Proposed Meetings.
Just before going to press we learn that a meeting of the Produce Exchange has been called for to-morrow to take into consideration the matter of the proposed sale of the State's interest in the Cape Fear & Yadkin Valley R. R., and we understand that a citizens' meeting will be held very soon. Let it be done as soon as possible as the time is precious and short.

In this connection we would refer to an editorial article on the subject on the second page of this issue.

Who can tell what has become of the old military bounty land warrants? There is outstanding nearly twenty-five thousand of 160, 120, 80 and 40 acres each which were issued to soldiers or their heirs for services rendered in the Revolutionary war, Florida war, 1812 war, Mexican war, Arostook war, and Indian wars. They amount in the aggregate to over two million and five hundred thousand acres. They must be among the old papers left by your grandfather, your father or your mother, and not thought to be of value. Let the reader of this article see if he or she cannot find one or more of them; when found, write Charles D. Gilmore, of Washington city, D. C., 623 F. street, and you will be informed what to do to make it available to you.

Charles Hartman, Toledo, Ohio, says:—I know it cured me, and I hope others similarly troubled with pain in the chest may be helped by the "Only Lung Pad" as I have. See Adv.

Bonaventure and Thunderbolt.
The above named places near Savannah, Ga., are known throughout this broad land by tourists, not from any special merit of beauty or attractiveness, but owing to the great amount of advertising they have received by hotel keepers and others, who advertised them as among the attraction of Savannah. Tourists frequently stop over in Savannah a day longer in order to visit Bonaventure and Thunderbolt, thereby leaving more of their "filthy lucre" than they otherwise would have done. The hotel keepers have been amply repaid by advertising these places and livery stables have reaped a rich harvest from that source. We have near this city places, which if properly advertised, would become far more noted than the Savannah attractions. Bonaventure is simply a small park of live oak trees, with heavy beards of moss, and is no prettier than Hilton and not susceptible of as many improvements. Thunderbolt which is a bluff at the head of a salt water creek, is not as pretty as many places at the head of Bradley, Hewlett or Whiskey creeks. The places on the bay at the Sounds are incomparably prettier than Thunderbolt. Wilmington has attractions which, if advertised, would be the means of attracting travelers and tourists this way.

Silver Lake, near this city, is a place of great beauty. It is several fathoms deep and its water to the very bottom is as clear as crystal. The fish, with which the Lake is alive, can be seen swimming about and a pebble can be distinctly seen at its bottom. The Lake has no visible outlet and persons have often amused themselves in trying to ferret out its submarine outlet. Then there are Forts Fisher, Caswell and Johnson, besides masked batteries, which would be exceedingly interesting to travelers.

Fort Fisher's fame is known throughout the land but, like everything else, when neglected, it soon passes out of recollection and dies, so to speak, from dry rot. Fort Caswell, with its lengthy whispering galleries, flood gates, etc., has long been heard of but how few comparatively know where it is or have seen it. Besides the places we have mentioned there are other places to interest and amuse one. We have in this city the home of John Hooper, one of the signers of the Declaration of Independence, Cornwallis' Headquarters, Confederate prison, turpentine distilleries in active operation, cotton compresses and other places of interest. There are many other places and things about the city which are thought lightly of by our citizens but which would be places and things of great interest to travelers and pleasure seekers. For one to see the places we have mentioned, at least two days would be required in visiting them. Persons who travel for pleasure and health would think but little of remaining in a city two or three days longer than they otherwise intended, provided they could see something to attract and amuse them. We have the points but reap no benefit from them, because they are not known to the outside world.

It strikes us it would be well to write a descriptive history of these places and spread it broadcast throughout the Northern, Eastern and Western States and circulate them as well throughout the Southern States. Our hotels, livery stables and transportation companies would be materially benefited; Wilmington would have more of a floating population; retail business would be better, and the city would wear a more buoyant cheerful and jolly look. Let the hotels, railroads, steamboats and livery stables pay some attention to this matter. Let them send out descriptions of places of attraction, as Richmond, Norfolk, Charleston, Savannah and Jacksonville have done, and see if they will not be materially benefited by the experiment. If a stranger should ask the average citizen if there is anything to be seen in this city, he would most likely receive, with a shrug of the shoulders or a discouraging shake of the head, "nothing" for an answer, while we are actually surrounded by as many, if not more attractions than any city in the South.

