General Condition as Indicated by the

September Report. WASHINGTON, September 26.-The September report of the condition of the wheat crop shows that there is a slight decline in yield in New England, but the Middle and South Atlantic States show decided improvement. The Atlantic slope generally enjoyed favorable conditions of growth. The improved condition of Alabama and Mississippi was more than counteracted by the heavy decli .e in Texas, which shows less than two thirds of an average. Drought was very severe in the extreme Soutowest Arkansas and Ohio Valley, from Tennessee to Wisconsin, shows a very marked improvement; the reports from nearly all the grade advanced on Thursday last from counties being of a cheerful tone and indicating general satisfaction. West of the Mississippi the decline in Kansas and Nebraska is more than compensated by the improvement in the other States of this region. The Pacific States fall off. The great winter wheat States, though still much below the average, are in much better condition than last year. The indications point to an increase over the yield of 1878.

P.TAT ES.

The condition of potatoes, as returned Sel tember 1, shows a slight decline from the August return. The average of the whole country is 93, against 97 last month. As compared with last year there is a great improvement, the average then, at the same time, being only 73. In the New England and M ddle States, which the crop of the whole country, the average | running. is very high. In the States north of the Ohio River the crop does not promise to be a full one, but still is very much better than last year. Drought is the general complaint in all the West. Insect injuries are noted principally in Kansas, in which the drought is reported as very det rimental.

BUCK WHEAT. In the New England States the buckwheat crop promises wel . In New York and Pennsylvania, two States that raise two-thirds of the whole crop, the average is very high. In the States North of the Ohio River the average is low on account of the drought. 'Michigan, which raises more than any Western State, reports a very destructive frost on the last of August. Wisconsin reports the same. The condition for the whole country is 98 somewhat better than last year.

The returns in reference to sorghum to September 1 indicate a high condition and 95, against 84 for last year. In all the Southern States except Texas the condition is good Many correspondents are enthusiastic regarding the early am ber variety. In the Northern and Northwestern States the condition is higher.

General Grant's Entertainment.

SAN FRANCISCO, Cal, September 26. -On his return from Oakland last evening General Grant attended a private banquet. A number of distinguished gentlemen were present, including Governor Irwin, Mayor Bryant, General McD well General Miller, Senators Jones and Sharon, Cougressmen Page and Davis, of California; Templeton, of Illinois, and Hazleton, of Wisconsin. In reply to a toast, General Grant said: 'The good opinion of my countrymen is dearer to me than the praise of all the world beside.

The General later left for the Carnival ball. A large number of maskers were present. General and Mrs Grant, Mayor Bryant, Governor Irwin and others sat in a private box which was draped with flags and ornamented with flowers. The party was received with cheering, and the box was the centre of attraction during their

In a Perilous Place. The schooner American Eagle arrived here to-day from Newport, having on board as passengers, Mr. J. L. Minner, and his three children-two boys and one girl, who were taken on at Beaufort. They ran along the coast and on Wednesday ar rived at the Swash just below New Inlet, where they attempted to enter. Finding they could not get in, in consequence of advice of a physician, to either call or a strong Northwest wind which sprang write to Dr. Robertson, 19, So. Eutaw St., up on Wednesday afternoon, they auchorel there. During the night he wind in creased and on Thursday morning the sea was so high that they were great peril of their lives. that morning several small v sseis which were anchored inside the river sent their boats to the beach but could not dare to venture in such a sea. The situation became very critical when finally Mr. Joseph T. Foreman, a fisherman, manned a life-boat with four men and succeeded in reaching the schooner, which, with the loss of her anchor and cables, was piloted by Mr. Foreman through the swash and safely into the river. Mr. Minner, as well as Capt. Schroder

and his mate, Mr. Walker, speak in the highest terms of the coolnes and bravery displayed by Mr. Foreman and they are emphatic in their assertions that it is to him that they all owe their lives.

Mr. Minner is a watchmaker and has come to Wilmington to reside and to carry on his business.

Mr. L Vollers advertises in this issue his removal to the new store on Front street, formerly occupied by Mr. F. A. Schutte as a furniture establishment. Mr Vollers carries a large and well assorted stock of goods and will be pleased to serve the public with any thing in his line at prices which cannot be beaten in this market. See advertisement. .

The Census Report.

Walker Meares. Esq., who was appointed by the Mayor and Board of Aldermen, to take a complete census of the city, has finished the task and made a full and exhaustive report of the result of his labors. Mr. Meares has given his strictest personal attention to the duty assigned him. We have space to give but a synopsis of the result.

The total population of the city aggregates 17,004, of which 6 716 are which and 10,288 colored. The population in 1850 was 7 264, of which 3,581 were whites and 3 683 were colored. In 1860 the population was 9,552, of which 5,102 w re whites and 4 350 were colored. In 1870 it was 13 446 of which 5 526 were whites and 7,920 were colored. This shows an increase in nine years of 3,558, nearly 21 per cent.

The mortuary statistics show a death rate of 14.37 among whites, and -23 54 among oncolcred; the death rate of the entire population being 20.

The two oldest persons are Polly Brock, white, aged 97, and Raineg Corcoran, olored, aged over 100

There are 247 Pianos, 876 Sewing Machines, 348 Cows, 370 Horses, 497 Hage, and 1.178 Dogs, and we believe hey all bark eight hours a day on ar iverage. We sincerely hope that all the urs are accounted for.

There is much other matter of importance embedied in the report to which we vill call attention at some future time.
