WILMINGTON, N. C.  
A fine assortment of Coffins and Cases kept constantly on hand. Furniture Repaired Cleaned and Varished. Orders by telegraph or mail promptly filled.

The appearance of General Grant on the stump, thinks the New Orleans Picayune, is a demonstration of republican desperation.

The silver product of the United States for the last fiscal year is estimated by the Treasury Department at \$38,000,000, of which \$28,000,000 were coined.

In 1860 the number of lunatics in England was 28,058. Now it is 71,191, an increase of no less than 87 per cent. During the same period the population increased only about 23 per cent, a third of the rate at which lunacy advanced.

Prices of stocks are higher now than they were before the Maine election, the result of which, the republicans claimed, created a panic and unsettled values. This is one of the things that calls for an explanation. Holders of stocks are apt to cry for more elections of the same sort, if the explanation is not promptly given.

The Philadelphia Times says that 50,000 Republicans and 40,000 Democrats in that city have had their poll-tax receipts provided by the two local committees at a cost of \$45,000. As there are not at most over 150,000 voters in Philadelphia, more than half the voters are unwilling to pay 50 cents apiece for the privilege of voting.

The commissioners of the Freedmen's Saving and Trust company state that a large amount, about \$100,000, of the dividend of 10 per cent, recently declared by them still remains uncollected. Depositors are urged to collect the amounts due them as promptly as possible. Pass books may be forwarded by mail or express or sent through banks.

At a sale of the herd of a noble stock owner in England, recently, two young bull calves of the purest bred short-horned family to be found in Britain, and with a pedigree back to the fifteenth generation, were sold to the owner of a California ranch for 800 guineas apiece. The owner had his costly purchases conveyed to town in a special wagon, and then had their lives insured at a high premium before starting them on their long westward journey.

Otto, the son of a Nez Percés Indian chief, is distinguishing himself as a sharpshooter in San Francisco. His most remarkable feat is in hitting a mark while blindfolded. A glass ball is suspended twenty feet away, and the boy is allowed to gaze at it. Then his eyes are bandaged, and he is turned around several times; but more than half the time he breaks the ball, though how he manages his aim is a mystery.

Mr Alexander Williams, of Boston, has in his possession a massive walking-stick which formerly belonged to Thomas Hancock, uncle of John Hancock, of revolutionary fame. It is in a perfect state of preservation, and is more than one hundred and fifty years old, and has the name of Thomas Hancock on its finely carved head. Mr. Williams proposes to present this valuable relic to Gen. Winfield Scott Hancock, when he becomes President of the United States.

**Peanuts.**

We have received from Messrs. Mollen, Brown & Co., of Cincinnati, a copy of their regular annual review of the peanut crop. Their estimate of the North Carolina crop, 120,000 bushels, for the year ending September 30th, is incorrect. We have already a week ago published a statement relative to the crop in North Carolina and Virginia and our figures, derived from reliable sources, were 135,000 bushels for North Carolina. In this respect Messrs. Mollen, Brown & Co. are in error.

## Third Ward Club.

The Third Ward Democratic Club adjourned for a meeting at the usual place to night. An earnest appeal is made by the Secretary, Mr. James W. King, to every Democrat in the Ward to attend and enlist under the banner of Hancock, Jarvis and Shackelford.

## Col. McRae in Wayte.

Hon. D. K. McRae, of this city spoke at Mt Olive, on Saturday last, to a very large crowd. The Goldsboro Messenger tells us that 'he made a fine speech, one of the best efforts of his life, and was listened to with marked attention to the end. His speech was truly one of power and was interrupted repeatedly with rapturous applause.' Col. McRae was to have spoken in Goldsboro last night.

## Tickets.

Capt. Oct. Coke, Chairman of the State Executive Committee, gives notice as follows: 'In answer to many inquiries about the tickets to be used at the next election, we beg leave to notify the Democratic party that this committee have now in press, and will soon issue to the committees of the different counties the following tickets: 1. The State ticket. 2. The electoral ticket. 3. The judicial ticket. 4. And one ticket each for the two amendments to the Constitution of the State.'

## "Freaks."

The New York Criterion Comedy Company will appear at the Opera House, in this city, on Friday and Saturday evenings, October 15th and 16th, with the new version of the successful farcical comedy, 'Freaks.' This comedy has had a great run in other cities. A glance at the distribution of characters will indicate the nature of the play: Character: Dr. Apponius Ketchum, editor and proprietor of the Bugle, with a freak for the ladies, Edward Lamb; Ebenezer Crank, sub-editor of the Bugle, with a freak against all womankind, W. J. Gilbert; Fred Mastic, an artist, with a decided freak for Florence, A. H. Canby; Mr. Charles Lovell, a young man of means, with a freak for Grace, W. S. Harkins; Mr. George Goldbug, a wealthy banker, with a freak for business, J. B. Curran; Hunter, Mr. Goldbug's confidential clerk, with a freak for collecting unpaid notes Julian Reed; Billy Black, a printer's devil, with a freak for copy, Edward Grey; Winetop, an interloper, with a freak for the cheering cup, John Ogden; Miss Florence Goldbug, the banker's daughter, with a freak for emancipation of women, Mary Davenport; Miss Theodolinda Goldbug, the banker's sister, with a freak for writing tragedies, Mary Stuart; Miss Grace Goldbug, the banker's niece, with a freak for matrimony, Lenore Harkins; Jane, maid in Goldbug's house, with a freak for running, Virginia Thomas.

