**MRS. JOE PERSON'S**  
REMEDY FOR  
**SCROFULA**  
NEVER FAILS.  
It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Sanitary Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits were fled before this remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, in my advice. I am, respectfully,  
Kittrell, N. C. JAMES A. MORRIS.

**A Card of Thanks.**  
PHILADELPHIA, November 5, 1880.  
For the benefit of others who may suffer as I have. I write to say, that on Thursday, October 21st, I was attacked with the most severe and excruciating pains, (apparently rheumatic or neuralgic,) on the left side of my neck and head, accompanied with stiffness of the muscles. The paroxysms of pain would come at intervals of two or three hours day and night, from which I lost sleep and suffered intensely. After trying various remedies, meal and hops, belladonna plasters, crude petroleum and turpentine, chloroform liniment, etc.—without experiencing any apparent relief,—having seen your advertisement in one of our daily papers I concluded on Sunday to try St. Jacobs Oil, though not having much faith in so called patent medicines. I was presented with a bottle by a friend, to whom I had stated my intentions, and to say that its action was "magical" does not to me, convey what I would express. It was simply wonderful. Applied and thoroughly rubbed in—in five minutes the paroxysms would stop so to express it, like a flash, and by constant application, the last of which was Tuesday, 4 A. M., the pains were entirely subdued, and I have not had a return of them. To say I am thankful and feel the greatest gratitude to God, and through Him to man, for the means of obtaining such relief, is but feebly expressive of my feelings; and I deem it my duty to let others know of, and obtain relief from the same source.  
FRED. W. WARD, 2004 Titan Street.

## Think of It.

At Shelby, 250 miles west from Wilmington, almost under the shadow of the mountains, and within two miles of the famous, health giving, life reviving Cleaveland Springs, the thermometer on Tuesday last was 105°, so says the Shelby *Aurora*, and then as we travel still farther west, and reach the thriving, pretty little town of Hickory, right near the old Grand Father Mountain and only a few miles from the far-famed, sparkling Catawba Springs, we are told by the Hickory *Carolinian* that the mercury on the same day (Tuesday) "was 100° and the rise in the shade for several hours," from which we infer that possible 105° was reached in that locality also. Now brethren as comparisons are sometimes odious, all we have to say is this, if you want to find a cool place come to Wilmington, where the thermometer on the hottest day this season has not exceeded 97°. Come down and take a whiff of our invigorating salt air, and a plunge in old Ocean and enjoy our delightful sea breezes, and then you can go back home again refreshed and strengthened for another hot spell.

**A Pauper and His Four Dogs.**  
The County Commissioners granted permission yesterday to Ben \_\_\_\_\_ to return to the Poor House, the hospitality of which he has been enjoying for the past three years. It seems that Ben had a penchant for suck-egg dogs, and was so very fond of them there were four of these canines down on the inventory of his worldly possessions. The four dogs were very annoying to Mr. Savage, the Superintendent of the Institution, and he told Ben that he must dispose of them. "The pauper refused to do, stating, "dat he wasn't gwine ter 'linquish enny ob his rights as a free 'American citizen, an' ef dem dogs went he would lef too." The dogs were sent off, and Ben left the institution in high dudgeon. He remained away for about a week, and went back to take up his old quarters rather than partake of the cold charity and stale biscuit of the world. The Superintendent refused to admit him again without a permit from the Commissioners, and on yesterday, Ben, with tears in his eyes, asked forgiveness and was allowed to return, under promise of cheerful obedience to the commands of Mr. Savage. As the permit was handed the suppliant by the Clerk, the Chairman in his stentorian voice, and in the language of a son of San Francisco, said: "The dogs must go."

**More People Die**  
from diseased kidneys than of consumption, but not one fatal case in a thousand would occur if Warner's Safe Kidney and Liver Cure was taken in time. By all means try it.

