## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
JAMES BRINKLEY—A Rare Chance  
J E SAMPSON—Schedule "B" Tax  
HEINBERGER—Parlor Organs  
C W YATES—Blank Books

No City Court to-day.  
News is very scarce to-day.

The receipts of cotton at this port to-day foot up 23 bales.

Stock reports to-morrow, July 1st, at the Produce Exchange.

Thirty more badgeless canines have been made to bite the dust.

Read Capt. James Brinkley's advertisement in another column.

The recent rise of sixteen inches in the river at Fayetteville is rapidly falling off.

Study your interest. You can now buy Cook Stoves at factory prices at JACOBI'S.

Steamboatmen report 18 inches better water at Fayetteville now than the low water about this time last year.

The steam tug *Orlando* is undergoing a thorough repair and overhauling. Her deck house will be entirely new and remodeled.

A mad bull dog, the property of Mr. Phillip Christ, was killed this morning, about 8 o'clock, by Health Officer F. M. James.

We are gratified to learn that the excursion of the C. M. Stedman Fire Company No. 1, on yesterday, was a financial as well as a social success.

The committee on organization of the Immigrants' Friends Society are requested to meet at the Produce Exchange to-morrow morning at 10 o'clock.

The steamer *D. Murchison* is going to Fayetteville to lay up for a general overhauling and repairs. When she comes out again she will look like a brand new boat.

It is ascertained that the big fire over in Brunswick county yesterday afternoon was near the Hankins' place. It was in the swamps and it seems that no particular damage was done.

Two or three large dredge boats are being fitted up in New York for the river and harbor improvements of the Cape Fear. They are expected to leave for this port about the 15th of July.

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices.

The thermometer fell twelve degrees yesterday afternoon at the City Hall in five minutes when the blow came up, but that's nothing; it fell about six feet at this office in about one second. The nail on which it was hanging broke and down it came.

Mr. E. T. Williams, formerly of the New Central Hotel, of Lambertson, is now presiding over the destinies of the Commercial Hotel saloon. Mr. Williams thoroughly understands his business, and Mr. Schutte was very fortunate in securing his services.

Beautify your homes by using the N. Y. Enamel Paint, ready mixed and wanted. Sold only at JACOBI'S.

Information has been received in this city to the effect that the Samter Light Infantry have definitely decided to go into their regular annual encampment at Fort Johnson. They are expected to arrive here between the 10th and 15th of July.

Freshwater Perch, Trout and Black fish Hooks and Lines. A full assortment and lowest prices at JACOBI'S.

**I O O F.**  
At a meeting of Orion Lodge No. 67, I. O. O. F., held last night, the following officers were elected for the ensuing term:

- N. G.—L. T. Bowden.
- V. G.—A. G. McGirt.
- R. S.—J. L. Dudley.
- P. S.—W. C. Farrow.
- T.—W. S. Warrock.

These, together with the appointive officers, will be installed on Wednesday night next.  
Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.

## The Opera House.

The Opera House is to be entirely renovated and refitted by the lessee and will be in readiness for the theatrical season, which promises to be unusually attractive and brilliant this Fall. A scene painter is now at work touching up the scenery, and will soon put in a few additional flies and slides. The Opera House, when the repairs are completed, will be second to none of its size in the country, and better supplied with stock than many larger opera houses.

**HUNDREDS OF MEN, WOMEN AND CHILDREN RESCUED** from beds of pain, sickness and almost death and made strong and hearty by Parker's Ginger Tonic are the best evidences in the world of its sterling worth. You can find these in every community. Post. See advertisement.

Mr. Phil. Maurer, 101 Hill street, Troy, N. Y., writes: Last fall I was attacked with a severe rheumatic ailment, and suffered great pain. I tried St. Jacobs Oil and was speedily cured. Upon the second application the pains left, and, as said, in a short time I was entirely cured. It is our home dispensary and most valued friend.

