JUST IN, A LARGE STOCK OF
LACE CURTAINS,
By the pair and by the yard. Samples sent to the country to reliable parties.
Respectfully,
R. M. McIntire.
July 27

MRS. JOE PERSON'S REMEDY FOR SCROFULA NEVER FAILS.
It Will Cure if Fairly Tested.
It gives me much pleasure to be able to state that I have derived an effectual cure of scrofula from the use of Mrs. Joe Person's Remedy for that disease. I had suffered from scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's Remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits died before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores; in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the remedy already made would commence to re-heal, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be convinced, as my advice I am, respectfully,
J. H. T. JAMES, Proprietor,

NEW ADVERTISEMENTS.
D. L. RUSSELL—Mules for Sale.
See ad Excursion for Comfort
HEINSBERGER—A Thorough Conviction
C. W. YATES—Your Interest

Striped grenadines are the most stylish.

Black silk mitts are the favorite gloves.

The election takes place one week from to-day.

The receipts of cotton at this port to-day foot up 20 bales.

Cantelopes were never more abundant than they are this season.

Quite a large number of persons went down the river on the excursion to-day.

Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.

The city might be cleaner than it is. The sanitary condition is not good in some portions of it.

Hon. D. L. Russell and Maj. J. C. McRae are booked for prohibition speeches in this city next Monday evening.

Workmen are busily engaged in tearing down the brick warehouse of the W. C. & A. R. R., at the foot of Red Cross street.

We are now well into the dog-days. They commenced on the 25th inst., last Monday, and will continue until August 12th.

"Rough on Rats."

The thing desired found at last. Ask druggist for Rough on Rats. It clears out rats, mice, roaches, flies, bedbugs, 15c. boxes.

The prettiest flower bonnets are made of rose petals sewed on by the foot-stalks to the bonnet frame. Two shades of red or pink and white petals are the preferred combinations.

We understand that the Arion Quartette have in preparation an open air concert, to be given on the steamer *Passport* on the evening of August 9th.

Beautify your homes by using the N. Y. Enamel Paint, ready mixed and warranted. Sold only at JACOBI'S.

The ladies of the Front Street M. E. Church have advertised an excursion to Smithville and the forts for Tuesday next, August 2nd. Everything in their power will be done for the comfort and pleasure of the excursionists, and we feel well assured that those who go will have no cause to regret having participated.

The President.

The news from the President to-day is favorable. He rested well last night.—There were no rigors and the attending physicians state that the improvement in his condition is plainly perceptible. The President himself talks cheerfully of his condition and of his prospects for recovery. And all of this is in the face of the fact that ex-Surgeon General Hammond says that the chances are ninety in the hundred against him.

Worth Knowing.

As this is the season when we are infested with insects of all kinds, it is well to remember that the prompt application of an alkali to the bitten part allays the irritation and commonly at once relieves the suffering consequent upon a class of injuries, which, although small, are often exceedingly annoying and even troublesome, especially in the case of children and persons with sensitive skins. Soda and ammonia will answer the purpose.

Disease Among the Chickens.

And now we hear that there is a sort of epidemic among the chickens, which is called a sort of apoplexy. The fowl is in apparent good health and suddenly turns over, falls down, gives a few kicks and then shuffles off this mortal coil, and nothing is left but the carcass of a dead chicken. Some attribute it to too high feeding, together with the bugs and good scratching which the chickens get at this season of the year in the way of worms and so forth. Who now will tell us what is good for chicken apoplexy, or—chicken cholera?

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass, &c. You can get all sizes, and at the lowest prices.

Before the Mayor.

Tucker Townsend, the boy arrested yesterday for attempting to steal brasses from Captain Taft's little steamer, the *Biz*, was discharged this morning by the Mayor for want of evidence sufficient to convict. The defendant in this case is known to police circles and has been in durance vile before. But as we already stated, the evidence in the case was not sufficient to convict, and the prisoner was released.

To-day Week.

To-day week the great question of Prohibition or Anti-Prohibition will be decided. Both sides are badly scared and are whistling to keep up courage. It is a difficult matter to forecast the result of the ballots. We think the full prohibition vote will be cast and that it is extremely doubtful if the Anti can get out their strength, yet we would not like to risk our reputation as a good guesser by saying what will be the result.

GRAY HAIRS ARE HONORABLE, but their premature appearance is annoying. Parker's Hair Balsam is popular for cleanliness and promptly restoring the youthful color.

The Hog Cholera.

A friend at Washington, Rappahannock county, Va., seeing in the *JOURNAL* an enquiry as to a remedy for hog cholera, writes us as follows:

I see in your valuable paper, the *JOURNAL*, an enquiry about a remedy for the hog cholera. I thought, as I have been a reader of the *JOURNAL* for several years, that I would contribute something to the welfare and benefit of your other readers. The best preventive is to take what we call burr dock root, wash and slice it, keep it in the slop tub and feed the hogs. I have examined the agricultural reports from Washington, written by able scientific men, and they all agree that there is no sure cure for the disease. I raise the wattle bred of hogs, the best breed we have, and while my neighbors have lost more or less from the disease I have never lost one. But some say that it is my superstitious notions and call me an old fogey, although my neighbors now call on me to get in the stock. I raise the Essex, Berkshire, and Chester breeds. I wish I could send you a pair of full-blooded Essex wattle shoots.

