WILMINGTON, N. C.

SATURDAY, JULY 19, 18 9.

VIEWS AND R. VIEWS.

A French imperialist paper proposed carrying French earth to Chiselhurst for Prince Louis Napoleopeto rest in.

The mode in Paris just now is to sflect extreme youth in dress, and baby hais, baby corrages, &c., are all the rage.

The reason why Prince Jerome would not call on the Empress Eugenie is per haps that the Emperor once said of him that if he ever got a bullet in him it would be because he had swallowed it.

The sextons of Tricity Parish, New York, including not only Trinity Church but the five chapels, are now uniformed in black gowns. The gowns are of black poplin reaching below the knee, with broad collars of velvet.

Kessuth has just turned up again, this time in a letter about the rebuilding of Szegedin. He thinks that a medera city ought to be built on the site of the old one destoryed by the Mond-a city of homes like those of the English

Both the leading candidates for Governor of Ohio are spending an extraordinary amount of time in New York. It may be at right, says the I hiladelphia Tomes, but it creates the impress on that there will be lots of money in the Ohio campaign this

Since asphalt has been adopt d for the streets of London, many young men travel over them on roller skates, and they car move so much faster than ordinary pe destrians that messengers employed by officers in the city are adopting the shates.

Adelina Patti, it appears, has lest some of her upper notes, but but on the other she has gaired immensely in dramatic power. Her voice is lowered, but she will become undoubtedly one of the greatest diamatic opera slagers that Europe has ever seen.

It is seldom that those a rested for drupkennes have on them enough cash to pay a fine; 6,757 arrested in Providence arrested in 1878 had \$14,000. Providence makes from \$6,000 to \$7,000 a year out of

The Railroad Gazette, of New York, 1eports the laying last week of twenty-nine miles of new railroad, making 731 miles thus far this year, as compared with 606 miles reported for the corresponding period in 1878, 618 in 1877, 673 in 1876, 401 in #1875, 607 in 1874 and 1,408 in 1873.

It is now thought that the new Southern Pacific Railroad may be completed by the beginning of 1881. The line from the other side will probably be extended to Tucson this year, and the line from this side to the Rio Grande. This will leave a gap of only about four hundred and in a year.

The Lexington (Ky.) Prese is projesting against the elopements which are so common in Kentucky, and asks if there are no laws to prevent young girls in their teens from running away from home to get married. There is very little roelopements - they generally are "put up their efforts will be entirely in vain. jobs" to do away with the expense of trousstaux, wedding presents and recep tions.

Gen. Stoneman's figuring is not favor able to the realization of Gen. Fremont's plan to turn the great Colorado desert into a navigable sea. He says: 'It would take a river one thousand feet wide and ten feet deep, running at the rate of five miles an hour, two hundred years to fill the basin; and after it was filled it would require a river two hundred and fifty feet wide, ten feet deep, and running at the rate of five miles an hour to compeusate for evaporation."

The extent to which American cheese is being imported into Ayrabire and retailed at prices greatly under the cost of the home produce is (says the Scotsman) be ginning to tell in a way that was hardly enticipated by dairy farmers in the county. Many of those farmers, it appears, still find themselves in possession of the bulk of the cheese manufactured last salson, with little prospect of getting it disposed of at anything like the figures they have been in the habit "of realing.

On Sunday last a large corps of sanitary inspectors, accompanied by a large number of newspaper reporters, made a reconnoissance of New Orleans in cabs. visiting every locality where fever was suspected and inspecting every case, It was continued from 6 a. m. till after midday, and they report that every rumor was traced to its source without finding a case of illness which could be mistaken for fever. The reconnoissance was made to quiet the apprehension in the convention, a large number of delegates having left on Saturday.

MATTERS IN CALIFORNIA.

A San Francisco correspondent of the Wi'mingion (Del.) Ecciy Evening, illutrates the desperate condition of California by able-bodied Americans, on these terms: Engagement for three years , wages \$12 a month-hands to faraish their own clothing pay their own presage (\$25), and fee of \$2.50 to the agency with which they contracted. In that State of boundless resources labor is pinched for food. The country is over un with employment seekers at any price, and you cannot move a block without meeting many applications

THE PENNSYLVANIA DE MO-CRATS.

