Mattings,
White and Colored, very cheap.

Cornice!
LACE CURTAINS,
Lambrequins, &c.
Respectfully,
R. M. McIntire.

MRS. JOE PERSON'S
REMEDY FOR
SCROFULA
NEVER FAILS.
It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the sore already made would commence to re-appear, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularly in the use of the remedy and it should be taken at the proper time. I would recommend it to all who are suffering from scrofula to try it. It will surely cure you and give you a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, in my advice I am, respectfully,
JAMES A. MORRIS,
Send stamp for testimonial of remarkable cure.

LOCAL NEWS.

NEW ADVERTISEMENTS.
WM. L. SMITH, Mayor—Proposals
JOHNSON & HICKS—Removed
C. W. YATES—I Am Now Receiving
HEINSBERGER—The Star Parlor Organ

Figs are plentiful at five cents per dozen.

We learn that a private telegram received here from Fayetteville to day says the river has risen eight inches.

Messrs. Johnson & Hicks have removed to the store recently occupied by Messrs. Hankins & Bates, on Second, between Market and Princess streets.

The Raleigh News and Observer says the anti-prohibition majority is estimated as far as heard from at 112,000.

The State Pharmaceutical Association met at Newbern yesterday. Messrs. W. H. Green and Jas. C. Munds are delegates from this place.

We return thanks to Col. L. L. Polk, Secretary of the North Carolina State Agricultural Society, for an annual pass to the State Fair, which convenes October 10th, and continues until the 15th.

We regret to learn of the severe illness of Mr. N. B. Rankin, at his residence in this city. He is reported as having a severe attack of typhoid fever. We trust that he may rapidly recover.

The board of State canvassers will meet Thursday, the 25th of August. The Governor, Secretary of State, Attorney-General and two Senators, to be chosen by the Governor—one from each party—will constitute the board.

The following are the readings of the thermometer to-day at the Signal Office in this city: 7 a. m., 80; 11 a. m., 88; 3 p. m., 91. The maximum temperature to-day was 92 degrees, against 88 for the same day last year.

City Court.
Montee Byrd charged with fast driving was dismissed.

Peggy Faison for being drunk and down was sentenced to five days in the city prison. There being no other case before His Honor, the Court adjourned.

Some Snake.
Officer W. H. Griffith, while fishing a day or two ago at Green's millpond, killed a rattlesnake measuring 11 feet in length and about 10 inches in circumference, which sported 10 rattles and a button. His snakeship was dispatched with a hoe, and so badly frightened Officer Griffith that he smiled over the idea of being snakebitten.

The Death Rate.
To those of our up-country friends who may deem Wilmington one unhealthy place we will just cite the difference in the death rate of Augusta, Ga., an interior city on the South of us, and Wilmington, Del., a seaport town to the North of us. The National Board of Health reports as the death rate for one week in July, per thousand inhabitants, 45 in Augusta, 45 in Wilmington, Del., and only 15 for Wilmington, N. C.

A safe and sure means of restoring the youthful color of the hair is furnished by Parker's Hair Balsam, which is deservedly popular from its superior cleanliness.

Thanks.
We return thanks for an invitation to the grand railroad jubilee to be held at Oxford on the 16th of this month. We congratulate the citizens of that enterprising town on their final success in connecting themselves with links of iron to the outside world. The advent of the iron horse on the coming occasion will be an event in the history of that section. The salutatory is to be delivered by R. W. Winston, Esq., and our own talented townsman, Hon. A. M. Waddell, is the orator of the day.

Visiting the East side of upper New York a few days ago, the writer of this called at Mr. George Ringler's Beer Brewery, on 92nd street. In conversation Mr. Ringler mentioned the following fact: Some months since I had an aggravated attack of rheumatism. The malady settled in my left foot and totally incapacitated me for business. The pain was so great that I was compelled to keep my room, and I suffered untold tortures, being unable to press my foot to the floor for a long time. A friend told me of St. Jacobs Oil. I secured a bottle one day and applied it according to directions. So marvelously rapid was the relief that I was able to walk down to business next day, and have not suffered an hour with rheumatism since.

