

# The Daily Review

JOSEPH T. JAMES, Ed. and Prop.

WILMINGTON, N. C.

MONDAY, SEPTEMBER 15, 1896.

[ENTERED AT THE POSTOFFICE AT WILMINGTON, N. C., AS SECOND-CLASS MATTER.]

## VIEWS AND REVIEWS.

Ex-Congressman John K. Tarbox is to preside over the Massachusetts Butler Democratic State convention at Worcester on the 17th inst.

An electric light in Saratoga enabled persons to read a newspaper at Ballston, 7 1/2 miles distant, on a dark night. A powerful reflector was used.

Ex-Congressman Eugene Hale is a member elect to the Maine Legislature from Ellsworth. He will be a candidate for the United States Senate, to succeed Mr. Hamlin.

A correspondent of the Chicago Journal proposes Gen. Phil H. Sheridan for the Republican nomination for the presidency. If it is to be stolen again this would be a capital nomination.

The total production of silver for the last half year, including that of Colorado, is estimated at \$17,000,000, and that of gold at \$15,000,000. This falling off in the production has doubtless contributed to the recent advance in the price of silver.

Governor Blackburn, of Kentucky, in a recent speech, declared that persons convicted of the cowardly and criminal practice of carrying concealed weapons need not apply to him for pardon. The Louisville Courier Journal requires the Governor to paste this declaration in his hat and not forget it.

M. Waddington, the French premier, said at a dinner on the 22d of August: 'What will perhaps surprise you is that this republic, so cavalierly, so disdainfully treated by the organs of the old parties, has simply at this moment the best financial situation in Europe.'

Unhappy Hayti is again in the pangs of revolution, or the anarchy which in Spanish-American countries passes by that name. The only results thus far have been very destructive to property, the 'patriots' on both sides being apparently thieves and incendiaries rather than soldiers.

Alta California, of the 1st instant says: 'Threshing is making rapid progress and the yield generally is fully up to the anticipation—in some places considerably above. Oregon has suffered severely from rust, and the wheat yield in the Willamette Valley being one-third less than that account that it would have been otherwise—a reduction of 1,300,000 cents on an estimated crop of 6,000,000.'

The Norwegian bark Columbia, of 400 tons burthen, on the 4th instant, not far from the Newfoundland banks, struck an enormous fish or sea monster, and tore away the planking on the port side of her bow. The fish was badly wounded and remained on the top of water struggling furiously and lashing the water with its tail, crimsoning the sea all around with its blood. It was judged to be at least forty feet long. The crew were forced to take to the boats and the bark sunk before she was out of sight. The crew was picked up by the steamship P. Caland and landed in New York on the 9th.

The establishment of a system of horse passports is under consideration by the Russian Government. The measure is suggested, not in view of political danger from the equine race, but in order to prevent a misfortune that often happens to the horses themselves, namely, horse-stealing. According to this curious project, the birth, peculiar signs, and death of every horse must be recorded, and the proprietor of a horse or horses is to be furnished with a horse passport that will entitle him to the legal possession of said horse or horses. Now, as a horse thief cannot possibly steal both the horse and its passport, he cannot sustain his right to the possession of a stolen horse. This is the essence of the wit and wisdom of the Russian officials in this matter.

The first French ballet in New York was given at the Bowery about 1827. Mme. Hutton, the principal dancer, on appearing in her brief and gauzy costume was greeted with a storm of hisses, which ended with an uproar and the departure of many from the theatre. The curtain was rung down, and no further performance was given that night. There was a general attack upon the troupe in the papers of the next day, and the exhibition was characterized as the most shameful and indecent ever presented in the city.

The consequence was that standing room could not be found the following night on the rising of the curtain. The house was black with men only. Within a week, however, a few ladies appeared, and before the end of the month fashionable New York had flocked in large numbers to the theatre.

## NOTES ON FENCES.

The farm fences of the United States are estimated to cost \$1,350,000, and require \$250,000,000, annually, to keep them in order. Besides the direct cost of fences, the land which they occupy, and the labor expended in their construction, is an important consideration. The zig zag rail fences, with stake and sides, on an ordinary farm, occupy five per cent. of the land, or five acres in every hundred. In view of this, a straight fence, other things being equal, is the cheapest. The wire fences of various styles, now used, are to be commended as economizing space, and being durable.