Says the Washington Post. They ost no time in coming to the point in expressing themselves on the po'ti al is sues of the 'day, did those stolid old Pennsylvania Democrats at their convention at Harrisburg, Wednesday. D's missing all outlying maters of political difference as worthy of no extended consideration they struck immediately at the central issue of the campai g, and proceeded to rest their c so before the per ple upon it. They appounds their post tion in these well chosen words:

"Resolved, First - That we, the Dame cratic party of Pennsylva ia, in convention arsembled, renew our vows of fidelity to the rundamental principles preclaimed and practic i by the flustrious men who settled our wee institutions, and founded handy at the battles in front of Richthe Democratic pursy to protect and pre- mond and during the seven day's fights, serve them.

"Scone-That the just powers of the Federal Union, the rights of the states and the liberties of the people are vita par s of one has morrious system, and to save each part in its whole constitution of vigor s to save the l'fe of the nation.

"Third-That the Democratic party maintains, as it ever has maintained, that the military are and oright to be in a! things subordinate to civil authorities, It denies, as it ever has deried, the righ of the Federal administration to keep on foot, at the general expense, a standing army to invade the sales for political perpeses, without regard to constitutional restrictions, control the pe ple at the polls, to project and encourage transmient counts of the vol's, or to inaugurate caudidates rejected by the majority.

* Fourth - that the right to a free bulot is the right preservative of all rights. the only means of percefully redress a grievances and retorating abuses 1 pre, ence at the ports of a regular milita fore and of a hout of hirering officials in 1878 had on them \$8,000, and 6,056 claiming the power to arrest and imprison civizens without warrant or hearing destroys all freedom of elections and upturns the very foundation of self-gova, ament. We call upon all good citizens to aid us in pr erving cur institutious from destruction by these imperial methods of supervising the right of soft age and ceers cing the popular will; in keeping the way to the bariot-box open and tree, as it was to our fathers; in removing the army to a safe distance when the people assemble to express their sovereign pleast to at the polls and in securing obedience to their will when legelly expressed by their

"Fifth-That Rutherford B. Hayes, surround the ballot boxes with troops ald. fifty miles, which can be easi'y covered and deputy marsha's to intimidate the electors, and his unprecedented use of the born blind, and who has remained in despotic power, are an insult and a menace to the country."

It will be upon these points, and these alone, that the political battles will be fought this fall and the next. John Sherman may howl about resumption, the mance about many of the Kentucky' Stalwarts may wave the b.oody-shirt, but The people have selected the questions which they propose to pass upon this fall, and they are not to be cheated or evaded.

THE "IRON-CLADS."

Much interest has been manifested in the recent discussion which has arisen in regard to the breastplate worn by some of the Federal officers and soldiers during the late war for the purpose of protecting them from Confederate bullets. Gen. Dick Taylor first made the assertion over twelve mouths ago in the North American Review, and later in his famous book. Since Gen. Taylor's death a valent Northerner, one Capt. Judson, has come to the frontland denounced the statement as false. It has been reiterated and proven in the columns of the Raleigh Observer and the Farmer & Mech-nic, Capts. Ashe, Shotwell and Gorman having borne testimony to the fact. In addition to these, we are able to produce some incontrovertible testimony in the REVIEW by the publication of the following card from Maj. H. H. Foster, who himself were the blue, partic pated in numerous battles and is well qualified to speak. At our request he bas furnished us with the following letter:

My attention has been called recently to the statement made by one Judson which attempts to disprove the assertion made by General Dick Taylor in his 'Des truction and Reconstruction, that the soldiere of the Federal army were breastpla es

orarmor vests during the recent war. During the first two years of the war I was an officer in the volunteer service, and a large portion of the time a captain in the 40th N. Y. Volauteer Infantry, and I know that quite a number in that regiment wore what were known as 'ar-

mor vests.' It has been so many years since that I do not reca'l the name of but one, and that I remember distinctly from the following circumstances: Corporal Charles M. Atwood, of Newbury port, by stating that an advertisement calling for Mass., of my command (Co. B. 40th N 1.0 hands to work sugar plantations in the Y.) was struck at the battle of White Oak Sandwich island was filled in two days Swamp in the left breast by a Confederate oullet but having on one of the armor vests, it did not penetrate the flesh, . 1 hou hat a q tean indentation in the see plate of the ves...

