 White and Colored, very cheap.  
**Cornice!**  
**LACE CURTAINS,**  
**Lambrequins, &c.**  
 Respectfully,  
**R. M. McIntire.**  
**MRS. JOE PERSON'S**  
 REMEDY FOR  
**SCROFULA**  
 NEVER FAILS.  
 It Will Cure if Fairly Tested.  
 It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's Remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physician met with. After returning from the Institute, I was recommended to try Mrs. Person's remedy, and I had used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits were fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be used some time after the sores are healed, and the cause of the disease. It should be taken regularly by all means, for I have seen many neglected cases, for which it has already made a cure from the pressure of business, and for this alone it should be taken regularly until an effectual cure is accomplished. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend it to all who are suffering from Scrofula to try it. It will surely cure you and not from hearsay. I am a grateful recipient of a cure from the use of it and would under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, in my advice. I am, respectfully,  
 JAMES A. MORRIS.  
 Sent stamp for testimonial of remarkable cures.  
 Prepared by Mrs. Joe Person, Franklin, N. C. Sold by W. H. GREEN, Wilmington, N. C.

# THE DAILY REVIEW.

The following are the readings of the thermometer to-day at the Signal Office in this city: 7 a. m., 77; 11 a. m., 87; 3 p. m., 90. The maximum temperature to-day was 90 degrees, against 85 for the same day last year.

Striped flannel in pale and blue and bright red is pretty for bathing dresses. The edge of the blouse is bound with pale blue flannel, and there is a scarf of the same color at the hips, with a bow of colored ribbons on the left side.

Regularity, Integrity and Fidelity Beget Confidence.

The regularity with which the drawings of the Louisiana State Lottery Company take place invariably on the Second Tuesday of every month at New Orleans, La., and the price of tickets is only two dollars, has become so generally known, and confidence so well established in its integrity of management, that it is hard to find a man or woman who has not written to M. A. Dauphin, New Orleans, La., in the hope of receiving \$30,000.

## RICE CULTURE.

**Its Revival on the Cape Fear—The Old Farms Being Reclaimed—Some Figures and Facts.**

During the past three years a growing interest in rice culture has been manifested in this section of the State, caused by the increased value of the cereal. Until recently and since the close of the war, the cultivation of rice on the Cape Fear has been almost entirely abandoned, but very little, in comparison to former crops and the productive capacity of the lands, being raised for market and by far the larger part of the fields remaining idle.

The reclamation of these fields was necessarily at first on a small scale, and as an experiment, with the present system of labor. So well did the "new pioneers" succeed, that others were induced, by the result of the labors of the "experimenters" to embark in the once lucrative business. So rapidly has the interest in rice planting increased that to-day more than one-half of the rice lands on the river have been reclaimed and are now under a high state of cultivation. Among the most prominent rice planters on the river now are Mr. Jno. F. Garrell, who cultivates 252 acres; Navassa Guano Company, 260 acres; Mr. Sam'l F. Potter, 125 acres; Mr. Geo. W. Kidder, 75 acres; Mr. J. Dickson McRae, 150 acres; Mr. Francis M. Moore, 175 acres; Mr. Wm. Larkins, 50 acres; Capt. D. R. Murchison, 230 acres; Col. S. L. Fremont, 200 acres; Dr. W. G. Curtis, 200 acres; Mr. W. Hankins, 190 acres; Mr. B. A. Hallett, 50 acres; Mr. Calvin Grimes, 50 acres; Mr. R. B. Wood, 75 acres; Mr. A. W. Reiger, 100 acres; Hon. D. L. Russell, 100 acres, and about 400 acres cultivated by colored men whose names we could not ascertain, making a total of 2,592 acres of rice lands now under cultivation. It is thought that at least 125,000 bushels of superior rice will be made in this section this season. We are treating solely with lowland rice and have not included in our figures the rice crop of the uplands, which will probably reach 5,000 bushels.

As this subject of rice culture is one of interest to our people, inasmuch as it is the revival of an ante-bellum enterprise and one which brings and retains a revenue to our city, we have put our selves to some trouble to examine into the matter. On yesterday we visited Mr. John F. Garrell's rice fields at the "Sans Souci" and "Hanaper" plantations on Smith's Creek and the North East-river. In 1878 Mr. Garrell commenced the cultivation of rice as an experiment, on 22½ acres at the "Sans Souci" plantation, and succeeded so admirably that in the fall he purchased the "Hanaper" farm, and reclaimed 150 acres in the former tract and 100 acres in the latter, making a total of 250 acres. Subsequently he purchased the "Traponte" farm and lately the "Thornbury" tract. The lands of "Sans Souci," "Hanaper," "Traponte" and "Thornbury" join each other and the four farms have been thrown into one plantation of 1,200 acres.

