One reason why children like the mother the best is because she can rarely find the boot-jack until after the occasion has passed away.

We have seen buckets, tubs, barrels and bathing tubs made of paper, but what the dickens does a newspaper want of files made of the paper?

The prophet who predicts the coming of just the kind of weather people want, may not hit right once in a dozen times, but he's bound to be popular.

It's rough to get judgment against an editor and then find that the only thing the editor possesses, which are seizable, are a pair of shears and a paste pot.

"Fishing leads to philosophy," I do not insist. When a man gets home from an all day tramp, hungry, tired and wet, he is apt to philosophize to the extent of remarking what a fool a fool is.

It has been decided at the Post Office Department to issue three additional denominations of postage due stamps, representing 10, 30 and 50-cent stamps. The use of these stamps will be confined to the larger offices.

Bark *Eucynius* (Nor) Tallaksen, from Wilmington, N.C., after lying 35 days in quarantine at Bermuda, had been allowed prior to Sept 18 to go into port and discharge her cargo of pitch pine lumber under the surveillance of the Health Officer, but no communication was allowed with the shore until discharged and properly fumigated.

A Reliable Wine.
Mr. A. Speer, of New Jersey, whose Port Grape Wine has such a wide reputation, and which physicians prescribe so generally, was the first in this country to introduce the art of making wine from the Oporto Grape, which is now the best wine to be had, and has become a great favorite among the most fashionable in New York and Philadelphia.

Receipts of Cotton.
The receipts of cotton at this port today were 251 bales against 281 for the corresponding day of last year. The receipts to date during September, are 6,291 bales, against 5,168 bales for corresponding period of last year.

The Home and Champion Club.
The first of a series of match games between the Champion and the Home Base Ball Clubs is being played at the Athletic Grounds this afternoon. The prize is the championship of the city. There is a large attendance and much interest manifested. We will give a report to-morrow as the result will be too late for this issue.

Railroad Freights.
The railroads terminating in this city are doing an immense business in freights. We are informed by Capt. Knight that the W. & W. and the W. C. & A. roads are crowded to their utmost capacity to meet the demands for freight accommodations. Every train is crowded and every available car is in constant use.

The best windows, Doors and Blinds and Lowest Prices can be got at JACOBI'S Hardware Depot.

Poll Tax.
At the recent meeting of the Board of County Commissioners, held last Monday, an important order relative to poll tax for the year 1879 was issued by the Board. It was ordered that all who have failed to list their poll tax for that year be allowed the privilege of having the double tax remitted, provided the poll is paid in to the Sheriff by the first day of November.

The C. F. M. A.
The Fall session of the Cape Fear Military Academy, under the supervision of Capt. Washington Catlett, as Principal, will open on Monday next, the 29th inst. on which occasion the brass-buttoned boys will bid adieu to the follies, as well as the pleasures, of the past season, and prepare for hard work this winter. Capt. Catlett will have a full corps of instructors and has renovated and improved his school rooms.

City Court.
The only case this morning to need the attention of His Honor, the Mayor, was that of Antone Swain, the young lad arrested a few days since charged with the larceny of tickets from the store of Messrs. Taylor & Winstead, an account of which we published at the time. On account of the extreme youth of the accused and upon his promise to be a better boy and go into the country, the affidavit was withdrawn and the case dropped for the present.

Home Again.
Mr. and Mrs. A. Shrier returned here last night after an absence of some months in Europe and several weeks spent in New York on the return trip. They are both looking extremely well and it is needless to say that their visit to the old country was in the highest degree enjoyable. A pleasing surprise awaited them on their return here. They found that the fair hands of their lady friends had been at work yesterday and that their residence on Fourth street, between Chestnut and Mulberry, had been tastefully adorned with evergreens and garlands and flowers and that many friends were present to bid them a welcome back "home again, from a foreign shore." A conspicuous decoration was a handsome floral inscription, composing the word "welcome." The harpers had been engaged and the interest of the occasion was enhanced by the beautiful music delivered by them. The evening was one of those rare and happy occasions in life which are never to be forgotten.

Ladies' Ties.
Elegant Neck Ties at 5 and 10 cents. Hahn & Goodman, Fourth st.

A returned vacationist says there is a good deal of humbug about the romance of country life. He finds that the village blacksmith uses machine-made horse shoes, and that the old oaken bucket is nothing but a converted paint keg.

It is a singular fact that the men who are second in command at home always want to rule the whole of creation the moment they get outside their back gates. You can always tell 'em.

The Cape Fear.
Steamboatmen report only about 2 feet of rise in the Cape Fear from the recent rains. They also say that not so much rain fell in the upper section of the river as did in this vicinity, and think the rise has about reached its height.

Kearney Coming.
The Raleigh News furnishes us with a little piece of news in the way of a rumor prevalent in that city to the effect that Judge Russell is to import Dennis Kearney into this district next year, to talk politics to our people, under the head and style of Greenback-Labor. He is to come here, it is said, sometime next year during the political canvass, provided somebody don't smash him in the interim. Let him come. He needn't bring his sandlot with him; we'll supply that article here.

Strangers in the city should not fail to visit the Sash Factory, foot of Walnut street.

Painful Accident.
Our Fremont correspondent informs us that Mr. Leonard Dickinson, one of the most worthy citizens of Wayne county, while riding in a cart with two of his children, on the 18th inst., was seized with an attack of vertigo, causing him to fall out. This frightened the horse and caused him to run away, and both children were thrown violently to the ground, one of whom, a boy aged about five years, was completely scalped, besides sustaining other severe bodily injuries. The other fortunately escaped unhurt. Dr. W. J. Gilbert was promptly in attendance, and every means known to science applied to relieve the agonies of the little one, who, at last accounts, was doing well, and in a fair way to ultimate recovery.
The crops are reported as about one-third less than the average, and with a great deal of sickness, harvesting is somewhat delayed.

Chins.
The retreating chin is indicative of the want of attachment, and but little ardor in love.

The chin in its length and breadth indicates self control, self will, resolution, decision, etc.

A narrow, square chin indicates the desire for love, and is more common among women.

The broad square chin indicates ardent love, combined with great steadfastness and permanence of affection.

Carnivorous animals have the upper jaw projecting, while those of the granivorous nature have the lower jaw projecting.

In man with a projecting upper jaw will be found large destructiveness and love of animal food; when the lower jaw projects then the love for vegetable food.

A pointed or round chin indicates a congenial love. A person with such a chin will have a "beau ideal" and will not be satisfied with real men or women.

The indented chin indicates a great desire to be loved; a hunger and thirst for affection. When large in woman she may overstep the bounds of etiquette and may make love to one that pleases her.

C. J. Joo W. Gordon has returned to the city after a summer ramble, business and pleasure combined, through North Carolina and Virginia.

The equinoctial weather seems to have blown over, followed to day by fair weather. It continued this year for four days, but we escaped with plenty of rain and very little wind.

A mud-turtle can neither fly, sing, gallop, laugh, cry or go blackberrying, and yet if they are let alone they get along just as well as the young man who tries to be funny at a lawn party.

Capt. T. J. Southerland received yesterday a very handsome four-horse omnibus, capable of seating sixteen persons, with room for one more inside, with which he proposes to carry passengers to and from the Sound. It is both neat and comfortable.