The writer is an old and successful farmer and his experience is worth noting by the stock-raisers in this locality. We thank him most cordially for the kind wishes he has expressed for the Editor of this paper.

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. We know of persons that have suffered for thirty years that have been permanently cured by taking Kidney-Wort a short time. Try it, either liquid or dry.—Sun.

Venor's Guesses at August.

It seems from the Canada papers that Mr. Henry G. Venor has extended his "revised" predictions so that they include August in detail, as given in the following statement, which our readers should cut out and paste in a convenient place for reference: August 1—Probably warm and oppressive; 2 and 5—Generally pleasant weather, fairly warm days, and cool to cold evenings and nights; 6—Fair and pleasant; 7 (Sunday)—Heat and storm; 8 and 10—Sultry weather, with heavy showers, cooler evenings and nights; 11-13—Heat again in the United States, with cloudy and sultry weather, storms in Canada; 14 (Sunday)—Cooler change; 15—Cooler to cold and cloudy and pleasant; 16—Storms throughout portions of Virginia; 17 and 18—Hail-storms and frosts probably in some portions; 19 and 20—Heat and storms; 21—Sultry and showery; 22—Sultry and windy; 23 and 24—Heat and wind; 25 and 26—Heavy storms on the lakes, on the St. Lawrence and around New York; 27 and 29—Cooler weather, with rains and frosts in the northern section; 30 and 31—Fair and pleasant weather, with cool evenings and nights, with indications of returning heat.

Capt. Paul Boyton, of swimming fame, in a recent communication says: Of late I carry a stock of St. Jacobs Oil in my boat, and I have but little trouble. From constant exposure I am somewhat subject to rheumatic pains, and nothing would ever benefit me until I got hold of this great German remedy. I would sooner do without food for days than be without this remedy for one hour. In fact I would not attempt a trip without it.

Freshwater Perch, Trout and Black-fish Hooks and Lines. A full assortment and lowest prices at JACOBI'S.

Brought Up a Bomb Shell.

Yesterday morning a couple of young men who were engaged in diving for whatever they could find at the wharf of the New York steamship, succeeded in bringing to the surface a very large bomb shell with fuse and cap attached. They tried to dispose of it at the junk store but were warned not to carry that infernal machine near the store. They soon found they had an elephant on their hands and carried it to the edge of the wharf and dropped it back into the river.

Non Est.

Richard Cowan, the venerable darkey whom we alluded to two days ago as having been arraigned before a Justice of the Peace for assault and battery with a deadly weapon upon the person of Ella his wife, and whose trial was fixed at 11 o'clock yesterday morning, failed to put in an appearance at the proper time yesterday, and has since skipped the town. His bondsman thinks, however, he will have him here in a few days, and will then have the extreme unction of seeing him boarding at the hotel de Howard until the Criminal Court convenes for the August term.

You Bet!

We yesterday, on information furnished us by a party whom we deemed sufficiently well informed, of the facts of the case, stated that we heard that a Prohibitionist offered to bet an Anti-Prohibitionist that the Prohibition bill would not be defeated by 20,000 majority, and that the Anti-Prohibitionist would not take the bet. This afternoon we learn that the bet was made and the money \$50, was put up this 2 P. M. The same party who gave us this last information states that the Prohibitionist was willing to make another bet of a similar character, but could find no takers.

River News.

No river steamers this week since the departure of the steamer *D. Murchison* on Monday. The steamer *A. P. Hurt* is reported stuck in the mud 6 miles this side of Fayetteville, and the *North State* 16 miles this side. The *Murchison* got got as far as Cypress Creek, 40 miles from Fayetteville, and there the passengers, who were bound through landed and either rode or footed it the balance of the way. The water in the river is reported lower than it ever has been in the memory of the oldest inhabitant before. The crews of the flats or lighters belonging to the steamer *Hurt* are made to get out and walk in order to lighten the flats. This will give our readers some idea of the low stage of the water.

The New Agent.

The vacancy made by Mr. T. M. Emerson's resignation as Assistant General Freight Agent of the Atlantic Coast Line, has been filled by the appointment of Mr. S. P. Collier, as per announcement made yesterday afternoon. We congratulate the authorities of the Coast Line on having secured the services of Mr. Collier. He is an earnest, hard worker and a faithful, energetic man, and will, we are sure, apply his best energies to the fulfillment of the duties of his new position.

Sheriff Manning, whose return to this city was expected several days ago, has been detained at the North by another attack of sickness. His return, however, is looked for this week.

Haunted Me.

A Workingman says: "Debt, poverty and suffering haunted me for years, caused by a sick family and large bills for doctoring, which did no good. I was completely discouraged, until one year ago, by the advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have been sick a day since; and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost."—*Christian Advocate*.
