Special meeting to-morrow evening of Carolina Lodge No 434. K. of P

We learn that the *Passport* will leave for the blackfish grounds at 5 o'clock sharp on Friday morning.

The dog ordinance goes into effect on the 10th of June. Badges may be had on application at Capt. Savage's office.

The Cornet Concert Club will give an open air concert at Capt. Manning's place, on Wrightsville Sound, to-night.

If the Baby is to have health, it must have sound and refreshing sleep. Dr. Bull's Baby Syrup is the best. Price 25 cents a bottle.

Mr. W. P. Cannaday, Collector of Customs, and Geo. W. Price, a Custom House official, will leave in the morning for Chicago. They are delegates to the Convention. Rah! Another boom for John Sherman—and Civil Service Reform.

The skin of the huge rattlesnake, killed on Mr. Gibson James' place in Holly township, Pender county, a few weeks since, has been stuffed and sent in to us by Mr. James. It is now hanging in front of the REVIEW office where it has been viewed by many. It is perhaps the largest rattlesnake ever seen in this section.

Indications.
For the South Atlantic States clear or partly cloudy weather, variable winds, mostly from South to West, stationary barometer, stationary or slightly higher temperature.
For bargains in clothing and gent's furnishing goods call on Messrs. A. & I. Shrier, 28 and 38 Market street. They certainly have a nice line of goods to select from at bottom prices, also a large stock of straw, and felt hats, trunks, etc., selling low. They have also the Renowned Diamond Shirt at \$1; can't be beat at \$1.25.

Preaching To-Night.
Elder B. Greenwood, of Wilson, N. C., will preach at the Primitive Baptist Meeting House, on Castle, between Fifth and Sixth streets, to-night at 8 o'clock. Mr. Greenwood is the only German minister of the Primitive Baptist persuasion in this country and is said to be a very able minister.

Badly Scalded.
We regret to learn that a little three year old son of Mr. Joseph Meier, who resides on the corner of Second and Mulberry streets, was severely scalded on yesterday. The little fellow was walking backwards when he collided with the cook, who was coming out of the door with a bucket of boiling water. The water poured over his back and caused him intense agony. We are glad to learn that he is better to-day.

Telephone to Masonboro.
Mr. D. P. Ormes and one of his assistants, Mr. John White, returned from Masonboro Sound this morning where they have been for the purpose of putting up a telephone at the beautiful residence built there a few years ago by Capt. A. D. Czaux and now owned by Geo. W. Williams, Esq. The wires have been stretched and the instrument is now in position.

Mr. Vennor Prophecies Again.
Mr. Henry G. Vennor comes forward again with his direful prophecies of storms, heat, cold, &c. His letter is dated at Montreal, May 18, and in it he says: "I believe that June will be an intensely hot month on the whole, but the end of the present month, and probably the first of June, will be fall-like, with frosts again. July will be a terrible month for storms, with terms of intense heat, but another fall-like relapse, with frosts, will in all likelihood occur a few days before the 20th. I fear the storms of thunder and hail will be of unusual severity during July. I must claim the verification of my prediction relative to a cold wave with frosts, over a large portion of the United States between the 10th and 15th of May." The relapse toward the close of the present month will be more severe than that just past.

Attempt to Break Jail.

This morning, about 4 o'clock, Dan Howard, the County Jailor, was aroused by a noise like the rattling of a door which seemed to proceed from that part of the jail building where the prisoners were confined. Hastily dressing he was in the act of starting to investigate the cause when some of the officers of the police force in the street called to the Jailor and told him some one in the prison was calling for him. Fearing something wrong the Jailor secured the services of Officers Everett, Nelson and Williams of the police, who were just starting out to relieve guard, who together ascended the stairway to the prison. As they reached the door, however, Crazy Nathan, as he is called, (a colored man who is confined in Jail for safe keeping) sang out to the officer to look out as there was some one out in the passage. Peering through the bars of the outer door Howard saw some one screening himself behind the furnace, when poking his pistol through the grating the Jailor fired. At the discharge of the pistol one or two men ran towards the south end of the passage, and the officers of the law immediately entered the prison, when they found that George Myers, colored, who has been arraigned for burglary before the Criminal Court and his trial set for Friday next, together with another colored prisoner by the name of Joseph Campbell, incarcerated for breaking into the store of Mr. Thomas William, at Rocky Point, had broken out of their cells by wrenching off two or three of the bars of the cell door.