He has now 250 acres planted in rice and his crop is laid by and the rice is heading up nicely. His more advanced fields are a marvel of agricultural beauty. The rice is from four to five feet high and looks as strong and rank as it is possible for vegetation to be. His dams, flood-gates, etc., are in excellent condition and he confidently expects an average yield of 50 bushels of rice to the acre or a total yield of 12,500 bushels. Different fields were, of course, planted at different periods in order that all of his immense crop would not ripen at the same time. In the busy season he employs something over 100 hands and has employed regularly 25 hands, besides his overseer, Mr. W. T. Bray, and his two assistants. This winter, if the season is favorable, Mr. Garrell proposes to reclaim 238 acres of his rice lands, which are now idle, and have them in a state of cultivation next year, making then a total of 490 acres planted in rice. He intended reclaiming one hundred and eight acres on the "Traponte" tract—a part of the 238 acres—last winter, but the weather was so severe that the hands could not work in the old fields. Besides rice planting, he has turned his attention to the cultivation of corn and cotton, and has 50 acres of fine-looking cotton, and 50 acres of as pretty-looking corn as one would wish to see. His cotton is now about waist

high and the rows are very nearly closed up. The cotton is balled up nicely, and some will soon be open. On the cotton the bulk of the fertilizer used by him was rice straw. We are told that there are very few fertilizers on the market equal to rice straw for cotton, and none to excel it. We understand that Mr. Francis M. Moore's stand of cotton were manured with rice straw, and that his, like Mr. G's, is as pretty as one could desire to see. Mr. Garrell has also tried the growing of hay. Last year, on 15 acres of uplands, he got 67,000 pounds of native crab grass hay, which he avers, when properly cured, is equal to the best quality of Eastern hay brought to this market, and that it is eaten with as much relish by stock. He is now engaged in building two large, substantial barns for the stowing of his crop, in addition to the one he has at present. The one now nearly completed is 125 feet long by 36 feet wide and has two well pitched stories. The other to be built, the frame of which is being gotten out, is to be 100 feet long by 60 feet wide, and will be two stories and a jump high. It will take 110,000 feet of lumber to build the last barn mentioned. Smith's Creek makes up within twenty yards of the site of the barns, which are on a bluff, and the lumber is carried up the creek to the farm. The rice, cotton and corn crops, as we said before, look very fine, and are kept in excellent condition by the overseer, Mr. Bray, who seems to understand his business, and attends to it. We have entered into details in this matter to show what can be done on our rice lands when energy, pluck and determination—three essential requisites—are brought to bear. We wish that we could give an outline of the doings of all the planters on the river, and hope that others will be induced to embark in the business and help bring the rice of the old Cape Fear up to the exalted standard of *ante bellum* days. We thank Mr. G. for his courtesy to us in giving the interesting facts related above.

**Brain & Nerve**  
 Well's Health Renewer, greatest remedy on earth for impotence, leanness, sexual debility, &c. \$1, at druggists. Depot Jas C. Munds.

**Pic Nic at Rocky Point.**  
 The good citizens in and around Rocky Point will have a pic nic on Thursday, the 11 inst., at the Moore, or Gamber Place, on Spring Garden. It is only two or three miles from Rocky Point depot. A large attendance is expected. All not specially invited are requested by the Committee of Arrangements to take basket dinners with them. The committee consists of Messrs. Robert I. Durham, Patrick Duncan, W. W. Miller and J. D. Bell. A nice time will certainly be the result of this social gathering. A band of music will enliven the occasion. Dancing will add to the pleasures of the day and will be continued at night. We return thanks for a special invitation to be present.

**Change of Polling Place.**  
 The polls for the voters of the Second Ward in this city will be held to-morrow at the office of Justice Harris, one door East of the Court House. This is necessitated from the fact that the August term of the Criminal Court for the county is in session and the Grand Jury Room, which is the place in which the polls are usually held, will be occupied by the Grand Jury.

P. S. Since the above was in type we learn that fearing there might be some little hitch about removing the polling place without the 30 days' notice required by law, the Chairman of the County Commissioners has concluded to order the polls held in the Register of Deeds' office, in the Court House building. The approach to the polls will be on Princess street and the ballot boxes will be in the window fronting on that street and immediately under the County Commissioners' room, which is on the second floor.

