Magnificent Sight in the River Opposite New Orleans.

The arrival of Captain Leathers new s.eamer, Nate ez, was in patient ly expected, and thousands of people gainered on the levee to witness the magnificent sight. The boat was behand time, and it was not until 10:45 that the cannon at the for of Canal street at n nuced that the vessel was in light, coming around the upper bend. A great commotion was visible on board the vessel. The latter was just passing Poydras street, and the uproar was at its height. Steam tugs were running hither and thither, whisthing and straining with all their might, when suddenly clouds of dense black smoke were seen issuing from the starb and main deck amidships. and word went from mouth to mouth, bottled, in the city. 'The Natchez is on fire! the Natchez is an fire!' The whole s arboard side of the versel, from the wheel-house forward, seemed wrapped in flames. and the smoke lay thick along the

It was found that out of 2,600 bales of cotton on board before the fire 500 had been burned or thrown overboard. Of the 2,800 sacks of cotton seed about 400 were destroyed The restlof the cargo of 300 sacks of grits and 300 tons of miscellaneous cargo were saved. The boat was not damaged to any considerable extent. The loss on the cargo is about \$27,000 The salvage will be considerable.

Savages and Regular Armles.

The experience of the United States forces in the far West and of the French armies in Algeria are shared by the British in South Africa and Alghanistan and by the Russians in Turkestan. A well drilled tribe of hardy fighters, with a chief having military kill can nearly always teach a regular army that they are not to be despised. What Abdel Kader was to the French and Sitting Bull to the Unit d States Cetewayo 1 as been to the British. The defeat of Lord Cielm ford was almost the counterpart of the defeat of Gen Custer. LIFE IN A BOTTLE.

The Most Valuable Medical Discov ery Known to the World-No More Use for Quinine, Calomel or Mineral Poisons-Life for the Blood, Strength for the Nerves, and Health for All.

AN OPEN LETTER TO THE PUBLIC

Believing that by cleansing the blood and building up the constitution was the only true way of banishing disease and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c, and after trying the best physicians and paying out my money for many kinds of medicines advertised without finding a permanent cure, I began doctoring myself, using medicines made from roots and herbs. I fortunately manently established, with a large discovered a wonderful Bitters or Blood Cleanser, the first bottle of which gave me new life and vigor, and in time effected a permanent cure. I was free from catarrh, my lung. became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discove y in medicine, I prepared a quantity of the Root Bitters, and was in the habit of giving them away to sick friends and neighbors. I found the medicine effected the most wonderful cures of all diseases caused from humors or scrofula in the blood, Imprudence, Bad Stomach, Weakness, Kidney Disease. Torpid Liver, &c, &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients with medicine far and wide, and I was induced to establish a laboratory for compounding and bottling the Root Bitters in large quantities, and I now d vote

al' my time to this business. I was at first back ward in presenting either myself or discovery in this way to the public, not being a patent med cine man and with small capital, but I am getting bravely over that, Since I first advertised this medicine I'have been crowded with orders from druggists and country dealers, and the hundreds of letters I have received from persons cared, prove the fact that no remedy ever did so much good in so short a time and had so much success as the Koot Bitters. In fact, I am convinced that they will soon take the lead of all other medicines in use.
