

IN CONGRESS.

SENATE.

WASHINGTON, June 24.—The resolution fixing Wednesday, June 24, at 5 P.M. as the time of adjournment, was on motion of Mr. Davis, of West Virginia, recommitted to the Committee on Appropriations.

Mr. Jones presented the memorial of the Louisiana Constitutional Convention, asking that the Secretary of the Navy be directed to establish a naval or marine school at New Orleans. Referred to Committee on Naval Affairs.

Mr. Beck submitted a concurrent resolution providing for a joint committee of eight Senators and seven Representatives, to report at the next session what changes, if any, ought to be made in the mode of guarding or collecting the revenue. Placed on the calendar.

The Senate then took up the Senate joint resolution relating to additional pay of employees in both Houses, and after the adoption of sundry amendments, and pending the further consideration thereof, adjourned at 2:10 P.M.

HOUSE OF REPRESENTATIVES. Mr. House, of Tennessee, offered a resolution for the final adjournment of Congress, at 5 o'clock Wednesday, June 25.

Mr. Garfield inquired whether Mr. House could say that the appropriation bills would be passed by that time, but received no answer.

Mr. Townsend, of Illinois, objected to debate.

A ye and nay vote was taken upon the resolution, and it was defeated yeas 82, nays 103. Several Democrats voted in the negative, among them Mr. Stephens, of Georgia.

Mr. Singleton, rising to a question of personal privilege, sent to the Clerk's desk and had read an article from the New York Sun of the 23rd inst., criticizing his course relative to the printing of the Glover report. He intimated the article had been written by Mr. Glover himself a man for whom he had supreme contempt.

The House then resumed the consideration of the bill prohibiting political assessments, but the Republicans filibustered to prevent action thereupon until the expiration of the morning hour.

The business on the Speaker's desk was next taken up, and pending the consideration of the bill relating to the enrollment and licensing of vessels not propelled wholly by sail or internal motive power, the House adjourned.

VICEREGAL ANGLING.

The Princess Louise Lands a Twenty-eight Pound Salmon.

METROPOLIS, Quebec, June 23.—The latest advices from Indian House Pool say the viceregal party are all in the best of health and spirits, although thus far the sport has not been particularly good. The best catch so far was made by the Princess, who killed a splendid twenty-eight pound salmon on the day of their arrival. His Excellency was in the canoe with her at the time, but did not touch her rod or reel, and the Princess alone managed to tire out the big fish and bring him ashore, when he was gaffed by a Micmac Indian attendant. This was a remarkably fine fish, and those who saw him taken say that he showed an extraordinary amount of game and activity. His Grace the Duke of Argyll took the next largest, and the fish taken by Captain Harbord came next.

Colonel McNeil and Lord Ephinstone are camped at Two Cross Point, three miles below Indian House. During the past ten days they have taken about eleven hundred pounds of salmon.

The Spinners' Strike.

FALL RIVER, Mass., June 23.—There is little progress to report to-night concerning the strike. The spinners have called another special meeting for to-morrow evening, instead of waiting until Wednesday, as originally intended.

The manufacturers have not yet held a meeting to decide on their course of action. The agents sent out by them report that a considerable number of spinners can be obtained, and it is not improbable that they will try and run the mills regardless of the strike. Nothing positive, however, can yet be asserted. It is generally believed that such a course would make the strike a short one.

To-morrow, St. John's Day, will be celebrated here with a parade and speeches. Processions and decorations were very extensive here last year, but the threatened strike will probably interfere considerably with to-morrow's celebration.

Butler and the Governorship.

BOSTON, June 23.—Representative men of the Butler wing of the Democratic party say it is a fact that Gen Butler will receive and accept a nomination both from a Labor Reform and a Democratic Convention this fall. They say that reports have been received from the largest towns in the State during the past week, and that with but a single exception these reports favored Gen Butler's nomination. They add that their Convention will be held at Worcester in September, but that a gubernatorial nomination of Gen Butler will be made previously, either by a Labor Reform or Greenback organization.

A Fourth of July Orator.

SPRINGFIELD, Mass., June 23.—The Committee charged with selecting an orator for the Fourth of July celebration here, whom the Republican has been calling on to invite an ex-rebel to Springfield, have gone to the other extreme, and chosen ex-Gov Chamberlain of South Carolina.

European News.

LONDON, June 23.—The 'Times' correspondent at Sheffield says:—'It is a long time since such a feeling of uneasiness has prevailed here. Local failures have been announced during the past week with liabilities aggregating 200,000 pounds.'

