be an emergent meeting of the Children's Memorial Association to-morrow afternoon. A large attendance is requested.

The *Passport* carried down the river this morning a large crowd, all bent on the inveiglement of the innocent blackfish and sheephead.

The dog carts will run to-morrow and those who have any unbadged canines on hand are requested to keep a sharp lookout for the dog catchers when on their rounds.

Clerk of the Market Williams routed the cooks from the lower end of the Market House this morning. Hereafter no cooking will be allowed except in the closed stalls.

Superior Court has been engaged for the most of the day upon one case on the civil docket, and will probably be in session the balance of the day on the other two cases.

Market street, from Eighteenth to Thirteenth is in a bad condition. It is the great thoroughfare for travel Soundwards and a little sawdust or marl would improve it wonderfully.

Mr. Harry Webb is again in charge of Brock's Exchange. He seems to be the only man who can run the place, but as he knows his business and everybody knows him there is nothing strange in it.

An unpleasant passenger in a street car is a crying baby. In such cases Dr. Bull's Baby Syrup should be given to the little sufferer to ease its troubles 25 cents a bottle.

Yesterday's Raleigh *Observer* says: Past Grand Master H. H. Munson, Mr. O. M. VanOrsdell and Mr. James C. Munds, prominent citizens of Wilmington, were at the National yesterday, on their way to attend the meeting of the Grand Chapter at Durham.

The Revival at Front Street.
A revival of religion is now in progress at Front Street M. E. Church. The services are conducted by the Pastor, Rev. E. A. Yates, assisted by Rev. Mr. McPherson. Meetings are held each day at 5 a. m. and 8 p. m., and considerable interest has already been evoked.

Indications.
WAR DEPARTMENT,
Office of the Chief Signal Officer,
Washington D. C. June 5, 1879.

For the South Atlantic States and East Gulf States slight changes in pressure, variable winds shifting to West or South, warmer and generally clear weather are probable.

Another Daily.

We are in receipt of the initial number of the *Newbern Democrat*. It is a 16 column folio edited by Mr. George A. Latham, and is to be published daily. It is neatly gotten up, presents a tidy appearance, is newswy, and Democratic in politics. We gladly place it on our list of exchange, and welcome Bro. Latham to the editorial fraternity, wishing him an abundant success in his new enterprise. The subscription price of the *Democrat* is 25 cents per month.

A Stranger in Our Waters.

We were shown a fish caught by Mr. Sneed, on the Sound, of a kind unknown to the fishermen hereabouts. It was shown to a naturalist who gives the following information:

This fish is known as the *trichurus* by Cuvier the common name of which is scabbard-fish or blade-fish. It is thirty inches long by one and a quarter wide, very thin, with bright slimy skin, and without scales, with a fine hair-like tail. Viewed sideways these fish appear as beautiful silver ribbons. There are several species in the Indian Ocean, but one only in the Atlantic Ocean.

The Monument to Col. Andrews.

The *Goldboro Messenger* says: The Grand Lodge of Old Fellows, at its recent annual convocation, cheerfully endorsed the memorial of Neuse Lodge, suggesting that a monumental fund be raised for the purpose of erecting a suitable monument over the grave of Col. W. S. G. Andrews, whose remains "sleep their last sleep" in the Goldboro cemetery. A handsome sum is expected to be raised by voluntary contributions, and many of the representatives in attendance on the Grand Lodge pledged themselves to the praiseworthy scheme, and became responsible for the expected quota of their respective lodges.

The Turnpike.

There is considerable complaint as regards the condition of the turnpike road to the Sound. In some places the road is excellent and in others it is no better than an ordinary dirt road. Something over three miles of it has been shelled, but in some parts humane people turn out of the road to avoid the shells for the simple reason that they are not broken, but are placed on the road as they are taken from the Sound and are, therefore, sometimes injurious to the horses' feet. The company are very rigorous in enforcing their rights on the public, and now let them remember that the public have rights which the company should respect and that when they pay toll to travel over a shell road they don't want to have to do duty for the company by breaking up oyster shells for them.

A Word of Caution About Ice Cream.

It not unfrequently happens that persons are made very sick, and occasionally this sickness has resulted fatally, from eating ice cream, when the cause of it cannot be accounted for. A physician suggests the cause, which implies the remedy, in the following: Ice cream is generally made in galvanized iron freezers, sheet-iron coated with zinc. Zinc is a valuable metal in the arts, but should never be used for culinary vessels, as it is soluble in the weakest acids. Zinc and its acids are even dissolved to a certain extent by water containing salt; and any of the compounds of zinc are poisonous, and especially in sulphate of zinc, which we have in ice cream allowed to stand eight or ten hours in the galvanized iron freezer after the freezing. If the cream is not served soon after freezing, it should be removed from this freezer to an earthen vessel packed in ice. It is not that bad eggs and other impurities are put in the custard, but being kept over in the galvanized iron freezer that produces the poison.

Eggs are one of the special ingredients in this custard, and eggs contain more sulphur than any other article of diet we use. It is the sulphur in the egg that discolors a silver spoon, and in the ice cream it is the sulphur in the egg, coming in continued contact with the zinc, that produces the poisonous compound, sulphate of zinc, which is known to produce excessive vomiting and purging, accompanied with anxiety, distressing restlessness and extreme prostration, and, but for the expansion of the poison, by excessive vomiting, it would prove fatal in all cases of overdosing. Then, if the saloon-keepers will only remove the ice cream from the freezer after it is made, and not allow it to stand in the galvanized iron vessel, we will have no more sickness from ice cream poisoning.

