The city of St. Angustine is entirely free from debt. The last outstanding script his been cancelled, and there is \$2,000 in the Treasury. .

Ole Bull, now living at Cambridge, has imported four Norwegian ponies, the only ones in this country, one of which, the others at \$1,000 each.

Two Cheyenne men made a wager as to which could hold a wasp longest in his hand. One privately rubbed his hand with chloroform; but he lost, after all, for the drug soon evaporated, and the wasp stung viciously on recovering its senses, while the other had selected a sting.

Sidney A Shores, who married Lis State law forbidding such wedlock. The marriage is also invalidated. The Rev Zaocheus Bowen, who performed the ceremony, is very old, and as he pleaded that he did not know the youthfulness of the girl, the public prosecutor let him go unpunished.

Gen Garfield was his wife's instructor. and taught her Latin so thoroughly that she has been able to prepare her boys for college. He honors himself by thus speaking of her: 'She is one of the coolest and best balanced women I ever saw. She is unstampedable. There has not been one solitary instance of my public career where I suffered in the smallest degree for any remark she eyer made.'

A lew years ago the state attorney of another county in Vermont, although a man of great legal ability, was very fond of the bottle. On one occasion an important criminal case was called on by the clerk, but the attorney, with owl like gravify, kept his chair. 'Mr Attorney, is the state ready to proceed?'said the judge. 'Yes-hic-no-your honor,' stammerred the lawyer; 'the state is not-in a state to try this case, to-day; the state, your honor, is-drunk!"

that in Egypt the hand of the destroyer is at work. A traveler who has recently visited the pyramids at Gheezeh, and whose investigations extended to Sakkas rah, Dashoor, and Maydon, reports that not only was the work of destruction proceeding at a remote place like Dashoor. but at the very scene of M Mariette's operations. There have been removed from immediately under the entrance to the Great Pyramid some four or five large stones, and this traveler, a correspondent of the Egyptian Gazette, was informed. on what he could not but regard as trustworthy authority, that this wanton act had been committed by order of the Khedive, the stone being required for the printion for a temporary deficiency in the building of the new mosque, which a greatly overshadows the beautiful mosque of Sultan Hassan.

TROUBLE IN THE CAMP.

It is not all serene in the Stalwart camp, and the prespect that Grant will have a walk over at Chicago, as has been confidently predicted by the third term advocates, is not so cheering as they would wish. The appearances now are, if not decidedly adverse to him, such as to show that his friends have hard work to do in order to accomplish the desired end. Pennsylvania Republicans are disposed to kick against the domination of Cameron, and New York Republicans are also pursuing the same course towards Conkling. If these elements of discord cannot be barmonized Grant will stand a fair chance of being in a minority in the convention.

KALLOCH TO BE IMPEACHED

That must have been rather a trying and humiliating position in which Mayor handsome stallion, is valued at \$2,000, and Kalloch, of San Francisco, was placed as presiding officer of the city Board of Supervisors, when the judiciary committee, appointed by the board to teke into consideration his utterances and addresses and report the proper action to be taken in the premise, med their report. The Dr. Post cured Green Hall of a fever Committee filed a long report, in which a history of Kalloch's relations with the labor agitations of the ci y are reviewed and find that he has:

Encouraged the lawless and discontent ed element, advised them to parade the streets, and endeavored to keep them in such disposition and temperament as to commit outbreaks whenever it should suit his purposes; that he has impeached the honesty of the whole community, accused various branches of the city government of corruption and dereliction of duty, and under pretense of counseling the mob male wasp, knowing that such do not against violence, insidiously advised them to be in readiness for bloodshed and the overthrow of the authorities. They recommend that prompt action be taken to step-daughter, aged 11, at Somerset, vind cate the fair tame of the municipal-Md., has been fined \$500 for violating a ity by judicial inquiry into Kaltoch's

A motion to adopt the report was put by Mayor Kallech, who announced, that

by a vivi-voce vote it was carried. The roll was then called, resulting in &

manimous vote i r its adoption. A resolution was then adopted authore izing the Finnacial Committee to cause judicial proceedings to be instituted against the Mayor, for his removal from office, and empowering them to empley counsel ond prosecute the matter to s a speedy termination.

Throughout the reading of the report and resolution Kalloch appeared cool and unmoved, seeming to consider only the dignity of his position as the presiding officer of the Board.

We have never doubted that Kalloch was possessed of a large amount of impudent pluck, and the fact is established A company of foreign capitalists have by his conduct in the above repert. He petitioned the Italian Parliament to be is undoubtedly a man of brilliant talents, allowed to convert the celebrated villa of but utterly devoid of that moral sensito those that formerly existed at Baden the moral element in his character, if he Baden and Homburg. The company are ever had any, seems to have been entirely ready to deposit in the hands of the crushed out by the overpowering strength Town Council of Florence \$2,000,000 as of his baser nature. For this reason he afflicted, and especially is San Francisco in jeepardy while he occupies the position of its chief magistrate. He has been en lured until fortearence has ceased to be a virtue, and we are glad that the city governme t have taken steps towards putting a stop to his infamous influence and hope that they may be completely successful in the undertaking.

THE LAST VETO. Mr R. B Hayes has vetoed the bill known as the 'Immediate Deficiency Bill. It is veloed, says the New York Sun. because it contains a provision drafted and presented by such an eminent Radical as Bishop Stevens: 'Genuflections, prostra. Mr. Garfield, requiring Special Deputy Marshals to be selected equally fr m the good moral character. The appointment of special deputies is vested by the amendment in the United States Courts. The veto message is a very short one, and its whole pith and essence is that Mr. Hayes vetoes the bill because Mr. Garfield's amendment is a rider upon au appro consecration of the same, so as to expose priation bill, and Mr. Hayes objects to such legislation. The de facto President also disapproves of the substance of the amendment, because he thinks that the courts might not be in session when necessity for the appointment of the mar-The news will be received with regret shals should arise. This objection was considered by the House at the time the bill was there pending, and it was decided that no precautions for such a supposititious emergency were necessary to be

The groun ds upon which the bill would be vetoed were known at the House before the veto message was received, and they caused a great deal of amusement among the Demectat c membe s. They accorded to Mr Hayes the distinguished honor of being the first Executive who ever undertook to decide for the House the rules under which its business should be conducted. It is thought somewhat strange, however, that Mr Hayes did not veto, for the same reason, the bill making appro Post Office Department. That bill contained a rider changing the existing law prohibiting the Pestmaster-General from

expediting contracts in excess of 50 per cent. of the contract price.

Nothing more will be heard of the Immedia e Deficiency bill. The Committee on Appropriations will wait until the Gereral Deficiency bill is prepared, toward the close of the session, when the items contained in the vetoed bill, with some changes will be inserted therein. The bill vetoed contains an appropriation of \$250,000 for a deficiency in the office of the Public Printer. A resolution will probably be introduced and passed to appropriate this amount. Whether the marshals amendment on the bill veteed will be incorporated in the General Deficiency bill is not decided. If it is not, the marshals will probably be compelled to go without their pay for another year.

Mr. Hayes has approved the a my a propriation bill, so that we may not fear the presence of troops at the polls in the future. So much has been gained by the Democrats for liberty and the enjoy ment of political rights, whereof we are
