MRS. JOE PERSON'S
REMEDY FOR
SCROFULA
NEVER FAILS.
It Will Cure if Fairly Tested.
It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's Remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits revived before this remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy, and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. I am, respectfully,
JAMES A. MORRIS.

A Small Steamer.
The little steamer built by Mr. Taft, a description of which we published some weeks ago, made her appearance on the river this morning. She is called the *Big*, and Mr. Taft says that she was built and will be run for the purpose of towing flats up and down the river. She is a stern-wheeler and seems able to make good time for a boat of her size and description.

Sabbath School Lecture.
As has been stated by us, Mr. W. R. Hunter will lecture this evening in the First Baptist Church for the benefit of the Sunday school scholars in this city. He has been laboring for thirty years in the cause and a number of years ago was on a visit to our city. He will speak tonight on the importance of the religious instruction of the young as regards the future of this republic, and we trust that there will be many to hear him.

The Year 1881.
There is a peculiarity about this year which Mother Shipton never thought it. Its number is more reverable than any paper cellar ever invented. Write it on a piece of transparent paper—1881 and hold it up to the light. No matter which side up you hold it, nor whether you have the front or the back of the paper toward you, you can make nothing of it but 1881. No year has enjoyed this peculiar distinction since 1111, and no other will enjoy it until 8118. The year 1691 could be turned wrong side up without spilling, and so can 1961; but neither will bear looking at from behind.
"The Doctors Said

The "Pros" and "Antis."
The Prohibitionists and anti-Prohibitionists both held meetings last night in the city. The former assembled at the City Hall and were addressed by Capt. W. J. Potter, of Smithville, and W. W. Brown, colored, of Boston. There was a very good attendance of both white and colored, but principally of whites, among whom there were some ladies. Both addresses were received with much interest and applause by those who were present.
The "Antis" met at the Market House and were addressed by ex-Judge Watts, ex-Mayor Canaday, Mr. H. E. Scott and Jos. C. Hill. At this point there was also a large attendance, the colored element in this instance predominating. The speakers were repeatedly cheered during the course of their remarks. Col. Ike Young and J. E. O'Hara, who were expected, did not arrive, much to the disappointment of many.
More Particulars of the Accident at Clarkton.
We have heard some additional particulars concerning the sad death by lightning of Mrs. C. C. Powell, at Clarkton, on Sunday last, which we give as they have been told us and as follows: A heavy thunder storm came up on Sunday afternoon and quite a large number of persons rushed into the house to seek shelter from the violence of the gale, all entering the same room. During the time the storm prevailed Mrs. Powell was seated in a chair, holding her infant child; her husband had just walked to the door to watch the progress of the storm. Suddenly, there came a blinding flash, and a loud peal of thunder, and the wife and mother lay a corpse upon the floor, the chair she was sitting in being shattered to atoms whilst the poor little infant and distressed husband and father, together with the rest of the company in the room, escaped without serious damage. The electric current is supposed to have entered an open window near by but how or where it went, after the destruction it caused, we are not informed.
Don't Die in the House.
Ask druggists for "Rough on Rats." It clears out rats, mice, bed-bugs, roaches, vermin, flies, ants, insects. 15c. per box.

Drunk and Disorderly.
Kitty King, colored, better known as Crazy Kitty, was arrested this morning, charged with being drunk and disorderly on the streets and carried to the Guard House where she now remains locked up awaiting the Mayor's investigation of her case. When a crazy person gets drunk from the effects of drinking mean, pop skull, rot gut whiskey we should think the party selling or giving the poor imbecile the poisonous draft would receive his just punishment if he too were locked up in the same cell with the unfortunate lunatic.
Adulterations.
The adulteration of food and medicine has attracted the attention of the State Board of Health and Dr. Thos. F. Wood, the Secretary of the Board, has issued a circular letter to the physicians in the State requesting them to assist in the detection of adulterations. He enumerates soda, saleratus, baking-powder, cream of tartar, sugar, milk, butter, liquors, flour &c., as also paregoric, laudanum, quinine, opium and such drugs as are usually sold for domestic use. Dr. Wood suggests that packages of articles where adulteration may be suspected be made up and forwarded to Prof. Dabney, at Chapel Hill, for analysis.
The Fire Last Night.
The alarm of fire last night, about 10 o'clock, was caused by the burning of two small frame dwellings on Eighth, between Swann and Nixon streets, occupied by Marianna Brown and Andrew Hoskins, both colored. The fire originated in the house occupied by Marianna Brown, who is a washerwoman, and she lost everything, among others a number of clothes which she had taken in to wash. She was absent at the time, having left her children in the house and they were rescued only after some difficulty. The fire is said to have caught from the hearth, where some irons had been left to heat. From this house, which was owned by Sam Hill, colored, the flames spread to that adjoining, owned and occupied by Andrew Hoskins, which was also completely destroyed. This latter was a new house, having been recently erected.
On the second page of this issue we publish another communication from Col. Lamb, the present article being in reference to the command of Fort Fisher. These articles are published by us in response to a request made by Colonel Lamb that he be allowed a hearing through the columns of the Review which we, of course, promptly accorded. They will be read with interest.
Frank Leslie's Popular Monthly.
There is a most excellent display of articles, stories, sketches, poems and miscellany in the August number of this popular magazine, and the artistic display is equally attractive. "Our Immigrants" is the title of the opening article, by H. W. Demott; it is replete with exceedingly interesting information, and has eighteen capital illustrations. Among the other articles are: "The Darkest Day of Constantinople," a page of Turkish history; "The Chaudiere by Paddle and Portage"; "Courts of all Countries"; "Woman as a Warrior"; "Jewels, Jewelry and Goldsmith's Work"; "The History of a Hen's Egg," etc.—all admirably illustrated. Besides the continuation of Frank Lee Benedict's great serial, "A Late Remorse," there are short stories, sketches, adventures, etc., by J. G. Austin, J. Esten Cooke, and other well-known writers. There are numerous poems of great merit by Frances R. Havergal, J. Francis Walker, Jane Dixon, Hugh W. Griffith, etc., etc.; several of them are beautifully illustrated. The miscellany abounds with entertaining and instructive reading. The number contains 128 quarto pages, nearly 100 engravings, and a beautiful colored frontispiece. "At the Fair One's Door," from the famous painting by Erdmann. A single copy of the *Popular Monthly* is only 25 cents; the yearly subscription, \$3—sent postpaid. Address, Frank Leslie's Publishing House, 53, 55 and 57 Park Place, New York.
A SMOOTH COMPLEXION can be had by every lady who will use Parker's Ginger Tonic. For promptly regulating the liver and kidneys and purifying the blood there is nothing like it, and this is the reason why it so quickly removes pimples and gives a rosy bloom to the cheek. See notice.
