E S WARROCK—Job Printing.
Oh! for a narrow gauge railroad to the Sound.
The vegetable market was bountifully supplied this morning.
Rev. Mr. Charbonnel will sail to-morrow on the steamship *Regulator* for New York.
The letter "e" is not unlike many men. It is first in everything but ends in smoke.
The poke bonnet is not conducive to kissing, and homely women do not all stay at home.
If it took coffee so long to settle as it does some men, a great many of us would drink water.
We are beginning to feel again the need of rain, notwithstanding the copious showers of last week.
Columbia, S. C., was a hot place on Tuesday. The thermometer registered 104 in the shade on that day.
At 3 o'clock to-day the thermometer in this office registered 94 degrees, the same as on yesterday at the same hour.
Watermelons and canteloupes are plentiful, but high priced. They are of the Enoch Arden species, because they are waiting for a sale.
The man who spends his time and money drinking is always getting into tight places.
There is nothing from the President to-day, no bulletins having been issued this afternoon. No news is good news.
There is a wonderful power in imagination, but it gets weak in the knees when it undertakes to shoulder picnic lemonade.
While to the pure all things are pure, that doesn't justify any young man in palming off upon his girl a brass engagement ring.
We hear of a pig born without a trunk; just what we have suspected all along, since we've often seen them in the cars with a valise.
The Directors of the Wilmington & Weldon R. R. Company have declared a semi-annual dividend of 3 per cent on the capital stock of the company, payable on and after the 15th inst.
Yesterday's *News and Observer* says: The Wilmington Mutual Life Insurance Company yesterday paid its tax on gross receipts for the past six months, being the first company to settle.
Flies & Mosquitoes.
A 15c. box of "Rough on Rats" will keep a house free from flies, mosquitoes, rats and mice, the entire season. Druggists.
We are again moved to remark that the Rock Spring, foot of Chestnut street, needs attention. Hundreds drink daily of this water, and we do not think that, in its present state, it is conducive of health.
It has been remarked by a number of persons that although the market is well supplied now with vegetables and some kinds of fruit yet the prices, as a rule, are higher than has been known before in years.
Study your interest. You can now buy Cook Stoves at factory prices at JACOBI'S.
For the past three days the excessive heat has been tempered here by cooling breezes from the South and West. They are delightful and refreshing, and we would advise our country friends, if they want to get cool, to come down and step in the city awhile. We verily believe it to be the coolest place East of Mount Pisgah.
Mr. James A. Conlan, Librarian of the Union Catholic Library, Chicago, Ill., is the latest man who has been made happy through the use of this valuable liniment. The following is Mr. Conlan's endorsement:
UNION CATHOLIC LIBRARY ASSO'N,
204 DEARBORN STREET,
CHICAGO, Sept. 16, 1880.
I wish to add my testimony as to the merits of St. Jacobs Oil as a cure for rheumatism. One bottle has cured me of this troublesome disease, which gave me a great deal of bother for a long time; but thanks to the remedy I am cured. This statement is unsolicited by any one in its interest.
JAMES A. CONLAN, Librarian.

MRS. JOE PERSON'S REMEDY FOR SCROFULA NEVER FAILS. It Will Cure if Fairly Tested.

It gives much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there for two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits were fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrace, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. I am, respectfully,
Kittrell, N. C. JAMES A. MORRIS.

E. S. WARROCK,

The "What is It?"
The "What is It?" referred to by us in yesterday's issue proves to be a woman but her appearance indicates that she is one of the sterner sex. She is a hard case and is a devotee to dissipation. She was arrested last night but was let out of prison this morning under promise that she would quit the city before nightfall.
Beautify your homes by using the N. Y. Enamel Paint, ready mixed and warranted. Sold only at JACOBI'S. †
The Soldiers.
The young folks are looking forward with joyous anticipations to the coming of the Sumter Light Infantry. They are expected here between the 10th and 15th inst., and will be accompanied by about 100 excursionists. Gen. Wade Hampton is expected to accompany the command.
Improvements.
Mr. Samuel Northrop is making considerable improvements on his property at the corner of Fifth and Dock streets. The dwelling he has been occupying for a number of years past has been removed to the rear end of his spacious lot and now faces on Dock street. On the site of the old building a handsome two-story frame dwelling is to be erected. We are pleased to chronicle such improvements and would like to see more of the same kind going on in that section of the city.
Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices. †
Wednesday Next.
On Wednesday next, the 13th inst., a grand family excursion will be given down the river on the steamer *Passport* under the management of Messrs. John W. Strauss, A. Adrian, H. A. Glameyer, John Haar, Jr., J. W. Gerds and C. VonKampen. These gentlemen are the same who so successfully managed the excursion about two weeks ago, which was pronounced among the best of the season. Their well known ability and polite and courteous attention to ladies, and strict attention to details, is a sufficient guarantee of a pleasant time. Let's all go.
See Here.
You are sick; well, there is just one remedy that will cure you beyond possibility of doubt. If it's Liver or Kidney trouble, Consumption, Dyspepsia, Debility, Wells' Health Renewer is your hope. \$1. Druggists. Depot Jas. C. Munds.