Fee of Doctors.
The fee of doctors is an item that very many persons are interested in just at present. We believe the schedule for visits is \$3.00, which would tax a man confined to his bed for a year, and in need of a daily visit, over \$1,000 a year for medical attendance alone! And one single bottle of Hop Bitters taken in time would save the \$1,000 and all the year's sickness. Post.

City Court.
Joseph Aaron and James Price, both colored, were arrested Saturday night for an affray and were arraigned before His Honor Mayor Fishblate this morning. Aaron paid a fine and was released and Price went below in default of payment of fine and cost.
James Bell, drunk and down, was discharged upon the payment of the cost. The Court then adjourned.

Thanks!
We have received an invitation to a skating carnival and ball, on occasion of the grand opening of the L'Arioso Hall, in Columbus, Ga., on the 25th inst. (last Friday). On the Committee of Arrangements we notice the name, as chairman of the committee, of Mr. E. F. Coney and among the floor managers that of Mr. A. V. Wood, both Wilmington boys who are long since migrated Southward.

Mr. Scott's Fish Bill.
Mayor Fishblate and Mr. F. H. Darby, City Attorney, have returned from Raleigh, where they have been to oppose the passage of the bill introduced into the Legislature by Mr. Scott relative to the sale of produce from carts in the city. If we understand this bill properly it is not what its title represents and by means of which it was passed in the Senate, nor is it one which the tax payers in this city would approve. It was evidently introduced for the benefit of the Republican party and not of the people. We have not seen the bill but have been told that its provisions would seriously interfere with the administration of the police court and the enforcement of sanitary regulations. It passed the Senate, probably under a misapprehension of its actual purpose, and is now in the House where it will probably be pigeon-holed or tabled.

A meeting of the Board of Health, we understand, is to be held to-night, to take some action in regard to this bill.

EDITOR REVIEW:
Dear Sir—I have but a few words more to add in reply to Mr. Norwood Giles' communication and then I am done with the subject. My object in the outset was to show that the present city government has sustained and carried out the promise of economy that was expected of it to the fullest extent, and I don't see that that position has been successfully attacked by any statement of Mr. Norwood Giles.

If the citizens will refer to a published statement of the city debt which appeared in the Wilmington papers, about Dec. 1st, 1878, they will learn that at a meeting for tax-payers and bondholders that took place in the city at that time, the following exhibit was made: The total debt on the 16th February, 1878, a date after I came in office, was \$623,525.27; a further statement made for December 1st, 1878, showed the debt then to be \$566,350, and the Dawson bonds, amounting to \$10,900, were included in the first statement made Feb. 16th, 1878, as a debt for which the city was liable and excluded from the last statement made December 1st, 1878, because between the 16th of February 1878, and December 1st, 1878 the Dawson bonds had been pronounced illegal, this being at a time when I had the honor to be Mayor of the city, and when the administration over which I presided was entitled, if any administration is entitled to claim the benefit of the reduction caused by the bonds being declared illegal. I do not claim for this Board of Aldermen or for myself any special credit on account of the city being relieved of this debt of \$10,000, and no statement that I have made heretofore can, in my opinion, be so construed, but my statement was a plain and simple account of the reduction that had taken place, however occasioned, during my administration, and I naturally, and I think properly and reasonably, included that amount, because the reduction had taken place during my administration.

I beg leave to say, also, that the statement given February 16th, and above referred to, does not include all the debt due at that time, for the reason that it was afterwards discovered that there were really \$10,000 coupons with interest thereon due at that time and not included in that statement.
Take even the statement of Mr. Giles to be correct, and I claim it is not, still this administration is entitled to the credit of an immense reduction of the city debt and I cannot understand the disposition or motive with which any one is actuated who would try to withhold from any Board of Aldermen that which is justly due. The only wonder to me is, judging from the tone of the several statements of Mr. Norwood Giles, that he gives this Board of Aldermen the credit for even the reduction of \$92,880.
