 Magistrates' Row looks melancholy. Cause—nothing doing.
 Yesterday was almost insufferably warm—another hottest of the season, by the way.
 Venner didn't guess very much out of the way this time, so far as this latitude is concerned.
 A very refreshing rain, although there was but little of it, fell here yesterday afternoon and last night.
 Messrs. W. E. Davis & Son are putting up their own mulletts and can guarantee every barrel to contain sound fat fish. See adv. in another column.

Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.
 Schr. Kate Carleton cleared at this port today for Port de Paix, Hayti, with 50,000 shingles and 80,705 feet lumber, shipped by Messrs James H. Chadbourn & Co.
 The wind is from the East to-day and the atmosphere is consequently much cooler. At 3 o'clock to-day the thermometer in this office was ten degrees cooler than it was on Saturday.

Another excursion, under direction of the "Boss Committee" is advertised to take place on the steamer *Passport* on Wednesday next, August 17th. Everything in the power of the Committee will be done to add to the comfort of the excursionists. See ad elsewhere.
 We all thought that it was warm here in Wilmington on Saturday but it was pleasant weather compared to what it was in Richmond. The State tells us that in that city, on that day, the thermometer in some places on the South side of Main street was as high as 106.
 Professor Agostini's next excursion will take place on Thursday, the 18th inst. He promises a fine time and plenty of dancing for the excursionists. He always has pleasant excursions, and we doubt not that the approaching one will vie with any of its predecessors.

The last trip of the season to the outer blackfish rocks will be made by the steamer *Passport* on Friday, the 19th inst. The steamer will stop at the Inlet to accommodate those persons who wish to get a day's sport at that place.
City Court.
 Two cases of drunkenness were discharged by the Mayor this morning with a lecture, the victims having spent a night or two in the Guard House to sober up on.
 One affray between two inebriated individuals enriched the treasury \$2 apiece or \$4 in the aggregate. This wound up the proceedings and the Court adjourned.
In Harness.
 Mr. T. M. Emerson, late Assistant General Freight and Passenger Agent of the Atlantic Coast Line, with headquarters in this city, has entered upon the discharge of the duties of his new position in Richmond, that of Assistant General Freight Agent of the Chesapeake & Ohio Railway. A formal notification of his appointment as such has just been made in circular form. He succeeds Mr. E. F. Kelly, who has been appointed General Western Freight and Passenger Agent of the same road.

Freshwater Perch, Trout and Blackfish Hooks and Lines. A full assortment and lowest prices at JACOBI'S.
 Mrs. Ann Dougherty, residing at 364 E street, South Boston, says she suffered for sixteen years with salt-rheum, without any benefit from the usual means, and was quickly cured by the application of St. Jacobs Oil, the people's great remedy for rheumatism and similar ailments.

President Garfield.
 There is a growing uneasiness in regard to the condition of the President, which the bulletin issued to-day has not served to alleviate. It says that he passed an uncomfortable night, an irritation of the stomach, which caused vomiting, taking place at 3 o'clock. He vomited again this morning. His pulse is given at 108, temperature 100.2, and respiration 20. A de-potent feeling is beginning to be noticeable now whenever the subject is mentioned.
The Circus is Coming.
 Mr. Sam'l H. Joseph, advance contracting agent of "John Robinson's Great World's Exposition and Electric Light Show," is in the city preparing for the coming of the circus on Monday, the 19th of September. The show is said to be as good as ever in every respect, having its own special train of cars, fifty cages of animals, elephants, camels, etc. John Robinson has always enjoyed a fine reputation, and we have no doubt but that he will fully sustain it this season.

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices.
Mutiny on Shipboard.
 W. J. Dyer and James Curran, two refractory seamen, belonging on the British barque *Live Oak*, were arrested this morning at the request of the British Vice Consul, by Sergeant Davis and Officer Bryant, of the police force, and placed in the Guard House for safe keeping. The charge against them is mutinous conduct, refusing to obey the Captain's orders and perform duty. The men, *per contra*, claim that they have been overworked and improperly fed. The Consul will no doubt investigate the case and do justice to all parties.