## DROUGHT IN CHINA.

Consul Lord, of Ningpo, China, writing July 20, says of the grain crops in the province of Che Kiang, that from April to the middle of June the weather was wet and cold. It became suddenly dry and hot, and so continued up to the time of writing. Such was the intensity of the heat that the canals, which are largely relied upon for irrigation, dried up, and everything became parched. Should the drought continue much longer, the Consul thought the grain crop of the province would be almost totally destroyed. The cotton crop had also suffered greatly. The province of Che Kiang has an area of about 40,000 square miles, and a population of 20,000,000.

## IMPROVEMENTS IN MEANS OF TRANSPORTATION.

This is certainly an age of improvement and invention. Hardly a day passes but some wonderful device is chronicled which goes to make labor lighter and more cheaply and expeditiously performed, or something to ameliorate the condition of mankind. The inventions of the past fifty years, had they become known a couple of hundred years ago, would have doomed scores to the gallows as being endowed with the spirit of witchcraft.

Among the more recent inventions we notice an improvement in the construction of freight cars, which if it should prove entirely successful upon a fair trial, will revolutionize the entire railroad freight system. We give below a description of this newly invented means of freight transportation, which is as follows:

The newly invented freight car, known as the Presser car, threatens to disturb the freight question. This car is made of a cylinder, the circumference like hoops on a barrel. The load rests almost entirely on the rail and the weight of the frame work only rests on the axle. It is as if a bar were put through a hoghead of to bacco and traces attached to the extremities of the axle, the circumference of the hoghead forming its own wheel. It is claimed to have been demonstrated by actual trial that a speed of four miles per hour, and the centrifugal force caused thereby, will hold the grain firmly without intermission to the inside surface of the cylinder, and, if the car be not full, there will be in the centre surrounding the axle a cylindrical body of air. The frame-work holding these two cylinders together weighs only three tons, instead of ten tons, the ordinary weight of a common car, while it takes up only one-half the room on the track.

## TILDEN AHEAD.

Whatever may be Samuel J. Tilden's sins in the past, either as against his party or against himself, it is certain that, as an organizer, he has few equals and no superiors in this age and generation. The nomination of Gov. Robinson as his own successor was the best and the wisest thing that could be done and there is but little, if any, doubt, of his reelection. John Kelly may be all-potent with Tammany but if he is, Tilden is equally all-potent with the balance of the party in New York State. Kelley's biggest move was his most stupendous failure. He announced, in advance of the Convention, that Tammany would not, under any circumstances, vote for Robinson and that if he was nominated the organization would bolt. Therein Mr. Kelly became a disorganizer. I t was the old story of a dissatisfied minority attempting to coerce the majority, and he failed, as he amply deserved to do. Mr. Robinson was nominated and although Mr. Kelly may bolt it is not at all certain that Tammany will follow him. Ex-Gov. Hoffman has already announced his secession from Tammany and his determination to support Gov. Robinson, and Augustus Schell and others will probably follow. This shows that Tammany is not by any means a unit under the leadership of John Kelly.

Mr. Tilden's objective point is, of course, the Presidential nomination. If he can carry New York, through Robinson, then the Southern vote, notwithstanding its repugnance to Mr. Tilden, will be forced into his support in convention.

A correspondent of the Pall Mall Gazette says that it is proposed to form a religious guild for persons connected with the press, from editors downward. They are to pledge themselves to go to church once on Sundays, and, if possible, once on week days; to spend five minutes a day in private prayer; to be temperate in dress, speech and food; to be friendly with those with whom they work; and, if possible, to induce their fellow workmen to join the guild.

## The North Carolina System.

Mr. Editor: Thanking you for your courtesy in publishing my previous communication, I beg leave to repeat that it is not my purpose to attempt any discussion of the merits of any North Carolina Railway System. Whether the policy put into operation by President Whitford and the Jarvis directors will prove beneficial is a question, as it seems to me, at least, that can be satisfactorily solved only by the future; in a word, by the fruits that policy may bear. It may save the Atlantic & N. C. Railroad, or it may not; it may be that no policy can save it; time only can tell; certainly, however, in view of the fact that President Hughes and the Vance directors broke up the 'Combination' policy and put themselves unequivocally upon record in favor of a North Carolina policy, it seems to me to be the part of fairness and prudence to give the new policy a fair trial, at least until some proof shall be offered that it is not an honest effort on the part of Governor Jarvis to save the road to the State.

