Everything conducive to the better condition of the baby is sure to attract attention; and hence it is that Dr. Bull's Baby Syrup is becoming more and more appreciated, as its wonderful influence in subduing the diseases of babyhood becomes recognized. Price 25 cents.

We want to tell Bro. Dussey Battle, of the Tarboro Southerner, likewise of the Fourth Estate, how much we have enjoyed the perusal of his address, delivered before the members of the Press Convention, ladies and gentlemen, and others, at the Sparkling Catawba Springs last year. There's lots of laugh in it.

Dr. B. F. Cobb and son, Mr. C. M. B. Cobb, of the Purcell House, Wilmington came to Hickory two weeks ago with a view of purchasing lands and locating in our midst. They were pleased with this section and have decided to become citizens of Hickory. Mr. Cobb has returned and will bring the families of the two to this town in a few weeks; in the mean time the Dr. is here making arrangements for their reception.—Hickory Press.

The Swannanoa Hotel.

We acknowledge, with thanks, an invitation from the manager, Mr. W. M. Nicholls to attend the Opening Hop of the Swannanoa Hotel, in Asheville, to be given on the Wednesday of next week, July 9th. This house is newly opened and we notice a prominent feature, one which will make it a popular residence for tourists and travelers, which is that every Monday and Wednesday night, during the season, there is to be a Calico Hop and every Thursday a German, at the Hotel for the benefit of the guests.

By the Light of the Moon.

The *Passport* has been decorated with a plentiful supply of bright new paint, put where it will do the most good, and an entertainment, which Commodore Myers designates as "The Climax of the Season," will be given on her down the river to-morrow evening, "by the light of the moon." There will be good music on board, a plenty of ice water and all for 50 cents for the round trip.

He Has Left Us.

The Mr. Chamberlain (first name unknown) who spent two weeks in the city working up the postoffice robbery case, has very properly left Wilmington and gone back to his congenialities in Atlanta. He is a government detective and we hope not a very fair sample of his class, so far as his peculiarly perceptive powers are concerned. His official nose must be terribly out of joint. Let him try it over again somewhere else and see if he can't make a better job of it next time.

Another Sleeping Coach.

We noticed to-day that another parlor coach has been transformed into a sleeping car by the W. C. & A. Railroad, and is now ready for use. This makes the second car that has been thus transformed, the first having been noticed by the REVIEW some two or three weeks ago. This is almost an exact counterpart of the other, and is a model of neatness, convenience and superb workmanship. The cars are to be used upon the W. C. A. Road, and we learn that the work of transformation was done at the railroad shops in this city.

Yesterday's Shower.

The copious shower with which parched vegetation was bountifully refreshed yesterday evening was a welcome visitor from South Carolina. It made its appearance at Florence, S. C., where it was much needed, yesterday a little afternoon, and traveling the line of the W. C. & A. Railroad, it reached Fair Bluff at about 2 o'clock, Fair Bluff at about 3 o'clock and Whiteville at about 4 o'clock p. m. The crops along the line we have indicated were needing rain and were becoming parched up and the planters were beginning to despond, but the rainfall of yesterday made vegetation and the hearts of men rejoice. Its benefits are incalculable.

The Cornet Concert Club.

In the press of the large amount of local matter prepared for Saturday's issue of the REVIEW a notice of the Open Air Concert, given by the Cornet Concert Club in the City Hall Park on Friday evening, was overlooked. There was a small attendance, but those who were there were more than repaid for the trouble of attending. Eleven pieces were played.

As has been previously stated by us the Club will give a moonlight excursion down the river on next Wednesday evening, a prominent feature being the exquisite music which will be furnished on the trip. It will take place on the *Passport* and only a limited number of tickets will be issued. The boat will leave her wharf at 7:30 o'clock and return positively, at 12:30.

City Court.

Larry Williams, colored, charged with disorderly conduct and insulting a police officer in discharge of his duty, was sentenced to pay a fine of \$10—or serve fifteen days in the city prison. Defendant went below.

Henry Thomas, a colored lad of twelve years of age, or more, was arraigned for stealing a package of grits from Mr. J. H. McGarity's store, corner of Front and Dock streets, on Saturday night. The testimony of Mr. McGarity being positive and conclusive, having caught the defendant in the act, the Mayor ordered the prisoner to give a justified bond in the sum of \$50 for his appearance at the next term of the Criminal Court, in default of which was committed.

Daniel Brown, arraigned upon the charge of assaulting a police officer, entered a submission through his counsel, M. Bellamy, Esq., and craved the leniency of the Court, the counsel stating at the same time that defendant had been severely punished by the blow he received in the melee, from which he still suffered, and was only to-day enabled to leave his bed, though the difficulty had occurred a week ago. The sentence of the Court, in consideration of the statement of the counsel, was \$25 fine, or thirty days in the city prison. The fine was paid, and the defendant released. This finished the docket, and the Court adjourned.

Going to Portsmouth.

Our young friend, Mr. A. H. Kelly, so well and favorably known as a clerk in Col. A. Pope's office, in this city, has received the appointment of Claim and Trace Agent at Portsmouth, Va., and will in a few days assume the duties of that position. We commend him to the courteous consideration of the good folks in Portsmouth, and especially the young ladies.

Prizes for the Regatta.

The prizes for the winning yachts on the Fourth are on exhibition at Mr. Honnet's store on Market street. The first prize is a silver ice pitcher, beautifully engraved; the second a silver and cut-glass berry dish, and the third, a silver and cut-glass pickle stand. The prizes are all useful and handsome, and reflect credit upon the tastes of those who selected them. Now the question is, which yacht will win them?

The Crops.

Nature everywhere wears a cheerful countenance to-day, after the refreshing showers of yesterday. The growing crops fairly laughed with joy as the rain poured down upon the parched earth. With all the other blessings of the holy Sabbath day, it brought relief to the crops and rejoicing to the hard-working farmer, in the bountiful dispensation by a merciful Providence of abundant rain. The farmers had been wishing and praying for rain until hope deferred made the heart sick. The corn was withering under the burning rays of the noon-day sun. Other crops were suffering. The farming classes were becoming discouraged because of the protracted drought although, a dry June, so the grass and weeds can be better killed, is considered the best for crops. We have not met a farmer or gardener to-day who does not show a pleasing face. The crops will now take a new start. The reports of the prospects are favorable.

A Novel Case.

Two or three years ago, while Mr. David P. Foster was working at a lathe, as a machinist, in the employ of the W. C. & A. Railroad, a small piece of steel struck him on the end of his nose and penetrated the flesh. It was soon removed and nothing more was thought of the matter. The wounded part did not heal, however, and after a while an excrescence appeared very much resembling a large reddish colored wart, which gave him much annoyance and created anxiety, not only on account of the disfigurement it produced, but in the fear that it might terminate in a cancer. Several physicians were consulted and their remedies applied without apparent benefit. Some few weeks ago, while his daughter, Miss Kate Foster, was applying a dressing to the diseased organ, she discovered accidentally that there was a hard substance lodged beneath the cuticle of the upper lip, immediately under the cartilage which separates the nostrils. Puncturing the place with a needle she became aware that some hard foreign substance was embedded there, and taking a sharp pen knife she made a slight incision from which she extracted a small piece of steel about one-eighth of an inch in length. From that day the nose began to heal until now the last vestige of the wart has disappeared and the organ has resumed its normal healthy appearance. The only solution we can give to the matter is, that a small fragment remained in the wound after the accident, and after traveling around and keeping up a continued annoyance, it at last settled where it was discovered and extracted as above stated.
