**Personal.**  
We regret very much to learn that Bishop Atkinson, while on his regular official visitations in Eastern Carolina last week, was suddenly taken quite sick at St. John's church, Durham's Creek, on the 14th instant, and compelled to forego his other official duties for the present and return to his home in this city, whither he arrived last night or this morning. We are glad to be able to state, however, that the venerable and much beloved Bishop, though still unwell, and confined to his bed, hopes very soon to be able to resume his regular visits again, and by the advice of his physician believes, D.V., that he will be able to be at Newbern on Monday, the 2d of May, if he does not sooner get on his regular visitation.

**Peach Crop.**  
We understand that the peach blooms along the line of the Wilmington and Weldon Railroad have been materially injured and the crop in that direction will be short. We also understand that the peach trees and blooms up the Black river have not been affected and that the indications point to a large crop in that section of the country.

**Attempted Robbery.**  
A few nights ago an attempt was made to burglarize the residence of a lady living on Fifth, between Ann and Nun streets. About 3 o'clock in the morning she was aroused from her slumbers and discovered a man crawling in the window. She asked, "What are you doing there?" when the thief beat a hasty retreat. In her excitement she sprang from her bed and ran to the window; the sash, which had been taken out and leaned against the wall, fell over against her head, which was severely cut by a window pane which was broken in the fall.

**Useful Measurements.**  
The number of square feet in an acre is 43,560. In order to have this area the piece of land must be of such a length and breadth that the two multiplied together will produce the above number. Thus, an acre of land might be 43,560 feet long by one foot broad; 15,187 feet long by three feet broad; 7,594 feet long by six feet broad, and so on. If the acre of land is to be exactly square, each side must be as nearly as possible 208 feet 5 1/2 inches. The nearest you can come to an exactly square acre with an even number of feet in the side is to make it 220 feet long by 198 broad.

The best and cheapest in the world. Dr Bull's Cough Syrup costs you only 25 cents, and if it does not cure your Cough you can get your money back.

**Greenbackers in Conclave.**  
The Greenbackers pow-wowed a little while at the Court House this morning, the occasion being the meeting of the County Executive Committee, to appoint delegates to the Greenback State Convention which is to be held at Greensboro on the 5th of May. A little superfluous gas found vent in a few speeches by some few ex-Republicans who are now staunch Greenbackers and members of their Executive Committee. The meeting finally concluded, however, to postpone the appointment of delegates to the State Convention until next Saturday at 12 o'clock, at which time the Committee propose to come together again at the Court House in this city and save the finances of the country from being all absorbed in one direction.

## Invited to Attend.

The Cornet Concert Club has been invited to attend the Commencement of the Wake Forest College, which takes place on the 5th, 9th and 10th of June. The young gentlemen have not yet decided whether they will accept the invitation, but if they do the citizens of Wake Forest can expect to hear some fine music.

An infallible remedy for Fever and Ague is AYER'S AGUE CURE. Wholly vegetable and containing no quinine, it is harmless and sure.

**The Excursion To-Morrow.**  
The excursion on the steam yacht *Passport*, postponed from Wednesday last, on account of the weather, will take place to-morrow. The boat will leave her wharf at 9 o'clock, or as soon thereafter as possible, and will visit Fort Fisher, Smithville, Bald Head and Fort Caswell. Refreshments will be furnished on board at city prices and attentive waiters will be on hand to supply the wants of the excursionists. As it promises to be clear and pleasant to-morrow we trust that there will be a good turnout. Fare for the round trip 50 cents and half price for children under ten years.

**Marshals for Memorial Day.**  
The following gentlemen, ex-Confederate soldiers, have been selected by the Ladies' Memorial Association to act as Marshals on Memorial Day, all of them having accepted the invitations extended them, viz:  
Chief Marshal—James C Stevenson.  
Assistant Marshals—A Carpenter, H C Prempert, J H Hicks, James F Post, Eugene A Maffitt, J A Mallard, Thos D Meares, Roderick McKee, C H King, E W Manning, W A Whitehead, E H King, John A White, T A Brown.

The Marshals, as also the commanders of military or civil organizations which propose to take part in the ceremonies, are requested to meet at the Library Room, in the Masonic Hall building, to-morrow (Friday) evening, at 8 o'clock.

**On to the Sound.**  
A railroad to the Sound seems now to be a fixed fact. A number of gentlemen of energy, ability and capital have the matter in hand and are confident of building the road at a very early date. They have been agitating this matter for some time past and at an informal meeting held by them a few evenings ago the matter took a definite shape. With a view of giving the public a correct understanding and to allow them a chance to engage in the enterprise, a meeting has been called for next Monday evening at the Court House at 8 o'clock. The plans etc, will then be explained and subscription books opened. Over five-eighths of the amount required to construct and put in operation this much needed road has already been raised and the projectors, in coming before the public with so much of the stock already subscribed, give a guarantee that this is no idle speculation. In addition to the railroad, a very large and desirable tract of land has been secured on which to erect depots, hotels etc. Now that the ball is fairly in motion we are confident that the matter will be pushed and that the long desired railroad to the Sound will soon be built and in operation.

## Treating the Wrong Disease.

Many times women call upon their family physicians, one with dyspepsia, another with palpitation, another with trouble of the breast, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent doctors, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all symptoms caused by some uterine disorder; and while they are thus only able perhaps to palliate for a time, they are ignorant of the cause, and encourage their practice until large bills are made, when the suffering patients are no better in the end, but probably worse for the delay, treatment, and other complications made, and which a proper medicine directed to the cause would have entirely removed, thereby instituting health and comfort instead of prolonged misery.

R. V. PIERCE, M. D.

Dear Sir—I write you about a most remarkable cure of a lady friend of mine—Mrs. Luthorn. Since her marriage thirteen years ago, she has suffered greatly from uterine disease which caused sterility. She tried the most eminent physicians of this part of the country, who told her she would have to undergo an operation with the knife. Being afraid of this, she was induced by reading your Medical Adviser to take your Favorite Prescription and Pellets. She used three bottles; as a result she entirely recovered her health and is the happy mother of a healthy babe. Very truly yours,  
Mrs. JOHN McELROY.