**Something to Think About.**  
Dr. Thomas F. Wood, from the Board of Health, by invitation appeared before the Board of Aldermen yesterday and gave the City Fathers something to think about concerning the necessary precautions for sanitary measures. Dr. Wood, in the first place presented to the Board a plan by which the garbage from the city could be removed in a very thorough and systematic manner, and carried far beyond the city limits to some point in the river on a marsh or island, to be designated by the Commissioners of Navigation, and there dumped instead of as at present being carried only a mile or two in the country and then thrown out in the woods to fill the air with poisonous matter. Another matter suggested by Dr. Wood, was the mode and manner of removing night soil, which, as at present conducted, loads the night air with the most offensive and unwholesome odors. A remedy and an improvement for this, with the plan for the improvement was also suggested by Dr. Wood. At the conclusion of the Doctors remarks a vote of thanks was unanimously tendered him by the Board of Aldermen for his suggestions, and the time which he had taken from his professional duties to appear before them.

Although no decided action was taken in the matter above referred to other than we have recorded here, still we hope and believe that some decided action upon this subject will soon be taken by the Board of Aldermen.

## BOARD OF ALDERMEN.

The Board of Aldermen met yesterday afternoon in regular monthly session; present His Honor, Mayor Smith, and Aldermen Bowden, Huggins, Worth, Northrop, Chadbourne, Sampson and Willis.

The minutes of the last meeting were read and approved.

A communication was received from the Board of Audit and Finance, approving the lease of the Opera House to E. J. Pennypacker; also, amending the tax levied on job printing; approving the recommendation of the Finance Committee from the Board of Aldermen for a uniform for the police; also, concurring in the levy of a tax of five dollars per month on each and every boss stevedore making a contract to load or discharge vessels; and announcing Messrs. Giles, Jones and Calder, a committee from the Board to confer with committees from the Board of Aldermen and the Wilmington Market Company, in reference to a communication addressed to the respective Boards by the Market Company.

The following report was made by the Finance Committee, viz: It is recommended by the Finance Committee, and concurred in by the Board of Audit and Finance, that no increase of compensation be made at this time to the police force of the city. Instead thereof, it was recommended by the Finance Committee and agreed to by the Board of Audit and Finance, that a summer uniform be furnished; but, after further consideration, we advise that as the summer is now so far advanced, a winter uniform be substituted, and that this committee be authorized, with the concurrence of the Board of Audit and Finance, to advertise for bids and enter into contract for the same. Also, recommending that the petition of S. W. Holden, asking to be relieved from the license tax levied on "Plumbers and Gas Fitters" be not granted; also recommending, as regards the petition of W. L. DeRosset, Jr., that the tax ordinance be amended so as to provide that where not more than two compositors are employed the tax be \$1 per month, and when in excess of two compositors the tax be \$3 per month. It is also recommended by the Finance Committee and concurred in by the Board of Audit and Finance, that the Opera House be leased to E. J. Pennypacker for five years at an annual rental of \$600, payable quarterly; he to put the same in thorough repair, as stipulated and to turn it over to the city in like good condition at the expiration of the lease. The committee further recommended that an annual examination of the premises be made under the direction of the Board of Aldermen, to see that the contract is fully carried out on the part of the lessee. The contract or lease has been ordered to be drawn up by the City Attorney. All of the reports from the Finance Committee were adopted.

The committee on Fire Department made a report recommending the removal of the fire-alarm bell to a belfry to be erected on the City Hall building, and submitted a plan for said belfry.

On motion of Alderman Chadbourne the matter was referred back to the committee, with instructions to invite plans and specifications for the erection of a belfry and bids for the building of the same and the removal of the fire-alarm bell to the City Hall building.

Petition from S. Blumenthal, to erect a two-story wooden store with tin roof and bake oven on Fourth, between Chestnut and Mulberry streets, was referred to the committee on Fire Department with power to act.

The Sanitary Committee on the communication of F. M. James reported progress.

The same committee was granted further time on the communication received from Dr. Thomas F. Wood.

Petition for a sidewalk in front of the United States Marine Hospital was referred to the Chief of Police, and action in regard to a street lamp in front of the same was deferred for further consideration.

Aldermen Huggins and Northrop, to whom was referred the matter of the city clock, made a report recommending giving the contract to J. L. Winner, he being the lowest bidder.

The committee on Streets and Wharves were empowered to have the bridges on Fourth and Sixth streets repaired.

