good as he started with, is greater glory than could have been gained by an elec- Senate, but will refuse to take part in tion to the Presidency."

It is estimated, says the Baltimore Sun, that 8,000 wild ducks were taken on the Susquehanna flats, in the vicinity of Havre de Grace, last Monday, the first day of the ducking season. A number of prominent gentlemen from New York, including Judge Gildersleeve, participated in the slaughter. The greatest number of ducks killed by any one box was that of Messrs. Mahan and Dobson, who secured 540; the highest number of any sneakboat was that of Capt. Todd. who got 110. The flats still abound with ducks, and it is said that there is no perceptible decrease since the day before the gunning season opened.

The Wilmington Star doesn't like Senator Hill's remarks on the situation. We thought it wouldn't. Whatever the Star may be Senator Hill is a representative Southerner-and always has been. Probably he knows the difference between tweedledum and tweedledee as well as here to-day to be present at the Naval any other man does, when he talks of this country as a nation. It is a nation, no matter whether it is spelled with an N or a n. There has been a great deal of nonsense thought, spoken and written about the difference between a big N and a little one. There is simply a distinction without a difference.

But to return to Mr. Hill and his letter. Emanating, as it does, from a representative Southerner and appealing, as it also does, to the calm reflection of of the people of this country, it is a document which can have but one affect and that a good one.

Mr. Hill is a man of deep reflection aid in every way in all enterprises. and of careful observation. He knows whereof he talks and writes. He knows that the Democrats of the Southern States have hung on to the skirts of the party for the past fifteen years, looking to them for the relief which has never come. They have yielded, without a murmur of protest, almost their entire individuality, which has been absorbed by the Northern wing, quite as a matter of course. In every instance the South has yielded to the North. If we have had preferences of our own we have vielded them to

act with the Democrats in organizing the the caucuses of Democratic Senators. He will vote to pay Deputy (election) Marshals for services already performed, if they shall not be provided for by Congress at the coming session. He will not trade with the Administration of General Garfield for the Federal patronage in Virginia. These facts, which I have from one who knows General Mahone well, are important, as his vote may be the deciding one in organizing the Senate and in many subsequent matters. Secretary Sherman has just written, from here, a curious letter to an Ohio friend concerning himself. From this letter . it appears that the Secretary thinks he has a right to continue in the Treasury under President Garfield. In the letter, referring to his snggested election to the Senate, from Ohio, he says, "I do not know what is the desire of General Garfield, but I can see that

my election might relieve him from embarrassment and leave him free to do as he thinks best in the formation of his Cabinet." This does not seem as remarkable, coming from a Sherman, as it would from any one else, but it deserves a place in print.

Nearly all the higher officials leave review in Hampton Roads. Secretary Thompson says the display will be finer than that of a year ago. The Secretary is generally complimented on the fact that he has not spent all the money Con-gress has offered him for two years past, yet has put the Navy, so to speak, "on a better footing" than it has had since the close of the civil war.

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AVER'S PILLS are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety. #

AYER'S PILLS are an effectual cure for Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver, and all other diseases resulting from a disordered state of the digestive apparatus. As a Dinner Pill they have no equal.

While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is heal-ing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system. PREPARED BY DR. J. C.
