WILMINGTON, N. C.

THURSDAY, AUGUST 7, 18:9,

WESTERN NORTH CAROLINA, We think that Asheville is destined be, in the near future, one of the most popular inland summer resorts to be found anywhere between Baltimore and the Alabama State line. Its delightful

location, the beauty of the scenery, the pleasant drives and above all the health and salubrity of the climate, is even new attracting visitors from a dozen States. We have fallen in, when there, with parties from as far South as Florida. When the difficulties of access are removed by the completion of the two railroad lines to that point, then will the inflow of visitors be greatly multiplied. Invalids who are now deterred from attempting the trip because of the fatiguing ride in a stage, eighteen miles in one direction and twen'y one in another, wi'l then to able to accomplish the distance in comfort and ease, while the busileisure to spare, and some money to spend, and who does not wish to be removed from frequent and rapid cornec on with his own business world, wi'l find his or'y objection to the place removed. There is one thing, though, that must be remedied. More and better hotel accommodations must be had, and that, too, before the season sets in next summer, and the fare must be reduced. The hotels charge entirely too much now for their accommodations. compared with the price of both necessaries and luxuries, and in this particular the Ashevillians must see to it that they do not k!'l the goose which lays for them the golden egg. If these conditions are comnext Summer.

; So far as our observation extended, the people in Asheville seem to be doing a fine business. There are a nu ber of handsome stores, with full stocks of goods, and trade and barter seemed quits brisk while we were there, notwithstanding, too, the rainy weather. The country west of the town, as far as Cherokee and the Tennessee line, is commercially tributary to Asheville and we are told that produce is eften brought one hundred and fifty miles to find a market there. The commercial prosperity of the place is well evidenced by the fact that for the six months ending July 1st the schedule B tax on purchases, as given in, was 70 per cent, larger than for the lest balf of the last year and the estimate is that next January it will be from 40 to 50 per cent larger than the list just given in. All of this too is in the face of diffiulties of transportation, all purchases being hauled in wagons, from one depot twenty-one miles,

Of course everybody who has heard of Asheville has heard also of Beaucatcher. This, before having seen it, we imagined to be a hill of some size from which the young folks were wont to watch a pretty snaset, and from whence they would sometimes stroll home hand in hand in the soft gloaming. And it is a hill, ai er all, but a pretty high hill, being one of a rauge of young mountains on the Eastern bank of the Asheville valley. Being more easy of access than some of its neighbors, it has therefore become the pet moustain of the people. We drove to its summit, and although the way is toilsome and steep, yet the view from thence amply repays all exertions made to reach it.

which we had planned to visit, but to subject as the proprieties will allow. our great disappointment it rained five days out of the seven we spent in Ashe about ten miles from Asheville, on the very banks of the French Broad river, and on the direct road to the Werm sible, and dismiss those who deserve visit this latter resort, but we were debarred by the ra'u-and the road. From Asheville the drive is a beautiful one, although the road is very rough and broken. For nearly the entire distance we passed along on the very me-gin of the French Broad with the swift waters of the river dashing madly along over the hidden rocks in their course, creating a rosr almost as great as that of the surf when "a good sea is on," and with mountains and rocks and thickly wooded hills rising steeply on the other side of the road.

Alexander's 's a charming place, lying directly on the iver, and with sma mountains a sing precipitately in the rest from the very foundations of the house. As an item worthy of note we will mention here that Mr. Alexander gave us the very best dinner we had seen or heard of since rain storm .- Phil Chron. we had left Wilmington.

The Cnicago Tribune verily believes that Lord Chelmsford would not have run so much if he had had corns,

THE KENTUCKY ELECTION.

The election for State officers in Kentucky, which took place on Monday, the 4th inst., resulted, as was well known it would, in the election of the Democratic ticket. There was considerable falling off from the usual vote polled, which may be accounted for by the fact that the immense Demi cratic majority in the State has created apathy in the ranks. There were no very exciting issues in the campaign and many remained from the polls who would have been present had there been more at stake. In the excitement of a Presidential campaign, such as that of 1880 is sure to be, there will be rolled up a Democratic Kentucky majority that will be a noble increase upon that of Monday last,

Special reports from Louisville, Ky. show that there is a falling off of 50,000 as compared with the Hayes-Tilden vote and 15,000 from the vote polled at the last gubernatroial election.

According to the census of 1870, the total valuation of real and personal property in the United States was over \$30, 000,000,000, an increase of \$1 4 000,000,-000 on the census of 1880. The census of 1880 will, it is believed, show a total value of nearly \$50,000,000,000. Recent all your ailments-you will be wise, well writers in England estimate the total value of property in Great Britain at \$42,000 .-000,000. While a French writer claims the wildest margin for inaccuracy in these estimates, it is plainly evident that the United States is already entitled to the front rank, if not the first place among the nations in actual wealth, while it is but just entering upon the most rapid development of its resources.

