No interments in Bellevue this week.
Days length 10 hours and 50 minutes.
There were no interments in Oakdale this week.

Sunset to-morrow afternoon at 39 minutes past 5 o'clock.
Full moon Monday morning at 5 minutes past 1 o'clock.

The receipts of cotton at this port to-day foot up 255 bales.
Only one interment in Pine Forest this week, that of an adult.

Nor. bargue *Cato*, Kroger, from this port, arrived at Bremen on Thursday.

You can now buy Improved Heating and Cook Stoves at factory prices at *JACOB'S*. The skating rink will be open until March 1st. Another carnival is on the tapis.

It is astonishing how tall men suddenly become short when the January bills flock in on them.

Call yourself the equal of no man who can influence you to his own advantage without recompense.

The Register of Deeds has issued marriage licenses this week to six white and two colored couples.

The sign, "Sentimental Valentines," is more repellant than attractive to the shy young man with tender intentions.

Beauty is but skin deep, but in the case of some particularly large oranges, that is deep enough to satisfy the most fastidious.

How many a home has been robbed of sunshine and happiness and rendered sad and desolate by the loss of some dear and petted child. This is a dangerous season for children, and parents should keep Dr. Bull's Cough Syrup handy. Price 25 cents.

One account says the peach crop will be all right next summer; another says not. One, doubtless, is as near correct as the other. The matter cannot be now definitely determined.

Raw and light boiled eggs are easy of digestion. It is said that raw eggs are more easily digested than cooked ones; but this may be doubted, if the egg is not over cooked. A hard boiled egg presents a decided resistance to gastric solution, and induces a constipatory condition of the bowels.

Messrs. J. D. Munds, W. C. Munds and J. H. Hanks will leave to-night for Augusta. They do say that Messrs. W. C. Munds and J. H. Hanks will act as second best men. However, we will know all about it on Wednesday as the bridal party are expected on that day.

We advise our friends to call at *JACOB'S* for Household Hardware of every description. There you get the lowest prices.

We call attention to the advertisement of Messrs Chess, Carley & Co. in another column. This firm is now one of the established institutions of Wilmington and appear to be building up a large trade. They are directing to this point a large territory that formerly went to Baltimore and Richmond and in this respect at least are doing much for the interest of our city.

For the Ladies.
Mice jewelry is the latest novelty. Children wear handkerchief dresses. Natural flowers are preferred to artificial for garnitures.
The newest muffs are made of a piece of the dress material.
Guipure lace is slowly but surely coming into fashion again.
Brocades for evening dress are wrought with golden threads.
Black silk hose and black kid gloves are worn with the lightest ball dresses.
Merchants complain of the delay of spring trade caused by the severe weather.

The new dominos are in close Princess shapes, with the Watteau pleat and hood.
Silk circulars lined with fur can be bought for \$50. This reduction is caused by the great popularity of the delman, which is more expensive.

Personal
Mr. James Wilson, representative elect from New Hanover county to the legislature, appeared on the street this week for the first time since his recent illness. Mr. Wilson has been confined to his home from a severe attack of pneumonia ever since the legislature has been in session, and consequently has not yet been able to take his seat.

Postal Card Ruling.
The orders of July 13, 1880, and September 24, 1880, excluding from the mails all card matter except postal cards furnished by the Department, have been so modified as to permit the sending by mail of printed cards at third class rates; but all cards other than postal cards furnished by the Department containing any writing except the address shall be charged with letter postage.

A New Weekly.
We welcome to our exchange list the *Moore Gazette*, published at Carthage, in Moore county, by Mr. J. H. Myrover, the first number of which is at hand. Mr. Myrover is an old hand at the bellows he having been for years on the *Fayetteville Gazette*. He is a good writer and a calm, clear thinker and is the right man in the right place. The first number of his new paper is a very promising one.

River News.
The water in the river was still rising when the steamer *D. Murchison* left Fayetteville yesterday morning, had risen eight feet and was still rising. There is now some twenty-five feet of water on the shoals.

Work on the sunken steamer *Governor Worth* has necessarily been suspended, on account of the freshet, and Capt. Skinner returned here last night on the *Murchison*. There is nothing to be seen of the *Worth* except a small portion of the steam-pipe and the smoke-stack.

J. N. Brck, of Toledo, Ohio, says:—My father, before wearing the "Ooly Lung Pad," could not sleep nights on account of his violent coughing; since wearing it he has slept soundly every night.—*See Adv.*

Dancing an Accomplishment.
An opportunity is now offered, the first in some years, for all those who are desirous of tripping the light fantastic to receive instructions from a master in the art, as well as a professor, Mr. Fanning to whom we allude, is well known to our community and is a member of the Society of Professors of Dancing. In addition to this he has taught in all the large cities at the Military Academy of West Point, and various other places too numerous to mention, besides. Mr. F. opens a special class for ladies and gentlemen this afternoon at 3 o'clock.

How to be your own painter: Buy the N. Y. Enamel Paint, ready mixed and warranted at *JACOB'S*.

