The market was well supplied to-day.
Venor's prediction struck just right to-day.

Ghosts' habiliments must be spirit wrappings.

Song of the dry goods clerk—"Swinging in de lane."

The Criminal Court convenes on Monday next, August 1st.

Fish are scarce and high, but hold! we have watermelons.

"About this time" the Almanac promised us fair weather.

The receipts of cotton at this port to-day foot up 30 bales.

There is no poetry in the light fantastic toe that wears a corn.

The rainfall here to-day was 2.95 inches, as reported from the Signal office.

Steamship *Benefactor*, Capt. Tribou, arrived here this morning from New York.

Everything has to pay up sometimes; even the little chickens have to shell out.

It is an astonishing fact that a man never gets drunk enough to mistake a church for a saloon.

The old proverb "never cry over spilt milk" is good advice. In fact it's bad to cry over milk, anyway.

Col. J. R. Davis, formerly of the Purcell House in this city, is now at the Purcell on a short visit.

Study your interest. You can now buy Cook Stoves at factory prices at JACOBI'S.

It is a mistake to say that ideas govern the world. It is not so. The world is governed by sentiment.

Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.

Haytien brig *Dauphin* cleared to-day for Ponce, Porto Rico, with 68,000 shingles and 90,436 feet lumber, shipped by Messrs. Northrop & Cumming.

Vines are said to extract yearly from the soil about three-fourths of the quantity of potash and phosphoric acid that the cereals take up.

No woman ever realizes the utter helplessness of her sex so much as when she reaches a steamboat wharf three minutes too late for the excursion.

Talk about the facial expression of great actors! Did you ever see a small boy with his mouth filled with plug tobacco for the first time?

It has rained nearly all day long, a fact of which some of our readers may possibly be aware. The atmosphere has in consequence become much more endurable.

Beautify your homes by using the N. Y. Enamel Paint, ready mixed and warranted. Sold only at JACOBI'S.

Wm. Phinny, colored, swore out a peace warrant against Aaron Davis, colored, and had the latter carried before Justice Millis. After investigating the case Justice M. dismissed it at the prosecutor's cost.

The following are the readings of the thermometer to-day at the Signal Station in this city: At 7 a. m. 79; at 11 a. m. 75; and at 3 p. m. 74. The maximum to-day is 83 degrees, against 92 degrees for corresponding day last year.

Tucker Townsend, a colored youth about 13 or 14 years of age, was arrested by Officer Grant this morning, charged with stealing, or attempting to steal, brasses from a steam tug, while lying at the wharf. Mayor Smith will interview the culprit in the morning.

Mrs. Maria Keinhart, Poughkeepsie, N. Y., writes: St. Jacobs Oil is an excellent remedy. My son frequently suffered with rheumatism. Since he used the Oil the attacks became less frequent and the ailment has now left him altogether. Neighbors and friends to whom I have recommended the remedy report the same excellent results.

Personal.

Messrs. Sol Haas, General Freight Agent of the Associated Railways of Virginia and the Carolinas, and Mr. Theo. G. Eger, the New York Agent of the New York & Wilmington Steamship Line, are in the city to-day on business connected with their respective agencies.

The Sumter Light Infantry.

The members of the Sumter Light Infantry are having a fine time at Fort Johnson. Several have returned home, though the majority of the company are still in camp at the Fort. The ladies who accompanied the company are still at Smithville.

Gen. Moise and daughter joined the party on yesterday and expect to remain at Smithville for some little time.

To-day and To-morrow

The excursion under the auspices of St. Thomas' Catholic Church, advertised for to-day, was postponed on account of the heavy rains. The tickets sold for to-day will, through the kindness of Professor Agostini, be honored to-morrow on his excursion and the ladies of St. Thomas Church will spread a fine luncheon for the refreshment of the inner man. The opportunity offered to-morrow for a pleasant trip and most enjoyable occasion is unprecedented in the excursion season. See advertisement elsewhere.

Larceny.

Lewis Williams, colored, was arrested yesterday, charged with the larceny of a pair of penitentiary shoes from Lottie J. Flowers. By way of retaliation Williams swore out a warrant against the woman Flowers for the larceny of some calico and homespun. The cases were tried this morning. The woman was discharged, their being no evidence against her. The larceny of the shoes was clearly proven on Williams and he was committed to jail in default of \$100 bond for his appearance at the next term of the Criminal Court.