The tools used to effect this, the Jailor thinks, were pieces of iron taken from the grating in the furnace. The prisoners had evidently been hard at work all night and had only succeeded in getting as far as the passage when daylight came and found their job unfinished. Futile efforts were made by the pair to break through the wall, when they then endeavored to tear up the flooring, a plank of which the prisoner Myers had ready to salute the Jailor, or whoever might first enter the prison, with, and in this way, we suppose, hoped possibly to effect their escape. They had proceeded only so far as described above when other prisoners in the cells adjoining called for the Jailor, which caused the two men who had broken out of the cell to turn their attention at once to the outer door.

The expense of repairing the damage done, the Jailor thinks will cost the county from \$8 to \$12. As soon as the police officers and the Jailor entered the prison the two men, Myers and Campbell, immediately succumbed, when they were placed in irons and returned to their cell and there chained to the floor.

A good head of hair is desired by every one. The use of Hall's Vegetable Sialian Hair Renewer will restore the hair if the hair cells are not closed up.

A Mad Runaway.
A horse attached to a buggy, both the property of Mr. S. W. Dunham, took flight this afternoon and dashed down Chestnut street to Water. The buggy in its furious descent of the street struck an iron post in front of the REVIEW office and the driver, a colored boy, was thrown out. The boy did not, however, relinquish the reins, but was on his feet in a moment and held on manfully until the horse had rounded into Water street, down which he dashed. The driver was then compelled to release his hold and the frightened animal dashed along the sidewalk and was brought up at the corner of Princess street, where the remains of the tuggy were overturned by a collision with Mr. E. Kidder's buggy. The horse seems to be somewhat hurt. Mr. Dunham's buggy is a complete wreck. Mr. Kidder's buggy was but slightly injured.

A Slight Freshet.
We are glad to learn that there has been an increase, although slight, in the water in the Cape Fear river between this city and Fayetteville. At the last named point it had risen three feet from Monday morning to Tuesday morning, and when the *Murchison* left there yesterday it was still rising, though slowly. There is now about five feet of water on the shoals at Fayetteville.

Mr. Nath'l Jacobi having been appointed agent for the Atlas Plow, parties in want of this celebrated Plow can now have their orders filled at JACOBI'S Hardware Depot, No. 10 S. Front st. if.

What the A. C. Line is Doing.

Our readers can form some idea of the magnitude of the vegetable and truck business of the Atlantic Coast Line from the fact that twenty four car loads, 7,000 packages or between a quarter and a half million pounds of vegetables and truck, passed Union Depot for Northern and Eastern cities yesterday. This freight consisted of cucumbers, tomatoes, potatoes, beans, squashes, watermelons, &c., &c., which were shipped from the various truck farms in Florida and around Charleston and Savannah, some of it coming from within ten miles of the Gulf of Mexico. Twelve and fourteen cars per day is a common occurrence, and when it is understood that this freight is vended in competition with the fine steamship lines from the principal ports on the coast, viz, Jacksonville, Fernandina, Brunswick, Savannah and Charleston, and at rates 25 to 35 cents per box higher than the rates of those lines, it is certainly conclusive evidence that the Atlantic Coast Line is entitled to rank as one of the best organized and best managed lines in the whole country.

In 1873, Col. A. Pope, General Freight Agent of the A. C. Line, conceived the idea of establishing an outlet over said line for Florida fruits, vegetables and strawberries, and during the first year hauled above 22,000 packages of vegetables, 80 packages of oranges, and a few strawberries. By patient labor and by studying the necessities of the case, and providing properly ventilated and refrigerated cars, he has been rewarded by seeing the business grow to 50,000 boxes oranges, and over 100,000 quarts of strawberries per season (four months) and the large amount of vegetables as indicated above.

