BROWN & RODDICK. 5 & 10 Cent Store. (N. E. CORNER OF MARKET AND SECOND STREETS.)

WE TAKE THIS OPPORTUNITY of thanking the general public for their very liberal patronage in the above branch of our business and desire to state that at no time since our first opening have we ever carried such an assortment as at present. Having anticipated the recent great advance in such goods, we are now fully prepared to offer the

Largest and Cheapest

assortment ever kept in this section at any time. We can with truthfulness assert that our stock is more than double the size of any other of this kind south of Baltimore. It is a very easy matter to call in and verify the above statement. We would also add that we have of late added several new departments to the above, which we retail at higher prices, consisting of many useful articles in Housekeeping, &c., such as we have a demand for, and in future will endeavor to keep adding and making every thing we can buy useful and below value. Our intention is to make this THE STORE of the South for

Bargains of all kinds.

The following is a very imperfect list but our space will admit of no more.

Mr. P. Heinsberger, at his 'Live Book Store,' has on sale a few copies of the Religious Herald, containing an account of Rev. Dr. Jeter's illness and death.

!!We are very sorry to learn that Capt. Cuts, of the Wilmington & Weldon R.R., is quite sick at his residence in this city. His train is run by Capt. George Morrison, who is probably the oldest railroad man in the United States.

Our old Wilmington friend, Col. J. R. Davis, appears to be getting along very comfortably at Weldon. He keeps a very good house and entertains as many people as the constantly arriving and departing trains will bring him. He is still renowned for two things—the excellence of his coffee and his personal attention to the comfort of his guests.

Burglary.

The residence of Mr. W. B. Orr, on Third, near the corner of Red Cross streets, was burglariously entered last night and robbed of thirty cents and a five cent cut of chewing tobacco. The thief effected an entrance through a side window, and after rummaging through the house and ransacking the bureau drawers and one or two trunks departed. He was evidently after money, as a valuable watch and chain, which was taken out of the trunk, was laid carefully on the bureau. A jewelry case which contained quite a sum of money was taken out of a trunk and thrown on the floor without being opened. The burglar took up Mr. Orr's clothes and after examining them, threw them back. On the lappel of the coat was pinned a piece of paper on which was written, 'too mean, wont take em.' Mr. Orr is thankful for the consideration shown him and promises at their next visit he will be prepared for them and respond warmly to their call.

The North Carolina Medical Journal.

We have received the February number of the above named magazine. The enterprising publishers, bring out in the number before us 138 pages of matter of interest to the profession, as well as much that would be interesting and instructive to the laity, and written so plainly as to be easily understood by the non-professional reader. A brief memoir of the late lamented Dr. Edmund Strudwick, whose death under very unfortunate and sad circumstances was announced in the REVIEW soon after its occurrence, is published in the present number.

Few are aware of the importance of checking a Cough or common Cold in its first stages. That which in the beginning would yield to a mild remedy, if neglected, soon preys upon the Lungs. Dr. Ball's Cough Syrup affords instant relief.

Futile Attempt.

An attempt was made last night to rob the dwelling of Mr. Robert Orrell, on the corner of Third and Red Cross streets. As the thief raised a window a colored woman who was sleeping in the house called out "who's dat" and the thief beat a hasty retreat.

Personal.

Gen. C. C. Auger and Paymaster Gen. E. Glenn arrived in this city last evening and started this morning to Smithville to pay off the soldiers at Fort Johnson.

Mr. Robert Portner, proprietor of the Alexandria, Va., Beer Brewery, is in the city in the interest of his business, of which there is a branch office here.

Changed his Residence.

We have been aware for some time of the intention of our friend, Dr. W. T. Ennett, to remove from Asheton, where he has for a number of years been located, to Burgaw, and by postal card received this morning we learn that the change has been effected, and that he may in the future be addressed at the latter place.

Religious Herald.

We have received from the publisher, 1115 Main Street, Richmond, Va., a copy of the Religious Herald containing a likeness of the late Rev. J. B. Jeter, D. D., together with an interesting account of his illness and death, including memorial addresses by Bishop Doggett, Dr. J. L. M. Curry, Dr. T. S. Dumaway and others. The paper will be mailed to any address upon receipt of ten cents by the publishers.