That President Hughes and the Vance directors did break up the 'Combination' policy, I presume there is no doubt. The record speaks for itself as to that, and the record I have given. No less plainly, it seems to me, does the same record speak as to their endorsement of the so called North Carolina policy and now that time enough has elapsed for the subsidence of any feeling that may have arisen, there thought it proper to call attention to that record so that a fair minded and intelligent public may see for itself precisely what I declare. That is my sole purpose.

Thanking you again for your courtesy, Mr. Editor, I beg leave in conclusion to say that the promises with which measures were inaugurated by the new President and the new Superintendent to repair the very serious damages at Morehead City caused by the disastrous storm gives very hopeful promise of the ability of the road under the new policy to contend with the most adverse fortune. Whether the road, embarrassed as it confessedly is, under any other policy could provide ways and means to repair such very serious damages within a reasonable time, may well be doubted. To put the road in the condition in which it was before the late storm will cost many thousands of dollars, and yet, unless I am misinformed, near us were matured to accomplish that desirable end without any delay, save that absolutely needed to ascertain the extent of the damage done, and will be prosecuted with the utmost vigor. Thus far, at least, the new policy has worked no injury.

## MOONSHINE.

Motto for bakers: Dare to dough right.—Toronto Graphic.  
'Boo's ebionized here' is the announcement of a Bo ton bootblack.  
A cold wave—Putting aside an ice question.—Havesack Republican.  
The flower named 'bachelor's button' is so called because it is apt to fall off.—New Orleans Picayune.

'Have you a mother-in-law?' asked a man of a disconsolate looking person. 'No,' he replied, 'but I have a father in jail.'—Albany Journal.

No matter how bad and destructive a boy may be, he never becomes so degraded or loses his self-respect sufficiently as to throw mud on a circus poster.—New York Star.

Correspondent.—Will the editor please inform me where my family can go on Sundays and be cool and comfortable without danger of being crowded? Answer, by the Rochester Democrat: Go to church.

When filling a cavity dentists sometimes place a dam in the patient's mouth. When a tooth is being extracted, the dentist is relieved of that duty. The patient supplies all that are required.—Boston Transcript.

A great many morally inclined business men will tell you that the people of to-day are not as honest as they were in their time—but they'll shove a bogus quarter on a near sighted man just as quick as a man of more modern make.—Elmira Gazette.

## Is it Possible

That a remedy made of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, &c., make so many and such marvelous and wonderful cures, as Hop Bitters do? It must be, for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.

## NEW PIANOS \$125

Each, and all styles, including Grand Square and Upright, all strictly FIRST-CLASS, sold at the lowest NET CASH WHOLESALE FACTORY PRICES, direct to the PURCHASER. These Pianos made one of the finest displays at the Centennial Exhibition, and were unanimously recommended for the HIGHEST HONORS—over 12,000 in value. Regularly incorporated Manufacturers? It must be, for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.

MEYERSON PIANO CO.,  
apl 7-6m 31 East 15th street, N Y

## Employment Wanted.

IN THIS CITY OR ELSEWHERE, in 1 doors, outside or on the road, sales man, writing or canvassing orders and consignments. By a man who is familiar with trade in all its branches, who will give his undivided time and best efforts for a small salary. Address, J. J. HALL, Wilmington, N. C., July 22

## Miscellaneous.

### HOSTETTER'S

CELEBRATED

### BITTERS

STOMACH

Fever and Ague is most common in the spring, but most severe in the fall and winter. It is strictly a malarious disease, and so surely will the individual who adopts this precaution be exempted from its pains and penalties. Add to this its value as a stomachic and anti-bilious agent, and it will venture to gain any claims to the first place among family medicines.

For sale by all Druggists and respectable Dealers generally.  
sept 1-d&w.

## VICTORIOUS!

## HIGHEST & BEST AWARD

And Grand Medal of Honor.

