The cold wave seems to have struck the railroads everywhere. Even as far South as North Carolina there are derangements in consequence of ice and snow. We believe that every train arriving here to-day was delayed by stress of weather.

The Grand Lodge of Knights of Pythias of the District of Columbia, some time since appointed a committee to submit a plan for the celebration of the institution of the order, the celebration to take place on the 19th of February, 1881. The Grand Lodge of North Carolina will meet in Goldsboro in February next.

We understand that the U. S. Signal Office in this city is to be removed on the first of January, from its present location on the fourth floor of the Bank of New Hanover building, to the second floor of the First National Bank building, part of which is now occupied by the Telephonic Exchange.

#### The Carolina Central Schedule.

The new schedule on the Carolina Central Railroad goes into effect to-morrow. In addition to the regular passenger train which now leaves at night there will be put on a fast through day passenger, mail and express train, which will make the run between Wilmington and Charlotte in just nine hours, leaving Wilmington at 9:10 a. m. and arriving at 3:20 p. m. The regular night train which now leaves here at 6 p. m. will leave at 5:30 p. m. It will carry the mails and will make the usual connection at Hamlet with the B. & A. L. for Raleigh and other points. The new schedule will be found in our advertising columns.

#### A Bridal Party.

Mr. Thos. Murphy, of Western North Carolina and Miss Kate K. Worth, a sister of Col. A. H. Worth, of Fayetteville, were united in marriage in Fayetteville at the residence of the bride's parents on Wednesday evening. The happy couple, accompanied by several friends, arrived in this city yesterday morning on the steamer *Gov. Worth*. Mr. and Mrs. Murphy left last night for their future home among the mountains of North Carolina. The steamer was gaily decorated with bunting on her trip to this city.

The only Company that issues a policy at ordinary life rates, payable at death or age 65, is the Union Mutual Life Insurance Company of Maine.

#### An Odd Combination.

The year 1881 will be a mathematical curiosity. From left to right and from right to left it reads the same; 18 divided by 2 gives 9 as a quotient; 81 divided by 9 gives 9; if multiplied by 9, the product contains two 9's; 1 and 8 are 9; 8 and 1 are 9. If 18 be placed under the 81 and added, the sum is 99. If the figures be added thus, 1,8,8,1, it will give 18. Reading from left to right it is 18, and reading from right to left it is 18 and 18 is two-ninths of 81. By adding, dividing and multiplying, nineteen 9's are produced, being one 9 for every year needed to complete the century.

The Maine Non-Forfeiture Law carries more equity into life insurance than any State law under which companies are organized. The Union Mutual Life Insurance Company of Maine embodies in its policy the detailed application of the law to individual contracts. Send for sample policy.

Rice birds are about played out. Not so with the Scotch soles at ROSENTHAL'S. They last for ever.

#### Now is the Time to Subscribe to the Sunday Magazine.

The January number, which commences a new volume, is a very brilliant *Holiday one*, opening with a poem, "Christmas," and followed by "Christmas Carols and Customs," "The Children's Carols," "St. Nicholas, the Patron of Christmas," "Christmas Eve in Madrid," "Christmas in the Far West," etc., etc. A new and powerful serial is commenced, entitled, "Out of the World" by Mrs. Robert O'Reilly; there are several interesting short stories, sketches, essays and poems, in fact, the 128 quarto pages are filled with highly entertaining and instructive articles, and the embellishments are numerous and beautiful. The Sunday Magazine has now reached its ninth volume, and has deservedly a large circulation; it pleasantly inculcates religious, moral and virtuous sentiments, and should be found in every family in the land, for it is essentially a family magazine. The price of a single copy is only 25 cents, and the yearly subscription \$3; six months \$1.50 and four months \$1, sent post-free. Address, Frank Leslie's Publishing House, 53, 55 and 57 Park Place, New York.

#### Postage Stamps.

Postage stamps of the United States were first issued July 1, 1847. Two values only were introduced—five cents and ten cents, bearing respectively the busts of Franklin and Washington. They remained current until July 1, 1881, when they were withdrawn and replaced by three new values, namely, one cent, three cents and twelve cents. In May, 1855, a ten cent stamp was issued, and afterwards, at intermediate dates, a complete series, ranging in value from five to ninety cents. The set of stamps now in use was authorized by the government of 1870.