The Mayor recommended that the

Board do not appoint a Standard Keeper. Adopted.

The Special Committee to whom was referred the communication of the Wilmington Market Company, reported progress.

The report of the Chief of the Fire Department relative to repairs to the Cape Fear Engine was referred to the Committee on Fire Department with power to act.

The contract for painting and kalsomining the City Hall was awarded to Geo. Irvin at his bid of \$460.

The ordinance adopted by the Board of Aldermen, May 2d, 1881, relative to trading on Sunday, was amended by inserting at its conclusion the words, "in the city of Wilmington, N. C."

Alderman Worth moved that the communication of the Mayor relative to the removal of the building of John A. Parker, on Sixth and Nun streets, be referred to the Committee on Streets and Wharves, to examine the premises and report at the next meeting.

Alderman Huggins moved to amend so that the committee would have power to act, which was carried, and the motion as amended was then adopted.

Mr. Jno. D. Bellamy, Jr., appeared before the Board and presented a petition from Mr. John S. McEachern, for the city to pay damages to his goods by the overflow of drains during the rain of July 1st, 1881.

On motion, the petition was referred to the Committee on Finance.

A petition from the Trustees of Pine Forest Cemetery for improvement to Red Cross street, was referred to the Chief of Police to attend to at some future time.

Dr. Thomas F. Wood appeared before the Board at the request of a committee from the Board of Health to make a statement of the manner in which he thought the sanitary condition of the city could be improved by the removal of the garbage in a manner different from that at present employed.

A communication from sundry citizens who paid the assessment for laying a pavement on front street, was referred to the Committee on Finance.

A petition for a lamp in front of the Second Baptist Church was referred to the Committee on Lights.

Adjourned.

Mr. Perry is making some improvements and repairs to the Purcell House. He is the right man in the right place and the House, under his management, sustains a better reputation than it has heretofore enjoyed.

The bulletins received to-day state that the President is still slowly improving, and that his condition is as favorable as could be expected under the circumstances. His temperature and pulse is about as it was yesterday, and all his symptoms are favorable.

**The Weather.**  
The following shows the temperature as recorded at U. S. Signal Office in this city to-day at the hours named below:  
7 a. m. 78°; 11 a. m. 87°; 3 p. m. 90°; maximum temperature yesterday 87°; corresponding date last year 95°.

**Judge Manly.**  
Our entire community will be shocked to hear of the sudden demise of that great, good and eminent North Carolinian, Judge Mathias E. Manly, which occurred in Newbern on Saturday last about 7 o'clock in the evening. Something of a sketch of the illustrious Judge will be found on our editorial page to-day.

**The W. L. I.**  
The Wilmington Light Infantry, by a unanimous resolution passed at a meeting of the company held at their Army last night, appointed a committee, of one in the person of Mr. E. A. Oldham, to write to and request from ex-President Jefferson Davis his photograph, which the company proposes to ornament the walls of the Army with if they are successful in obtaining it. Mr. Davis is an honorary member of the company, having been made so shortly after the company's organization, and while the distinguished gentleman was Secretary of War of the United States under Pierce's administration.

In addition to this we have heard it mooted that the W. L. I. propose to ask the photograph of each surviving Captain, and to have them all suspended upon the walls of the armory. The Captains we think are in the following order. First, Edward Cantwell, W. C. Fergus, John L. Cantwell, W. L. DeRosset, E. D.

**PLEASE NOTICE.**  
We will be glad to receive communication from our friends on any and all subjects of general interest but  
The name of the writer must always be furnished to the Editor.  
Communications must be written on only one side of the paper.  
Personalities must be avoided  
And it is especially and particularly understood that the Editor does not always endorse the views of correspondents, unless so stated in the editorial columns.

Hall then W. L. DeRosset again, R. B. McRae, Henry Savage. The last named gentleman was the last Captain of the Wilmington Light Infantry, before it was merged into Company G. of the 18th N. C. Regiment, and was Captain of it as Company G. also. We understand the company contemplate an excursion down the river in a few days with the hope of improving their finances. We trust they will succeed.