Economy, Durability and Rapidity combined with perfect work. Are Distinguishing Features of the celebrated

## Giant Farm and Warehouse Fans,

MADE BY

**A. P. DICKEY,**  
Racine, Wis.

Now having many late improvements, they are fully equal to every demand; cleaning all kinds of Grain, Peas, Beans, Castor Beans, Corn and Small Seed. They grade Wheat perfectly by one handling. Separate Outings, Barley and Rye. They have very perfect arrangements for cleaning Timothy, Clover, Flax Seed, Orchard Grass, and all other Small Seeds. They Chaff perfectly, and combine every qualification required to do the best work in the shortest time.

Warehouses, as well as Farm Mills, are largely constructed, both kinds requiring nine sizes to accommodate the demand, and giving a capacity of from 50 to 500 bushels per hour, according to size of mill. They are shipped, boxed for ocean transportation, and "set up" or "knocked down" for forwarding inland, as requested; and in all cases put free on board Cars or Steamers. Orders filled same day as received.

Mills shipped "knocked down" go for half the freight charged as when forwarded "set up." Orders and Circulars supplied on application. Prices will be quoted low and on liberal terms. Correspondence solicited.

## YELLOW FEVER—BLACK VOMIT.

It is too soon to forget the ravages of this terrible disease, which will no doubt return in a more malignant and virulent form in the fall months of 1896.

MARSHALL'S HEPATIN, a Remedy discovered in Southern Nubia and used with such wonderful results in a certain case of Yellow Fever and Black Vomit, but also cures Headache, Constipation of the Bowels, Dyspepsia and all Malarial diseases.

No one need fear Yellow Fever who will expel the Malarial Poison and excess of bile from the blood by using MARSHALL'S HEPATIN, which is sold by all Druggists in 25 cent and \$1.00 bottles, or will be sent by express by the Proprietors. A. F. MARSHALL & CO., Philadelphia, Pa.

## Dr Pemberton's Stillinger or Queen's Delight

The reports of wonderful cures of Rheumatism, Sciatica, Salt Rheum, Syphilis, Cancer, Ulcers and Sores, that come from all parts of the country, are not only remarkable but so miraculous as to be doubted were it not for the abundance of proof.

## Remarkable Cure of Scrofula, &c. CASE OF COL. J. C. BRANSON.

Kingston, Ga., Sept. 15, 1871  
GENTS:—For sixteen years I have been a great sufferer from Scrofula in its most distressing forms. I have been confined to my room and bed for fifteen years with scrofulous ulcerations. The most approved remedies for such cases had been used, and the most eminent physicians consulted, without any decided benefit. I was prostrated, distressed, desponding, I was advised by Dr. J. C. Branson, of Floyd county, Ga., to commence the use of your Compound Extract Stillinger's Language is insufficient to describe the relief obtained from the use of the Stillinger as it is to convey an adequate idea of the intensity of my suffering before using your medicine; sufficient to say, I abandoned all other remedies and continued the use of your Extract of Stillinger, until I can say truly, "I am cured of all pain," of all diseases, with nothing to obstruct the active pursuit of my profession. More than eight months have elapsed since this remarkable cure, without any return of the disease.

For the truth of the above statement, I refer to any gentleman in Bartow county, Ga., and to the members of the bar of Cherokee Circuit, who are acquainted with me. I shall ever remain, with the deepest gratitude, your obedient servant,  
J. C. BRANSON, Atty at Law.

## A MIRACLE.

West Point, Ga., Sept. 16, 1870.  
GENTS:—My daughter was taken on the 26th day of June, 1863, with what was supposed to be acute Rheumatism, and was treated for the same with no success. In work, following pieces of bone began to work out of the right arm, and continued to appear till all the bone from the elbow to the shoulder joint came out. Many pieces of bone came out of the right foot and leg. The case was then pronounced one of White Swelling. After having been confined about six years to her bed, and the case considered hopeless, I was induced to try Dr. Pemberton's Compound Extract of Stillinger, and was so well satisfied with its effects that I have continued the use of it until the present.

My daughter was confined to her bed about six years before she sat up or even turned over without help. She now sits up all day, and sews most of her time—has walked across the room. Her general health is now good, and I believe she will, as her limbs gain strength, walk well. I attribute her recovery to the blessing of God to the Letters for your invaluable medicine. With gratitude I am, yours truly, W. B. BLANTON.