The New Addition.

The new addition to the Court house is to be fire proof in every respect. The floor sills are made of heavy wrought iron and were placed in position yesterday. It is thought that the new building will be ready for use in about six weeks. In the interim, Mr. S. Van Amringe, Clerk of the Superior Court, can be found in the Court Room until the repairs to his present office and the erection of the new one is finished.

Beautiful your homes by using the N. Y. Enamel Paint, ready mixed and warranted. Sold only at JACOBI'S.

Something to Fill In.

The moon was full last night and scattered her silvery rays far and wide throughout the city, letting in a flood of light upon young man and maiden, spinster and old bachelor (if such persons as the two last named are to be found in Wilmington) neglecting none, but shining for all. Many were the sentimental couples to be seen wandering on the shady side of the streets who felt the effects of the inspiring rays of the beautiful light of the fair queen of the night. Ahem! To be continued at the next full moon.

Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.

Theatrical Season.

The theatrical season will be opened in this city on the evenings of the 6th and 7th of September by a pantomime troupe in "Humpty Dumpty". The season this year promises to be an unusually fine one, opening earlier and closing later than in several years past. Several "stars," supported by good troupes and numerous theatrical favorites, are booked for the Opera House during the season. The Opera House at Goldsboro and the present railroad schedules give us an advantage in getting troupes in this city which Wilmington has not enjoyed for a long time.

Study your interest. You can now buy Cook Stoves at factory prices at JACOBI'S.

More New Engines and Trains on the Carolina Central.

Railroad men say there will be a large number of changes among the conductors and engineers next month. The Carolina Central, it is said, will employ this fall two more conductors. Only two have been running on the day passenger, but this fall it will be run by three. The local freight has been running only tri-weekly. This fall it will be run daily, Sundays excepted. More conductors will also be put on the through freights on this road, which have heretofore had none. This road has also ordered and will have in a short while, two new engines. The order was for four, but the works would only accept it for two, being overrun with orders already. At least so says the Charlotte Observer.

The Sunday Magazine.

The number for September affords pleasant, instructive, entertaining and edifying reading—not for Sunday only, but for every day in the week. The periodical is religious in tone and sentiment, but sectarianism is strictly avoided, and all sects, and all classes of readers will peruse its pages with pleasure and profit. The leading article is entitled "American Benefactors," by James Laurence Bowdoin, LL.D. It has thirteen illustrations, with portraits of William B. Astor, E. H. Warner, Prof. Lewis Swift, Daniel Drew, etc., etc. "The Wallachians," with five illustrations; "Mauritius," with five illustrations; and "The Christian Church at Washington, D. C.," are particularly noteworthy articles. Mrs. Robert O'Reilly concludes her highly interesting serial, "Out of the World"; there are short stories and sketches by M. V. Denison and other popular writers, and some admirable essays by W. C. Proctor, Marcus Dods, D. D., Rev. Dr. Deems, etc., etc. The poems are of more than ordinary merit, and several of them are beautifully illustrated. The miscellany is abundant, and contains a vast amount of information and entertainment. The illustrations are numerous, and well executed. A single copy is sold for 25 cents, annual subscription, \$3, postpaid. Address, Frank Leslie's Publishing House, 53, 55 and 57 Park Place, New York.

German Carp.

About six months ago eighteen German carp were placed in Mr. J. Loeb's fish pond, in the rear of his residence, on Front street, under the care of Mr. Victor Hurlaux, an old friend and a member of Mr. Loeb's household. When the fish were placed in the pond they measured from five to six inches in length and from one and a half to two inches in width. The growth of these fish since that time has been remarkable but not unprecedented. They now measure from ten to fourteen and one-half inches in length and from three and one-half to five inches in width. There are none of them that is not at present double their length when put in the pond and two or three are nearly treble it. These fish have spawned and the pond is now full of the young, many of which have found their way to the river through the outlet of the pond. Mr. Hurlaux is well pleased with the carp and thinks they will be a valuable acquisition to the fish of our waters. They are a fine pan fish and the larger ones are said to be superior to a rock or red drum for baking, boiling or chowder. We have heretofore published a graphic description of Mr. Loeb's fish pond which is one of the prettiest fish ponds in the country but since then Mr. Hurlaux has added several new varieties of fish. There are now eight or nine different species of fish in the pond including three salt water mullets which were put in as an experiment, during the early part of the summer. These mullets were taken from the waters at Wrightsville and brought to this city in salt water. Since they were placed in the pond they have grown some two or three inches and seem to enjoy the shade of the water cress which lines the borders of the pond quite as much as they did the friendly shade of the marsh grasses.

