Josh Billings was right when he said: 'It is better to know fewer things that are so than to know so many things that are not so.'

Endorsed by the Faculty. The reputation of Dr. Bull's Cough Syrup has been solely achieved on account of its merits. Physicians prescribe it.

The man who will wait two hours for his turn in the barber's chair, will get mad and thrash and scold if a shirt button isn't sewed in just ten seconds.

You can buy No. 1 Cooking and Heating Stoves at almost any price at JACOBI'S Hardware Depot.

Probably no man so fully realizes the hollowness of life and human ambition as the man who lades a teaspoonful of new-laid horseradish into his mouth, under the impression that it is ice cream.

'And her whispers filled my pulses with the fullness of spring,' were the words he uttered as he sprang for the front door when she whispered in his ear that papa was about to appear upon the scene.

Health Officer James condemned and sent out of market this morning forty pounds of sausages, fifty pounds of mutton and beef and fifty bunches of fish.

By reference to our advertising columns it will be seen that the firm of Green & Flanner was dissolved on the 1st inst by the death of Dr. H. G. Flanner. Dr. Green will continue the business.

Rather pleasant to meet half-a-dozen good-looking young ladies, arm-in-arm taking up the entire sidewalk, and be obliged to walk down into the gutter on one side, or run over an old woman with a basket of cabbages on the other.

Here is a puzzle, which is considered rather difficult: Take the sentence "If Moses was the son of Pharaoh's daughter then Moses was the daughter of Pharaoh's son," and so punctuate it as to make it read connectedly and plainly. It can be done simply by punctuation, and there is no "catch" about it, either.

Again we would remind our readers to call on Messrs. A. & I. Shier and examine the immense stock of Men's, Youths' and Boys' Clothing, which they are selling at extremely low prices. They have also received a handsome stock of latest styles Straw and Felt Hats.

The cow that is fleshy gives milk that is richer in butter than the cow that is poor and thin. One that has reached her full maturity gives better milk than she did before she reached that age; a cow that is gaining flesh day by day gives richer milk than a cow that is losing gradually.

There is no excuse for those who drag their weary and disordered bodies into our company, when a few doses of AYER'S SANSAPARILLA would cleanse their murky blood and restore their health and vigor. Ye muddy victims of bilious disease, have regard for your neighbors, if not for yourselves.

Yesterday's Goldsboro Messenger says: A colored excursion party from Wilmington visited this town Monday. Their stay in town was exceedingly orderly. One of the features of their stay was a match game of base ball between the Wilmington Red Stockings and Wayne Base Ball Club, which resulted in 23 for the Goldsboro boys and 34 for the Wilmington.

**Indications.**  
For the South Atlantic, except North Carolina, and Gulf States, warmer southerly winds, stationary followed by falling barometer, partly cloudy or clear weather, except occasional rains in Texas, which will be followed in the interior of that State by cooler northerly winds and rising barometer.

## The Cape Fear.

We learn that on Wednesday, the river rose about 25 feet at Fayetteville but fell more rapidly than it has heretofore done. Yesterday there was about 8 feet of water on the shoals.

Everybody can get suited with a Pocket Knife, also Table Cutlery, at JACOBI'S Hardware Depot.

**Ladies.**  
The Misses Karrer & McGowan have recently added largely to their stock. Our lady readers would do well to examine their stock before buying their Spring and Summer goods.

**Cane Fibre Works.**  
The Cane Fibre Works in this city are to be placed in operation in the course of a few weeks, under the management of Messrs. E. Kidder & Sons. Five guns are now in position and the engine and boilers with which to operate them are expected to arrive daily. Messrs. E. Kidder & Sons have concluded to start the works as an experiment and if they find that they can operate to their advantage they will continue them. If Congress, however, should pass a bill making wood and other paper pulp free of duty, another phase might be put on the case and the works may again be shut down.

Plows, Shovels, Pitchforks, Spade Rakes, Trace Chains, Plow Lines, &c. For the lowest prices, go to JACOBI'S.

**Newbern and Goldsboro.**  
Messrs. Hartley and Denck went from this city to Newbern, where they are to appear to-night. As they passed through Goldsboro they made arrangements for their appearance at that place next Tuesday evening.

Let us say to our friends in both Newbern and Goldsboro that Messrs. Hartley and Denck will furnish them with an entertainment which for real merit is seldom excelled. They should be warmly appreciated.

**BURGAW, N. C., May 7th, 1880.**  
JOSEPH T. JAMES, Esq.:

DEAR SIR:—I am requested by Mr. Butler, Marshal-elect of this town, to say to you that you misrepresented him in your notice of the election; that he is no Radical, never was and never expects to be; that he was nominated by the people's convention, and secured the entire vote of the town, both Democrats and Republicans. I can testify to Mr. Butler's being a Democrat of the deepest dye and if you could have heard his remarks when he saw the REVIEW, you would have readily concluded that you had misrepresented him. He does not suppose that you did it intentionally, and begs that you set him right before the people. Mr. Butler is a Sampson man (recently located here) raised a Democrat, double and twisted in the warp and filling and dyed with the old Sampson blues.  
Yours truly, &c.,  
R. N. BLOEDWORTH.

Of course we will make the amends and right glad are we; too, to do so, because we are glad to find that Mr. Butler is of the right stripe still. There was no intention of doing any injustice—of that Mr. Butler may rest assured. We were simply mistaken in our information, that is all. We also know that our informant also erred unintentionally, and we are both glad that we were wrong.

