

JOSH. T. JAMES, Editor & Prop.

WILMINGTON, N

FRIDAY. DECKMBER 10. 1880

(ENTERED AT THE POSTOFFICE AT WILMINGTON, N. C., AL SECOND CLASS MATTER]

The Indianapolis Journal , says that the suggestion to make Rainey, the col ored ex-Congressman from South Carolina, clerk of the next House is generally commended by the Republican press.

The News and Observer yields nearly all of the first page of its yester ay's issue to the publication. in full, of the votes for Governor and State officers, according to the returns certified by the Board of Canvassers.

M. de Lesseps says he owns one share in his Panama canal project. He bought it at \$500, and the shares are now worth \$8,000 on the Paris Bourse. Similarly he purchased founders' shares in the Suez Canal, which to-day are worth \$80, 000.

The traffic in Florida oranges is getting to be a large one and is growing every year rapidly. The Jacksonville Snn quotes a banker in that city as sayhad been quite large, and he anticipates that in time this sort of business will surpass anything that was formerly done in the cotton trade in that section.

* Referring to the use of money in elections, the Boston Journal says: "In this city it is going from bad to worse. Twenty years ago the legitimate expense which candidates for Congress were called upon to meet averaged about \$500. Now, in the Boston district, at least \$10,000 is quite moderate. The more closely the districts are divided politically, the greater the expense." The grain receipts at St. Louis for the present year will probably aggregate 60,000,000 bushels, an increase of nearly 50 per cent. over last year. These figures do not include the flour receipts of St. Louis which would add 10,000,000 bushels to the grain aggregate if reduced to grain, making the aggregate for the year 1880 close on to 70,000,000 bushels. The St. Louis papers are naturally jubilant over this handsome exhibit. Although a definite estimate of the aggregate wealth of the Jews of New York cannot be gained, it is known that there are nearly a dozen in the city who are worth over a million dollars each, There are a large number whose wealth ranges from \$500,000 to \$80,000, while at least 100 are worth from \$200,000 to \$400,000 each, and 10,000 are worth from \$20,000 to \$50,000 each. The amount of real estate owned by Jews in the city is vast, and is constantly increasing in extent and value. The fair Sarah's agents, while work- who will turnish the papers with exing the United States, 'do not neglect her home interests. The advertising in Paris goes on with unimpaired vigor. A Paris paper publishes a telegram from New York predicting that Mlle. Bernhardt will ultimately be proclaimed President of the United States, so unpre cedented is her success with the populace. Crowds, it is said, stand before her hotel and cheer her when she appears at a window. This is news that has lost nothing in its progress around private. Her way has not been one all the world. The agents of the Baltimore & Ohio hardt seven years ago in Paris, that at Railroad Company in New York were notified on the 2d inst., that no more freight belonging to that road would be allowed to pass over the Pennsylvania line. The Baltimore' & Ohio Railroad Company now announce that they are prepared to receive merchandise destined children who do not own one "sire" in for that road and its various connections at the depot of the Central railroad of day or so that she should presume to New Jersey, foot of Liberty street, to be forwarded over the new line via the Central of New Jersey and Bound Brook route.

from paper has been eclipsed, as similar articles are now made from glass. An uptown dry goods house has on exhibition a glass table cloth several feet square, of variegated colors, with ornamented borders and fringed edges. The fabric is flexible and only a little heavier than those woven of flax, while it is claimed that it can be washed and ironed like an ordinary tablecloth. Glass has been spun and woven in Austria for

years, but it is a new un lertaking in this country. A prominent glass manufacturing firm of Pittsburg, Pa., recently engaged in the manufacture of this brittle substance into fabrics, which they claim are as perfect, delicate and durable as the the finest silk. A representative of this firm said yesterday that they can spin 250 fine threads, each ten miles long. in one minute. The weaving is done with an ordinary loom, but the pro-

cess is riore difficult and much more in. teresting than the spinning of cotton or other threads. 'We can duplicate in glass any costume' said this gentleman, 'and can make it just as brilliant in color, elaborate in finish, perfect in fit and equal in its smallest detail, even to the button on the original. The fabric is very strong, cannot be ripped or torn, and can be sold at a less price than linen, cotton or silk or other fabric imitated. It is also very warm, easy fitting and comfortable, whether worn as dress, ing that his advances on this year's crop shawl or other garment in ordinary clothing.' Among the articles already man

> ufactured of glass are beautiful feathers which resemble those of the ostrich; towels, napkins and table cloths."

> > NEW YORK LETTER.

NEW YORK, Dec. 8th, '80.