A very important meeting of the Whiting Rifles will be held at their Armory this evening.

The Atlanta Dispatch.

We have received the initial numbers of the *Daily Dispatch*, a new paper which has just gone into publication at Atlanta. It is handsomely gotten up, is bright, newswy and Democratic and will prove a formidable candidate for popular favor. Published by Miller & Dickson at \$6 a year.

Military Excursion.

We are glad to learn that the prospects of a large attendance at the military excursion and target practice to be given by the Whiting Rifles on Monday next are very good. We trust that this struggling and worthy organization of young men will receive a substantial encouragement on this occasion at the hands of their friends and the public.

The New Catholic Cemetery.

A handsome marble monument, the gift of Mr. Thomas Monk, who is also the donor of the ground, was erected yesterday in the new Catholic Cemetery, near this city. The monument is the work of Mr. James Maunder and was erected under his supervision. It is 6 feet high and stands on a mound 4 feet high, thus making the summit stand 10 feet above the level of the ground. It is surmounted with a cross, with the letters, I. H. S. on the top front and just above the inscription Resurrectio Vita. On the base of the cross are the words, Requiescat in Pace, Amen, and beneath the inscription, It is Therefore a Holy and Wholesome Thought to Pray for the Dead. At the base of the monument is the record, Consecrated, A. D. 1879. The Cemetery and monument will be consecrated on the Festival of All Souls, on the second day of next November.

A "Dead" Darkey Restored to Life.

Tony Larrington, a colored man well known in this city, who of late years has taken up his residence in the country, came to town this morning in his cart and sometime during the forenoon, when about to start home from Mr. Oldenbuttel's Cart House, corner of Tenth and Market streets, suddenly fell to the ground dead—as it was thought.

The news of the sad occurrence came into possession of Health Officer James, immediately who, with a twenty-eight-inch stride, and double quick time at that, bolted off to the Chief of Police with the information, who directed that the Coroner be notified at once. The latter official in due time being informed of the alleged facts as mentioned above, immediately set about impanelling a jury, but when the Coroner and his jury reached the spot where the dead body was to be found, lo and behold, he was quietly informed that the object of his search had "come to," mounted his horse and cart and driven off.

New Legal Fledglings.

The Supreme Court at Raleigh has just turned out upon an innocent and confiding public twenty-eight embryonic legal luminaries. Three of the young gentlemen, Messrs. W. B. McKoy, Ed. S. Latimer and Frank M. Fremont, are from this city. The following is the complete list: Edward Stanley Abell, Johnston county. Jonathan White Alberson, Jr., Perquimans. Moses Neal Amis, Wake. Walton Manning Busbee, Wake. Leroy Campbell Caldwell, Cabarrus. Eugene Douglas Carter, Buncombe. Thomas Marion Cross, and Marquis Lafayette Edwards, Chatham. Daniel Webster Evans, Cumberland. Justin Field, Guilford. Fred. Charles Fisher, Rowan. Robert Austin Fear, Cabarrus. Francis Murray Fremont, New Hanover. Asa Owen Gaylord, Washington. John Alston Gourley, Cabarrus. Samuel Holem Jordan, Henderson. Edward Savage Latimer, New Hanover. Robert Eugene Little, Anson. William Berry McKoy, New Hanover. Richard Ashe Meares, Wake. William Zemus Morton, Beaufort. Bascom He den Palmer, Randolph. Thomas Jefferson Rickman, Henderson. Edwin Douglas Steele, Guilford. John Richard Tillery, Edgecombe. Willis Copeland Warren, Hertford. John Norwood Webb, Orange. Allison Coulemcourt Zollieffer, Halifax. Out of thirty-three applicants only five failed.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

Almost a Fire.

A few evenings ago the show window on the right hand side of Messrs. Brown and Roddick's dry goods store on Market street came near being enveloped in flames. The cause of the accident, as explained by Mr. Brown is that a piece of cotton cord which was tied very near the gas jet became so heated spontaneously, so to speak, and communicated the fire to a fine, large linen table cloth suspended in the window, at which time the attention of one of the clerks in the store was directed to the fire, and he succeeded in extinguishing the flames with only the loss of the table cloth. But for the timely discovery by Mr. Fore, the clerk, the loss might have been quite heavy. Mr. Brown does not complain of his loss at all, but remarks that he is quite thankful that he suffered no greater mischance, and so do his uncles and his cousins and his aunts.

The Rich California Banker.

When it became known that one of the richest California bankers had left the Pacific Coast and transferred his base of operations to the New York Stock Exchange, all the shrewd financiers watched his course with keen interest to see how he would succeed. The result has emphatically proved the wealthy banker's sagacity. Beside having a much wider and more promising field to operate in, he is known to have been in several stock combinations that paid immense profits. By the combination method of operating in stocks Messrs. Lawrence & Co., Bankers N. Y., unite orders of thousands of customers, in different sums, into one vast capital, and operate them as a mighty whole, dividing profits *pro rata* among shareholders every 30 days. Capital in any amount from \$10 to \$100,000 can be used with great success in these pools. \$25 would pay \$100 profit. \$500 would make \$5,000 or per 10 cent, on the stock during the month. Messrs. Lawrence & Co's new circular (mailed free) gives "two unerring rules for success," and full particulars, so that any one can operate in stocks, and make money. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 75 Exchange Place, N. Y.
