CRONLY & MORRIS—Renting of Market Stalls

We gain 58 minutes of daylight this month.

The receipts of cotton at this port to-day foot up 287 bales.

It takes an old woman well versed in herbs to give sage advice.

Secrets may be trusted to a miser. He never gives anything away.

Rumor says there will be several marriages of note during February.

February, the last of the winter months, steps in upon us to-day.

Of the 15,000 words employed by Shakespeare, about 6,000 appear but once.

The name of the last discovered planet is an inch longer than the planet.

Penny readings at the Rectory of St. Paul's (Episcopal) church this evening.

The stalls in the new markets will be rented at public auction on Monday next by Messrs. Cronly & Morris.

Professor Cushing has had the upper room of the Skating Rink repaired and the floor put in excellent condition.

The annual meeting of the Seamen's Friend Society was held this afternoon and the proceedings are too late for this issue.

Go to JACOBI'S for Doors, Sash and Blinds, pure White Lead, Oils, Varnishes, Window Glass, all sizes. All at the lowest prices.

The beautiful weather the past few days has been the subject of general gratulation, but we are almost afraid to praise the weather now.

The schooner *Carleton*, from Nassau loaded with fruit, arrived this morning. Her cargo of oranges is the prettiest we ever saw. The sale will commence tomorrow morning.

Those who have tried it, say there is only one good cough medicine and that is Dr. Bull's Cough Syrup; it is cheap too, only 25 cents a bottle.

Mr. James M. Lamb, of the Sunnyside Nursery, at Fayetteville, is in the city with a fine variety of plants, baskets &c, which are offered for sale by him for two days at Mr. Geo. P. Lamb's garden on Sixth street.

J. N. Beck, of Toledo, Ohio, says:—My father, before wearing the "Daily Lung Pad," could not sleep nights on account of his violent coughing; since wearing it he has slept soundly every night.—See Ad.

The boss weather profit is reaching out in Vennor's a manac, which he prints and sells for twenty five cents. He says that the 4th, 5th, 9th, 11th, 17th 25th and 26th days of next July will be excessively hot days; that next August will be decidedly moist; that October will be foggy all the month, and that next December will be muddy and mild.

Spoken at Sea.

Capt. O. Berndtson, of the Swedish barque *Andrietta*, which arrived in below on the 26th proximo and reached this port on Sunday last, reports that he spoke the British barque *Chanaral*, of Liverpool, 4 days out, on Jan. 6th, in latitude 19, long. 51 22. All well. The *Chanaral* is reported bound from Papeosa Chill, to New York.

Acknowledgment.

We are indebted to the marshals for an invitation to be present at the 46th anniversary of the Literary Societies of Wake Forest College, on Friday, February 18th, on which occasion there will be a public debate. Subject: "Resolved, that the cause of civil liberty has been promoted more by the general diffusion of intelligence than by human suffering." The affirmative will be represented by Messrs. W. T. Lewellyn of Surry county, and D. L. Ward, of Wilson county. The negative by Messrs. E. M. Potest of Caswell, and D. W. Herring of Pender.

Wilmington for the Past Five Years—Her Improvements and Croakers.

Wilmington is slowly but steadily improving. Enterprises are continually being added to the already large business which is done in this city though we frequently hear croakers saying "we are retrograding, the town is dead, nothing doing, etc." There is nothing calculated to do a city more damage than such chaps and such chaps. We grant it, times have been, and are now dull, but every city in the country has experienced the evils of the panic and many have not yet recovered from the effects. Let us retrospect and see what has been done in this city in the past five years: A new saw mill, the best of its size in the country, has been built; another which was burned has been rebuilt. A sash and blind factory has been rebuilt and enlarged. A rice mill, second to none in the country, has been built and is in successful operation. Besides in the past five years the following enterprises have been established: Cotton factory, tobacco factory, tin factory, steam laundry, four steam peanut establishments, cigar factory, steam sausage factory, marine sectional floating dock, new market house, turpentine, telephone fire alarm, telephone exchange, two cotton compresses, two steamers to Smithville pine straw packing establishment, root and herb depot, carriage factory, harness manufactory, steam dyeing and scouring establishment, two lager beer bottling establishments, oil tank depot and two cemeteries. Among the literary productions are the *N. C. Medical Journal* and *At Home and Abroad*. The depth of water on the bar has been increased and New Inlet closed up, a public hospital will soon be built, a stock company is now at work on the Duplin canal; and the work of erecting the Holly system of water works will be commenced in a few days.