I have suffered from a kidney difficu!ty for the past ten years, accompanied with nervous spasms. Physicians gave me but temporary reliet, but after using three and one-half bottles of Warners Safe Kidney and Liver Cure, my nervous spasms were entirely relieved. My age is 77 years. I recommend this great remedy to all suffering from nervous MRS. MARY BEESE. troubles. Easton, Pa.

Fo) Choo's Balsam of Shark's (il.

Positively Festores the Rearing, and is the Uniy Absolute Cure for Lesfaese Knowa.

This Oil is extracted from a peculia- species of small WHITE FHARE, caught in the Yellow Nes, known as ancharodon Bondeletii. Every Uhinese Fisherman knows it. Its virtues as a restorative of hearing were discovered by a Budhist Priest about the year 1410, its cures were so numerous and many so seemingly miraculous, that the remedy was efficially proclaimed over the entire Empire Its use became so universal that for over 300 years no Desínecs has exist d among the Chinese people. Sent. charges prepaid, to any address at \$1 per bottle. Unly Imported by HAYLOCK & CO

7 Dey st. New York.

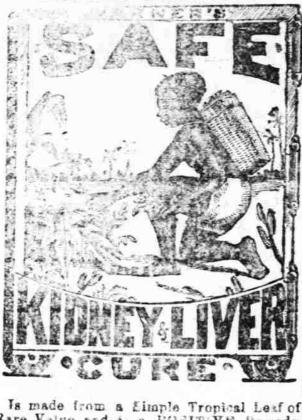

Sole Agents for America.

Its virtues are unquestionable and its curstive character absolute, as the writer can personally testify, both from experience and

Amorg the many readers of the Review in he part and onother of the country, it is probable that numbers are afflicted with deaf ness, and to such it may be said: "Write at once to Haylock & Co., 7 Dev Street, New York enclosing \$1, and you will receive by return a remedy that will enable you to hea like anybody else, and whose curative effects will be permanent. You will never regret doing so."-Editor of New York Mercantile Review, Sept 25, 1883-

observation,

A French chemist asserts that he has concocted a substance by means of which tenants in Ireland or elsewhere, who do not pay their rents, may be evicted with- she came for-fame and money-and I out difficulty, and without the expenses attendant on legal proceedings. The mixture is in the form of a powder; a small quantity of it, sprinkled before came, but she refused his kind and unsunrise on parts of the land adjacent to the tenant's dwelling, will render it absolutely impossible for any human being wicked as to hint that Mr. Dana wanted to remain within half a mile of the spot where the sprinkling has taken place for at least seven days, when the process should, if necessary, Le repeated. The effect of the powder is to produce violent nausea and other feelings of so uncomfortable a kind as to be quite unbearable. It is, however, not dangerous to life, and produces no injurious effects on cattle. The Cincinnati Gazette has this from New York: "The ingenuity that led to mend it to all kidney troubled persons.the manufacture of farticles of clothing See Adv.

help them out. From the best information I can gather, I think that Kelly is blameable to a certain extent, not in this time a man who was objectionable to many Democrats of this city on account of his religious belief. While I hold that no man should be objected to on ac; count of his religion, still Kelly was to blame for taking the risk when he knew that so much depended upon New York. On the other hand there are good and strong proofs that the Tilden ring all over the State was lukewarm and intensely careless about organization and Tilden's supposed organ, the Sun, at first' professing the greatest admiration for the Democratic candidates, afterwards when help was most needed wrote not only indifferently but really ridicuously about them. Kenward Philip is accased of and under trial for forgery in the Morey letter case. He, like all others here who become notorious from any cause whatever, is quite the "rage" and is not likely to suffer in any way, no matter whether he is guilty or not. He con-

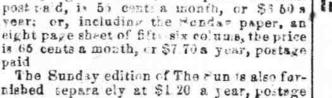

tends that Garfield must be introduced as witness and deny that he wrote the letter before his guilt as principal or as an accessory can be proven. The public here are always grateful to any man or woman citing food on which they may live. Mile, Sara Bernhardf, the French lady who is famous for so many accomplishments that I suppose she may really be considered the most remarkable person who is or has been in New York for a long time, in appearance, is tall is peculiar because she is impulsive. I would suppose her to be warm-hearted, and I do not wonder at the admiration that she receives from the public, and in of flowers. I am informed by a French lady acquaintance who knew Mile. Bernthat time she was almost unknown as an actress, and I think she told me that she was originally a peasant girl, and it was no light struggle 'to fight her way to fame over so many who were after the same thing. .Mlle. Bernhardt is supposed to have been married twice at least "Europeanalichy," since she has two common, and society was shocked for a have her eldest, a son, accompany her to a grand and fashionable reception to which she had been invited, and a lady informed me that there was much consternation depicted on the countenances of strait-laced fashionables present, when "Mlle. Bernhardt and son" were announced. The preachers have preached