In the House of Commons to-day Hon R. Bouverie, member for the King's Lynn, and under secretary for foreign office, made an important statement respecting Egyptian affairs. He said it was true that the English, French, German, Austrian and Italian Governments had united in the request of the Khedive's abdication, but the Khedive had not yet communicated his reply to this request, nor had any official intimation concerning it been received from the Sultan. Right Hon John Bright asked what was the object of this intermeddling with Egyptian affairs. This might lead to great difficulties and perhaps to serious disaster, and he thought people were entitled to know what was the purpose of the Government in their present action. Bourke replied that the Right Hon. gentleman could not expect an answer to his question unless the usual notice was given, and the subject was dropped.

LONDON, June 23.—During the procession in Belfast yesterday there were several slight disturbances. A dispatch from Cairo says there is great excitement there, owing to the report that the Khedive is now willing to abdicate on certain conditions upon which the powers are united.

The Ottoman Government has satisfactorily explained the reasons for the bombardment of the British consulate at Pissqua. LONDON, June 24.—An interview between Queen Victoria and ex-Empress Eugenie at Chislehurst yesterday lasted over an hour and was very affecting, and when the Queen took her leave and entered her carriage she was weeping.

A dispatch from Paris says there are reports of additional successors from the Bonapartists to the Republic. Orleanist and Legitimist papers hint at a fusion of the three parties.

PARIS, June 23.—M de Lesseps now announces that he will start for Panama early in November, and that he will turn the first sod for the later Oceanic Canal on the 1st of January, 1889. He says he will employ 40,000 navvies, including Chinese, and also 15,000 free negroes from Brazil.

WESTON AND ROWELL TO CONTEST FOR THE ASTLEY BELT IN NEW YORK. NEW YORK, June 23.—A private dispatch from London says Weston and Rowell are to post £100 aside this week and sign articles to contend for the Astley Belt in New York. Brown, Hazael, Ennis and Panchot will also compete, and leave for America in an early date to train for the contest. Sir John Astley will visit America to witness the match. Ennis is to receive a gold medal from the Royal Humane Society for saving two ladies at Hampton Court from drowning. Weston's victory over Brown, Harding and Ennis cost the bookmakers £5000, of which amount Astley and a number of American gentlemen were the principal winners, having taken odds of £100 to £10 laid against Weston.

Mrs. Hull's Murderer Caught. BOSTON, Mass., June 23.—11 P.M.—Quastine Cox, the negro murderer of Mrs. Hull, in New York, was arrested about an hour ago just as he was coming out of a church on Shawmut avenue. Mrs. Hull's watch was found upon his person. A green cameo set has been found at Stierberger's Jew pawn shop, corner of Market and Merrimac streets.

LOUISIANA'S STATE DEBT. NEW ORLEANS, June 23.—In Convention to-day the State Debt Committee reported an ordinance authorizing the Legislature to provide for funding the floating debt of the State by issuing bonds bearing four per cent interest, said bonds to be receivable for all taxes due the State prior to Jan 1, 1879.

PROTESTANTISM IN MEXICO. PITTSBURG, Pa., June 23.—The consecration of Rev Henry Chauncey Riley as Bishop of Mexico, which takes place in Trinity Church to-morrow, may be regarded as a notable event in the history of the Episcopal Church in America, inasmuch as it will be the extension of this denomination into a hitherto almost wholly Catholic country in the interest of the natives who, born Catholics, have been converted to Protestantism. The services, which commence at ten o'clock, will be of a very impressive character. Right Rev Dr. Cox, Bishop of Western New York, will preach the sermon, and Right Rev Alfred Lee, D.D., Bishop of Delaware, will preside. Fourteen bishops and other well known dignitaries of the church will be present. It is understood that Rev Dr. Riley expressed a wish to have the consecration take place in Pittsburg, recognition of the fact that he had received more contributions to his work in Mexico from this than from any other diocese.

'Truth lies in a nut-shell,' and 'brevity is the soul of wit.' To be brief, when the shell is broken, the truth will be discovered that the Grand Central Hotel, on Broadway, New York, now kept on both plans, the American \$2.50 or \$3.00 and the European \$1.00, and upwards per day, gives more satisfaction for the same money than any other first-class house in Gotham. An elegant restaurant, at moderate prices, is conducted by the Grand Central.

A CAUTION. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

CAROLINA.

Raleigh Observer: Nearly \$100,000 of old bonds were received at the Treasury yesterday, and the smiles on Dr. Worth's face pushed up his spectacles over his forehead.

Raleigh Observer: A teacher from one of our Eastern counties has just visited the Normal School, having walked all the way, 136 miles, from his home. He expects to return in the same manner. He is to be admired for his pluck.

Polkton Argus: There is a disease among the horses in White's Store neighborhood, that is said to be fatal in nearly every case. Mr. Ike Huntley, we learn, has lost a very fine horse from the disease, as has also Mr. Barrett.

Robesonian: On Tuesday night of last week, Mr. J. F. McKay, near McLean's Roads in this county, had the misfortune to have his dwelling, and a large part of its contents, destroyed by fire. Carelessness of a servant, who left a box of ashes in the cook room, was the cause of the fire.