Catarrah of the Bladder.
 Stinging, smarting irritation of the urinary passages, diseased discharges, cured by Buchupaiba. Druggists, Dept Jas. C. Munds.
A Water Spout at Smithville.
 We learn from a friend upon the *Passport*, this morning, that a large water spout formed in the harbor at Smithville yesterday afternoon, about 4 o'clock, which was pronounced by Captain Morse and several other old pilots who saw it, to be the largest they had ever seen, either upon inland waters or out at sea. The huge phenomenon floated rapidly towards the banks, whither it was carried by the wind prevailing at the time, and burst on the beach, just below Fort Caswell, near Piney Point. We have heard of no injury done to anything or anyone by the immense volume of water which must have escaped when the thing broke on the beach. It is extremely fortunate that the wind took it to an uninhabited part of the land, instead of blowing it over the town or village; otherwise great damage might have been done to life and property. Two smaller water spouts formed immediately after the larger one broke, but only lasted a very short time, when they broke also and the water contained in them mingled with its natural element in the bay again.

EDITOR REVIEW:
 Dear Sir—Will you please call the attention of our nervous, timid health authorities to the work now going on at the foot of Dock street, where they are digging up ballast and mud that has lain there for years and hauling up rotten logs and leaving all exposed to this hot August sun, when a clean vessel declared perfectly healthy is refused even permission to come up the river because about a month ago she anchored within a mile and a half of a healthy West India island and the Captain spent one day on shore? I could say more but this will do now; remainder after awhile.
 Yours,
 WATER STREET.
Complicated Diseases.
 A prominent gentleman in Cerro Gordo County, Iowa, writes us that he finds Kidney-Wort to be the best remedy he ever knew for a complication of diseases. It is the specific action which it has on the liver, kidneys and bowels, which gives it such curative power, and it is the thousand of cures which it is performing which gives it its great celebrity. Liquid (very concentrated) or dry, both act efficiently.—N. H. *Journal and Courier.*

