

AT CABUL.

Reported Blowing Up of the Bala-Hissar Magazine. Fighting Resumed. Yakoub Determines to Resign the Throne.

LONDON, Oct. 20.—The Daily Telegraph publishes the following special despatch from Ali-Kheli:—The magazine of the Bala Hissar has been blown up. Twenty-seven of the British forces and many Afghans were killed.

Fighting has been renewed at Sirik-Kotal. The position was held by ninety Sepoys against the odds. The enemy left twenty-five dead. Ameer Yakoub Khan has announced his determination to abdicate, and states that he intended to abdicate earlier, but was dissuaded. General Roberts has advised the Ameer to consider the matter, but the Ameer firmly adheres to his resolution. Gen. Roberts is, in consequence, making arrangements for maintaining order in Afghanistan and carrying on the administration.

An official despatch from Gologhat announces that the British deputy commissioner in the Naga Hills was murdered by the Nuzema-Hagas on the 14th inst. His assailants were subsequently dispersed by a British detachment. An attack on Kokonga was expected, and troops were sent there from Gologhat and Wokha. The Daily News understands that the government has decided on the immediate construction of a railway to Colaba, and are already purchasing material.

A despatch to the Times from Cabul says General Hills, Military Governor of Cabul has reported the advance of three Afghan regiments of cavalry and six regiments of infantry from Turkestan. There is one case of cholera in Cabul. The British troops will probably be quartered during the winter in the Bala Hissar and the Shirpur cantonment. The Ghilzais in the neighborhood of Shatargardan are still markedly hostile. Ten miles of telegraph line have been cut and carried away between Peiwar and Shatargardan, stopping communication with General Roberts. The Rumpa rebellion has entirely collapsed.

THE GEORGIA SOLDIERS.

Another Visit at Hartford—Hearty Civilities on Every Side.

HARTFORD, Conn., Oct. 19.—The announcement that the Gate City Guard would return to this city on their way back from Boston was hailed with general satisfaction. Meetings of the military officers and citizens were held on Saturday evening and arrangements were perfected to give them a welcome even more hearty than that of Thursday last. They arrived at half-past one this morning and were met at the depot of the Consolidated Railroad by delegations from every military organization in the city. They were escorted to the United States Hotel, where they were left to a season of rest. Later in the day most of them attended divine service at the various churches. Captain Burke heard mass at St. Patrick's Church.

In the afternoon they accepted the invitation of ex-Governor Jewell and visited his residence, where they were hospitably entertained. Among other delicacies served each man was given a tumbler of water brought by Governor Jewell from the Dead Sea and River Jordan. This evening the Gate City Guards are being entertained at many of the residences of our citizens. General William H. Greer, on behalf of the citizens, tendered the services of Colt's Band to the visitors during their stay. To-morrow morning they will visit Colt's armory and witness the performance of the Gatling gun. They will also visit the new Capitol and other places of interest. In the afternoon there will be a parade, in which all the military organizations of the city will take part. Then the Georgians will give an exhibition drill in Bushnell Park. They will leave for New York on the midnight train of Monday.

The Guard are delighted with this city and its hospitalities, and Captain Burke said this evening that he regretted not being able to remain here for the rest of his life. His company have greatly prepossessed the young men of the city, and friendships have been formed which it is hoped will last. No company that ever visited the city has made such a favorable impression as this.

THE FLOODS IN SPAIN.

Two Thousand Houses Destroyed and One Thousand Persons Killed.

MADRID, October 19.—Further inundations have occurred in the provinces of Almeria, Malaga, and Alicante. Several persons have been killed and much damage has been done to property. In the Malaga and Alicante districts 2,000 horses have been destroyed, and it is believed 500 persons perished by the floods. The damage to property is estimated at 30,000,000 francs.

A later telegram from Murcia says that 570 bodies have already been found. It is believed that over 1,000 people have perished.

The Drought in Pennsylvania.