I me ver had + X amine d this armor unfu

after the occurratee I have relate . I was in shape samething like a lair carset, such as I hav seen in ile windows of the cry one trand wa a this piece of seet, more in such a sh p. es to fit the upper position of the body a d thest, coming quire high up towards the eck and coming around u.d.r the arm owards the shoulder. Subsequently Atood became sickly, and upon inquity, I and that he wore, he vest continually. dir cled him to disperse with he wear of it only at such times as an engagement was tanminent, when he could put it on again. My examination of the vest convinced me hat it would be effectual against any oblique rifle shot, and at a long range it would stop a direct shot.

The foregoing is the only instance which at this rate day I can persouity but I am well aware that there were of sers in my company and quite a number in the regiment. Those who worethem were jocularly styled the ""ron cals," and there were a great many tron clads' tu Kearney's division of the old Invid Army Corps. It is but an serief justice to say that the corporal to war an I have alluded was a brave and faithful soldier, a fact which he had es tablished in the battle field in numerous instances before he ever donned the armor vest, and whatever Mr. Judson might think, if there had been a spare vest should not have hesitated to put myself uside of it at the shortest possible notice. Respectfully Yours.

HENRY H. FOSTER. Wilmington N. C. July 18th , 1879.

A Fool Once More.

'For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humbug stuff. Six months ago I saw a U. S. flag with Hop Bitters on it, and I thought I would be a fool once more I tried it, but my folly proved to be wisdom. Two bottles cured her. she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays. H. W., Detroit,

LIFE IN A BOTTLE.

The Most Valuable Medical Discov ery Known to the World-Ne More Use for Quinine, Calomel or Mineral Poisons-Life for the Blood, Strength for the Nerves, and Health for All.

AN OPEN LETTER TO THE PUBLIC

Believing that by cleansing the blood and building up the constitution was the only true way of bani ning distate and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c, and after trying the best physicians and paying out my money for may kinds of medicines advertised without finding a permanent cure,

b gan doctoring myself, using medicines

na e from roots and herbs. I fortunately

iscovered a wonderful Bitters or Blood (the anser, the first bottle of which gave me new ife and vigor, and in time effected a permaneut cure. I was free from catarrh, my lung. became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discove y in medicine, I prepared a quantity of the Root Bitters, and was in the habit of giving them away to sick friends and neighbors. I found the medicine effected the most wonderful cures of all diseases caused from humors or scrof la in the blood, Imprudence, Bad Stemach, Weakness, Kidney Disease, Torpid Liver, &c, &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients with medici e tar and wide, and I was induced to establish a laborator for compounding and bottling the Root Bitters in large quantities, and I now d vote

all my time to this business. I was a first backward in presenting either myself or discovery in this way to the publ c, not being a patent med cine man and with small capital, but I am getting bravely over that. Since I first advertised this medicine I have been crowded with orders from drugists and country dealers, and the hundred of letters I have receive from persons car.d, prove the fact that no remedy ever did so much good in so short a time and had so much success as the Root Bitters. In fact, I am convinced that they will soon take the lead o' all other medicines in use. Nea ly one hundred retail druggists, right here at home in Cleveland, now sell Root Bitters, some of whom have already sold over one thousand

Root Bitters are strictly a medical preparation, such as was used in the good old days of our forefathers, when people w re cured by some simple root or plant, and when calomel and other poisons of the mineral kingdom were unknown. They act strongly on the liver and kidneys,

keep the bowels regular and build up the nervous system. hey penetrate every part of the body, searching out every nerve, bone and tissue from the head to the feet, cleansing and strengthening the fountain springs of life, hence they must reach all diseases by purification and nourishment. No matter what your feelings or symptoms

are, what the disease or ailment is, use Root Bitters. Don't wait un il you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life.

Thousands of persons in all parts of the ountry are already using Koot Bitters | shall, in addition to his ad valorem tax on his They have saved many lives of consumtives st ck, pay as a license tax one tenth of one who had been given up by friends and physicians to die, and have permanently cured many old chronic cases of Catarra, Scrofula, whether such persons herein mentioned shall Rheumatism, Dyspepsia, and Skin Diseases, where all other treatments had fa led. Are you troubled with sick headache, costiveness, dizziness, weakness, bad taste in the mouth, nervousness, and broken down in constitution? You will be cured if you take Hoet Bitters. Have you humors and pimples on your face or skin? Nothing will give you such good ing on the 31st day of December or the 0th health, strength, and beauty as Root Bit-
