

THE DAILY REVIEW.

JOSH. T. JAMES, Editor & Prop'r. WILMINGTON, N. C.

SATURDAY, JULY 9, 1881

Entered at the Postoffice at Wilmington, N. C., as Second Class Matter.

The experiment of lighting the streets of Albany by electricity has so far been successful that it has been decided to cut off the gas lamps on the electric light circuit.

Scotland is pretty sure to get the Secretary of State she demands for her affairs. Lord Rosebery told the Government that the neglect of Scotch business is causing so much disgust north of Tweed that ominous rumors of home rule were arising.

That was a right royal act of the New Yorkers who made up a fund of \$250,000 for presentation to Mrs. Garfield, so that the mind of the stricken President would not feel any anxiety as to the future of his family. Cyrus W. Field headed the list with \$5,000.

London is the largest city in the world its recent census showing a population of 3,514,000; and yet this falls far short of the number of people within its limits, as it has been found that 1,500,000 people residing in the suburbs and neighbor, hood visit it each day to transact business. New York, on the other hand, receives, excepting its neighbor, Brooklyn, only 40,000 of these business visitors.

The New York Journal of Commerce thinks this is an age of ship canals as well as of railroads. It believes that whatever may come of the Panama project, practicable and moderately expensive works, like canals of Corinth, Cape Cod and Florida, will be dug before many years, and will prove of immense convenience to commerce and perhaps profitable to shareholders.

The fact that the debt of the United States has been reduced in the past fiscal year over one hundred million dollars gives great satisfaction to the country. The money that is paid will not have to be paid over again. But there are judicious persons who have the wit to see that we are riding our free horse for this year and next year, too. We are riding him to death. He is a noble animal, but he cannot endure the gait at which he is forced forward.

Only twelve women have received medical diplomas in Paris. Among these is an American lady named Pittman. The number of female medical students now studying is 42, of whom 3 are American, 18 English, 11 French and 10 Russian. The length and expensiveness of a course of medical study in the French capital keep the number of female students small. Such a course lasts seven or eight years, and cost not far from \$4,000.

A correspondent shows how difficult it is to enter West Point, by announcing the result of the examination of candidates for admission just concluded. There are 132 young men of the number appointed who reported to the academy. At the physical examination the doctors rejected twelve. This left 120 candidates. Of these the examining board rejected fifty eight. So that the present fourth class consists of sixty-four cadets, one of the smallest classes ever entered at West Point.

By a singular coincidence the very last letter written by President Garfield was addressed to his opponent in the last Presidential campaign—Maj Gen. Winfield S. Hancock. It was dated Friday, and related to an appointment recently conferred upon Col. Mitchell, one of Gen. Hancock's aides-de-camp. It was friendly and pleasant in tone and could not but have pleased the recipient. The letter informed Gen. Hancock that Col. Mitchell had been appointed assistant adjutant-general of the army, and after apologizing for depriving the general's staff of an excellent officer concluded: "While your staff, General, loses an ornament the army gains an assistant adjutant-general of whom it may well feel proud."

Resistance to the new prohibitory laws of Kansas has gone so far that while juries in the cities refuse to convict liquor sellers even upon the clearest evidence, in Atchison the Common Council, with the co-operation of its presiding officer, the Mayor, has adopted an ordinance providing for the granting of licenses to taverns and saloons. This action was taken in express ridicule and defiance of the prohibitory constitutional amendment and the laws based upon it. The temperance men have since then had a mass meeting and called upon the Mayor to resign, while Governor St. John threatened to call out the militia and put the laws into execution by force of arms. All this because the population of the cities is not willing to be deprived of its beer

by the rural population's temperance predilections.

Recent cable dispatches have mentioned the complete success of the preliminary borings for a tunnel under the English Channel, indicating that the work might be completed within five years. A fuller report of the proceedings at the recent meeting of the Southeastern Railway Company, in London, shows that a gallery seven feet in diameter has already been driven from the shaft near Abbott's Cliff for half a mile toward France, and an agreement has been made to push forward a similar headway under the sea for a mile on each side of the Channel. At the present rate of progress this will probably be done within the next six months, and then it is expected that the further nine miles on each side will be undertaken at once. All the conditions seem favorable to the project. The soil is found to be exactly similar at both ends. It is, as was expected, gray chalk, impervious to water, and there is every reason to anticipate that it will be found to stretch in an unbroken bed across the Channel. If this anticipation is realized the making of the tunnel is only a question of time and money.

More People Die from diseased kidneys than of consumption, but not one fatal case in a thousand would occur if Warner's Safe Kidney and Liver Cure was taken in time. By all means try it.

MOONSHINE.

Said the honest milkman: "No; I don't pretend to keep any cows but I do claim to furnish my customers the purest kind of water and an extra nice quality of chalk!"—Boston Post.

You can't both eat your cake and have it.—Ancient Proverb. No, but you can take your drinks and have 'em bad.—Washington Critic. Experience is a great thing.—Boston Post.

"Never milk while the cow is eating," is the advice of a bucolic contemporary. Judging from the character of much of the milk that comes to market, it would be more to the point never to milk while the cow is drinking.—Cleveland Leader.