POTTSVILLE, October 19.—The slight rainfall of yesterday has had little or no effect on the water supply, and the prolonged drought is seriously felt at the collieries. The Turkey Run, Pine Forest, and Lower Rausch Creek Colliery, before reported suspended, is now being supplied with water hauled from Mahanoy Place, and quite a number of collieries in the Mahanoy Valley are supplied with water brought by rail from Coridan. Water trains are running all day for this purpose. At Shenandoah half the town is virtually without water, being limited to one hour's supply in the morning and one at night.

THE COLORED EXODUS.

Work of the Relief Board of St. Louis—A Larger Emigration in the Spring Expected.

St. Louis, Mo., Oct. 19.—The Colored Refugee Relief Board, organized here about six months ago to aid destitute colored emigrants from the South, has made a report of its transactions. The treasurer's report shows that the receipts have been \$8,581 and the disbursements \$9,239, leaving the Board \$658 in debt. Besides this the Committee has issued over 70,000 rations, and distributed over 20,000 pieces of clothing among the refugees, which goods are estimated to have been worth about \$12,000. The report says that about twenty per cent of the refugees are still destitute, some cases sick and superannuated, and even blind, and requiring constant help. The Committee on Transportation report having sent 6,311 men, women and children to Kansas and other States. The exodus still continues, and although greatly diminished the arrivals average twenty to thirty families per week. The movement is not now confined to Mississippi and Louisiana, but is spreading, a majority of the recent arrivals having come from Alabama and Tennessee. Their condition is much improved, many being well prepared for the journey. Information has been received that the exodus would assume larger proportions than ever next spring. Advice from Tennessee and Northern Alabama say relief boards are being organized there, which will co-operate with the board here and render what assistance they can.

The Attempt to Kill Postmaster Nix.

WASHINGTON, Oct. 19.—Senator Wade Hampton has written a letter to D. M. Key giving his version of the attempted assassination of Postmaster Nix at Blackville, S. C. Mr. Hampton says that the attempt to murder Nix grew out of a personal difficulty between him and Nix, but that Nix was a reckless fellow, and that politics had nothing whatever to do with the affair. This statement does not tally with the investigation made by an agent of the department. Mr. Key has directed Nix to remain in charge of the Postoffice at Blackwell and to treat the people with whom he has business courteously. Assurances of the protection of Nix have been sent to him by the de facto Postmaster-General.

The Ingalls Investigation.

WASHINGTON, Oct. 19.—Members of the Senate Investigation Committee, which has been out to Kansas inquiring into the manner by which Senator Ingalls was elected, have arrived here on their way home. Chairman Sanbury says that of course nothing can be said as to the character of the report to be submitted to the full Committee. It may be said, however, that there is a strong probability that more testimony will be taken in the case in the full Committee, which meets in December. Ingalls's statement that the sub-Committee has unanimously decided to exonerate him can be set down as one of the kind so frequently made by him last winter when he was trying, with very few methods, to save an investigation.

"Don't know half their value." They cured me of Ague, Billiousness and Kidney Complaint, as recommended I had a half bottle left, which I used for my two little girls, who the doctors and neighbors said could not be cured. I would have lost both of them one night if I had not given them Hop Bitters. They did them so much good I continued their use until they were cured. That is why I say you don't know half the value of Hop Bitters, and do not recommend them high enough.—B. Rochester, N. Y. See other column.

CAROLINA.

Mr. Wm H. Humford, residing near Fremont, had a leg badly crushed Thursday evening in being run over by a wagon loaded with cotton.

The Raleigh Visitor, speaking of the Fair, says: Capt. O. B. Denson is winning golden opinions for his untiring energy and devotion to the interests of all participating in the exhibition. He deserves and should receive general commendation.

Goldsboro Messenger: Two negroes, Sampson Best and General Best, were sent to the penitentiary from this county last week, for the term of one year each for cotton stealing. Monday night they stole the cotton from Col. John W. Isler, and Thursday night found them in the penitentiary. Quick justice.