The Cincinnati Commercial says: 'n the yard adjoining the factory of M Werk & Co., on Poplar street, there are now approaching completion two of the largest wine casks ever built in America, and the plied with, we think that our mountain largest, with one exception, in the world \$10 to \$1000 Stocks maks fortunes friends may look for fu'ly filteen hundred The one exception is the somewhat noted or two thousand visitors to the r little city cask at Heidelberg, Germany, which is said to contain 18,000 gallons, and to have a bung of sufficient size to afford a couple room to dence upon it. The casks which are being built for Werk & Co., will hold 16,000 gallons each. They are fifteen feet in height and fifteen feet in diameter, and in each of them is 8, 125 feet of lumber, weighing six tons

WASHINGTON LETTER.

WASHINGTON, D. C., Aug. 5, 1879.

The last of the members of the Mississippi River Commission to accept is Gen. Benj. Harrison, and the Commission is now complete. It will meet and organize this week, and go to work at once. Its plans will, of course, require adoption by Congress, but no trouble is expected on that account. The necessary funds will be provided by almost a unanimous vote of both

Scoretary Sherman has been interviswed since his Maine trip. He evidently mistook the applause given to Senator Blaine as genrine enthusiasm depot eighteen miles and from the other for himself, and believes that his Presidential chances were much improved by the visit. He goes to Ohio soon, and with customary modesty speaks of saving the State.

A scandal of long standing ceases with the resignation of O. B. Bradford. Acting Vice-Consul at Shanghai. The State Department, which forced this resignation, should complete the good work by recalling minister Seward, but that it is not likely to do. Indeed it is said here that Bradford himself will be furnished with another office under this pure administration.

No Government action has been made public, if any has been had, in connection with the Isthmus Canal. But there is singular unanimity among the people in support of Gen. Burnside's position, viz:-That the construction of such a cana! under the patronage of foreign governments should not be permitted. Mr. Hayes There were many points of interest speaks with as much emphasis on the

An attempt is being made to increase the efficiency of some Bureaus in the Interior Department by getting ville. We did manage, however, to put rid of worthless clerks. A careful exin a visit to Alexander's, a famous resort amination is being made of the record of each employe during the past year. and the aunounced intention is to promote the best of them as fast as pos-Springs. It was our intention also to it. Secretary Schurz will act wisely in carrying out his programme before Congress meets, for if he does not the Tripple Purified Flour "influence" brought to bear in the various cases will be such as neither he or any other Cabinet Minister can

LIFE IN A BOTTLE.

The Most Valuable Medical Discovery Known to the World-No More Use for Quinine, Calomel or Mineral Poisons—Life for the Blood, Strength for the Nerves, and Health for All.

AN OPEN LETTER TO THE PUBLIC Believing that by cleansing the blood and building up the constitution was the only true way of bani hing disease and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c , and after trying the best physicians and paying out my money for many kinds of medicines advertised without finding a permanent cure, I began doctoring myself, using medicines made from roots and herbs. I fortunately discovered a wonderful Bitters or Blood Cleanser, the first bottle of which gave me new life and vigor, and in time effected a permanent cure. I was free from catarrh, my lungs became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared a quantity of the Root Bitters, and was in the habit of giving them away to sick friends and neighbors. I found the medicine effected the most wonderful cures of all diseases caused from humors or scrofula in the blood, Imprudence, Bad Stomach, Weakness, Kidney Disease, Torpid Liver, &c , &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients with medicine far and wide, and I was induced to establish a lab ratory for compounding and bottling the Root Bitters in large quantities, and I now d vote al' my time to this business.

I was at first back ward in presenting either myself or discovery in this way to the public, not being a patent med cine man and with small capital, but I am getting bravely over that. Since I first advertised this medicin-I have been crowded with orders from druggists and country dealers, and the hundred prove the fact that no remedy ever did so much good in so snort a time and had so much success as the Root Bitters. In fact, I am convinced that they will soon take the lead of all other medicines in use. early one hundred retail druggists, right here at home in Cleveland, now sell Root Bitters, some of whom have already sold over one theusand

Root Bitters are strictly a medical preparation, such as was used in the good old days of our forefathers, when people w re cured by some simple root or plant, and when calomel and other poisons of the mineral kingdom were unknown.

They act strongly on the liver and kidneys,

keep the bowels regular and build up the

nervous system. They penetrate every part of the body, searching out every nerve, bone and tissue from the head to the feet, cleansing and strengthening the fountain springs of life, hence they must reach all diseases by purification and nourishment. No matter what your feelings or symptoms are, what the disease or ailment is, use Root

Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life, Thousands of persons in all parts of the ountry are already using Root Bitters They have saved many lives of consumtives who had been given up by friends and physicians to die, and have permanently cured many old chronic cases of Catarra, Scrofula, Rheumatism, Dyspepsia, and Skin Diseases, where all other treatments had failed. Are you troubled with sick headache, costiveness, dizziness, weakness, bad taste in the mouth, nervousness, and broken down in constitution? You will be cured if you take Root Bitters. Have you humors and pimples on your face

health, strength, and beauty as Root Bit-I know that jealous physicians will cry humbug because my discovery cures se many of their patients, b t I care not. It is now my desire and determination to place my Root Bitters as fast as possible within the reach of all those suffering throughout the world. Sold by wholesale and retail drug gists and country merchants, or sent by express on receipt of price, \$1.00 per bottle, or six bottles \$5.00. For certificates of wonderful cures, see my large circular around each bottle of medicine. Read and judge for