At a church in Ellis county, Texas, last Sunday, a man was shot and killed. "Now, look here," said the preacher, pausing a moment, "I must insist that there be no further interruptions. How do you suppose a man can go on preaching when you annoy him in this way?" It was at the second day's infantry competition, and the League Guards were doing their very prettiest marching on a "right oblique," when she remarked, "That looks nice, but what do they have to march bias for?" "Bias" was too much for the boys, and she attributed their explosion of laughter to a "break" somewhere.—New Orleans City Item.

Prejudice Kills.

"Eleven years our daughter suffered on a bed of misery under the care of several of the best (and some of the worst) physicians, who gave her disease various names but no relief, and now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had poohed at for two years, before using it. We earnestly hope and pray that no one else will let their sick suffer as we did, on account of prejudice against so good a medicine as Hop Bitters."—The Parents.—Telegram.

Miscellaneous. The World for 1881.

THE WORLD for 1881 will be the best and cheapest newspaper published in the English tongue on either side of the Atlantic. With new presses surpassing any ever before manufactured even by Hoe & Co., with new and unequalled typographical and business facilities of all sorts, and with a better organized telegraphic correspondence throughout the world than that of any other American journal, THE WORLD for 1881 will afford its readers daily a complete, condensed and trustworthy record of all current events.

In its Five Minutes With the News of the Day THE WORLD meets and keeps pace with the increasing demands made by rapid transit, the telegraph and the telephone, on the time and attention of business men.

Its daily cable letters from London bring the Old World to the breakfast tables of the New. In its Wall Street Gossip and its Items for Investors, taken together with its accurate, candid and absolutely impartial Financial Article, THE WORLD daily presents a complete and up-to-date picture of the financial condition of the world.

No man who owns or expects to own an interest in any corporate property can afford to miss for a single day the information daily and exclusively given in THE WORLD, not only as to the most successful and legitimate course of affairs affecting stock values, but also as to the plans, schemes and combinations which are incessantly making and unmaking in and out of Wall street to affect those values.

The World contains also every day the freshest, fullest and most instructive notices of everything new and interesting in the realm of art, literature and of social life. It is the accredited organ of the colleges of the Union, and the accuracy and vivacity of its sporting columns, covering all the various forms of athletic amusement which have multiplied among us of late years, commend it to the "rising generation" throughout the country.

As the only metropolitan morning journal published in the English language which maintains an unwavering fidelity to the cause of good government and of the Democratic faith in politics, THE WORLD for 1881 will be found, where for the last five years THE WORLD has been found, absolutely loyal to Democratic principles; absolutely independent of all persons, cliques and factions within the Democratic party.

Miscellaneous. Wesley Phillip's Case.

Dr. J. A. SHERMAN—Dear Sir—I am happy to inform you that I am entirely cured of my large scrotal rupture. It is one year ago to-day that I received your treatment and I have tested the cure by going without the appliance. My business is that of a locomotive engineer. My rupture, as you will recall to your mind was similar to Mr Jordan's, in your pamphlet of illustrations. I was ruptured in the year 1863, while in the army. I have tried spring and elastic trusses, with great discomfort and injury, my rupture always growing worse. Finding I must get some relief or give up my business, I determined to try you as a last resort, and I must say that I found your treatment a complete success, by improvement and cure have, considering my terrible condition, surprised my friends as well as myself. During your treatment I have worked hard in my business, enjoying both safety and comfort, and have not lost a day's work. My general health has also improved. I will take pleasure in recommending the afflicted to you whenever I have an opportunity.

Since the recollection of Dr Sherman's treatment, gladly throwing away their griping, irksome, dispiriting, and life-ruining trusses, his treatment for this affliction makes the patient comfortable and safe in the performance of every kind of exercise or labor. It is a grand thing, and those who are ruptured do not provide themselves with it, and are the sufferers of all kinds of affliction and the use of trusses all through life. Thousands of those cured give the most flattering testimonials of gratitude to Dr Sherman. He is the author and inventor of his popular system; he imparts his secret cases, and under his personal supervision the reach of it almost every one. Patient can receive treatment and leave for home same day. Dr SHERMAN'S HOME OPHTHALMIC TREATMENT. It is illustrated with photographs of bad cases before and after treatment. LIME PAINT. IT IS GOOD FOR FRAME HOUSES OUTSIDE, BEING WATERPROOF.

FOR WHITEWASHING AND ALL SANITARY PURPOSES. It costs less in comparison than COMMON WHITEWASH, or the unsketched lime, and its durability and beauty are two-fold greater. It never loses its strength. It can be kept for years. When applied it forms a surface as smooth as SHOOTING SLUGS. It can be used conveniently and economically in making MORTAR, FINISHING INSIDES, and for all purposes in which sand and lime are employed. We refer to the Krikerbcker Ice Company, and others. Sold at wholesale, by the barrel, and in smaller packages, at the Manufactory.

\$1000 REWARD FOR THE CURE OF PILES. For any case of itching, bleeding, or protruding piles, Dr. DeWitt's Pile Remedy will cure. Always the same, absorbs the tumor, gives immediate relief. Sold by druggists. Prepared by J. P. Miller, R. D. 10th & Arch, Phila., Pa. CAUTION.—Always get wrapper on bottle contains his signature and a file of names. All druggists and country stores have it or will get it for you.