## Fort Fisher Again.

Our article yesterday relative to the building and the command of Fort Fisher seems to have attracted much attention among our readers in the city. A few of our friends seem to think that we were rather severe on Col. Lamb while others—and by far the larger majority—endorse all that we have said. Let it be understood here that we have not meant, and do not mean, to cast any aspersions on Colonel Lamb's character as a gentleman and a brave man. We only desire to give publicity to facts. We have proved beyond a doubt that Col. Lamb is not entitled to the credit of having built Fort Fisher, although he undoubtedly added much thereto. He must have considered that he was entitled to this claim or he would not have made it, but in this he is assuredly mistaken. The Fort was built and named before Col. Lamb had ever entered its portals. This we think that we have pretty plainly demonstrated. If he did build the Fort why, then, did he leave it to Col. Fremont to name? Is a question not very easy of solution. The truth is he simply built upon and added to the very substantial foundation laid by other men. Nor is Col. Lamb entitled to the credit of having commanded the Fort during either or both of the two fights, as we ourselves admitted a few days ago. He speaks of the Fort which he "built and commanded" but it is certain that he did not build it and we feel assured now that he did not command it when under attack. Military authorities tell us that this was highly improbable, with the presence there of a superior officer. Col. Lamb was commandant of the Fort but Maj. Gen. Whiting was commander of the department and the command naturally devolved upon him during the fights, as he was present at both engagements. But more certain than this, we are assured by a number of those who were present, some at one fight and some at both, that Col. Lamb acted on each occasion simply as Gen. Whiting's subordinate. Among these is Major James Reilly, next in rank to Col. Lamb, who commanded the land front on both occasions, and Maj. Reilly assures us that every order he received during the two engagements came direct from General Whiting, and not one from, or through, Col. Lamb. This, we think, is a bit of testimony that is absolutely incontrovertible, and that should set the matter at rest. It was Major James Reilly on whom the full command devolved when Whiting and Lamb had both been wounded, who gathered together and reformed the remnants of the garrison when they were forced out of the fort, retreating with them in good order to Battery Buchanan, and who finally was compelled to surrender to the overwhelming forces of the enemy. There is one part of the defenses, however, which Col. Lamb did build and that is the battery known as the Mound, a huge pile of sand forming an artificial hill, which still remains and on which several guns were mounted, which guns, we understand, did effectual service and were not dismounted by the enemy during the fight.

## Verbum Sap.

Attention is directed to chap. 68, sec. 70, Battles Revisal, chap 162, sec. 45, laws 1876-77, chap 200, sec. 63, laws 1881. Copies of the above may be seen at this office to which all interested are respectfully referred, particularly those whose disgraceful conduct on Tuesday night has stamped them as rowdies to be shunned and avoided by gentlemen as well as ladies.

## Another Display of Stars.

On July 6th, at 3 o'clock in the morning, Mars and Saturn will be in conjunction. On the morning of the 7th will be the best time for observation, as the two planets will rise nearly together at a quarter before one o'clock. Jupiter, Mars, Saturn and Venus, will all rise about the same time, and travel on up the heavens together, making a constellation of stars that will be interesting to behold. Don't forget to look for them.

## Glowing reports of the condition of the crops in this particular section continue to reach us.

With a few more fine rains they will be as good as made.—Peanuts are, be it understood, the exception to this rule.

## The thermometer in this office registered 96 degrees to-day at 3 o'clock, which is two degrees less than yesterday.

## N. W. Plainer.

A very large and improved plainer, for iron work, has been received by the W. & W. R. R. Company, and will be placed in their machine shop in this city. The weight of the plainer is about 25,000 pounds and it is one of the best in the country.

## The Grouned.

Yesterday's *Charlotte Observer* publishes over two columns of solid type, descriptive of the visit here and the entertainment of the ladies and gentlemen of the Grouned Club. It speaks in the most cordial and grateful terms of the reception accorded them and the attentions lavished upon them during their short stay in our city.

## Flies & Mosquitoes.

A 15c. box of "Rough on Rats" will keep a house free from flies, mosquitoes, rats and mice, the entire season. Druggists.