## Our Water Works.

Next to the Presidential canvass probably there is nothing which interests our citizens more at this present time than the question of a supply of water for fire purposes and domestic use and judging from the 'proposals' which are being prepared by the Committee on water works which we have seen, our citizens may rest assured that within a very short time the question will be settled and Water Works become an assured fact. There is already one member of a large New York contracting firm in the city looking the grounds over and others are expected this week. The gentleman above alluded to, we understand, has just completed and turned over to the city of Jacksonville, Fla., a water works and other sanitary improvements, the water works being about the same size as will be required here.

Mr. Cloud, we learn, says that there is an unlimited amount of idle capital in New York seeking a profitable and safe investment. He expresses himself much pleased with our city and a little surprised at seeing so large and compactly built a town and when coming in contact with our citizens and seeing how favorably situated we are for water works, wonders that they were not built long ago. We trust that our citizens, with the committee on water works, will show these gentlemen every attention while they remain among us, and not only induce them to build water works, but to bring their capital here for manufacturing and other purposes.

Mr. Nath'l Jacobi having been appointed agent for the Atlas Plow, parties in want of this celebrated Plow can now have their orders filled at JACOB'S Hardware Depot, No. 10 S. Front st.

## McGowan's.

Capt. J. M. McGowan has opened a nice little saloon at No. 16 Market street and will be glad to serve his old friends and the public. Everything is new, clean and neat. He claims to have the best liquors in the city, and wants you not to believe him, but to come and try them. Oysters will be served in good style, and his little dining-room is *au fait*. Captain Jim ought to know what's what. See advertisement elsewhere.

## A Call to St. John's.

We understand that the Vestry of St. John's Church have issued an invitation to the Rev. Mr. Pitts, of Baltimore, to take charge of that parish. Mr. Pitts has also been called to St. Matthew's Church, at Hillsboro, where it is also proposed to organize a boys' school for him, and it is understood that the invitation to St. John's is for him to come here and remain until he can decide which of the two calls he will definitely accept.

## New Locomotives.

Two new large freight engines from the Baldwin Locomotive Works, Philadelphia, and intended for the South Carolina Railroad, passed through this city yesterday by the W. & W. and W. C. & A. Roads for their destination at Charleston. The engines are both the same size, each having six driving wheels and a 16 inch cylinder with a 24-inch stroke. The weight of each locomotive and tender is a little over one hundred thousand pounds. That much weight on a toe with a corn on it would cure the corn.

## Dr. DeRosset.

The latest information received here from Dr. M. J. DeRosset represents his condition as a little more hopeful. This news came yesterday; nothing has been heard to-day. Dr. George G. Thomas, who was with him when the attack came on, returned here on Saturday night. He says that he was seated conversing with Dr. DeRosset when the first symptoms appeared. He had never seen that gentleman more animated and pleasing than on that occasion. Very suddenly Dr. DeRosset, who had for some time past feared an attack of this nature, remarked to him very quietly that he felt paralysis creeping on him at that moment. It was then in the fingers of his right hand and gradually crept up the hand and arm to the shoulder. He requested Dr. Thomas to take a pin and stick it into his hand. This was done and there was no sensation and then the operation was repeated at intervals up the arm and with the same result. Being fully assured of the nature of the disease Dr. DeRosset requested Dr. Thomas to go at once for Dr. Hammond and gave him the address in full. Dr. Thomas offered to assist him to his bed but he declined, remarking that he would lie down on the sofa and await his return. Even then his utterance was indistinct, and when Dr. Hammond arrived he was speechless. On Saturday there was some sensation in the right side and he is not now altogether speechless but it is almost impossible to understand his words. Dr. Hammond, we understand, says that if it were paralysis alone with which he is affected he thinks, he could master the disease, as he has been very successful recently in its treatment, but the misfortune is that it is complicated with Bright's disease of the kidneys, from which Dr. DeRosset has long been a sufferer and which in all likelihood superinduced the attack of paralysis. A hemorrhage of the bowels has been feared but the fact that this has not yet occurred leads to the hope that is now entertained. No information has been received here to-day from New York and this fact, on the principle that no news is good news, has somewhat encouraged his many friends in this city.

## Important to Voters.

No one is to register or vote except in that precinct where he is an actual and bona fide resident on the day of election. This means a voter who has continuously resided in or who has removed to a precinct in good faith, and who produces in the latter case a certificate that his name has been erased from the books of his former precinct. This certificate can be had up to the time of closing the registration books. Certificates of registration, that is, certificates allowing one to vote at a precinct other than that in which he registered, are not allowed. The following persons are not to vote: Minors, idiots and lunatics; persons who, after conviction, or confession in open court, have been adjudged guilty of felony or other infamous crimes, committed af-

ter January 1, 1877, unless restored to rights of citizenship by law.

Subject to the foregoing exceptions, all males born in the United States, or naturalized, who have resided in the State twelve months next preceding the election, and ninety days in the county, are qualified to register and, vote in the precincts where they may reside on the day preceding the election. The residence of a married man is where his family resides; that of a single man where he sleeps.
