A man with a strong turn for music is the organ grinder.

The man who asks you to take a glass of soda water treats you coolly.

Vegetables of all kinds have advanced in price within the past few days.

The days are getting severely short. The sun sets this afternoon at 6:41.

The almanac promised us rain yesterday and we have had it to-day.

For bar steel, iron and carriage goods go to JACOB'S Hardware Depot.

It is always the smoke from the other man's cigar that is offensive to the young lady.

No sensible mother uses high heeled shoes on her children. No; she uses a slipper.

It is mentioned as somewhat remarkable that the greatest censors are those who have the least sense.

Every business man likes to be patronized, provided his patron does not patronize him in a patronizing manner.

False hair is not so much worn as it was years ago; but light hair is almost exclusively a German product.

The reason every young lady takes to running a sewing machine is that there is a feller comes with every machine.

It is a most mortifying reflection to any man to consider what he has done compared with what he might have done.

It is suggested that any man who has three or four dozen lager beer kegs and some old chais can make a first-class sea serpent.

Of all sad words we ever heard, the saddest that have any one bosom stirred are: "I'd give ten dollars if it hadn't occurred."

A cross-eyed man should never be allowed to handle a garden hose. An humble apology does not furnish the pedestrian with dry clothes.

"This cheese is mity and must retail," as the grocer's clerk said when he washed it in soap to make it look as if it were fresh off the vine.

The latest definition of "hop bitters" is said to be, taking a young girl to an evening hep and have some other fellow cut you out and escort her home.

An exchange thinks the present vacation season a "lows ample time for the schoolmaster to recover from the effects of the upturned tacks and pins of the spring term."

Children cry for it, but they stop crying at once, after they have taken a single dose, as Dr. Bull's Baby Syrup cures all the pains our little ones are subject to. Price 25 cents a bottle.

We are glad to learn that the little schooner owned by Henry Davis, colored, of Myrtle Grove Sound, which was reported by us as ashore at Sugar Loaf, has been gotten off safely.

The best Windows, Doors and Blinds and Lowest Prices can be got at JACOB'S Hardware Depot.

There is universal complaint of the thieving manner in which so much of our silver coin in circulation has been cut and punctured; it is irredeemable at the Treasury, except at a discount.

Engagement bracelets are the idea. The favorite pattern is a narrow gold band, fastened by a tiny flat padlock, of which the husband expectant keeps the minute key upon his watch chain.

The Raleigh Observer tells us that forty North Carolina editors are in Goldboro. Forty editors on a frolic at one time and in one place is sufficient to remove the dilapidated linen from the shrubbery.

There she stands with her foot on the sands, attired in a 'ch-se clo'h' suit, a striped umbrella to ward off the fleckle scene sunshine—a picture for a painter, a subject for a poet, and a tang-up girl to take to a picnic.

A lady correspondent wants to know why gentlemen congregate around church doors, flood the sidewalk with tobacco juice, and gaze at all the ladies who are compelled to run the gauntlet between them? Did't know gentlemen indulged in such practices.

### Sunday School Excursion.

We learn that some of our friends, who were anxious to participate in the annual excursion to Smithville and the Forts, of the Mission Baptist Sunday School, of which Mr. J. W. Taylor is the Superintendent, mistook the date at which it will occur, and made every preparation to go yesterday, when they found that it would not take place until next Wednesday, the 27th inst. Watch the Review and you will see the advertisement in due season, and take especial notice of the hour of departure (8 a. m.) so as not to be left behind. Only a limited number of tickets will be sold.

### Signal Service Difficulties.

Mr. Dulin, of the Signal Service, informs us that the wires between here and Smithville are down in numerous places, having been prostrated, together with some of the poles, by the trees which fell upon them as they were blown down by the gale. It will probably take some days to get them again in working order. A force of hands has been at work repairing the damage to the line between here and Sloop Point, and communication to that Station has been established. The cable across New River has been washed out, and there is no telegraphic communication possible with the other side of that stream.