Goldsboro Messenger: On Saturday last, Mr. Jesse Jones, an old man, about 75 years old, met a most terrible death at what is known as the old Exum grist mill, now owned by Mr. R. L. Paschall, about 10 miles from Goldsboro. It seems that he was engaged in regulating something about the mill, when his coat was caught by the gearing, and before he could extricate himself, his body was dragged and crushed between the teeth of the large iron driving wheel and the pinion attached to it. When assistance came the mangled dead body was found suspended some eight or nine feet above the floor, with bowels and breast literally ripped open from the right hip up, presenting a most shocking and heart-rending sight.

The Gate City Guards in Boston.

BOSTON, October 18.—Among those who attended the banquet given the Gate City Guards last night were Gov. Talbot and staff, Col. R. M. Pulsifer, Mayor Prince, Gen. Underhill, U. S. A., and other prominent gentlemen. The occasion was one of great magnificence. Capt. Thomas, of the Boston Light Infantry, made the welcome address, which was responded to by Capt. Burke, of the Atlanta company. Several other speeches were made. The Gate City Guards were presented with a fine medal as a token of friendship by the Boston Light Infantry.

Dr. Mott's Endorsement of Speer's Port Port Grape Wine.

The following, from the celebrated Dr. Mott of New York, speaks wondrously for Mr. Speer's efforts to raise the Oporto Grape in New Jersey:

62 MADISON AVENUE, NEW YORK, April 11, 1878.

MR. ALFRED SPEER—Dear Sir: The visit which I made last year to your Vineyards, wine-presses and vaults at Passaic, N. J., satisfied me thoroughly that the wines manufactured by you are pure and unadulterated, and the very best that can be offered to the public for medicinal uses.

Acting upon my favorable impressions at the time, I have since recommended the Port Wine more particularly in my practice, and am satisfied, with marked benefit, to my patients.

There can be no better proof to the doubting mind, as to the Wine being made of the finest Oporto Grape, than a visit to the acres of land covered with the vine bearing the luxuriant fruit. Wishing you success in your praiseworthy enterprise,

remain respectfully yours,

ALEX. B. MOTT, M. D.

Prof. of Surgery, Bellevue Hosp. Med. College, &c., &c. For sale by J. C. Munda, Green & Flanner, P. L. Bridgers & Co.

LOCAL NEWS.

Turner's Almanac promises fair weather for to-morrow.

The steamship Benefactor, Capt. Jones, arrived here this morning from New York.

If there has been as much rain in the interior as we have had here we may look for a good freshet in the river.

The storm signal has disappeared and the wind has got around to the Southeast, while the atmosphere is several degrees warmer than it was yesterday.

Those who may have lost one or more keys to lock-boxes in the Postoffice are requested to call at the delivery window and examine those found and left there from time to time.

Fire Alarm.

A fire alarm telephone was erected on the corner of Seventh and Market streets this afternoon. Boxes are being made for the telephones and the fire alarm throughout the city will be completed in a day or two.

Very Low.

We regret to learn that Dr. W. W. Davis, an old and esteemed resident of this city, is now lying at the point of death at the residence of Mr. Samuel Davis, on Eighth, between Market and Dock Streets. He has been unconscious all day and his death may be announced to-night. Dr. Davis has long been a sufferer from an incurable disease and has been confined to the house for months past.

The Postal Card.

Speaking of this thoroughly popular medium of communication, which is now permanently entrenched among our many American institutions, some newspaper writer says that the postal card will never be looked upon other than as a piece of public property, no matter to whom it is addressed, and there are very few people in this world who would shrink from reading all that it may contain, whether it is any of their business or not. It is a species of mail-matter which will never be regarded with the sacredness which clings to a sealed letter, and no secrets which are not for common eyes will ever be entrusted to it by the judicious. Its use will always, or at least as long as human curiosity exists, be confined to business notices or unimportant matters, to which any one who chooses to read is welcome. Still, it is a cheap and sometimes convenient kind of postal matter, and the number of these cards that daily pass the mails is immense.