The Fire-Alarm Bell.
It is frequently the case that the engines arrive at a fire before the general alarm from the Market House is sounded. It is no use for the engines to be at the scene of conflagration unless there is some one to handle the hose. As soon as the alarm is sounded our firemen stop everything and go immediately to the fire, but it is generally the case that the market bell is not rung from ten to fifteen minutes after the telephonic alarm has been sounded at the engine houses. Our firemen are willing to work, and never shirk their self-imposed duty, and we think it nothing more than an act of common justice that the city authorities should have the bell sounded promptly. We think some attention should be paid to the behests of our self-sacrificing firemen.
The Excursion Last Night.
Capt. Harper never does anything by halves, and in view of the fact that the music which was to furnish a part of the evening's pleasure did not attend, he gave his moonlight excursion down the river last evening free of cost to those in attendance. The trip was a most delightful one and was hugely enjoyed. To persons who are confined at their places of business, these long hot days, a little trip down the river in the evening is a most refreshing and exhilarating one, and the nominal cost, 25 cents, which is the regular and unchanged price, is cheap enough, and should be an incentive to persons to enjoy the fresh, pure air. Capt. Harper gives these excursions for the benefit of the people and can be said to be influenced by no selfish motives in the matter as it takes a great many twenty-five cent pieces to pay his expenses, and he stands by his wheel all day.

Mr. L. M. Williams has so far recovered from his recent attack of bilious fever as to be able to appear on the streets to day. He is still quite feeble but we hope to see him grow strong rapidly.
The woman from Rome, the special friend of Policeman No. 9, who was ordered to roam out of the city, is still walking or staggering about. As soon as she was let out of prison this morning she bought a bottle of whiskey and has been sticking to it like a sister all day.
Behind the Bars.
It is remarkable with what tenacity some of our business men cling to business. A few years ago one of our city brokers followed a merchant to a lawyer's office and thence to a church. Another stuck so long and close last night, endeavoring to make a sale, that he actually got locked up in the store. For once in his life it is presumed he went home to his family after his release and confinement from behind the bars. †
To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices. †
The State Fair.
Col. L. L. Polk, Secretary of the North Carolina Agricultural Society will accept our thanks for a copy of the Rules and Regulations and Schedule of Premiums for the 21st Annual Fair of the Society, to be held at Raleigh next October 10th to 15th, inclusive. There will be some very interesting features, such as a bicycle race, by boys under 15, for \$15 in money, also a bicycle race by men, for a \$90 bicycle; a sabre tournament for a fine horse, saddle and bridle; a glass ball and pigeon shooting match, the prizes being two fine guns valued, one at \$85 and the other at \$150; archery contests for prizes and horse races at which \$1,200 will be awarded.
Freshwater Perch, Trout and Black fish Hooks and Lines. A full assortment and lowest prices at JACOBI'S. †
Science in Everything.
Science in the last few years has gained a terrible foothold in this world. It has rattled the dry bones of foggism, made pi out of wornout theories, and upset ideas which have been established for centuries. The latest and most astonishing fact that has been developed is that there is a scientific mode of kissing. The day when a young man could grab a girl around the neck and gobble a kiss in a rough but comfortable manner is past. The time when he could encircle her waist with one arm, get his shirt bosom full of hair oil and pirouette his lips over every square inch of her countenance, is no more. Science has proclaimed against it, and man shudders but remains silent. The old style of kissing, which sounds like some one tearing a clapboard off a smoke-house, is now considered bad taste, and consequently going out of fashion, although the majority of girls admit that science has cruelly destroyed all the comfort of a long, lingering, heart-thrilling kiss, and this fact causes them to express no little regret. The improved scientific method of kissing is to throw the right arm languidly around the fair one's shoulder, lift her chin up with the left hand, until her face is pointed at an angle of forty-five degrees—or rather until it has an aspect resembling the bowsprit of a clipper-built sloop—then stoop softly and graze about her lips in a quiet, solemn sort of a way, and tickle her nose softly with your moustache until she cries, "Ouch!" This is scientific kissing; but there is no consolation in it—nothing to make a man feel like a couple of galvanic batteries were galloping along his spinal column. It is flat—lukewarm; lacks substance, and if not stale, it is at least unprofitable.
Young ladies are again wearing the hair parted on one side.
Haunted Me.
A Workingman says: "Debt, poverty and suffering haunted me for years, caused by a sick family and large bills for doctoring, which did no good. I was completely discouraged, until one year ago, by the advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have been sick a day since; and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost."—*Christian Advocate.*

The receipts of cotton at this port to-day foot up 27 bales.
How many men endeavor to make home pleasant for their wives by staying away from it?
Scent and aroma are terms of similar meaning, and yet a roamer is frequently without a cent.
The days continue of such length that one who rises at five will be apt to feel a little fatigued before sunset.
A match is a gentle thing, but scratch it and you will see fire in a second; matches are very much like some people.
John Chavers, colored, was arrested this afternoon for disorderly conduct. He will have a hearing before His Honor, Mayor Smith, to-morrow.
Fort Fisher Again.
It is a mistake, as asserted in the *Star*, this morning, that Col. Fremont built the original fort at Fort Fisher. Col. Fremont assumed the command of the coast defences August 31st, 1861, at which time the fort at Federal Point, then known as Confederate Point, was not a romance but a reality. When Col. Fremont took charge the works were breast high with several guns mounted on them. Col. F. afterwards built upon and enlarged and added to the work and the armament. He brought a rifling machine here from Charleston and rifled the guns at Caswell as well as at Fisher. On September 14, 1861, Col. Fremont issued an order naming Fort Fisher, in honor of the gallant Col. Chas. F. Fisher, of the 6th N. C. Regiment.
We are not guessing, but giving such facts as we know to be such, and it is simply in the interests of a correct history that we give them. There was, we think, a name for the Fort before it was called Fisher but we cannot remember now what it was. Perhaps some of our friends will help us to recall it.
