Blood Purifier it has proven itself unequalled.

**SEE GOV. HOLDEN'S OPINION.**  
Baltimore, N. C., Dec. 24, 1889  
I take pleasure in stating that a member  
of my family has used Mrs. Joe Person's  
Indian Tonic with good results. I believe  
it is a remedy to be resorted to for the purposes  
for which it is intended.

**SEE JUDGE STRONG'S OPINION.**  
Baltimore, N. C., Dec. 1st, 1889  
Mrs. Joe Person's Tonic: Some months  
ago I was in bad health, suffering from de-  
pression, indigestion and loss of appetite. When  
I was induced to try your Tonic, I  
found it to be the most happy remedy I take  
and I feel it is recommending it as a val-  
uable and efficient Vegetable Tonic, and wish  
it much success. Very respectfully,  
GEO. V. STRONG,

A boy is never so happy as when the  
family is moving, and he can walk  
through the streets to the new house  
wearing a chair on his head. That's the  
only way most boys can sit on a chair.

A gentleman lost on Front street, this  
afternoon, between Messrs. Adrian and  
Vollers' store, and Messrs. L. Vollers  
and Geo. Myers', the sum of sixty or sev-  
enty dollars, for which the finder will be  
very liberally rewarded by leaving the  
same at this office.

March seems to have borrowed a good  
deal from April. We suppose April, in  
order to make up her complement of  
shiners, will have to encroach upon the  
beautiful Spring month of May and dis-  
turb the sunshine and merriment of va-  
rious picnic parties of that season.

We understand that in addition to the  
other attractions prepared for the  
Festival to be given next week by the  
ladies of St. Thomas' Church a gold-  
headed cane will be presented, by ballot,  
to the handsomest gentleman. Col.  
Kerchner, Maj. Reilly, Mr. Dan O'Con-  
nor and Frank H. Darby, Esq., are  
prominently mentioned.

**Workmen.**  
Before you begin your heavy spring  
work after a winter of relaxation, your  
system needs cleansing and strengthen-  
ing to prevent an attack of Ague, Bill-  
ious or Spring Fever, or some other  
Spring sickness that will unfit you for a  
season's work. You will save time, much  
sickness and great expense if you will  
use one bottle of Hop Bitters in your  
family this month. Don't wait.—*Bur-  
lington Hawkeye.*

### The Regulator.

The steamship *Regulator*, which has  
been laid up in New York for some  
weeks past for repairs, will be ready very  
soon, probably by the first of the new  
month, to resume her trips to this port.  
She has received many improvements,  
among others accommodations for pas-  
sengers. We presume that her old com-  
mander, Capt. Doane, will be again  
placed in charge.

### The Temperance Lecturers.

Mrs. Georgia H. McLeod, of Maryland,  
one of the lady temperance lecturers,  
who visited our city some month ago in  
company with Miss Frances E. Willard,  
of Chicago, is in the city. Mrs. McLeod  
has just returned from a trip in the  
South and speaks encouragingly of the  
success of their efforts in the cause of  
temperance during their trip. Miss  
Willard is expected to be in attendance  
at the Prohibition Convention which  
meets in Raleigh to-day.

### Soap Suds for Flowers.

No wise woman who has flowers in her  
house or garden will throw away her  
soap suds. They are a most valuable  
fertilizer for flowers, and especially for  
the verbenas. If this floral favorite is  
plentifully watered with soap suds and  
its seed vessels picked off, it will flower  
profusely. Soap suds are good for vines  
and current bushes and fruit trees; indeed  
they are the food for plants, correspond-  
ing to milk for animals, and it is very  
wasteful to throw them away if there are  
plants anywhere within reach that may  
be benefited by them.

Mr. L. F. Thompson, Superintendent  
Moore & Wyman's Engine and Machine  
Works, 37 Foundry street, Boston, Mass.,  
sends the following item: My wife has  
been suffering for years with severe pains  
in the limbs, to relieve which I had her  
apply some of that famous liniment, St.  
Jacobs Oil. Now she is cured, thanks  
to the wonderfully healing properties of  
the Oil. It has also been used among  
my men with splendid effect, and I can  
highly recommend it.

