WEDNERDAY, NOVEMBER 10, 1880

[ENTERED AT THE POSTOFFICE AT WILMINGTON, N. C., As SECOND-CLASS MATTER, 1

The London Telegraph says that, in consequence of the advance in value of many securities held by the Glasgow Bank, the liquidation is likely to show much better results than were at one time anticipated, and those she reholders who have met their calls in full will be handsomely remunerated.

Mr. James G. Fair, of Nevada, and the probable Democratic Senator from that State, is of Irish birth, and is 49 sold. While a boy he lived in Illinois, and at eighteen went to California and in time became a superintendent of mines. In addition to his fortune made from the Big Bonanza mines he owns nearly a hundred acres in various parts of San Francisco. He suffers from rheumatism. He is of medium height and heavy, with a large beard streaked with gray.

A motor yacht without steam no makes her way about Boston harbor. illustrates the working of a compresse air petroleum engine. No smoke-pipe visible, for there is none; nor any nee of any, for there is no smoke and not se much fire as the flames of an ordinar kerosene lamp. The whole engine and running machinery are contained in long, low box in the bottom of the boa occupying scarcely more room tha would be required for the ballast of sail-boat of its size. The peculiarity of this engine is that a common match brings it instantly into full working power.

COTTON.

The New Orleans Picayune shows that over one million bales of cotton were marketed during the month of October. The receipts at all ports were 960,000, and if the overland movement be no greater than for the same month last year, something like \$50,000,000 worth of the staple left plantations during the second month of the season. These figures are far in excess of any previous to 9:30 a. m. record. When the movement to the ports last October reached 884,000 bales, the figures were in excess of the prior season by nearly 200,000 bales, and now these are again overtopped by 76,000. The South Atlantic ports lead in the gain, Charleston, Savannah and Norfolk having already counted nearly 200,000 bales more than last year. At the Gulf ports only 521,000 bales have come in, compared with 528,000 in 1879.

The Picagune adds that the trade tained this invaluable remedy. are still divided on the crop question, and the estimates vary materially, though the tendency lately has been towards higher figures. The Atlantic States seem to have fared very well in gathering the crop, and the yield will probably show an excess over last season.

There is much talk now of contesting the vote of New York State on account of the glaring frauds practiced there. It would seem that a great many of the tickets voted in that State were contrary to the law, inasmuch as they were printed on the back with the word "electors" which it is thought was done with the Facts of Importance for All Regard. view of allowing the employers and manufacturers who might be at the polls an opportunity for seeing how their employes voted; a species of bulldozing worthy of the Republican party. The appeal will be, we presume, to Congress as there is but one Democrat, Horatio Seymour,

Jr., on the State Board of Canvassers. While we honestly believe that there have been great frauds practised in New York by the Republicans, as elsewhere and that more than enough of them can be found and identified to revolutionize the result in that State, still, we do not think that any practical result will ensue. We are of those who believe that the best time in the world to contest an election is during the canvass and at the polls and not after the returns have been received and announced. If the Democrats of New York had done their duty, as we all so fondly believed they were to our address and it will be mailed to fourth, 1,677; fifth, 2,107; sixth, 5,651, til the robbery was accomplished before making their arrangements to capture the villains, but would have detected and arrested them in the very act. We shall notice with interest, however, the con test which may ensue between the rich and arrogant regues and those whom they have defrauded, but with little hopes of a successful issue for the dilatory Demo-

As for the people of the South, they enter no protest and take no part in this left me, and I am to-day feeling strong fight, the Associated Press to the contrary, not withstanding. We have done our duty and secured ourselves. Our fully recommend it to others. own affairs are in the hands of honest

men, and they will remain so. What we will do four years hence-and it is a long way ahead to look-will depend upon many contingencies vet to arise.

A Physician's Testimony

I hereby certify that I have been practicing physician for twenty-seven years, and for many chronic cases in my practice do recommend Warner's Safe Kidney and Liver cure. It was upon my advice that G. W. Stamm, editor o the Industrial Era, Albia, Iowa, ob A. A. RAMSAY, M. D.

The Alarming Increase o Heart Disease and the Symptoms which Precede It.

Leading to Scientific Investigation and an Attempt to Check Its Increase.

The Wonderful Properties of "Bedatine-de-India" and how to Properly Use It.

ing a New Discovery.

The mortality statistics of this country show that a great proportion of deaths arise from Heart Disease But aside from the fatality which attends it, the inconvenience and suffering which even the first stages bring, make it necessary to take prompt measures for relief. Undoubtedly the greatest remedy of modern times for curing diseases of the Heart is "Sedatine, de-India," which is accomplishing such wonderful results and attracting so much attention. This great remedy possesses ingredients specially designed for all the numerous troubles of the Heart. The combination is the result of long and care. ful experiment, and it can be safely as. serted that when taken in time it will cure Yancey in every case. Do you ever have Nightmare, oppressed feeling in side and breast, Irregular Action, Throbbing, Jumping, Fluttering, Momentary Stopping, Slow Circulation of the Blood? These are all symptoms of Heart Disease. Those who are suffering and have never tried it do so at once; those wo have ever tried it do not need to be urged to do so again. Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative available to the public. The sciences of medicine and chemistry have never produced a remedy so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm. Ring-worm, Ulcers, Sores, Rheu-matism, Mercurial Disease, Neu-ralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Disease, Affections of the Liver, Dyspepsia, Emacia-tion, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates the vital functions, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.
