There will be a meeting of the Hancock, English and Arvis Club at Munds' Hall, to-morrow evening, at 8 o'clock.

The city authorities are having the brick walls above and around the Rock Spring repaired. A much needed improvement.

We acknowledge the pleasure of a call today from Frank D. Koonce, Esq., of Onslow, the prospective candidate for Congress on the Greenback ticket.

The Passport took down this morning a goodly crowd of blackfishermen. There is an easterly wind to-day, however, and we fear that their luck will not be much to brag on.

Bear in mind the excursion to be given to-morrow on the steamer Passport by the ladies of Front Street M. E. Church. The boat will leave her wharf at 8 o'clock and will visit Smithville and the Falls.

By an order recently issued by Postmaster General Key, on and after next October 1st no postal card mail matters other than the card regularly prescribed by law, will be forwarded through the mails for less than letter rates.

One of the recent rulings of the Post-office Department is as follows: 'An order for goods is a document upon which suit may be maintained. It has, therefore, a monetary value and is subject to first-class rates of postage.'

Whoever did a real kindness for another without feeling a warm glow of satisfaction creep into some shady corner of the heart and fill it with sweetness and peace? It is like tying a knot of violets and mignonette into the buttonhole, just where their perfume may rise deliciously to our sense all day.

The Pleasures of Hope. When the body is bowed with pain an intense longing for relief brings hope. This may brighten the suffering but it does not cure. At a time like this how welcome is such a friend as Warner's Safe Kidney and Liver Cure, bringing hope and happiness and the joys of renewed life.

It is said that a lot of men and brethren were engaged last night to carry the transparencies from the place where they were stored down to the rendezvous of the Greenbackers and that as they passed along the streets they cheered lustily for Garfield while the Weaver transparencies shown above their heads.

The New Bridge.

We were slightly in error yesterday in stating that the new iron frame bridge & the passenger depot of the W. & W. and W. C. & A. Railroads on Front street was not completed. We have since taken occasion to examine the structure for ourself and we find that every thing is finished and completed and we will add, the structure is quite an ornament to that part of the city.

Politics in Pender.

Pender county is pretty well stirred up on political questions. There are lots of aspirants on both sides of the house who are out for every office in the gift of the people and who are willing to sacrifice themselves for the public good. The Shrively seems to be the principal prize and the candidates for this office may be counted by the score.

Arrested for an Affray.

Josephine Pigford and Annie Jane Sherman, two sable-hued damsels, about the color of Shakespeare's Othello, the Moor, engaged in an altercation this morning on the corner of Third and Dock streets, which resulted in an affray, during which the damsel Josephine received a severe gash on the head from a brick in the hands of the damsel Annie Jane Sherman. It ended in the affray, in the two being arrested and carried to the Guard House when Josephine was discharged after Dr. Walker had dressed her scalp wound, and the girl Annie Jane was held for a further hearing and locked up in a cell.

The Greenbackers.

The demonstration made by the Greenbackers last night was not by any means a very imposing affair. As a means of affording amusement to outsiders it was much more of a success than as a political demonstration. The procession was fearfully slim, a dozen or so transparencies, with some very peculiar inscriptions, carried by and followed by about thirty voters, all headed by a file and drum musical orchestra, being about the extent of the parade. The principal speakers were Col. J. R. Winston, of the Greensboro Beacon, a Greenback newspaper, Mr. A. R. Black, the Republican candidate for Superintendent of Public Instruction, who occupied a very prominent seat on the stand, and Mr. Frank D. Koonce, of Onslow, who aspires to the Greenback nomination for Congress and the glory of a defeat by Shackelford. The affair was exceedingly tame to all but those who stood in the outskirts of the small crowd and who went there to be amused. The speaking took place in front of the old Market House.

Everybody can get suited with Pocket Knife, also Table Cutlery, at JACOBI'S Hardware Depot.

Bishop Atkinson's Health.