Lawn Party.

The fact that a number of ladies and gentlemen in this city had in view the giving of a lawn party, or *fete champetre*, on some evening this week, has been spoken of for days past and has now assumed a tangible shape. The entertainment will be given on the lawn in the City Hall and Opera House enclosure and to-morrow evening is designated as the time. It promises to be one of the most pleasant entertainments ever offered to our people. The night will be made brilliant by the light of scores of Chinese lanterns and tents will be raised where refreshments will be sold. There will be some excellent music during the evening, the Cornet Concert Club having consented to play a few pieces, and the Italian band will furnish music for those who may wish to dance in the Mayor's office, which will be cleared for the purpose. A very interesting feature of the evening will be a beautiful gold-headed cane which will be awarded, by ballot, to the most popular gentleman in the city, as determined by the votes of those present.

Revival in the First Baptist Church.

The religious interest in this church is increasing from day to day. Some thirty souls have professed conversion within the last two weeks. Twelve have been baptised, and quite a number will be baptised to-night. Rev. Dr. Teasdale, whose services are so highly appreciated by both the pastor and people, is still preaching every night, and giving one of his interesting and profitable Bible Readings every morning at 8 o'clock. His subject to-night will be *A Future General Judgment*; continued from last night.

Sword Fish.

At the fishery of Mr. W. E. Davis, at Federal Point, eight very large sword fish have been caught, the body of the smallest one measured about 11 feet while with the sword on, it measured from end of sword to tail 15 feet 9 inches.

Heavy Shipment of Spirits.

The largest cargo of spirits of turpentine ever shipped from this port—either foreign or coastwise—left here yesterday on the steamship *Gulf Stream*, for New York. The cargo of the steamship consisted of 4,100 casks of spirits and 402 bbls. of rosin. Forty one hundred casks of spirits is equivalent to 5,466 bbls. of rosin in the hold of a ship; that is to say, that number of casks of spirits will occupy about the same space in the hold of a vessel that 5,466 bbls rosin would require or take up.

Important to the Public.

The following, which is as authentic as the times will afford, we commend to the attention of those who may wish to send matter through the mails, or in any way transact business with the postoffice department:

Postmaster General Key assures us that an arrangement has been perfected by which letters without postage will be immediately forwarded to the Dead Letter Office.

A pair of onions will go for two cents.

Parties are compelled to lick their own postage stamps and envelopes; the postmaster cannot be compelled to do this.

Nitro-glycerine and Jynamite must be forwarded at the risk of the sender. If they should blow up in the postmaster's hands he cannot be held responsible.

When letters are received bearing no direction, the parties for whom they are intended will please signify the fact to the postmaster, that he may at once forward.

It is unsafe to mail apple or fruit trees with the fruit on them, as some of the postmasters have a weakness for such things. Bottles of whisky should be well corked.

It is earnestly requested that lovers writing to their girls, will please confine their gushing rhapsodies to the inside of the envelope.

Ducks cannot be sent through the mails when alive. Their quacking would disturb the slumbers of the clerks on the postal cars.

When watches are sent through the mails, if the sender will put a notice on the outside, the postmasters will wind up and keep in running order.

Old malds, feather beds and inflated balloons are unmailable.

John Smith gets his mail from 674,279 postoffices, hence a letter directed to John Smith, United States, will reach him.

Babies can be sent as third-class matter provided sucking bottles and napkins accompany them.

Eggs are not mailable unless fresh; and should they become chickens on transit, they become the property of the Postoffice Department.

When you enclose a money order in a letter always write full and explicit directions in the same letter, so that any person getting the letter can draw the money.

Alligators over ten feet in length are not allowed to be transmitted by mail.

Garlic, onions, assafetida, gum camphor, switzer, limberger, and sausage sent through the mails should be left open at the ends.

Letter-carriers are required to have penetration enough to know when letters should be delivered to jealous wives; hence if he delivers a letter from your girl to your wife you can have him discharged.

The placing of stamps upside down on letters is prohibited. Several postmasters have recently been seriously injured while trying to stand on their heads to cancel stamps placed in this manner.