### A Dangerous Counterfeit.

A new photographic counterfeit one dollar bill, on the National Eagle Bank of Boston, Mass., was discovered at the treasury, in Washington recently. This is the first imitation of that denomination of the national currency that has ever appeared. The bill is well calculated to deceive even experts, as there is no especially distinctive difference from the genuine. It is darker in color than the good note, and the numbering is coarser. The vignette is of a dingy, brown color, and the seal rather a lightish brown, than red, as in the genuine note. It will be well to examine all bills corresponding to the above description as it is easy to change the names of the banks, and the denominations also.

You can get the best White Lead, Paints and Oils, and lowest prices at JACOB'S Hardware Depot.

### The Postoffice Business.

The number of postoffices in this country is getting to be so large that it is difficult to know what to do with them all. There are twice as many offices as there were in 1852 now numbering forty-one thousand, and the department finds trouble to communicate changes and other essential information to the great army of postmasters. The Postal Guide, established some years ago, was intended to facilitate such communication, but it was not printed often enough to keep up with events, and will hereafter be issued monthly instead of quarterly. It will specify all changes and will also contain the decisions of the department upon general subjects and all rulings upon special cases which can be of any interest to postmasters to know. Another new feature of this publication will be a list of the hamlets and settlements where there are no postoffices and the names of the offices at which mail for them is delivered.

### City Court.

John Jackson, colored, for creating a disturbance in Brooklyn last night, was arrested by the police and lodged in the Guard House, and this morning arraigned upon the charge of disorderly conduct. The Court sentenced the defendant to pay a fine of \$5 or remain in the city prison for twenty days.

David Josly, a airs David Smith, a notoriously bad colored boy, was arrested for interfering with and intruding upon Mr. Geo. P. Lamb's premises. The acting Mayor sent him below for ten days.

Charles Hill, Laura Hill and Lucy Hill, were arrested yesterday afternoon by officer Griffith for fighting in the streets, and were recognized to appear for trial at 9:30 o'clock this morning. The two first named persons failed to put in an appearance, but Lucy Hill was tried and released. The Mayor pro temp. received a note from J. C. Hill, J. P., stating that the parties had already appeared before him this morning, and the case used and disposed of, and as it seemed to be a family quarrel, he requested that the Mayor pro temp. would dismiss the case. The acting Mayor instructed the Chief of Police to arrest the parties who had failed to appear and bring them before him to-morrow morning at half-past nine o'clock.

There being no further business, the Court adjourned.

The rain it raineth every day.

How is it that trees can put on a new dress without opening their trunks? Because they leave out their clothing.

And now the report comes that the grape crop will be short. The recent storm damaged many of the vines hereabouts.

There is much disappointment expressed here to-day in the fact that the members of the Press Convention were unable to accept the invitations extended them to visit this city. They would have met with a right royal treatment here.

The New Haven Register says the genius who in an unguarded moment wrote, "Woman is God's best gift to man," never had to match three shades of wored for his wife, who had sent down from her summer retreat for a few skeins to finish a smoking-cap for a friend.

Mosquitoes, which are now so annoying, may be effectually extinguished by the odor of kerosene. Put a little into the top of a blacking-box, secure the top on the end of a stick or pole, and quietly dose the insect as he reposes upon the wall; it is a dead shot, sure.

### The River.

We learn from the steamboatmen that the recent rain raised the Cape Fear at Fayetteville about 10 feet, and that it is now about on a stand-still. There was but very little wind at that town and its immediate vicinity, so there was no apparent damage to the crops; but lower down, in portions of Brunswick and Bladen, the gale was more severe, and considerable damage was done to the lowland corn crop.

Window Glass of all sizes at JACOB'S Hardware Depot.

### The Corn in Pender.

The corn crop in some portions of Pender county is more seriously injured by the recent storm than was at first thought to be the case. The wind blew so fiercely that much of it is prostrated and some of the farmers say that much of it is too old to draw up again. The calculation is that one-fourth of the best of the crop will be lost by its rotting in the field.

### Apprehensive of Danger.

Fears are entertained for the safety of the schooner John A. Griffin, and two young Wilmingtonians, Messrs. John R. Dyer and Wm. Davis. The Griffin left New York some time ago and is past due. There can be no doubt but that she was in the recent storm, and as nothing has been heard of her, friends of the vessel and of the young gentlemen are apprehensive that she has foundered. Messrs. Dyer and Davis were returning from a pleasure trip to New York. We trust that the vessel, crew and passengers are safe and may put in an appearance at an early date.