A Good Place for a Clock.

One of the directors of the Bank of New Hanover asked the Mayor a few days ago, "If the Bank should put a clock in the tower or steeple of the Bank building, would the city keep it in repairs?" The Mayor seemed to think that the city would do its part, and the director said he would use his endeavor to give correct time from the Bank. A clock in that building would certainly be a great convenience to the business community and would be both an ornament to the street as well as to the handsome Bank building.

Magisterial.

Mr. S. Van Amringe, Clerk of the Superior Court, has received an official list of the new Magistrates appointed for this county, by the last General Assembly, as follows: Wm. M. Poisson, Wilmington Township, in place of J. C. Hill; W. O. Johnson, Cape Fear Township, in place of James Cewan; John H. Savage, Federal Point Township; Jas. A. Montgomery, Masonboro Township; A. A. Mosely, Harnett Township. Of these two are new appointments and three are re-appointments. The term of office is for six years, dating from August 1st, 1881.

The Comet.

The comet can now be seen with the naked eye in the northeastern sky about 3:30 in the morning. It rises earlier every night, and will soon be visible in the evening sky and circumpolar like the late comet. Its tail is about one degree long. The comet is coming directly towards the earth, on its way to the perihelion passage, which will be made about August 18. It will then be twenty five times brighter than when first seen, brighter, it is said, than the comet now fast waning was in its brightest hours. It is, after all, said to be a new comet and not a reappearance of the one of 1327.

Extra Luck of a Lucky Plumber
Was shown by W. C. Pendleton, a worthy plumber of No. 12 Bradley St., New London, Conn., sending M. A. Dauphin, New Orleans, La., one dollar and drawing \$5,000 in the June drawing of The Louisiana State Lottery.

The heavy rains of this morning flooded the sidewalk on the east side of market, between Front and Second streets. Piles of watermelons were carried down the streets by the force of the water and tomatoes, cabbage, corn, potatoes, apples etc., were scattered pell-mell about the streets, many finding their way to the river.

Above Par.

Two \$1,000 city bonds, bearing 6 per cent interest, were sold in this city a day or two ago for \$1,040 each. A few years ago these bonds were considerably below par, but since the Democrats have been at the helm the bonds have steadily advanced until now they are at a premium and very few for sale.

From Columbus.

Captain V. V. Richardson, Senator from Columbus county, is in the city and reports the crops in that section as being very fine. In answer to our inquiry as to how he thought the cat would jump on the first Thursday in August, Captain V. replied he thought the feline would land on the anti's side; in other words, he thought prohibition would be defeated in his county.

A Fine Opening.

By reference to our advertising columns to-day it will be seen that a fine opportunity is open to those who are out of a job. The Chesapeake and Ohio Railway are in need of 2,000 laborers to work on that road between Richmond and Newport News, offering payment at the rate of \$1.25 for twelve hours' work. Any experienced foreman who will carry with him a gang of twenty good laborers is guaranteed a position at \$50 a month.

Under Water.

Chestnut street, between Second and Third, was almost entirely submerged and almost utterly impassible this morning, from the accumulation of rain water. This locality is so much lower than other points in the immediate neighborhood that it is difficult to find a remedy. A very persistent effort should be made, however, and that at once, to construct a drain sufficient to carry off the water which accumulates there from every hard rain we have.

A Mysterious Counterfeit.

A new and dangerous counterfeit silver dollar is now in circulation. The imitation is in all respects perfect, showing that the machine used is of a high order. The metal is the only mark by which the spurious character can be told, it being of a white tinge, in no way resembling the silver used in the genuine. What this composition consists of has not been decided upon by experts, but it does not require an expert to detect the metallic impurity of the spurious dollar.

Bed-Bugs, Roaches.

Rats, mice, ants, flies, vermin, mosquitoes, insects, &c., cleared out by "Rough on Rats." 15c. boxes at druggists.

Postoffice News.