Robesonian: Mr. Jos. Regan, of Howensville township, who was in town last Friday, reports snow at his house last Thursday afternoon. He says it continued to fall for some length of time, very fine at first, but mere sleet to very large flakes. Others report frost in this vicinity last Friday morning, indeed it seemed almost cold enough for frost.

Newbern Nut Shell: Our young townsmen, Mr. John D. Howard, has just returned from Washington in City, where he has been spending several days in examining the many different styles of cars (over three hundred in number) with the view to patenting one which he has for some months been working upon, and he has succeeded in filing his caveat for the most improved, useful coupler now known.

Newbern Nut Shell: One of the nezzie holders of the steam fire engine Elijah Ellis, informed us yesterday that the engine 'sucked up' a catfish and an eel Saturday night, from Trent river, and that these inhabitants of the deep were forced through the nezzie by the powerful pressure of water which was 'played' on the burning stables. This is not a fish story, for the 'cat' was only supposed to be about two feet in length.

Durham Recorder: On last Sunday night the dwelling of Mr. G. A. Fancett, who lives about 3 miles West of Hillsboro, was entered between the hours of ten and eleven, a trunk broken open and rifled of most of its contents, consisting in part of between \$75 and \$80 in specie, mostly in old silver coin, and a number of notes. The robbery was committed unmistakably by a negro, one Thomas Fuller, who had been in the employ of Mr. Fancett for eighteen months or more, and who disappeared at once after the theft.

A correspondent of the Raleigh News says that the smallest woman in Western North Carolina was in Winston some days ago. The correspondent adds: She is a daughter of Fletcher Jones, who lives eight or nine miles from here. She is eighteen years of age, twenty seven or eight inches high, and weighs thirty-seven pounds. Her style, ways and manners and appearance are childlike, except the expression of her face, which is rather sly. This 'little woman' gets away with the celebrated Maria Nail, of Mocksville, who at the age of twenty-one weighed, we believe, thirty-six pounds, but was twenty nine or thirty inches high.

Raleigh Observer: There was a great bond fire at the Treasury Department yesterday. The Governor, the Attorney General, Capt Dandey, principal clerk in the Secretary of State's office, Mr. Partin, chief clerk in the Auditor's Department, Donald Bain chief clerk of the Treasury, and a few by-standers, witnessed the cremation of the old bonds to make way for the new. The bonds were called off, checked and piled up, and Governor Jarvis applied the match. The old evidences of the States' debt crackled and curled, blazed up and became a pile of gray ashes.

Robesonian: McKay's pond, near St. Pauls, has always been a noted resort for fishermen. The mills decayed and 'went down,' and the dam was broken 20 years ago, but the large lakes on the streams still furnish an abundant supply of fish. The pond is the largest in the State, the soil of it has been submitted to the test of a chemical analysis, and is very fertile. It is a portion of the 'Big Swamp' which Senator McEachern endeavored to have drained during the last session of the Legislature. The mill site and 2,000 acres of the pond belong to Messrs. Worth & Worth, of Wilmington, and it is reported that these and other gentlemen intend locating a factory and mills there.

Exchange Hotel, GOLDSBORO, N. C.

A FIRST CLASS HOUSE in every respect. A special arrangement is offered to Commercial Travellers. Prices Reasonable.

'The Flurry in Stocks'

Always means an opportunity for some shrewd and lively operator to make a handsome profit. Messrs Lawrence & Co., Bankers, N. Y., have established the combination system for operating in stocks, so that capital in any amount from \$5 to \$50,000 can be used profitably at any time that may suit the customer. By pooling the orders of thousands of patrons into one immense sum, and operating them as a mighty whole, under the most experienced skill, vast profits are made which could be gained in no other way. These are divided pro rata among shareholders—monthly. An investment of \$10 returns \$50, or 5 per cent on the stock \$100 pays \$500 and so on, according to the market. A St. Louis patron made over three hundred per cent. on an investment in October by the combination method. Messrs. Lawrence & Co.'s new circular (mailed free) 'has two unerring rules for success' and full information, so that any one can operate with profit. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 75 Exchange Place, N. Y. City.

American Wines.

But few persons are aware of the great amount of grapes raised in New Jersey. Alfred Speer is known to be the largest wine grower east of the Rocky Mountains. His Port Grape Wine is the best, and is considered by physicians and chemists as the best wine to be procured. It is ordered to London and Paris, where it is becoming very popular among wealthy families. For sale by J. C. Munds, P. L. Bridgers & Co. and Green & Flanner April 1-

The dark blue English flannel suits with two vests, one of satin and the other of flannel, both deep and finished with two rows of gold buttons, are capital designs for mountain excursions or for seaside wear.

A new caprice in evening gloves is to have them laced instead of buttoned. Eyelet holes are put used, and they are laced by a very simple arrangement, which adds greatly to the neatness of the fit.
