Thomas Carlyle, the famous, is now on deathbed.

There was a mistake, which seems to have been very general in regard to the Colorado elections. They take place on November 21, instead of on yesterday, as we all thought.

The Republicans were generally successful in the Connecticut municipal elections. No one seems to attract any particular significance to the result as bearing on the general election next month.

This is peculiar. Great numbers of large white butterflies have made their appearance at Lackawaxen, Pa, to the alarm of the farmers. The mass is dense in places that it presents the appearance of a snowsstorm.

Miss Adele Belgarde essayed to play Hamlet at Niblo's garden on Monday night and made a most lamentable failure therein. The papers think that she might do well in her own legitimate sphere but that she doesn't wear the breeches grace-

Yesterday's Warld says: The sale of single tickets for the first week of the Bernhardt season began at Booth's Thea tre at 8 o'clock yesterday morning. Th line of purchasers extended more than the length of the building, half of the people representing speculators. By noon, when the rush ceased, half the dress circle and all seats below for the first night had been sold. Speculators were offering first night seats at from \$5 to \$10.

The spinners and spoolers of the Newburg, N Y, Steam mills, owned by Garner & Co., are on a strike and the mills are stopped. The operatives quit work on account of, as they allege, a reduction of about \$1.25 per week in their pay. The Superintendent of the mills denies that there has been any reduction. On the contrary, he says the hands demanded an increase in wages, and because he refused to grant their wishes they refused to go to work,

Troops are needed at Shoholah, Pa. In school at that place, a boy of twelve tripped a girl of about the same age. She very properly turned and slapped his face, and he thereupon struck her. The teacher pious showers in the up-country to bring then interfered, and at his suggestion the boy begged the girl's pardon and shook hands with her. Not satisfied with this, the teacher endeavored to make the boy kiss the girl. She was willing but he wasn't and so he declined. The teacher thereupon thrashed him and was afterwards arrosted on a warrant sued out by the boy's father. The court found for the

Death To Insects.

Persian camomile is the powdered leaf of a harmless flower growing in Caucasian Asia, in great profusion, and it is said has been used for centuries by the natives to rid them of unwelcome visitors from the insect world. A Useful Invention.

Mr J. D. Stanley, of this city, has exhibited to us an invention which will probably come into very extensive use, It is for use on railroads and to be applied to feeding and watering cattle and hogs while in transit. By it both food and water can be introluced into the car while the car is in rapid motion by any one standing on the platform. When necessary the troughs can be raised or lowered to sny desired height within the car. Mr. Stanley has applied for a pate ent and has also entered into the competition for a prize of \$5,000 offered by the American Humane Society for the best invention of this nature. We trust that he may not only secure the prize but that he may realize handsomely by the sale of his patent right.
