England's 100-ton gun, with 441 pounds of powder, sends a 2,000-pound ball 45 feet into a sand bank.

The constitutional amendment in Maine, electing the Governor by a plurality, has 21,331 majority.

Gold continues to flow into this country, and it is estimated that \$4,000,000 in coin and bullion arrived last week from Europe.

New Orleans handled one-third of the entire cotton crop of the United States last year. New York received one-fifth of the crop.

The cost of the postal service during the last fiscal year was \$22,296,269—an increase of \$2,283,379 as compared with the preceding year.

It is a penitentiary offense in Ohio to buy a vote. An exchange regards this as class legislation, as it is aimed at a great republican industry.

Vanderbilt sold 741 city lots in Brooklyn, through an agent, last week, the largest sale of real estate that has taken place in that city since 1855.

New York city has school accommodations for 124,353 pupils; the average attendance is 108,558 and the teachers' salaries aggregate \$2,354,50.15.

A company has been formed to establish telephonic communication across the Atlantic ocean, for which purpose an effort will be made to secure the new French lines.

A publication giving the origin and pedigree of all the old Virginia families is issued periodically at Richmond. Those who don't belong to the F. F. V.'s have dubbed it the "Court Journal."

The Richmond Dispatch puts it thus: "He that ruleth his spirit is better than he that taketh a city. General Hancock is the hero and statesman pointed out by manifest destiny as the man who will be the next President of the United States."

The Democratic State Committee reports 1,000 Hancock and English clubs in the State outside of the cities of New York and Brooklyn, and a membership of over 100,000 in the uniformed clubs of those cities. The total membership of the Democratic clubs in the State reported up to date reaches 300,000.

J. F. Fisher is the truly loyal postmaster at New Brunswick, N. J. Emulating the noble example set by Schyler Colfax and Babcock and Jas. A. Garfield, he "borrowed" \$20,000 from a building association of which he was the treasurer. Of course they will let him down easy in consideration of this proof of his loyalty to the tenets and principles of the Republican party.

The charter election was held at Newark, N. J., on Tuesday. It resulted in a majority of about 1,700 for the Republicans, who elected eleven of the fifteen Aldermen. The only gain is a Democratic gain of an Alderman in the Fourth Ward. The Fifth, Seventh and Twelfth wards are Democratic. The next Council will stand eighteen to twelve in favor of the Republicans. The present Council stands nineteen Republicans to eleven Democrats. The joint Democratic and German majority last year was 3,300, but the city is always Republican unless a special issue arises.

Congressman Randall L. Gibson, of New Orleans, says in regard to the statement now generally circulated about Texas being sub-divided into four new states, that the idea of the Democratic party carving up Texas into four states is based upon ignorance and is absurd. Texas was admitted into the Union by a joint resolution, and the United States government agreed that whenever Texas saw fit she could divide herself into four more new States, making five States in all. This may be done by Texas at any time, as well under a Republican as under a Democratic administration, for the right was guaranteed to her by treaty and is independent wholly of parties.

Mr. Nathl Jacobi having been appointed agent for the Atlas Plow, parties in want of this celebrated Plow can now have their orders filled at JACOBI'S Hardware Depot, No. 10 S. Front st.

An old veterinary surgeon of the United States Army furnishes the following as a cure for the epizooty to the New York Sun: "Take one pound gum assafoetida, mix it with one gallon boiling water; stir the mixture constantly until the assafoetida is all dissolved. Let the mixture cool. Strain and give the horse half a pint every three hours. This will relieve the horse inside of twelve hours, and give him a good appetite."

**Sudden Death.**  
Elisha Lewis, colored, a cooper in the employ of Messrs Hall & Pearsall, who lived in the Eastern portion of the city, died very suddenly yesterday of a congestive chill, it is said. His wife had gone out to work and left him asleep in the bed, but was recalled home during the afternoon by one of her children, with the information that the husband and father was dead. Lewis had been unwell for over a week.

**Democratic Rally.**  
Do not forget the meeting at the Court House this evening, at 8 o'clock. Mr. J. H. Currie will address the Democratic voters of the Second Ward at the time and place above mentioned. Every Democratic voter of the Second Ward is expected to be present. Let all who feel an interest in the election of Hancock and English and the preservation of the constitution of our fathers, that priceless boon of liberty bequeathed us by our noble sires who fought and suffered in the dark days of the revolution that we might be freemen, attend prepared to work in real earnest. This is no idle talk. The election of Garfield in 1880 means the election of Grant in 1884 and the election of Grant in 1884 means empire and imperialism forever in this country. Who can doubt it? Can any Democrat who reads this doubt the truth of our utterances? We throw not. Then rally, Democrats, and do your duty like men and freemen as you are. There is too much at stake in this campaign for any man worthy of the name to exhibit the least indifference.

Dancing lessons given free at ROSENTHAL'S. Pump sole boots and shoes for the ball room.

**Words of Wisdom.**  
It is easier for a man to descend to earth than to mount to heaven.  
However laborious the life of the good, it is less than that of the bad.  
True philosophy places us above honors, but nothing places us above the enmity they cause.  
Show me a people whose trade is dishonest, and we will show you a people whose religion is a sham.  
Strong minds, like verdant evergreens, are most verdant in winter; when feeble ones, like tender summer plants, are leafless.  
There are truths which some men despise because they have not examined, and which they will not examine because they despise.  
Childhood often holds a truth with its feeble fingers, which the grasp of manhood cannot retain, which it is the pride of utmost age to recover.  
A good moral character is the first essential in a man. It is, therefore, highly important to endeavor not only to be learned, but to be virtuous.  
To feel much for others and little for ourselves, to restrain our selfish and to indulge our benevolent affections, constitute the perfection of human nature.

**Is it Possible**  
that a remedy made of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, &c. make so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.—Post.