**Sensible Men.**  
 Mr. Robert Simpson, Foreman Highland Iron Foundry Co., Boston, Mass., recently related the following: We have used St. Jacobs Oil in our foundry, and have never seen anything to equal it. Many cases of bruises, sprains, etc., have been effected by it; and one of our men was cured of a severe case of rheumatism by the use of the remedy. It can be highly recommended. Every time a man gets hurt now, he purchases St. Jacobs Oil and of course uses it with prime success.

The neighbors of an ill tempered woman are said to be almost invariably orthodox in their views of a future state.

## Gone Foreign

The foreign shipments from this port to day numbered 650 casks spirits and 1,850 barrels of rosin, on board the *Norbarque Sosterk*, Capt. Guttormsen, for Bristol, England, all of which was shipped by Messrs. J. R. Blossom & Evans.

**Thermometrical.**  
 The following temperatures to day, at 3 o'clock, are reported or the weather bulletin issued this afternoon:  
 Key West, 90; Cedar Keys, 91; Punta Rassa, 81; Jacksonville, 87; Savannah, 79; Charleston, 85; Charlotte, 93; Augusta, 89; Montgomery, 76; Atlanta, 85; Pensacola, 98; Wilmington, 90.

**The River Lands.**  
 We understand that there was not so much corn planted this year in the famous prolific Bladen county river lands as there was last year. This is a pity as there has thus far been no overflow and the crops are nearly all made. What there is, however, is looking extremely well.

**Afloat Again and Cleared.**  
 The steamer *Wave*, of the Express Steamboat Line, came off the Marine Railway yesterday, where she has been undergoing repairs for the past ten days, and cleared for Fayetteville with a full freight this p. m. But when she will reach her destination, with the present low water, is more than the Captain or agents can tell.

**Rice Birds.**  
 August 20th is the time set apart for the coming of rice birds. We are told that one might walk through a rice field on the morning of the 20th and not see a bird but in the afternoon or the following morning thousands could be seen. They come and go suddenly and unannounced. There is considerable mystery attached to both the appearance and disappearance of the "sweet little birds" but there is none at all about them when served up on the table, swimming in their own fat.

**Heavy Weights at Dinner.**  
 Seven gentlemen took dinner at the Purcell House to-day whose aggregate weights amount to 1,879 pounds. The largest kicked the beam at 317 and the smallest at 225. These gentlemen happened to eat at the same time, but we do not want it understood that there was a preconcerted movement on the part of the fat men against Mr. Perry, the proprietor. His loss, "over and above insurance" is estimated at \$5.

**Kidney Complaints**  
 of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. We know of persons that have suffered for thirty years that have been permanently cured by taking Kidney Wort a short time. Try it, either liquid or dry.—Sun.

**Criminal Court.**  
 The Criminal Court met this morning at the usual hour, His Honor Judge Meares presiding, and Solicitor Moore at his post. The following cases were disposed of:  
 State vs. Tony Ryan and Wm. Dudley. Affray. Verdict—Not guilty.  
 State vs. Sam'l. Ancrum. Larceny. Guilty.  
 The case of John McKoy has been set for Friday, the 5th inst. The Grand Jury failed to find a true bill on the first charge against McKoy.  
 There being no further business before the Court, an adjournment was taken until to-morrow morning, the Court having caught up with the Grand Jury.

**Quarterly Meetings.**  
 Wilmington District, Methodist E. Church, South. Third round.  
 Whiteville, at Whiteville, . . . Aug 13-14  
 Cokesville, at Bethel, . . . Aug 13-14  
 Topsail, at Bethany, . . . Aug 20-21  
 Clinton, at Salem, . . . Aug 20-21  
 Onslow, at Swansboro, . . . Sept 10-11  
 Coharie, at A verysboro, . . . Sept 17-18  
 L. S. BURKHEAD, P. E.

For the first time this week the wind is from the South, and the atmosphere is therefore warmer in consequence.

**PLEASE NOTICE.**  
 We will be glad to receive communication from our friends on any and all subjects of general interest but  
 The name of the writer must always be furnished to the Editor.  
 Communications must be written on only one side of the paper.  
 Personalities must be avoided  
 And it is especially and particularly understood that the Editor does not always endorse the views of correspondents, unless so stated in the editorial columns.
