# Reduced Fare.

We have received circulars from Col.A. Pope, General Passenger and Ticket Agent of the Wilmington & Weldon and Wilmington, Columbia & Augusta Railroads, stating that the passenger fare on these roads has been reduced to four cents per mile, first class, and three cents per mile, second class. This is a step in the right direction and will doubtless result in an increase of travel.

#### Bursting of Water Pipes.

A number of our citizens who receive their supply of water for their bath rooms from tanks on the tops of their houses have been placed in a sad plight by the extreme cold weather now upon us, in consequence of the bursting of the water pipes leading into their houses. - In every instance of this kind of course there is damage to furniture and property by being flooded with water. All of this causes anxious inquiry about the con templated water works.

The Public Hospital. The authority to establish a public hospital in this city having been granted by the Legislature, the two Boards, to thereto. This oppsition may be traced wit: The Board of Aldermen and Board to several motives: among which were of County Commissioners, must now decide the amount of money to be expended, and the proportion of the expense to be levied on the city and like wise on the county. We hope soon to see the foundation to this much needed institution laid and the work commenced.

Don't Get the Chills.

If you are subject to Ague you must be sure to keep your liver, bowels and kidneys in good free condition. When so, you will be safe from all attacks. The remedy to use is Kidney-Wort. It is the best preventive of all malarial diseases that you can take. See advertisement in another column.

# The Medical Journal.

The January number of the North Carolina Medical Journal, though late, is full of very readable matter for the profession. The leading article is a communication from Dr. H. A. Martin, of Boston, on "Jefferson as a Vaccinator." The article embraces nine facsimilies of letters written by Jefferson.

Our eye was attracted by an article in this issue on the new hospital which it is proposed to erect here. It is distinctly declared that, when erected, this hospital will not be used as a refuge for tramps or for vagrants from other counties. It is proposed to have paywards and the churches here will have an opportunity to endow cots.

We notice that the name of Dr. Thos. F. Wood appears alone as the editor of the Journal, Dr. DeRosset having felt compelled to withdraw on account of his precarious health.

# A Partridge Hunt

Tuesday afternoon a partridge, or some partridges, were seen in the limits of the city and a crowd of boys started in chase without dogs, but with a plentiful supply of stones and bricks, with which, unfortunately for the owner, they peppered a good many panes of glass in a building near Water street, while endeavoring to slay the feathered bird. It was a matter of astonishment to some why partridges should be seen in the city, but a gentleman on Change this morning suggested an explanation of the strange visitation which we think both Bonitz, of that town, the editor of the plausible and correct, He said "you Messenger, has purchased in that town a know that one of our most energetic and determined brokers has not been in the spirits market for several days and neither has he been seen on the street Well, the fact, 'is he continued, 'our broker friend has gone on a several days partridge hunt, and as soon as the partridges got wind of it they left the woods and flew to the city.'

N. B. Our fighting editor has gone to Raleigh to inquire the fate of the prohi bition bill and will not be back for weeks yet to come.

The Reason Why. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it cures without fail. Constipation and piles readily yield to its cathartic and healing power. #### CAROLINA

Hickory Carolinian: On yesterday one of our townsmen, Mr. R. W. Mc-Comb, while hauling wood was thrown from the wagon and seriously, if not fatally injured. He was alone, and remained upon the ground, lying on his face, in a helpless and almost unconscious condition for some hours.

News and Observer: Cheesquotah, a Cherokee chief, claiming to be 140 years of age, has just died in Macon county. -Yesterday morning a negro of ill repute, Margaret Richardson by name living in East Raleigh, left her two little children in the house while she went both badly burned. The injuries of one may possibly prove fatal.

Raleigh Vicitor: There is an oak tree in Mr. B. F. Walton's yard, in St. Mary's Township, this county, measures 37 feet around the base. \$68,092.83 was the amount of revenue collections in the 4th district for the month of January ---- Col. Wm. Sledge, a native of Franklin County, North Carolina, and many years ago a salesman in the store of Ruffin Tucker, Esq., of this city, died on the 21st ult., in

Concordia, Mississippi. Farmer & Mechanic: Best has only five months in which to build his Railroads to Wolf Creek and Waynesville. Seven months have been lost in, "negociations." ---- General regret is expressed at the collapse of efforts for permanent improvement of the streets. Dr Hogg has withdrawn his bill for a steel cartway, owing to the attitude of the Cetton and Grocers Exchange in opposition the tariff of charges, or tolls, and the fact that many wholesale dealers now avoid drayage by snipping directly from the depet, as the goods arrive. We presume nothing further will be attempted

until another winter brings its miseries. Charlotte Observer; Mr. Thos. H. Haughton and bride have returned from a visit to New York and Washington, and are located at the Central. --- The remains of Conductor R.T. Halsey, killed in the accident near Gibsonville, arrived in the city night before last. The interment will probably take place in Huntsplace. - The long continued wet weather has completely interrupted progress in mining operations in this section. The miners say that the bettoms have been completely soaked out of the roads, and it is impossible to get wood hauled sufficient to keep the machinery running. —The tobacco factory of J H. McElwee was destroyed by fire in Statesville night before last. The factory was near the depot in full view from the passing cars and will be remembered as a prominent part of Statesville to the passer by. The loss is considerable, but t is believed that the factory was insured.
