Our good friend of 'he Raleigh News is right, as r o his figr os. We don't know how we came to "he con"usion that he had charged \$10,000 too much against New Hanover, but this we do know, he was a ght and we were w or ?.

Dr. Tanner has success ally mple his task ; of that there can be no doub He wr be lest night, and he is prob bly al're now and h 'play id h'T elf ou side of that big watermelon. The an no question as to the fast for forty days having been conducted squarely and fa'-ly.

In the New England States the tov are going forward and the cornt. / bac ward. There will soon be more factor, hands than farm laborers in that part of the union. This is a prependerance that would be discritor : if it were not correct- of the foreign element as citizens of or ed by the distribution of labor in better | state is commendable. Money expended balanced states.

The Maine Democrats have 'fweed' with the Greenbackers on the electorr ! ticket. The Greenbackers have nominated four of the seven candidates, and the Demo crats take the other three. There is a fair Dr. R. V. PIEBCE, Buffalo, N. Y.: chance, at least, that the combination will carry the Bta'e, which will give four votes to Weaver and three to Hancock.

From the report of the statistical department of the census bureau it is timated that the total indebtedness counties, cities and towns in the United States aggregates about \$850,000,000. The Sta's indebtedness is now placed at word I write. \$266,638,000, so that the entire lc al debts of the country wi'l exceed \$1,100, 000,000,

The New York World says: "Of the six New England States not more than one is really safe for Garfield, while in second the chrace's are strongly and in third slightly in his lavor. As for the remaining three, Connecticut is reasons, bly sure for Hancock, New Hampshire belongs the party which fights hardest, and in Maine, according to the Herald's correspondence, 'the situation is decided ly unfavorable to the Reput !!cans," "

The latest accession to the Hancock supporters-and we write now far more in grief than in anger-is General Dan Sickles. We had rather such cattle had remained in their own fold; they are not wanted on this side of the house. We next fear that Bob Ingersoll or Judson Kilpatrick, the champion bummer, or even old man Grant may "pent hisself" and want to be taken out of the wet. Gen. Sickles, who is perhaps the best of those we have named-and that is not saying very much for him-lost a leg at Gettysburg, but had parted company with his soul long before that-probably about the time he killed Key for seducing his wife and then lived with the woman afterwards. The others we have named, according to a popular belief, never t I any souls. We are heartily sorry that Sickles did not remain with ning Garfield.

HEALTH OF NEW ORLEANS.

The New York Bulletin says: The health of the Southern cities this season, on the Mississippi as we'll as on the sea coast, is thus far unexceptionable, and there is reason now to expect that the summer will pass without a recurrence of epidemic of any kind. The president of the New Orleans board of health mates the gratifying announcement that 'after a care al inspection of the Charity Hospitol, Hotel Dieu, and other charitable institutions, not a case of fever could be found amongst the seamen ' He, more . e er, emphatically asserts that 'New Ors leuns is absolutely free from epidemic. and has as low a death rate as any city of the same or smaller or large; size within the bounds of the Ur'ted States.' I view of these frats, he declares that the quarantines against New Orleans and Louisiana by the physicians of Tennesse and Memphis must be regarded as runecessary, rawise, ranenerous and unconsti. tutional.'

WHAT IS A LIBERAL EDUCA

TION ? In an address recently delivered by President Eliot, of Ha. re-d, before Smith College at No.: hampton, he said: "I may as well ab uptly avow the result of my reading and observation in the matter of education, that I recognize but one mental acquisition as an essent's' part of the educat on of a lady or a gentleman, an accurate and refined use of the mother tongue. Greek, Latin, French, German, mathematics, natural and physical science metaphysics, history and methelics are all profitable and delight al, both as training and acquisitions, to him who studies them with d'ligence and love; but not one of them has the least claim to be called an acquisition essenti: 'to a liberal education, or an essential part of a sound training. A thorough I nowledge of one or two of them obtained in co'lege, added to a ver / elc mentary knowledge of severa' of them obtr'ned in school, makes a riche, stronger and more ' aitful mind than a superficial acquaintance with each and all of them. The fruit of liberal clucation is not learn ing, but the capacity and desire to learnnot I low ledge, but powe ."

VALUE OF IMMIGRANTS. Hon, Ferneis Fontaine, commissioner of land and immigration for Georgia, says the Columbus Enquirer-Sun, has just supplied the Cedartown iron works with nearly one hundred young men from Germany, and expects soon to bring one hundred more for the same place, as he has obtained a contract for so doing. Es\_ timating their value at one hundred dollars, Mr. Fontaine says in one week le has brought ten thousand dollars in'o Georgia, but taking the western valuation of one thousand dollars each, he has introduced into the state one hundred thousand dollars. This is very good for a beginning. Immigrants, ss a class. have never heard of Georgia, or 'f they have, imagine it located in South America. The effort to obtain the better class on such an object is putting it where it will do the most good. Certs'nly the ezperiment is worth a fair trial. O'ber states have succeeded, why not ours?

Hotel accommodations for travelers are of the greatest importance to persons who have to move about the country on business or pleasure. Just where to go is what every man wants to know when he leaves home. The Grand Union Hotel, opposite the Grand Central Depot, New York city, is a very popular resort, because the attendance there is prompt and satisfactory, the charges are reasonable and the menage complete. OUR PLATFORM. The following is the Platform of the

Democratic party adopted at the Nations al Convention held recently at Cincinnati: 1st. We pledge ourselves anew to the constitutional doctrines and traditions of the Democratic party, as illustrated by the teaching and example of the long line of Democratic statesmen and patriots, and embodied in the platform of the last Na

World for 1880. Democrats every where should inform them selves carefully alike of the action of their party throughout the country and of the movements of their Republican opponents.

of the victory fairly won at the polls.

The year 18:0 promises to be one of the most interesting and importa t years of this crowded and eventual century. It will witness a Presidential election which may result in reestablishing the Government f this country on the principles of its constitutional founders, or in permanently changing the relation of the States to the Federal power. No intelligent man can regard such an election with indifference. Ine World as the only daily English newspaper published to the city of New York which upholds the doctrines of constitutional Democracy, will steadily represent the Democratic party in this great canvass. It will do this in no spirit of servile partisanship, but temperately and firmly. As a newspaper the World, being the organ of no man, no clique and no interest, will present the fullest and the fulrest iccure it can make of each day's history in the city, the State, the country and the world. It will aim hereafter, as heretolore, at accuracy first of all, things in all that it publishes. No man, however bumble, shall erer be permitted truly to complain that he has been unjustly dealt with in the columns. The World. During the past year The World has seen its daily circulation trebled and its weekly circulation pushed far beyond that of any other weekly newspaper in the country. This great increase has been won, as The World believee, by truthfulness, enterprise, ceaseiers activity in collecting news and unfaltering loyalty to itself and to its readers in dealing with the questions of the day. It is our hope and it will be our endeavor that The World's record for 1880 may be written in the approbation and the support of many thousands more of new readers in all parts of this Indissoluble Union of Indestructible