There are strong probabilities and hopes of a narrow gauge railroad, to be run in connection with the coal and iron mines in the Western part of the State, terminating here and of having rolling mills established in this city. There are hopes of the fibre works being reopened and a paper factory being built. Truck farming has gained a new impetus and the rice interest is on a big boom. Land in and adjacent to the city, which a few years ago was lying in waste, has been utilized and a large number of handsome stores and comfortable dwellings have been erected. The improvements on the sounds are due to the improved condition of the city. Hotels and boarding houses have been established, on Wrightsville and a company is now forming who propose to build a railroad to the Sound. Now, to recapitulate, within the past five years our commerce has increased very much and communication with foreign ports has been extended. Business relations have been established with foreign ports and coastwise trade has not been better for several years than it has been during this winter. There are now forty-one vessels over one hundred tons barthen in port and fifty-four sailed for this port. At least one hundred vessels, exclusive of steamers, have arrived and cleared this season and the fleet of tug boats have been kept busy. Besides the increased number of vessels which have loaded here they are of a larger class and carry larger cargoes than vessels drawing 12 feet and registering about 200 tons. It is not at all annual to see vessels of over 400 tons at our naval store yards, compresses and saw mills taking in loads twice the size of those carried over the bar five years ago.

Forty-two business enterprises have been established, which gives an average of eight a year or one for every forty five days. The capital invested in establishing these branches of trade will amount to at least \$500,000. This does not include the money spent here in establishing the oil tank depot, for we have no means of ascertaining the amount, nor the telephone exchange, telephone fire alarm, pine straw packing establishment, money received from the trucking and rice interest, nor the government appropriations for the Harbor and River Improvement, and fishing interest, shipping of sturgeon, etc. The money expended in establishing these industries was taken out of banks, bonds, etc., and put into circulation.

The money brought here and placed in circulation from the sale of pinestraw,

rice, early vegetables, etc., amounts to a good round sum, and is no doubt far in excess of the amounts received from similar sources during the first half of the past decade. Why growl and grumble and croak when we have so much to be thankful for? Why not brace up—look at the bright as well as the dark side of the picture? Put your shoulder to the wheel and try and get your city out of the slough of despair, ruin and decay you imagine she is in.

The address delivered by Dr. Thos. F. Wood last evening before the Historical & Scientific Society was an admirable one. It was on the flora of this State and section and if possible we will publish it for the benefit of our readers in a day or two.

A Valuable Tract

Alfred Howe, administrator, advertises for sale a valuable tract of land on Fourth, between Hanover and Brunswick, and running through to Fifth street. The lots are within a square of the market and in the centre of the business circle of Brooklyn. The sale will take place at the Court House door in this city on Monday, March 7th.

We advise our friends to call at JACOBI'S for Household Hardware of every description. There you get the lowest prices.

Harbor Master's Report.

From Capt. Joseph Price, Harbor Master, we have the following list of the number of vessels, American and foreign, which arrived and departed from this port during the month of January, together with the tonnage of the same:

American.	Tonnage.	Foreign.	Tonnage.
Schooners,	18,	4,854	
Brigs,	2,	647	
Barques,	2,	604	
Steamers,	4,	2,887	
Total,	26,	8,492	
Schooners,	2,	185	
Brigs,	9,	2,181	
Barques,	19,	6,681	
Total,	30,	9,047	

Making a grand total of 56 vessels, American and Foreign, with 17,539 tons.

That Petition.

As our readers will have noticed, in the Senate, on Saturday last, Mr. Scott presented a petition from certain citizens of Wilmington to abolish the Criminal Court of New Hanover county. The Democratic majority in the Legislature should not be deceived by this. The said petition was a political document. It was fathered by certain Republican officials and is, strictly speaking, a Republican document. The object of the petition is evident. If the Criminal Court is abolished and the criminal calendar thrown back into the Superior Court, the fees and perquisites of the officers alluded to will be largely augmented. This is the milk in that prolific coccoanut.

The Criminal Court for this county has accomplished a great deal of good. There is no question as to that fact. It has been a terror to evil doers and it should not be molested.

Annual Report.

The thirty-eighth annual report of the Mutual Life Insurance Company of New York, printed in another column, like all the reports that have preceded it shows the continued prosperity and growth of this corporation. It is now, as it has been for many years, the largest and strongest life insurance company in the world. Its assets are \$91,735,786; surplus over \$306,000,000; income over \$17,000,000; and amount paid to policy holders last year \$13,160,694. Amid all our financial revolutions no suspicion has ever fallen upon the solvency of this company; and while other companies may have foundered in the mire of catch phrases to beguile the unwary, the Mutual Life has steadily adhered to its original plan of affording the largest amount of insurance at the least price consistent with safety and with the best interests of its insured. Each succeeding statement shows the wisdom of the reduction of premium rates inaugurated by this company benefiting old as well as new policy holders.

Hundreds of men, women and children rescued from beds of pain, sickness and almost death and made strong and hearty by Parker's Ginger Tonic are the best evidences in the world of its sterling worth. You can find these in every community.—Post. See advertisement.
