The River.

The Cape Fear is still very low and the steamboatmen are sick of paddling their way through mud. *The Wake and North State* were here to-day. They should have arrived, according to the regular schedule, at Fayetteville this morning but instead left here this afternoon.

The Anson Times.

Mr. Robt. H. Cowan, recently of the Raleigh Observer, is to begin the publication at Wadesboro, next week, of the *Anson Times*. The prospectus will be found in another column. Mr. Cowan is well calculated for the undertaking, and we wish him much success.

Where is that crowd going? To ROSENTHAL'S, to buy boots and shoes.

Unfortunate.

Robinson's circus was in Charlotte yesterday. They have been singularly unfortunate of late. James Robinson, who has been suffering with Bright's disease, became so much worse in Columbia that he was sent home to die but did not live to get there. The circus exhibited in Charlotte yesterday and night—before last, the head-keeper of the animals, a man by the name of John King, was struck by the large male elephant, Chief and his skull crushed against a car. He died the same night, at 11 o'clock, and was buried yesterday afternoon.

The Greenbackers.

The following is the ticket nominated by the Greenbackers yesterday after our paper had gone to press:
For Sheriff—T. A. Watson.
For Register of Deeds—Hezekiah Reed, colored.
For Treasurer—John M. Bremer.
For the House of Representatives—J. J. Curtis, white, and J. A. Holt, colored.
Coroner—Wesley Avant, colored.
Constable, Wilmington Township—N. Carr.

Water street merchants

will keep their feet dry in Winter by wearing ROSENTHAL'S boots and shoes.

Last night was good for sleeping and the temperature this morning was cool enough for overcoats and fires.

Oh! for another circus. Coup's side show was just good enough to whet our appetites for something better.

You can buy No. 1 Cooking and Heating Stoves at almost any price at JACOBI'S Hardware Depot.

The fall term of the Criminal Court, His Honor Judge Meares presiding, convenes in this city on Monday next, the 4th day of October.

Our country friends tells us that the mast and scorn crop this Fall is enormous. This signifies two things, it is said—fat hogs and a very severe winter.

Useful Items.

Dry paint is removed by dipping a swab with a handle in a strong solution of oxalic acid. It softens it at once.

A few drops of chloroform on white sugar will check the tendency to vomiting in those suffering slightly from seasickness.

To beat the white of eggs quickly, put in a pinch of salt. The cooler the eggs the quicker they froth. Salt cools and also freshens them.

There is a greenness in onions and potatoes that makes them hard to digest. For health's sake put them in warm water for an hour before cooking.

Salt fish are quickest and best freshened by soaking in sour milk.

Beeswax and salt will make your flat irons as clean and smooth as glass. Tie a lump of wax in a rag and keep it for the purpose. When the irons are hot, rub them first with the wax rag, then scour with a paper or cloth sprinkled with salt.

When a color on a fabric has been accidentally or otherwise destroyed by acid, ammonia is applied to neutralize the acid, after which an application of chloroform will, in almost all cases, restore the original color. The application of ammonia is common, but that of chloroform is but little known.

The black rust on varnishes, heliotropes and petunias can be cured by stimulating the plants with liquid manure.

Oats are the best food for working horses, as they furnish more nourishment and flesh-making material than any other food.

An infallible remedy for a rusting tea-kettle is to brown coffee in it. A thorough washing with soap and water will remove all the odor and smoke of the coffee and leave the kettle smooth and free from rust.

In cooking vegetables use only the best butter. Cooking butter is an abomination, destroying their delicate flavor.

Keep an oyster shell in your tea-kettle, and it will prevent the formation of a crust on the inside of it by attracting the stony particles to itself.

To clean the inside of tea-kettles and pots, boil for an hour, in the kettle or pot, a tablespoonful of carbonate of ammonia, dissolved in three pints of hot water. It will remove at once all the deposits made by boiling water.

Federal Jurors

The following is a list of jurors for the Fall term of the U S District Court, which convenes in this city on the first Monday in November, viz:
Benj Scott, A J Hill, W J Penton, J O Smith, Thos A Davis, Robert Noyes, J A Scarborough, Geo F Alderman, Henry Kuhl, Wm Goodman, J W Macumber, B A Hall, B F Penny, I T Alderman, S H Birdsey, Jas W Jackson, F M King, Oscar Pearsall, A M Baldwin, L G Thorator, W Kellogg, E D Hewlett, Richmond Hall, Preston Spriggs, Jno H Pugh G J Boney, O G Southerland and J H Mallard, of Wilmington; Alex Corl of Smithville; Peter Tucker, of Lockwood's Ferry; John Wescott, W H Drew, and Richard Dasher, of Smithville; Cornelius McMillan, of Teachy's Depot; A J Andrews, of Shallotte.

The above jurors are not required to appear until Wednesday of Court Week, so as to allow them an opportunity for voting at their homes before starting for Court.