Postmaster-General James has hit upon a plan of facilitating the transmission through the mails at a cheap rate of small sums of money. The new device is an improvement upon the system of postal orders recently adopted by the English postal authorities. The improvement consists of three columns of figures, one to represent dollars, the second tens and the third units. Two denominations of these orders are to be issued—one for all sums within \$2.50, and the other for all sums within \$5. The \$5 card has four figures and a cipher in the dollar column, and all the numerals in each of the other columns. The postmaster selling the order will designate the amount to be drawn by punching the figures in the respective columns. The orders will be payable to bearer, and the postoffice will not be responsible for their safe delivery any more than for fractional currency, for which they are intended as a substitute. Both sets of orders are intended to be printed on bank-note paper, to be finely engraved, and other precautions taken against counterfeiting. It is expected that the department will be able to sell them at from 2 to 3 cents for a \$2.50 order and from 4 to 5 cents for a \$5 order. The postmaster will enter the amount or the order in writing on a stub which will be the only check the department will need, and will contain only the amount of the order, the date of issue and the name of the office upon which the order is drawn. This will do away with a great deal of clerical labor, since the names of the remitter and payee will not be entered at all in the records as is done in money order transactions, nor will any advices be issued. In order to prevent the use of the postal orders as currency, they are to be redeemable only for three months after date of issue.

It is not good for man to be alone unless he holds both bowers and the ace.

The President.

The news from Washington City to-day is better. The President is said to have had a good night, sleeping well, and the official report to-day is that his condition generally is encouraging.

A Straw.

The friends of Prohibition seem to be taking courage and getting their backs up. We heard this afternoon that a Prohibitionist went to an Anti and offered to take a bet of \$50, which Anti had offered to make, that the bill would be defeated by 20,000 majority. Our same informant says that Anti backed. We give the rumor for what it is worth.

Major Hill's Condition.

There was much anxiety expressed here to-day among Major Jas. H. Hill's many friends as to his condition. Various conflicting reports thereto were in circulation, but these were set at rest by a telegram received here about noon stating that he was better. Dr. J. C. Walker, Major Hill's brother-in-law, will leave here to-night for Richmond to be with him.

Young girls frequently see their future husbands for the first time at the summer resorts.

Many persons iron towels, fold them, and place them away before they are thoroughly dry. This is an error, and sometimes leads to results not expected. In this damp condition there is a mould which forms on them called "oidium," one variety of which causes a skin disease, known as ring worm.

DIED.

LIPPITT—In this city, on the 26th inst., RANDOLPH, adopted son of John E. and Athalia Lippitt, aged 3 years and 7 months. Funeral from St. John's Church, to-morrow (Thursday) afternoon, at 5 o'clock.

MRS. JOE PERSON'S
REMEDY FOR
SCROFULA
NEVER FAILS.

It Will Cure if Fairly Tested.

It gives me much pleasure to be able to
state that I have derived an effective cure of
Scrofula from the use of Mrs. Joe Person's
remedy for that disease. I had suffered
from Scrofula for more than three years,
and had despaired of ever getting well. I
was treated during that time by three very
eminent physicians, without any good result.
I then went to the National Surgical Insti-
tute, at Atlanta, Ga., and was treated there
more than two months, with no better re-
sult than my family physicians met with.
After returning from the Institute, I was
persuaded to try Mrs. Person's remedy, and
I had not used it more than a week before I
discovered its curative and healing prop-
erties. My sores soon began to heal, and the
color of my skin changed as fast as the sores
healed. I had not thought of ever getting
well again, but my hopes increased, my low
spiritedness fled before the remedy, and I
was now enjoying splendid health and an in-
crease of spirits. The remedy is mild as a
pudding, and a strong tonic; it will heal the
most stubborn sores in three weeks if taken
regularly. It is my opinion that it should
be taken some time after the sores are healed,
to remove the cause of its effects. It should
be taken regularly by all means, for I have
sometimes neglected it, from the pressure of
business, and in all cases found that the
remedy made would commence to re-
turn, and for this alone it should be
taken regularly until an effectual cure is
completed. Nothing should prevent regu-
larly in the use of the remedy and it should
be taken at the proper time. I would re-
commend to all who are suffering from
Scrofula to try it. It will surely cure you
if you give it a fair test. I speak from ex-
perience and not from hearsay. I am a grate-
ful recipient of a cure from the use of it and
understand many and lasting obligations to
Mrs. Person for the great relief I have ob-
tained from its use. Sufferers, try it, I have
no other advice to give. Respectfully,
Kittrell, N. C. JAMES A. MORRIS.