The Venerable Prophet.
Mr. Vennor states that the entry of February of last year (1880) was fully as severe as that of the present month, and that the December of 1879 was much more severe than the December of this season. January of 1880, however, was a mild month, and hte very opposite of the January of 1881. Upon the principle of general compensation, and from the fact of our having now had in succession two months of severe weather, Mr. Vennor is strongly of the opinion that the present month will give us the thaw predicted in his almanac. In this he alludes to a rapid disappearance of snow and sleighing over a very large area, and a return of winter and of stormy weather toward the latter portion of this month and for part of March. He thinks another "blizzard" and cold term will travel over the United States shortly after the entry of March.

We learn that Mr. Chas. H. Gilbert, who was before the Mayor yesterday, as stated by us, for keeping open a butcher shop within the limits prohibited by the city ordinance, is still open. He declares that he will not close, all reports to the contrary notwithstanding.

"I Don't Want a Plaster."
said a sick man to a druggist, "can't you give me something to cure me?" His symptoms were lame back and disordered urine and were a sure indication of kidney disease. The druggist told him to use *Kidney-Wort* and in a short time it effected a complete cure. Have you these symptoms? Then get a box or bottle to-day—before you become incurable. It is the cure; safe and sure.—*Knoxville Republican.*

We understand that the decision of the Mayor in the case of C. H. Gilbert, for violations of the Market Ordinance, has been reserved until Monday, when it will be made known.

The South Atlantic.
The January number of the *South Atlantic* is at hand and with a very readable table of contents. The leading article, "Old Point Comfort," by Flora Adams Darling, is a very interesting sketch of that popular place of Summer resort; "The Artistic Quality of Milton's *Samsou*" by C. Woodward Hutson, is a well-written and attractive paper; "Coolee: A Tale of Southern Life," by Annie I. Johns, is begun in this number. "The Mysterious Babies," by Edward S. Gregory, is short, but full of humor; "Short Sketches of the Old Southern Regime," by Philip A. Bruce, will be read with interest by all of us; "Rainy Days" is a very pretty little poem, from the pen of Katharine Lee Bates, and "The Nun's Portrait," is a romantic etching of the war, located on the Sounds near this city. The editorial department is complete, the principal article being a very graceful tribute to the memory of Bishop Atkinson, written by the accomplished editress of the magazine.

Another Railroad.
There is a chart, we believe, already granted by the Legislature for a line of railway extending along the North Carolina coast, from Norfolk to Wilmington. There was much talk about the projected line some years ago and now it seems that it is being revived. Here is a clipping to that effect from the *Onslow correspondence of the Kinston Journal*:
There has been a Mr. Dillion over in our section prospecting for a railroad corporation who have in view the building of a railroad from Norfolk to Charleston, via Newbern and Wilmington. We understand that he is very favorably impressed with the appearance of the country and sees no serious obstacle in the way. We hope a charter will be granted at this sitting of the Legislature and work commenced upon it at once.

To say we need a road would but echo the sentiment of every thinking man who lives in the middle and upper parts of the county, and others who are familiar with the geography of our section. We would be glad to see our citizens take an interest in this matter. While the railroad kings are directing, their thought towards our section, let us never cease doing what we can until we hear the train thundering past our doors carrying our cotton and our commerce to profitable markets, thus relieving us of hauling an immense freight from twenty-five to fifty miles over bad roads.

WILMINGTON, N. C., Feb. 11th, 1881.
MR. EDITOR:

In the communication of Col. W. L. Smith, Chairman of the Board of County Commissioners, in your issue of the 10th, he submits an array of figures to show the expense of the Superior Court for 1876, as compared with the Criminal Court for 1880. He does this, he says, "to enable the tax payers of Wilmington to form a correct opinion in regard to the expenses of the Criminal Court of New Hanover County in contrast with the Superior Court." If Col. Smith had left out the amount paid Superior Court Judges, which was for extra terms of that Court, and told the people that there were seventeen weeks of Superior Court in the year 1876 and Jurors required; that witnesses before the Grand Jury were then paid, whereas they are not now; that Magistrates now have jurisdiction over very nearly all cases that were then tried by the Court—consequently the Court docket is largely reduced—the people would then be able to see something of the expenses of the Criminal Court. The truth of the matter is that all that has or can be saved to the county has been saved by the Commissioners and by legal enactment and not by the Criminal Court, and New Hanover can still be saved \$3,000 a year by having it in a Criminal Circuit. Forgetfulness of People.
We would not, by enticing headings and other devices, lead you into reading of the virtues possessed by *Pierce's Celebrated Medicines* were it not that we are aware of the forgetfulness of people, and that must be our excuse, dear reader, for again telling you that Dr. Pierce's Golden Medical Discovery is without an equal as a blood-purifier. It cures all humors, from the common blotch, pimple, or eruption, to the worst scrofula, fever sore or ulcer. Dr. Pierce's Pills are a pleasant but efficient cathartic. Sold by druggists.
St. Cloud House, Chicago, Ill.,

HON. R. V. PIERCE, M. D.:
Dear Doctor—I have been using your Golden Medical Discovery and Pills for liver complaint and general debility. It is impossible to express the gratitude I feel. It is simply wonderful, the effect your medicines have had upon me. I am in every way a thousand per cent better.
I am, yours gratefully,
J. C. DAVIDSON.
