It is an actual fact that the number of votes cast at the recent election in Norwalk, Conn., was 329; yet people are told they mustn't be superstitious.

Governor Seymour says Gen. Hancock will take the oath of office as president on the 4th of March, and General Garfield will likewise take the oath of office as Senator.

The grain harvest of Italy this year is estimated as amounting to 65,000,000 hectolitres, or one third more than that of 1879, which was between forty and forty-five millions.

The Swiss season has been the best for six years. Up to June 30th the Lucerne Steamboat Company had carried 40,000 more passengers than up to the same date last year.

A special investigation of the railroad authorities as to the cause of the frightful accident, near Pittsburg, Pa., is now going on. Twenty seven deaths have so far resulted from the accident.

In the great retail stores of Philadelphia pneumatic tubes have been introduced to do the work of cash boys, and the high-sounding yells of "cash" no longer split the ears of customers.

The enormous apple crop in New England has been squeezed into so much cider that the price of the fluid has dropped to 90 cents a barrel. It is said that drunkenness in consequence far more common than usual.

A merchant of New York who disposes of over \$200,000 worth of goods per annum to Southern purchasers is confident that his sales in that section would reach half a million annually if there were a change in the federal administration.

A German professor named Grimmer prophesies a woful seven years for all the world. "From 1889 to 1887," writes Prof. Grimmer, "there will be a universal mortality. Asia will be depopulated and Europe will become a desert.—America will lose 15,000,000 of her inhabitants."

It is quite unnecessary to draw out Garfield's views on the rebel claims. He voted, says a contemporary, for the payment of over one hundred millions of dollars in southern war claims which were paid while his party controlled congress, and he would be compelled to go back on his record if he were now to declare that all such bills would be vetoed if he were elected president.

We note the following from Messrs Dan Talmag's Sons & Co.'s Annual Review of the Rice Culture in Louisiana, dated New Orleans, Oct. 12th:

The Crop of 1879-'80 was a failure on account of low water in the river, and only 100,000 barrels was made instead of 250,000 barrels as was looked for early in the year.

The Crop of 1880-'81 is very large and basing estimate on the acreage planted and the turn-out of mill's fully 250,000 barrels may be expected and a consequent low range of prices, which are now over 1 cent per pound lower than last season, equal date.

Complete returns from the recent Connecticut town elections show that the Republicans carry but seventy-nine out of one hundred and sixty-seven towns in the State, a net Republican loss of twenty-four towns, as compared with the elections of 1877, when the Republicans carried one hundred and three towns. In the strong Democratic centres of New Haven and Bridgeport no election was held. While local issues, in a large measure, influenced the vote, the result is regarded as encouraging to the Democrats, and no doubts are now entertained but that Connecticut will cast its electoral vote for Hancock.

**A Grand Reputation.**  
Warner's Safe Kidney and Liver Cure has reached a reputation that is not limited by the confines of section or country. There are no injurious substances nor false and temporary stimulants in the preparation. It is purely vegetable and compounded under a formula that has passed severe tests and won endorsements from some of the highest medical talent in the country.—*New York World.*

See a woman on horseback in another column, riding near Speer's Vineyards, with a bunch of Grapes from which Speer's Port Grape Wine is made, that is so highly esteemed by the medical profession for the use of invalids, weakly persons and the aged. Sold by Druggists.

## Sudden Death.

William Loftin, colored, about 28 years of age, died very suddenly on yesterday in a house in the alley running from Fourth to Fifth streets and between Church and Castle. He was apparently in good health, but while sitting in a chair he was struck by the Angel of Death and died in a few minutes. Coroner Hewlett held an inquest this morning, the verdict being death by natural causes, unknown to the jury.

## Oyster Toast.

This is a nice little dish for luncheon or for a late supper. Scald a quart of oysters in their own liquor; take them but and pound them in a mortar, when they form a paste; add a little rich cream and some pepper. Get ready some thin, neat pieces of toast, moistened slightly with boiling water and spread with fresh butter. Spread the oyster paste thickly upon the toast, put a thinly cut round of lemon upon each piece, and arrange them on a platter garnished with parsley. Serve very hot.

## Returned Home.

Mr. and Mrs. J. C. Lumsden have returned to the city after an absence of four weeks at the North. Business was combined with pleasure and Mrs. Lumsden has a variety of beautiful millinery goods to offer for sale which the ladies are invited to examine.

Mr. L. tells us that he had the great pleasure of shaking Gen. Hancock by the hand at his home on Governor's Island. He was received very kindly and brings away as a memento a photograph of the General presented by him to Mrs. Lumsden. They stopped in Baltimore last week at the great sesqui-centennial, spending Monday, Tuesday, Wednesday and Thursday of that week in the city. On Wednesday Mr. Lumsden, a Mexican war veteran, participated in the parade of the veterans, who were in the procession on that day.

Water street merchants will keep their feet dry in Winter by wearing ROSENTHAL'S boots and shoes.

## City Court.

The Mayor's levee was well attended this morning. The first case on docket was John Walker, a son of Erin, who with his wife, Ann, got on a spree on Saturday night and were found drunk and down on the streets. They were accordingly arraigned this morning on the foregoing charge. Neither of the defendants claimed a residence here, but said they were from the other side of Weldon. They were discharged upon condition that they would quit the city by noon to-day.

Another case of drunk and down enriched the City Treasury to the extent of \$5, and was permitted to depart.

Wm. Davis and Elias Smith, two colored lads, were found on board the steamer Elizabeth, at 2 o'clock Sunday morning. Smith claimed that he was on the wharf and proceeded there, on hearing the cry of police. Davis was less fortunate in being able to account for his presence on the steamer. The sentence of the Court was one day in the C. P. for Davis. Smith was discharged.