Among the fish that are to be seen in the pond is a gold fish of unusual size, fine large blue perch and a variety of other fresh water fish. One who sees the pond now could hardly be persuaded to believe that about three years ago where the pond now is, was a deserted and almost worthless piece of ground, as far as beauty is concerned. Our friends Messrs. Loeb and Hurlaux wishing to beautify and adorn their home brought their French taste into requisition and succeeded in forming and making one of the prettiest and most attractive fish ponds in the country.

Don't Die in the House.

Ask druggists for "Rough on Rats." It clears out rats, mice, bed-bugs, roaches, vermin, flies, ants, insects. 15c. per box.

That Strange Fish.

The strange fish which we wrote about in yesterday's Review, as being seen by fishermen off Masonboro Inlet, we now learn from a friend, who himself used to go down to the sea in ships, is a species of the whale and is to be found quite abundantly off the Cape of Good Hope and along the coast of Australia. Our informant tells us that it is commonly known as the Black Fish and abounds in the waters above mentioned where they appear in schools and spout water and leap out of the sea somewhat after the fashion of the porpoise. The fellow seen on our coast here is probably a stray fish which got lost off from its companions.

Household Hints.

Kerosene is excellent for cleaning unvarnished furniture, either walnut or oak.
A little powdered borax and tallow are as good as anything to add to starch to prevent it sticking.
A thin coat of white varnish applied to a worn straw matting makes it look better as well as adds to its durability.
If you wish to do away with the grease on the griddle for baking cakes, I have the ordinary iron griddle ground smooth on a grindstone and rubbed off with a piece of fine sandpaper wrapped round a block of wood. This is much better than a soap-stone griddle.
When making cake or omelette, take your discarded egg-shells, crush them in small bits, put them into your decanter three parts filled with cold water, and thoroughly shake them. The glass will look like new, and all kinds of glass washed in the same water will look equally well.
The steamship *Benefactor*, Captain Tribon, from New York, arrived in this port to-day.

Thermometrical.

The following temperatures to day, at 3 o'clock, are reported or the weather bulletin issued this afternoon:

Key West, 86; Punta Rassa, 80; Savannah, 94; Charleston, 93; Charlotte, 95; Augusta, 97; Montgomery, 93; Pensacola, 86; Atlanta, 92; Port Eads, 85; Cedar Keys, 86; Havana, 81; Galveston, 86; Wilmington, 92.

Mortality Report.

Dr. J. C. Walker, Superintendent of Health, made the following report of death occurring in this city during the month of July to the Board of Aldermen at their last meeting:

White—Males 8; females 0; adults 4; children 4. Total 8.
Colored—Males 11; females 9; adults 12; children 8. Total 20.
Total deaths for the month 28.

Large Crowd—Annual Parade.

The District Grand Lodge United Order of Odd Fellows met in this city yesterday, District Grand Master, I. B. Abbott, of Newbern, presiding. The order in this State is represented as being in a flourishing condition. This afternoon *Golden Lyre* and *Free Love* Lodges, of this city, and the delegates to the Grand Lodge, paraded the streets, having two bands in the procession, one from Newbern and the other belonging in this city. It is estimated that there are from 600 to 700 colored excursionists in the city, drawn hither from Charlotte, Raleigh, Goldsboro, Newbern and Tarboro by the meeting of the Grand Lodge. The parade this afternoon was occasioned by the anniversary of one of the Lodges in this city.