### Unnecessarily Alarmed.

The *Little Giant* engine was puffing  
and steaming away last night on the  
corner of Princess and Fourth streets,  
at the cistern of the engine house, test-  
ing a new piece of hose. The evening  
being calm the noise of the engine could  
be distinctly heard several blocks away.  
This caused some anxiety on the part  
of those who heard the engine, and for  
the space of fifteen or twenty minutes people  
could be seen coming from different di-  
rections, to know if there was a fire any  
where. But their apprehensions were  
soon allayed when they found out the  
true cause of the excitement.

You can now buy Improved Heating and  
Cook Stoves at factory prices at JACOBI'S.

### A Good Rule for Capitalists.

An ingenious arithmetician has devised  
a very simple and easily remembered rule  
for determining how long it will take a  
given sum of money to double itself at a  
certain rate of interest. Divide the rate  
of interest into seventy-two, and the  
quotient will be the number of years to  
within a small fraction. Thus, at 4 per  
cent. interest, the answer is eighteen  
years, which is only one-quarter of a  
year too great, the exact time being  
about seventeen and three quarter years.  
For six per cent. the result is one month  
out of the way, while for eight and nine  
per cent. it may be said to be exact.—  
This is a good rule for editors and other  
large capitalists to remember.

### The Commencement of War

To-day is the twentieth anniversary  
of the commencement of the bombard-  
ment of Fort Sumter. Major Anderson,  
afterwards General Anderson of the  
Northern Army, the gallant defender of  
Sumter; Governor Pickens, who was at  
the time Governor of South Carolina,  
and many other distinguish-  
ed participants in that stirring  
event have long since passed away.  
Generals Lee and Johnston sur-  
rendered some 16 years ago, and not a  
single armed "rebel" remains in the  
South to defy the Government's author-  
ity and yet the brave and chivalrous Con-  
kling and the valiant Hoar and Dawes,  
the two little worthies from Massachu-  
setts, who find time to attend to every-  
body else's business, except the domestic  
affairs of their own State, continue their  
war against the impoverished Southern  
people.

### The St. John's Festival.

The ladies of St. John's Church con-  
tinue very busy in the preparations they  
are making for the grand festival which  
they are to give soon after Easter. They  
have prepared many new and nice and  
pretty things, among which are novelties  
which are sure to please. The time and  
date are not yet made public but it will  
probably be soon after Easter Week.  
Further particulars will be made known  
through the city papers in a few days.

### Personal.

Rev. Dr. Patterson, who has been for  
some months past traveling in the  
South in the interest of the University of  
the South, is expected here this evening  
and will remain here during the Easter  
season. He will be the guest of James  
C. Munds, Esq.

General R. E. Colston returned from  
Baltimore a few days since—whence he  
had gone only a week ago on important  
business—suffering very much from a se-  
vere attack of rheumatism. General  
Colston was accompanied in his return  
trip by his son in law, Capt. A. D. Lip-  
pitt, at whose residence in this city the  
General is stopping. We wish our old  
commander a speedy and entire recovery  
from his present bodily ailments.

### An Unfortunate Accident.

A serious accident occurred at the  
W. & W. R. R. depot this morning by  
which one man will lose his right arm  
while another received severe bruises on  
the shoulder besides having several toes  
on one of his feet badly crushed. The  
men thus injured are named respectively  
Bill Mack and Daniel Middleton. The  
former is employed as a section hand on  
the W. & W. R. R. while the last named  
is employed at the W. C. & A. depot.  
The accident occurred while transfer-  
ing the trucks of a sleeping car to a flat  
car in the transfer bed, or pit, at the W.  
& W. depot. The car, it seems, over-  
ran the chocks which had been placed  
to check the wheels, crushing the men  
under it, and then when it reached the  
end of the pit, where there is a second  
inclined plane, the momentum it had re-  
ceived on the first incline in enter-  
ing the pit, reacted, so to speak, and the  
same heavy car ran back again and caught  
Middleton a second time, bruising  
him badly and crushing his arm so se-  
verely that the doctors say amputation  
will be necessary. Mack, the other un-  
fortunate man, was pulled out from his  
perilous position just in time to prevent  
his being run over a second time by the  
car in its backward course. The injured  
parties are both colored men.

Every attention in the way of medical  
attendance, we understand, has been  
given the wounded men.
