The business is to be pushed to its fullest extent, and many of the railroad "lines will act as feeders to these barges ; while floating elevators, as many as may be needed, will be put to work here, to facilitate the prompt forwarding of the grain across the ocean. J doubt not hundreds, if not thousands, ot tributed through Maryland and Virginia during the compaign, and will vote in those States to day. Even if they do not affect the result, on the electoral ticket, there are several close Congressional Districts in which they may have a controlling influence.