## Another Mud Sucker.

A mud dredge boat is being fitted up at the Navy Yard at Portsmouth for the Cape Fear River and Harbor Improvements. It is expected to arrive about the middle of next month. There will be two or three of these dredges at work near the mouth of the river and much good is expected to be accomplished by them. We hope at no distant day to see at least 25 feet of water on the bar. The *Woodbury* is at work daily on the sand shoals and is perceptibly increasing the depth of water on them.

## See Here.

You are sick; well, there is just one remedy that will cure you beyond possibility of doubt. If it's Liver or Kidney trouble, Consumption, Dyspepsia, Debility, Wells' Health Renewer is your hope. \$1. Druggists. Depot Jas. C. Monds.

## The Good Samaritans.

The parade of the Good Samaritans through the streets yesterday attracted considerable attention. The procession was a very large one and is said to be indicative of the strength of the order in this State. Geo. L. Mabson, who is a Past Officer in the order, delivered an address in the Opera House after the procession which is spoken of very highly. There are quite a number of prominent colored men among the excursionists. Some of the excursionists left for their homes this morning but there are a great many of them yet in the city. The Grand Lodge is still in session at the City Hall and will probably finish its work to-morrow. The delegates and excursionists seemed to be of the better class of the colored citizens from the towns from which they hail and have conducted themselves with becoming propriety.

## Mr. Vennor's Second Guess at July.

Mr. Henry G. Vennor, in a letter to a newspaper in Ottawa, Canada, of the 23d instant, says: "I believe that the present summer is one in a triad of similar summers, probably the middle one. It is likely to resemble that of 1880, and to differ in some of its minor details. The approaching month of July will give a great deal of rain, as in 1880, over a large portion of the United States and Canada, while in Great Britain the weather will in all probability be likewise stormy and wet. The storms of wind, thunder and lightning are likely to be severe and frequent. The heaviest rains for New York and vicinity would locate after the 20th, and probably on the 21st or 22d date; between the 10th and 15th days an exceedingly hot term is likely to be experienced in both the United States and Canada. Within a few days from the close of the month, probably about the 27th or 28th, a cool wave will occur, carrying frosts in Canada and cool weather generally, with storms of wind and rain throughout the United States. Where storms have been severely felt in the Western and Southwestern States during June, there also will the severe storms of July be experienced. Notwithstanding these frequent and severe storms during the month, frequent alternations of fine hot weather will counteract to a great extent the damage done to crops in general in the West. The entrance of July in Canada, and also to a considerable extent in the United States, will be cool and showery, and the present look out for the Fourth is not a very promising one."

## LADIES WHO APPRECIATE ELEGANCE and purity are using Parker's Hair Balsam.

It is the best article sold for restoring gray hair to its original color and beauty.

**PLEASE NOTICE.**  
We will be glad to receive communications from our friends on any and all subjects of general interest but  
The name of the writer must always be furnished to the Editor.  
Communications must be written on only one side of the paper.  
Personalities must be avoided  
And it is especially and particularly understood that the Editor does not always endorse the views of correspondents, unless so stated in the editorial columns.

## Immigrants' Friends Society.

An adjourned meeting of merchants who have signified their willingness to form a society for the purpose of encouraging immigration to our midst was held at the Rooms Produce Exchange at 11 o'clock this morning, Mr. B. G. Worth in the Chair and Col. W. L. DeRosset acting as secretary. The committee, consisting of Messrs. Alex. Sprunt, T. E. Bond and Col. W. L. DeRosset, appointed at the meeting on Tuesday last, made their report, which was adopted by sections and then as a whole.

The report was an exhaustive and very comprehensive one and one which fully covered the grounds in the matter in which all are so much interested. The Rev. Mr. Charbonnel made quite a lengthy and interesting talk on the subject of immigration and showed plainly the feasibility of the plans as suggested by the committee.

A permanent organization was partly effected under the name of the "Immigrant's Friends Society."

Messrs. Alexander Sprunt, T. E. Bond and Col. W. L. DeRosset were appointed a committee on organization and they are to meet to-morrow at the Produce Exchange to draw up a set of bylaws, etc., and transact such other business as comes under the line of their duty as a committee.

We are glad to know that most of our business men are deeply interested in the movement and express themselves as determined to push the matter until the desired result is attained.
