The Railroad Gazette reports 1,364 accidents on the roads for the past year in which 385 persons were killed and 1,673 injured. This is the worst record our railroads have made, being 250 per cent. greater than for the previous twelve months.

A "Rational Dress Society" has been formed in London, the object of which is to promote the adoption, according to individual taste and convenience, of a style of dress based upon considerations of health, comfort and beaaty. The annual subscription is only half a crown.

The memorial to the late Prince Louis Napoleon, against the erection of which in Westminster Abbey so much opposition was made in England, has been placed in St. George's Chapel, Windsor Castle. The sculpture is by Boehm, and consists of a recumbent figure of the Prince, with a suitable inscription.

A singular bill has recently been introduced into the German Reichstog which has for its object a tripartite treaty between Germany, Austria and Italy, for the protection of singing birds. Meanwhile some 3,000,000 armed men in those humane countries are ready to blow each other's heads off at a moment's notice.

Mr. Cooley delivered the Valedictory Address. He touchingly and feelingly described the parting soon to take place with his teachers, classmates, fellowschoolmates and friends of the village. His address was emphatically a good one, in fact, he is one of the best speakers of his class. He knows how to touch retiring the bends will have to include the hearts of his hearers.

Then came the presentation of medals to ecah of the successful competitors .-Dr. Winkler, in a few well-chosen remarks, presented the medal for "Proficiency in Greek" to Messrs. H. P. Markham and D. L. Ward. Rev. F. H. Ivey presented the Euzelian medal, for "Improvement in Debate," to W. B. Morton. Rev. Mr. Reid, editor Christian Advocate, with some jocular remarks, tinged a little with religion, presented the "Whitfield medai" to W. H. Kornegay. Philomathesian medal to W. D. Pollock. Rev. F. W. Eason presented the "Mon-tague French medal" to W. G. Holding. Upon invitation, Dr. Skinner, presi dent of the Board of Trustees, came forward and stated that the college was now entirely out of debt and was getting along finely. This announcement was received with tremendous applause and

President Pritchard, with a request for the audience to remain a little longer, read a report of the students who were proficients in certain studies.

The following were the graduates and their degrees: Bachelor of Science-U. J. Hunter; Bachelor of Letters-L. T. Carroll, W. T. Jones, M. V. McDuffie and N. R. Pittman; Bachelor of Arts-L. N. Chappell, E. M. Poteat and D. L. Ward; Master of Arts-R. A. P. Cooley and D. B. Reinhart.

Peru is in a dreadful way. No Congress; three claimants of power, each with an army; no money; no credit; no means of getting the foe to withdraw; no means of restoring order ; no hopes any. where. The people penniless and despairing-pawning their pictures and jewelry to buy bread. Everybody is ruined, and there are no means by which to set the wheels of the country's industries in motion once more.

The Rugby colony, despite reports to the contrary, is in a flourishing condition. Two saw mills have been put up since hte close of the winter, and the school has begun its regular sessions with twenty-three pupils. New comers are continually arriving, most of the latest arrivals being from England or Scotland. The colonists now number three hundred, including fifty-four children. Since the founding last fall but two deaths have occurred, both infants.

Railway employees in England are agitating for a diminntion of the hours of labor required of them, and a large meeting lately held at Exeter Hall adopted unanimously a programme demanding the nine hours' day and the six days week. At present most of the 134,009 railway employees in England work from ten to twelve hours a day, with occasional stretches of from sixteen to twenty hours at a time, and few of them get a fied D.D's, and other reverend gentle-Sunday rest more than once in three weeks.

# WASHINGTON LEFTER.

WASHINGTON, D. C., June 10, 1881.

No Republican need look abroad for trouble. I only say what every one knows, when I say there is something akin to consternation here over the recent disputes in the Republican partys the frauds discovered, and the implaca-Rev. T. E. Skinner, D. D., pastor of ble animosity shown by all the faction, rendering peaceful adjustment of difficulties practically impossible. Perhaps as startling a development as any was that at Albany yesterday, when an administration Senator was accused of buying a Representative for money. The statement gains great probability from the fact that only a few years ago all the Republican papers which are now anti-Conkling asserted that the accused Senator-Sessions by name-was a corrupt The annual sermon was delivered on man.

But this is nothing new. There has ler, D. D., of Marion, Ala. A case almost like this occurred in Maine two years ago. Some Republicans had become Grrenbackers, and the Legislature, from being strongly Republican, Then bribery commenced. Money was freely offered. One Wallace R. White gave a Greenback Representation \$300 for his vote. So stong was the conviction of his guilt that even the attorney who defended him, being nominated for office, ran two thousand votes behind his ticket, and was defeated. It may be mentioned in passing that White has lately been given the office of U.S. At-

Every one remembers the Credit Mobilier scandals, the bribery by Pomeroy in Kansas, and the reflection will call to mind dozens of others. In fact, every time two prominent members of the party of "great moral ideas" quarrel, the door of the penitentiary creaks greedily on its hinges. Just how long the people will suffer this to go on, remains to be seen. But surely not much longer.

I have to-day been informed that the President will not aid the Mahone party in Virginia, but the President is versatile, promiscuous and persevering in indecision. To-morrow he may say exactly the contrary, and the next day promise to divide the Virginia patronage. The uncertainty about his action is damaging whatever chances Mahone's ticket had of success, and a rousing Democratic of Life," showed himself to be thoroughly victory may be had this Fall.