STATE PHARMACEUTICAL ASSOCIATION
 The Session at Newbern—A summary of Proceeds—Election of Officers, Etc.—The New Law Proving Highly Beneficial
 MOREHEAD CITY, August 11, 1881.
 The second annual meeting of the North Carolina Pharmaceutical Association, at Newbern, ended yesterday. The attendance was very good, about one hundred, including 41 newly-elected members.
 Dr. Wolfe, of Baltimore, presented his credentials as a delegate from the Maryland College of Pharmacy. These were received and he was accorded the privileges of the floor.
 Mr. E. V. Zoeller, of Tarboro, was requested to aid the secretary in his duties. The medical profession were invited to attend the various sessions of the meeting. The reports of the elective officers and the various committees were read, with the exception of the committee on education, which was continued another year. These reports showed the association to be in a flourishing condition.
 The board of pharmacy showed in their report that the pharmacy law, which recently passed the Legislature through the influence of this society, was well received by the druggists throughout the State, and in good faith, so that there can be no doubt but that its beneficial effects will soon be felt by the public, in the systematic and restricted sale of poisons and strict accountability for the purity of all medicinal preparations sold, and in the regulation requiring competent parties to dispense the prescriptions of physicians.
 A number of papers on professional topics were read, and elicited considerable interest and discussion.
 A telegram of congratulation was received from the Wisconsin Pharmaceutical Association, which is in session.
 Prof. P. W. Bedford, of New York, was unanimously elected an honorary member.
 Dr. Wolfe, of Baltimore, made some excellent remarks, and congratulated the association upon the work it had accomplished in so short a time, and upon its auspicious future.
 The following officers were elected for the ensuing year:
 President, S. J. Hindsdale, of Fayetteville; vice presidents, Wm. Simpson, of Raleigh, E. H. Meadows, of Newbern, and V. O. Thompson, of Winston; secretary, T. C. Smith, of Charlotte; treasurer, John S. Pescud, of Raleigh.
 Committees were appointed and elected as follows:
 Executive Committee—A. S. Lee, of Raleigh, J. H. Hill, of Goldsboro; S. E. Smith, of Winston; F. H. Hancock, of Newbern; J. C. Munds, of Wilmington; G. A. Thomas, of Warrenton; T. C. Smith, of Charlotte.
 Business Committee—W. C. Porter, of Greensboro; C. K. Gallagher, of Washington; S. Borden Mace, of Beaufort.
 Committee on Papers and Queries—E. H. Meadows, of Newbern; J. C. Munds, of Wilmington; E. V. Zoeller, of Tarboro.
 Delegates to the 29th annual meeting of the American Pharmaceutical Association at Kansas City, Mo., were chosen as follows: S. H. Smith, of Winston; W. C. Porter, of Greensboro; E. H. Meadows, of Newbern; T. D. Crawford, of Oxford; H. R. Horne, of Fayetteville.
 The members-elect, from whom the Governor is to appoint one to fill the vacancy in the board of pharmacy, when one shall occur, after June next, are: A. E. Lee, of Raleigh; John Tull, of Morganton; J. H. Hill, of Goldsboro; A. W. Rowland, of Wilson; L. R. Wriston, of Charlotte.
 Mr. S. H. Smith, of Winston, was appointed as local secretary.
 The association adjourned on the 10th inst., at 2 p. m., to meet again in Winston on the 2d Wednesday in August, 1882.
 An excursion having been tendered the association by the Newbern druggists to this place, the association has availed itself thereof and is now enjoying the ocean breezes.
 An extensive exhibit of articles appertaining to the profession was tastefully displayed at Newbern, in a large hall secured for the purpose.
 The occasion was a profitable one to the profession, and all the delegates found good and pleasure in it. The many courtesies shown are not the least pleasing features, for Newbern's hospitality has been definitely ascertained.

 Dear Sir—Goods amounting to forty-eight dollars and seventy-five cents (\$48.75) received by Express as per terms C. O. D.
 The Suit and Furnishings are entirely satisfactory, giving more real pleasure in the way of quality and fit than any garments previously worn. I will take pleasure in recommending you to my country friends, believing you competent to do better for them than were they to buy in person.
 I shall in future give you my orders in preference to selecting goods myself, your dealings in this case having inspired me with the utmost confidence in your ability and willingness to do the right thing.
 Very respectfully, yours, &c.,
 A. B. REID,
 Manufacturer of Naval Stores,

MRS. JOE PERSON'S
 REMEDY FOR
SCROFULA
 NEVER FAILS.
 It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's Remedy. I had suffered from this disease for more than three years, and had despaired of ever getting well. I consulted several physicians, without any good result. I then went to the National Surgical Institute, Philadelphia, Pa., and was treated there for three months, with no better result than my family physicians met with. I was recommended to try Mrs. Person's remedy, and I used it more than a week before I began to feel cured, and my skin began to heal, and the scrofula was cured as fast as the scrofula. I had not thought of ever getting well, but my hopes increased, my low spirits were relieved, and I was again enjoying splendid health and am in a position to recommend this remedy to all who are suffering from Scrofula. It is a safe and reliable cure, and it is my opinion that it should be used in all cases of Scrofula. It should be used regularly until an effectual cure is effected. Nothing should prevent regular use of the remedy and it should be continued until the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you and not from hearsay. I am a grateful and true testimonial of the use of it and I would have been glad to have my name put in its place for the great relief I have obtained from its use. Sufferers, try it and be cured. I am, respectfully,
 JAMES A. MORRIS,
 send stamp for testimonial of remarkable cures.
 Prepared by Mrs. Joe Person, Franklin's N. C. Sold by WM. H. GREEN, WILMINGTON, N. C.