Meaning of the Terms.

Many are puzzled to understand what the terms 'fourpenny,' 'sixpenny' and 'tenpenny' mean as applied to nails. 'Fourpenny' means four pounds to the thousand nails, or 'sixpenny' means six pounds to the thousand, and so on. It is an old English term, and means at first 'ten pound' nails (the thousand being understood), but the old English clipped it to 'tenpenny' and from that it degenerated until 'penny' was substituted for 'pounds.' When a thousand nails weigh less than one pound they are called tacks, brads, etc. and are reckoned by ounces.

Dandruff eradicated, the scalp made clean, and gray hair restored to its original youthful beauty and vigor by the use of HALL'S VEGETABLE SICILIAN HAIR RENEWER.

City Court.

Joseph Williams, alias Joseph Campbell, a sable hued "gemmen," was found by Mr. W. N. Bowden on his premises on the corner of Fifth and Chestnut streets, last night, snugly concealed in one of the outhouses. Mr. Bowden immediately collared the individual and took him down to the Guard House. Upon all these facts being submitted to the Mayor this morning, His Honor said \$20 or thirty days, and defendant went below. David Mallett, a frequent visitor at the Mayor's morning levee, was arraigned upon the charge of being drunk and down. The Mayor said five days and the prisoner was escorted to the C. P. This finished the docket and the Court adjourned.

A Commemoration.

It is impossible to say too much in praise of the management of the Wilmington & Weldon R. R., and we speak with no desire of fulsome praise but simply in a spirit of local self-pride. The Editor of this paper traveled over the Pennsylvania R. R., from New York to Baltimore, on Wednesday, and yesterday he came down the Wilmington & Weldon Road. The comparison is in every way in favor of our road. It was a fast train and yet we were compelled to change cars twice between New York and Baltimore. The schedule is only a few miles faster than ours and that, too, notwithstanding the fact that it is a double track, while the cars are very inferior. We rode yesterday in a smoking car on the Wilmington & Weldon R. R., that was much superior in size, make, finish and ease, to any first-class car on some of the big Northern roads. The Wilmington & Weldon coach was manufactured at the Company Shops in this city.

An Old Man Restored to Health.

BATAVIA, N. Y., Sept. 15, 1879. H. H. WARNER & Co, ROCHESTER, N. Y.—GENTLEMEN—"For forty years I have suffered with Diabetes, being obliged to void urine as often as once in 30 minutes, and have also been a great sufferer from palpitation of the heart. I am now using your Diabetes Cure, and can truly say, at 70 years of age, that it makes me feel like a new man."

Monthly Bulletin of the North Carolina Board of Health.

We have not had time before to examine the Bulletin with sufficient care to give an opinion as to its merits. The work seems to us unique in its character, and will make a valuable addition to the vital and economic statistics of the State.

The records ran thus: The Population of the County and County Town, Prevailing winds, Number of rainy sets, Number of days of snow, Prevailing diseases, Epidemics, and the number of cases of Preventable Diseases or Diseases Dangerous to the public, are given. Next comes Diseases of the domestic animals. Then the condition of the public buildings, giving under this head the number of inmates of the Poor House, Prisoners in Jail, with statement as to cubic space allowed to each, and the character of food served to them, and the condition of the wells and privies. The number of Public School Houses is given, the material of which they are built, the ventilation, the drinking water, and the condition of the privies. Under the head of 'Sanitary Condition of County Towns,' the question, 'Has there been any drainage in streets this month?' 'Are any efforts being made toward improving the sanitary condition of the town?' 'Any improvement in condition of Public Buildings?'

The first Bulletin gives the reports from 26 counties out of 94, and some of these are incomplete. Still we see how great is the labor involved, and know that it is no easy matter to get prompt returns. We see furthermore that as these bulletins get more and more complete, what a great aid it must be in giving our people at home, and particularly those we are endeavoring to attract towards our State as settlers, a correct idea about matters in which they are so greatly interested.