Window Glass of all sizes, Doors, Sash and Blinds, Builders' Hardware, &c. Low at prices at JACOBI'S.

**City Court.**  
Fanny Gore, the Queen of the Hollow, was arraigned this morning before the Mayor upon the charge of being drunk and disorderly. The testimony being conclusive His Honor said \$5 fine or five days in the C. P. Having none of the filthy lucre to deposit with the Clerk, Her Majesty went in retirement below for the brief space of time mentioned above.

John Evangelist, colored, was arraigned for abusing and insulting a police officer while in the discharge of his duty. The fine of the Court in this case was \$10 fine or ten days in the City Prison, from which decision defendant took an appeal to the Criminal Court; but in default of bond to the amount of \$50 for his appearance at that term was committed to the City Prison.

Joseph Harrison and Wm. Marshall, two colored individuals, had a little squabble in the way of a fistuff and were arraigned before the Mayor upon the charge of an affray and received sentence of \$2.50 fine each or five days imprisonment. The fines were arraigned or paid and the two belligerents were released from custody. This ended the docket and the Court adjourned.

## U. S. District Court.

This tribunal, although having been in session, has transacted no business of importance during the day. The jurors were discharged last night, and the Court will adjourn for the term, to-night.

**Seaside Rail Road.**  
The Committee on the part of the Stockholders of the Seaside Rail Road are actively at work and have made a report. The company are now looking towards the construction of an iron-rail instead of the tram way which was first suggested and adopted. The bill has been put in motion and has gained such impetus as to guarantee the ultimate success of the road. Bah!

**Military Redivivus.**  
We are glad to see the military spirit reviving in our community once more and that the gallant boys of the Cape Fear Artillery are making a movement to reorganize and increase the number of their rank and file with the expectation of being able, as we understand, to attend the King's Mountain Celebration in October next. To do this the Company must commence drilling as soon as possible. Let all then who feel an interest in this organization attend the meeting called at the City Court room this evening at 8 o'clock.

**How to Make Good Times.**  
If you are a merchant and wish to purchase a carriage, patronize your home mechanics.

If you are a farmer patronize your home merchant.

If you are a mechanic, do your business with the people from whom you obtain employment.

If you are a laborer, spend your money with home tradesmen, and thereby assist in making your town prosperous.

If a business man, the mechanic and tradesman are prosperous, the laborer, the farmer and all others in a community will be benefited.

Do your business in a spirit of reciprocity. Let each vocation try to assist the other, and in this way try a friendly and mutual relation exist which will prove beneficial to all.

Do not purchase articles from abroad which are manufactured at home if you can possibly help it.

Mr. Nath'l Jacobi having been appointed agent for the Atlas Plow, parties in want of this celebrated Plow can now have their orders filled at JACOBI'S Hardware Depot, No. 10 S. Front st. tr.

**The Adulteration of Coffee.**  
We are a nation of dyspeptics, as has been aptly said by more than one writer. Much of this dyspepsia is undoubtedly caused by the adulteration of almost every article of food which goes to make up our daily supply of standard edibles. Consumers daily pay a tax to help swell the coffers of those who grow rich by the adulterations put by them into articles of food. In nothing is this adulteration more manifest than in the article of coffee, a something which it would seem difficult to tamper with. This fact was well illustrated in two samples of coffee shown us to-day by Messrs. Forshee & Kenan, produce brokers in this city. These gentlemen, who are laudably desirous that no impure article should pass through their hands, received yesterday two samples of coffee, both of which were apparently bright and pretty and sound. Something in the appearance of the grains, however, aroused their suspicions and instead of putting them on the market they placed a handful of each in separate tumblers and then filled the glasses with water. After standing a few hours the result was easily determined. From each sample of the coffee there gradually fell to the bottom of the glass a thick sediment, in one instance a powder which was evidently pure chrome yellow and in the other a substance which appeared to be a composition of Paris green and lampblack, while the grains of coffee lost their brightness and sank to a dull hue. The amount of the poison to the handful of coffee was thus determined to be almost a teaspoonful.

We are glad that Messrs. Forshee & Kenan have thus directly called attention to this important fact. Let housekeepers, as well as dealers, be hereafter carefully on their guard. To those who have been warned the adulteration is easily detected, as from the very nature of the berry it does not strike into the coffee but clings entirely to the outside. There should be some law by means of which to reach those who practice this shameful and dangerous fraud on a wondering public.

## Miscellaneous.

**Another Famous Swim.**  
The publication yesterday of the long and desperate swim across the Tennessee river, by a gentleman in this city, who was at the time in Gen. Forrest's command, reminds a number of our readers of a big swim made by a Wilmington boy in days gone by, which has never yet found its way into print. Maj. Henry McRae, a gallant Confederate officer, and Major of the 5th N. C. Regiment, who died in hospital at Charleston towards the close of the war, was the hero of this exploit. Maj. McRae was then a boy of, if we remember rightly, some sixteen or seventeen years. He swam across the Cape Fear river, one summer afternoon, sixteen times, at a point near the foot of Dock street. This was done, be it understood, without landing or resting on either side. On arriving at the wharf, either in the city or on Eagle Island, he would merely touch the piling with one hand and then, turning his body, would place his feet against the wharf and spring forward, without pausing, for another crossing. The river at the point alluded to is something more than one-eighth of a mile wide, and it must be remarked that, in addition to the distance, the force of the current was to be contended with on each crossing. This is the most famous swim on record in the Cape Fear section.