Stamped postal envelopes were introduced into the United States in 1853. The payment of postage originated in France in 1653.

Dancing lessons given free at ROSENTHAL'S. Pump sole boots and shoes for the ball room.

#### Usualable

The following unmailable postal matter remains in the city postoffice:  
Miss Sissie E. King, care Andrew J. King; Miss Mary Lee, care Dock Lee, Sampson Co., N. C.; Robt. Orr, 388 Pearl St., New York; Lyman Brown, 33 Warren St., New York; W. J. Cromwell, Wadesboro, N. C.; J. M. Gilchrist Nichols, S. C.

#### In Our Quarters.

The city bell has been removed from the tower of the old "forty-legs" and has been placed in position in the belfry of the New Market. The fire alarm telephone and auxiliary bell will be placed in the new Market on Monday. We learn that a fire alarm telephone will be placed on the corner of Front and Market streets.

The popular verdict is generally the right one; and concerning Dr. Bull's Cough Syrup the people have long since decided that it is the best cough remedy ever introduced.

#### Gone to India.

A letter received here a day or two since states that Mr. D. P. Ormes, formerly the Manager of the Telephone Exchange in this city, is now en route for India, where he goes, accompanied by Mr. Moody, who was here a few months ago soliciting subscribers for the Law system, to erect telephones and inaugurate exchanges for the Bell Telephone Company. When heard from Messrs. Ormes and Moody were at Alexandria, Egypt, en route for India.

Water street merchants will keep their feet dry in winter by wearing ROSENTHAL'S boots and shoes.

#### Has Cleared Out.

J. H. Duncan, a one-legged vagrant picture peddler add confidence man, will be remembered by many here, some with a peculiar feeling as to a soreness about the region of the pocket book. Duncan has operated extensively in various ways but mostly as an unmitigated nuisance. He has at length, however, operated himself out of sight and it is to be hoped will never turn up in North Carolina again. Here is what we get from the *Toisnot Home* in regard to his latest feat:

J. H. Duncan, a one-legged telegraph operator, school teacher, &c., well known on the line of this road, has added another profession to his already extensive list, this time altogether in a new role—forgery. Tuesday last he forged the name of Cornelius Joyner, a much respected farmer of Nash county, on J. D. Wells & Co., of this place, for \$15.50. The note was presented and paid, and on the arrival of the Northern bound train of the same day Duncan left and has not since been heard from.

Seeing is believing—without doubt you can buy Cooking and Heating Stoves at almost any price at JACOBS'.

#### Fatal and Sad Accident.

We regret to learn of a fatal accident which occurred at Mr. John Watkins' steam saw mill, on Peggy's Island, in the Bannerman's Bridge section of Pender county, on Thursday last. Through some fault, but what or whose we have been unable to ascertain, the boiler of the mill exploded, killing instantly Mr. Levi Bartlett, and injuring very seriously Mr. Clinton Bond, the engineer of the mill, whose injuries it is thought will be fatal. Mr. John Watkins, the owner of the mill, was also burned and bruised considerably but not to a serious extent.

Mr. Bartlett was a gentleman of character. He was a fine machinist and a useful man. He was at the mill for the purpose of having some logs sawed and the work was to have been begun for him in a few minutes when the terrible disaster occurred. One of his legs was blown off by the explosion and it is thought that his death must have been almost instantaneous.

Mr. Bond, the engineer, as we have stated is probably fatally injured. He was burned very badly by the escaping steam and the skin it is said has peeled off his entire body.

An inquest was yesterday held over Mr. Bartlett's body and a verdict was rendered that "deceased came to his death by the explosion of a boiler, caused by overpressure of steam."

For thirty years the Union Mutual has proven that an honestly managed life insurance company is among the noblest institutions of modern times. With no tarnish on its name, it is better prepared than ever to offer insurance to those who desire to secure a policy in a company absolutely safe.
