MRS. JOE PERSON'S

REMEDY FOR

SCROFULA

NEVER FAILS.

It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits fled before this remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, in my advice. I am, respectfully,

Kittrell, N. C. JAMES A. MORRIS.

How to keep even with the world—don't be odd.

The cleanest of persons don't mind handling "filthy lucre."

The thermometer in this office registered 96 degrees to-day at 3 o'clock.

Some men seem constantly turning an internal grindstone to keep their anger sharp.

The hardest thing in the world to do so constantly that you can do it well is to mind your own business.

When your pocketbook gets empty and everybody knows it, you can put all your friends in it, and it won't "budge out" worth a cent.

There was one case of drunkenness on hand for the Mayor's consideration this morning, but it was dismissed without the formality of a trial.

It is a fact that the minimum temperature during the night is from two to three degrees higher at Smithville than it is in Wilmington.

indications.

For the South Atlantic States fair weather, winds mostly South to West, stationary or falling barometer and temperature.

Quite a large party of excursionists visited Wrightsville Sound last night. Captain Manning entertained as many as forty at his house, twenty-eight of whom took boats for the banks and enjoyed a sail to and from the ocean side by moonlight.

There was a large and happy crowd gathered together on the *Passport* this morning as she steamed down the river, the occasion being the excursion given by the Rechabites. We trust that they all have had a good time and that the order will realize handsomely in their venture.

Returned.

Captain Thomas C. Lewis has just returned from his Summer vacation, which he spent at his old home in Newport, Rhode Island; whither he has been for the past month. Newport, as we know, is a great watering place, where wealth and fashion are to be seen in great abundance at this season of the year. But in answer to our inquiries as to whether he enjoyed many plunges into the surf, Capt. Lewis coolly informed us that it was too cold up to within a day or two of his departure to enjoy such sport; that on the night of the Fourth he wore his overcoat to keep comfortable and he didn't have any chill either. We are glad to see our friend looking hale and hearty, and much improved by this little relaxation from business.

Mr. Wm. E. Colles, Superintendent of the Washburn Iron Company, Worcester, Mass., remarks: "All I can say in regard to St. Jacobs Oil is, that it is the best remedy I have ever seen. It has been used in the Iron Works, with wonderful results, among my men for burns, cuts, bruises, sprains, etc., and never failed to help them. I shall never be without it in my house."

The President's Condition.

The latest bulletin from the Executive Mansion at Washington reports the President as doing well or, in the language of the bulletin, "the President passed a comfortable night and continues to do well. His pulse is 90, temperature 99 & 100 respiration 22. Everything looks favorable now for his ultimate recovery."

Is it Hot?

We all think it a fearfully hot day with us here to-day but it is not as hot, by three degrees, as it was on the corresponding day of last year. From the Signal office we learn that at 9 a. m. to-day the thermometer at the station registered 81°; at 11 a. m., 90°, and at 3 p. m. 94°. The maximum temperature to-day was 95° against 98° on the corresponding date last year.

From Point Caswell.

The steamer *John Dawson* arrived here yesterday afternoon, just as we put our paper to press, with 155 excursionists on board from Point Caswell and the neighboring country. Some of these went immediately to the Sound in various conveyances, Capt. Southerland having sent his four-horse wagonette to the dock for their accommodation, while others remained here overnight and went down the river this morning on the *Passport*. They are to return to Point Caswell to-morrow on the *Dawson* and we trust that they will all have derived much pleasure from their visit to the city and the seashore.

Condition of the River.

The water in the river continues frightfully low; fifteen inches is the best depth that can be found at Windham's Cut, on the shoals. The *North State* arrived here from Elizabethtown this morning and after discharging and taking on a cargo cleared for Kelley's Cove this afternoon where she will be met by the *A. P. Hurt*, when the two boats will exchange their freights, and one return to Fayetteville, if she can pull through, and the other return to this city. The *Wave* when last heard from was at Elizabethtown, tugging away through sand and water, trying to get through. Our up-country friends ought to pray for rain.

Here and There.

We, of this section, should esteem ourselves fortunate. While in the interior, in Raleigh and Charlotte, for instance, the temperature is so fearfully warm as to be oppressive and the earth is parched and dry and dying from the want of rain, here we have strong, refreshing, life-giving breezes, night and day. The seasons have been excellent and the earth is teeming with fruit. At Raleigh, the *News and Observer* tells us that the earth is parched and dry and the vegetables in the gardens unfit to look at and the *Charlotte Observer* says that in its section the fruit trees have been actually dying from the want of water. Verily, we have cause, not for exultation, but for thankfulness.

A Delightful Soup.

This is a season when the housekeeper loves to prepare a nice dish and the lover of good things delights to devour it. A Southern housekeeper gives the following recipe for "gambo soup," which is worth trying, to be sure: "One chicken cut up and fried brown, four onions cut up and fried brown, four tablespoonfuls of browned flour, one-half pound of lard, in which is fried the above mentioned ingredients; four Irish potatoes cut up and put in raw; mix together and add one gallon of water; season with salt and pepper, adding coarsely bruised cloves and allspice (tied carefully); in bobinet or coarse muslin, to be taken out when the soup is dished up). Just before dishing up add two table-spoonfuls of the dry powder of sassafras. In summer okra may be substituted and two quarts of peeled tomatoes. In winter oysters may be used. Boil with it a few moments a pod of red pepper, and when served slice in two lemons, if agreeable."

May is one of the unlucky months for marriages. The other unlucky months are January, February, March, April, June, July, August, September, October, November and December.

Thermometrical.

Here is a record of the thermometer at 3 o'clock to-day, at various points, as derived from the bulletin issued this afternoon from the Signal office:

Cairo, 89; Fort Gibson, 100; Jacksonville, 78; Key West, 94; Knoxville, 91; Nashville, 90; Savannah, 82; Shreveport, 92; Cedar Keys, 91; Pensacola, 86, and Wilmington, 94.

The French Fourth.

Our Revolutionary allies, the French, have also a national fete day this month, and it falls due to-day, the 14th, the anniversary of the destruction of the Bastille in 1789, in the beginning of the French revolution. In honor of the day, J. Leeb, Esq., French Vice Consul at this port, floats the tri-color from the masthead over his office.

Death of Gen. Murphy.

We record to-day the death of one of the oldest and one of the most truly estimable of our citizens, that of Gen. Joseph S. Murphy. He died at his residence in this city this morning in the 80th year of his age.

Gen. Murphy was a native of Fayetteville but removed to Wilmington when a boy and has remained here continuously ever since. He was a gentleman of a remarkably retiring disposition and of a strict probity and integrity of character which had never once been assailed during the three-quarters of a century of his life passed here. God rest him! There are too few of his stamp left among us now.

Midsummer Thanksgiving.

We second the motion. Let's have another day of rest, when President Garfield's recovery is assured, a day devoted to thanksgiving and prayer—and fishing. The Governor of Ohio has made a remark to this effect to the Governors of other States and the Governors of other States have responded very cordially. There will be lots of thanksgiving anyhow, and a very hearty giving of thanks it will be, too, should the President recover, but there will be no special closing of banks and business and time for frolicking as well as thanksgiving, unless a day is specially voted for that purpose. And therefore, we say, let's have the thanksgiving.

"It is Curing Everybody." writes a druggist. "Kidney-Wort is the most popular medicine we sell." It should be by right, for no other medicine has such specific action on the liver, bowels and kidneys. If you have those symptoms which indicate biliousness or deranged kidneys do not fail to procure it and use faithfully. In liquid or dry form it is sold by all druggists.—*Salt Lake City Tribune.*