### A Sanitary Conference.

Dr. A. N. Bell, Sanitary and Quarantine Inspector of the National Board of Health, who has been on an official visit to this section for several days, will meet the New Harover Board of Health in conference to-morrow evening at 8 o'clock in the Court House or City Court Room. To this meeting the members of the Chamber of Commerce, Produce Exchange, New Hanover County Association, the Quarantine officials, the Press and others are invited. The occasion will be one of much interest to those who have given attention to sanitary matters at this port.

### Wicked for Clergymen.

"I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article is made of valuable remedies known to all, that all physicians use and trust in daily, we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."  
Rev. \_\_\_\_\_, Washington, D. C.

### The Excursion North.

Tickets for the Grand Excursion to New York and other points North were put on sale to-day at Heinsberger's and will remain there for sale until the 26th. Capt. Foster tells us that applications are coming in freely, some from South Carolina, others from as far West as Lincoln, as far North as Tarboro and as far East as Beaufort. It promises to be a grand affair.

### The Marie.

Strong hopes are entertained that the German barque Marie, now ashore near Fort Caswell, may be gotten off. The cargo is being removed and when it is all out something definite will be known. A survey was held on board of her yesterday. The vessel is owned partly by Capt. Permion, her commander, and he says that his interest is fully insured but that he has no knowledge on this point as to the other shares.

It is expected that the cargo will all be gotten out in two days more, but the work is rendered difficult, as most of it is under water. When this is accomplished she will be gotten off, if possible, pumped out and towed to the city. Mr. C. H. Legg has the contract for removing the cargo, and Capt. W. J. Penton for getting the vessel off. Capt. P. will endeavor to accomplish this without the aid of steam and by means of kedge anchors and windlasses.

### Doesn't Work Well.

The regulation established by the railroad authorities that no one without a ticket will be allowed access to an arriving or a departing train at the depot on Front street, does not work altogether to the satisfaction of our people. We believe that the regulation is right, in the main, in that it keeps the shed free of idle characters who have no business there but when a gentleman goes to the depot to see a friend or a relative off on the cars or to meet a guest or an inmate of his household, it is hard that he cannot be at hand to assist a lady on or off the cars and to attend to her baggage for her. A case was in point this morning where a gentleman, a prominent merchant on Water street, carried his family up to the train, but was stopped at the gate and not allowed to himself see them comfortably seated and to attend to such little arrangements as were necessary, but was compelled to tell his wife and his children good-bye at the entrance to the depot. He had tickets for his family but none for himself. This matter has been talked about very freely on the streets to-day and has created considerable comment.

Of course we recognize the right of the authorities to adopt such regulations as may to them seem best for the purpose of expediting business at the trains and the arrival and departure of passengers, but we cannot but think that the regulations, as they now are, are too strict. Cannot these authorities, who have always manifested a desire to oblige our people, modify this regulation, as a matter of accommodation to many, now that they see how disagreeable it may be made under certain circumstances?

No further information has been received here up to the hour of our going to press, relative to the condition of the Br. barque North Carolina. The weather having moderated it is hoped here that she may be gotten off.

### Wine and Cake for Evenings.

Alfred Speer of New Jersey, it should be known, is one of the most extensive producers and dealers in Pure Wines and Brandy in the United States. He makes a Superior Port Wine, which took the highest premium at the Centennial, known as Speer's Port Grape Wine. It is sold by J. C. Munds, P. L. Bridgers & Co. and Green & Flanner. Aug-14.

## DIED.

BELL—On the 17th of August, little PINCK, 4 years and 3 months of age, son of Leslie P. and Anna J. Bell, of inflammation of the brain.

Rest in peace, little children to come unto Me, and forbid them not, for of such is the Kingdom of God."

Is it true that our little darling boy is dead? No, not dead, for we have been taught that there is a life beyond the grave. I know that little lying tongue is forever stilled; we shall no more look into thy loving eyes, but, thank God, we have the bright hope of meeting in that home of eternal bliss beyond.