From Col. John W. Atkinson, who returned to this city last night from the Sweet Springs, Va., we learn that Bishop Atkinson's health is much improved from what it was when the Colonel was called hence to his father's bedside in Baltimore, some two weeks or more ago. We are delighted to learn from Col. Atkinson's own lips that while in the very nature of things the Bishop may never permanently recover his former health, still there is a chance and even a prospect of his being spared to his family and friends in this Diocese several years longer at least, although his accustomed vigor, we are sorry to learn, has departed forever. It is the Bishop's intention, we hear, to linger at the Springs in Virginia until September to try and gather strength enough to journey to Asheville, in this State, where it is thought by his physicians that, owing to the salubrious climate of that locality, his health will be more benefited than anywhere else.

Good Hotels.

Hotel accommodations for travellers are of the greatest importance to persons who have to move about the country on business, or to visit Niagara, Saratoga, White Mountains, Coney Island, Long Branch or other summer resorts. 'Just where to go' is what every man wants to know when he leaves home. The Grand Union Hotel, opposite Grand Central Depot, New York City, is a very popular resort, because the attendance there is prompt and satisfactory. The charges are reasonable and the manage complete; try it. Families can live better for less money at the Grand Union Hotel than at any other first-class Hotel in the city. Be careful to see that Grand Union Hotel is on the sign where you enter.

You can buy No. 1 Cooking and Heating Stoves at almost any price at JACOBI'S Hardware Depot.

The Fast Mail Schedule.

We learn from Captain Jno. F. Divine the courteous Superintendent of the W. & W. and W. C. & A. Railroads, that the notice of the proposed transfer of through registered mail pouches telegraphed from Washington city on the 13th inst., to go into effect on the 23d of this month, has nothing whatever to do with the last mail in contemplation of the Atlantic Seaboard between New York and Southern cities. Capt. Divine says his impression is that the fast mail will not be put on until after the meeting of the Southern Railway Time Convention. This convention will be composed of all the Atlantic Railroad Superintendents, and takes place in New York city on the 14th of October. Between that date and the 1st of November, we are told, the probability is that the fast mail schedule will go into effect which is to give us the newspapers in Wilmington on the night of the day on which they are published in New York.

Mutilated Coin.

People seem to forget that the treasury does not redeem mutilated coins at their value. It simply buys them as bullion. Take these coins to the nominal amount of \$20, and if they are not mutilated the government will redeem them at par, though their actual value does not exceed \$16.50. But if they are all mutilated so as to be deprived in the aggregate of 5 per cent. of their value, the government will only take them as bullion and give about \$15.70 for them. Of course, people will not sell these coins to the government at a discount of 20 per cent. or more from their face value, so long as they can pass them at par. But it is to their interest to refuse bored and clipped fractional currency, when tendered, as they have a perfect right to do. If those whose business involves an extensive use of fractionals will make it an invariable rule to refuse the mutilated pieces, their example will be generally followed, and the practice of stealing silver by boring or otherwise mutilating coins will be stopped because it will no longer pay.

August Meteors.

During the past few nights, when the skies were clear, an unusual number of meteors have been seen, some of them quite brilliant. These are the 'August meteors.' Generally the display reaches its maximum about the middle of the month. The August shooting stars are remarkable for the trails of light that many leave trailing behind them, as well as great size that they sometimes attain. Unlike the November meteors, they do not display themselves in a fiery shower, because they are more evenly distributed along their orbit. Like other meteor streams, they follow the track of a small comet. Their radiant point is in the constellation Perseus, which is now low down in the northeast. In consequence of this position of the radiant point, these meteors may be seen early in the evening, starting, apparently, near the horizon, and shooting upward through the zenith.

Virginia Military Institute LEXINGTON, VIRGINIA.

Session Opens 1st Sept'r.

THE REPORT of the Special Board of Examiners for 1878 closes thus:—

In conclusion, your Committee cannot too highly commend what has seemed to them the marked and distinguishing features of this Institution, the happy combination of the military system of instruction with the departments of science and of literary culture, and the more ennobling culture of the heart and soul. Nowhere else have we seen this combination so complete and perfect. We cannot speak of it too highly. It is such a system as fits a pupil for life and for death. Under its guidance he is sure to tread always the path of duty, virtue and honor.