We hope the physicians of North Carolina are using their individual efforts to aid Dr. Wood in his laborious work. If they are waiting to see a success before they identify themselves with it, we think we can say truthfully that they may safely waiting now, and they will not regret having been among the pioneers in sanitary science.

A Voice from Smithville.

SMITHVILLE, Feb. 26th, 1880. EDITOR REVIEW:—If we could only get our REVIEW the same day it was printed; if we could be assured that we could always visit your city and return to our homes the same day; if our friends in Wilmington could be enabled to come down and spend a few hours with us, and return, if they wanted to, the same day; then we should be happy.

Getting our REVIEW the same day it was printed would keep us posted in the Democratic faith-and doctrine, and we should consequently be wiser and more virtuous. Being able to visit the chief city of North Carolina conveniently, and at slight expense, would enable us to keep up with the fashions, and do all our shopping there instead of being forced to do our shopping by mail in New York City, and would save the great expense now incident to the trip by being obliged to spend two days and nights, if we have much business to attend to. Enabling our friends in Wilmington to visit us frequently and return at their convenience, would promote their health and happiness and would be extremely pleasant for us also. The accomplishment of these desirable things would also be among those which Wilmington, as a commercial city, should desire to promote. It would greatly benefit one of the routes which is a feeder for the city, and would eventually build up a watering place to which the people of the surrounding country, for hundreds of miles, would naturally come, passing through Wilmington, and spending much money there, on the way to the seaside.

Strange as it may seem, all this can be accomplished without anybody spending a cent of money, and it is somewhat remarkable that one man can do it. Our enterprising and genial friend, the agent of the fine and commodious steamer Pass-po 4, holds the cards to win it; game; at least he does in the opinion of this writer.

Start from Smithville at 6 a. m.; leave Wilmington on the return trip at 9 a. m.; leave Smithville at 1 p. m.; and Wilmington, on the return trip, at 5 p. m.;—making two regular trips each day, from the 1st of May to the 1st of October, and one trip the remainder of the year, unless experience should prove that two trips the whole year would pay better, and you have the whole scheme in a nutshell. On the morning trip up, the steward of the Pass-po 4 would always provide an appetizing breakfast for the passengers, and on the night trip down a sumptuous repast of fish, crabs, shrimps and other luxuries, so that on their arrival they would be in fine humor with themselves and all the world. Many of these passengers would be so enamored with the delightful trip that they would invest in building lots in Smithville, and cottages, a la Newport, would spring up like magic; a large and commodious hotel, with all the appointments for summer pleasure, would follow the establishment

of such a schedule, and the success of the steamer be placed upon a permanent and secure basis. It would be for the interest of everybody, at both ends of the route, to give all their patronage and influence to this line, and it would be of great advantage to the commercial interests of Wilmington. The Pass-po 4 is a fine steamer, well fitted, and well managed. She can make the 104 miles a day regularly with entire ease. Let us take a new departure, and surround Wilmington with attractions. Your paper, Mr. Editor, will not be behind in advocating any scheme for building up and advocating the prosperity and happiness of our people.

Physicians' Wine.

New York physicians say that they have been using Speer's Port Grape Wine and Wine Bitters in their practice for years, to the entire satisfaction of their patients and themselves, and take great pleasure in recommending them to the public as being all that is claimed for them, and in fact the most reliable they can find. For sale by Green & Flanner, Jas. C. Munds and P. L. Bridgers & Co.

From the Quaker City.

E. J. Campbell, of Philadelphia, under date of Oct. 4, 1879, certified to the wonderful efficacy of Warner's Safe Pills and Safe Tonic in removing a liver disease accompanied by chronic constipation and yellow skin.

Fees of Doctors.

The fee of doctors in an item that very many persons are interested in just at present. We believe the schedule for visits is \$3 00, which would tax a man confined to his bed for a year, and in need of a daily visit, over \$1,000 a year for medical attendance alone! And one single bottle of Hop Bitters taken in time would save the \$1,000 and all the year's sickness.—Ed.