Prospectus OF THE ANSON TIMES.

WITH THE FIRST WEEK in October, will be issued from the office in Wadesboro, the first number of the *Anson Times*, a new family paper, devoted to the interests of Anson county, and the surrounding section.

The Times will be strictly Democratic in politics, holding that the highest welfare of the people is to be found in good government, based on the time-honored principles of Democracy, while it will nevertheless be just and fair to all men. It will be a live newspaper, keeping up with the intelligence of the day, and the best thoughts of the best men. Its market reports will be thoroughly prepared, prompt and accurate.

A leading feature of the Times will consist in its weekly letters from Raleigh and from New York giving the chief social and political topics from original sources. We shall endeavor to issue such a journal as will leave no department uncared for. Our State and County News, Agricultural column, and Domestic Miscellany for the ladies, will be kept abreast of the times.

The people of Anson and the Pee Dee region have a great future before them, and it will be the duty and pleasure of the Times to leave no effort unpaired to advance its development by all the work that an active and progressive journal can effect. We confidently expect the hearty co-operation of the farmers, the men of business, and all who are desirous of prosperity for this favored region of North Carolina. In return we hope to present a journal, in the Times, in which they may feel a just pride.

Published at the growing town of Wadesboro, a railroad centre, and competing point, the Times will offer an unusual advertising medium for the business men of Charleston, Wilmington, Raleigh and Charlotte.

Terms—One year, \$2; six months, \$1; three months 50c. Special contracts made for advertising.

The Rules for Health.

The following simple rules for the preservation of health, especially through the changeable seasons of autumn, winter and spring, should not be left entirely to health journals. We are right in the midst of the time when they apply.

Never lean with your back against anything that is cold.

Never begin a journey until breakfast is eaten.

Never take warm drinks and then immediately go out into the cold air.

Keep the back—especially between the shoulder-blades—well covered; also the chest well protected.

In sleeping in a cold room establish a habit of breathing through the nose, and never with the mouth wide open.

Never go to bed with cold or damp feet; always toast them by the fire for ten or fifteen minutes before going to bed.

Never omit regular bathing; for unless the skin is in an active condition, the cold will close the pores and favor congestion and other diseases.

After exercise of any kind never ride in an open carriage or near the window of a car for a moment. It is dangerous to health and even to life.

When hoarse, speak as little as possible until the hoarseness is recovered from, else the voice may be permanently lost, or difficulties of the throat produced.

Merely warm the back by a fire, and never continue keeping the back exposed to the heat after it has become comfortably warm. To do so is debilitating.

When going from a warm atmosphere into a colder one, keep the mouth closed, so that the air may be warmed by passage through the nose ere it reaches the lungs.

Never stand still in cold weather, especially after having a slight degree of exercise, and always avoid standing upon ice or snow, or where the person is exposed to a cold wind.

Ladies, the best fits and the easiest shoes for the little ones are at ROSENTHAL'S.

Home Again.

Our esteemed fellow-townsmen, Mr. R. J. Jones, who has been to Canada as a delegate to the Sovereign Grand Lodge of Odd Fellows, returned home night before last, highly delighted with his trip, as well as the people whom he met. Mr. Jones speaks in high terms of the country and the beautiful scenery he witnessed en route to Toronto. But we believe our friends, though very much of an Odd Fellow in some respects, is not much of an odd fellow in one other respect, and that is, that notwithstanding the beautiful scenery, fine lands and hospitable people that he has been among, like all other Wilmingtonians, he is glad to get back on the banks of the old Cape Fear once more, within sound of the tall pines of our forests as the breeze fresh from the sea and Sound sweeps through them, bringing with it the odor of the marsh grass, and inspiring one with thoughts of shrimps, pig-fish, sort-hell crabs, oysters and "the like o' that."

THE NORTH CAROLINA EDUCATIONAL JOURNAL.

REV. J. F. HEITMAN, Editor & Prop'r.

THE NORTH CAROLINA State Teachers' Association, at its annual meeting held during the late session of the Normal School at the University, had under consideration the publication of a journal which should be a medium of communication and a vehicle of information for the Teachers and others engaged in the work of education in North Carolina.

The undersigned had previously had in contemplation the publication of such a journal, and he submitted a proposition which was accepted by a committee appointed by the Association to arrange for securing the desired journal. In accordance with these arrangements we propose to publish "The North Carolina Educational Journal."

and will issue the first number as soon as a sufficient number of subscribers shall be engaged to justify us in beginning its publication.

The Journal will be an eight-page folio, issued monthly, at \$1 for a single copy. It will contain only such matter and advertisements as pertain to the interests of education. Any person procuring us ten new, paying subscribers in one year will receive one copy for a year gratis. Persons wishing to subscribe will please send name and post-office address at once, and the subscription price when they receive the first number of the Journal, or as soon thereafter as possible.
