#### A Tempest in a Teapot.

A gentleman who came in on the C. C R. W., this morning, says that there was a great hubbub at the depot in Monroe last night. It seems that a light-fingered gentleman of color had broken into a store in the town, a few nights previous, and had made his escape. He was afterwards captured at Matthews', and brought down to Monroe on last night's train. His arrival at that point was greeted by a mob of about one hundred persons who seemed very much excited and bent on having a good time of it. Barnes & Co. at a subscription off to jail by the officers by a circuitous route. It was literally a tempest in a tea-

#### Our Drinking Water

Analysis of drinking water from this city made by Dr. A. R. Ledoux, chemist of the North Carolina Roard of Health, with his comments as to their quality. The names of owners are purposely omitted for evident reasons, as each person sending samples is furnished with the analysis:

fit to drink. The North Carolina Board of Health

proposes to give from time to time the analysis of the drinking water examined by the Chemist of the Board. The quantity of chlorine represents

common salt in solution, and the albuminoid ammonia the products of decay of organic substances. Either in large quantities shows that the water of the well receives the leachings of outhouses; both in large quantitles gives a highly dangerous quantity present.

#### Map of the City.

Mr. J. N. VanSoelen came into our office to-day with a copy of the city map, the original of which was prepared by Messrs. James & Brown, Surveyors and Engineers, of this city. The copy was made by Mr. VanSoelen with pen and ink, and is a fine piece of work. He has prepared a number of copies, which may be obtained of him for \$4 per copy. The work displays great care, skill and patience, and is really a very creditable effort.

As usual in such cases, a large circle of admiring friends were in attendance at the trial, whose comments upon the merits of the case we suppress for cogent reasons.

Cody, or Buffalo Bill, as he is most generally known, is the chief central figure, will put in an appearance at the Opera House in this city en the evening of Thursday, the 22nd inst., in a play representing border life, entitled the "Knight of the Plains." Some people have a tashion of confusing excellent remedies with the large mass of 'patent medicines,' and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of-Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them .- Tribune.