West Point, Ga., Sept. 16, 1870.  
GENTS:—The above certificate of Mr. W. B. Blanton we know and certify to as being true. The thing is so; hundreds of the most respected citizens will testify to it. As much reference can be given as may be required. Yours truly,  
CRAWFORD & WALKER, Druggists, HON. H. D. WILLIAMS.

DR. Pemberton's Stillinger is prepared by A. F. MARSHALL & CO., Phila., Pa. Sold by all Druggists in \$1.00 bottles, or sent by express. Agents wanted to canvass everywhere.

Send for Book—"Curious Story"—free to all. Medicines sent to poor people payable in installments. may 28

## The New "Sunny South."

The "Sunny South" and "Boys and Girls of the South" will be furnished one year for \$3.50, with a large and magnificent picture thrown in. Address this office, or

J. H. & W. B. HALL, Atlanta, Ga. may 17

## Miscellaneous.

### WHITE SEWING MACHINE

THE MOST VALUABLE MEDICAL DISCOVERY

## LIFE IN A BOTTLE.

The Most Valuable Medical Discovery ever Known to the World—No More Use for Quinine, Calomel or Mineral Poisons—Life for the Blood, Strength for the Nerves, and Health for All.

## AN OPEN LETTER TO THE PUBLIC

Believing that by cleansing the blood and building up the constitution was the only way of banniing disease and being troubled with weakness of the lungs, catarrh, vertigo, much broken down in constitution, &c., &c., after trying the best physicians and paying out my money for many kinds of medicines, advertised without finding a permanent cure, I began doctoring myself, using medicines made from roots and herbs. I fortunately discovered a wonderful Bitters of Blood-Cleaner, the first bottle of which gave me new life and vigor, and in time effected the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared for my neighbors. I found the medicine effected the most wonderful cures of all diseases caused by humors or scrofula in the blood, impurities in the stomach, weakness, Kidney Diseases, Torpid Liver, &c., &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients with medicine far and wide, and I was induced to establish a laboratory for compounding and bottling the Root Bitters, in my own city. I now devote all my time to this business.

I was at first backward in presenting myself or discovery in this way to the public, not being a patent medicine man and with small capital, but I am getting bravely over my fears, and am advertising the medicine I have been crowded with orders from all over the country, and the hundreds of letters I have received from persons cured, prove the fact that no remedy ever did so much good in so short a time and had so much success as the Root Bitters. In fact, I am convinced that they will soon take the lead of all other medicines in use, as it is a hundred retail druggists, right here at home in Cleveland, now sell Root Bitters, some of whom have already sold over one thousand bottles.

Root Bitters are strictly a medical preparation. As it was used by the good old grandfathers, when people were cured by some simple root or plant, and when calomel and other poisons of the mineral kingdom were unknown.

They act strongly on the liver and kidneys, keep the bowels regular and bound up the nervous system. They permeate every part of the body, reaching every nerve, bone and tissue from the head to the feet, cleansing and strengthening the fountain springs of life, hence they must reach all diseases by purification and nourishment.

No matter what your feelings or symptoms are, what the disease may be, use Root Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life.

Thousands of persons in all parts of the country are already using Root Bitters. They have saved many lives of convalescing patients, and broken down and worn out persons, and have permanently cured many old chronic cases of Catarrh, scrofula, Rheumatism, Dyspepsia, and Skin Diseases, where all other treatments had failed. As you troubled with sick headache, constipation, nervousness, and broken down in constitution, you will be cured if you take Root Bitters. Have your humors and pimples on your face or skin? Nothing will give you such a good health, strength, and beauty as Root Bitters.

I know that jealous physicians will or humbug because my discovery cures so many of their patients, but I care not. I know my desire and determination to place my Root Bitters as fast as possible within the reach of all those suffering through the world. Sold by wholesale and retail drug stores and country merchants, or sent by express on receipt of price, \$1.00 per bottle, or six bottles \$5.00. For certificates of wonderful cures, see my large circular attached to each bottle of medicine. Read and judge for yourself.

Ask your Druggist or merchant for FRAZIER'S MOON BITTER, the great Blood-Cleaner, and take no substitute but recommend because he makes a large profit. G. W. FRAZIER, Discoverer.

389 Superior St., Cleveland, O. Wholesale by J. O. Munds and T. B. Hubbard, Druggists. march 26th 96-d&w
